SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, JANUARY 3, 1908

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 31st DECEMBER 1907.

[Seventeen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 7½ seers. Gram, 10¾ seers. Bajra, 9½ seers. Bejhar, 11 seers.	Prospects of irrigated crops fairly good. Unirrigated crops sown on riverain land in tahsils Fatahabad and Sirsa withering for want of rain.	...
2	Rohtak ...	...	1. Sufficient, but getting dearer. 3. Good.	Wheat, 8 seers ... Gram, 11 seers. Jowar, 11 seers. Maize, 12 seers.	Sowings in progress on irrigated lands. Prospects of standing irrigated crops good.	Sugarcane-pressings continue. Sugarcane crop much damaged by recent frost.
3	Gurgaon ...	...	1. Sufficient for present needs except in tahsils Palwal and Firozpur where scarcity has begun. 3. Fair.	Wheat, 7¾ to 9 seers. Barley, 10 to 11 seers. Gram, 10 to 10½ seers. Bajra, 8¾ to 10 seers. Maize, 10 seers.	Late sowings of wheat and barley in progress. Condition of crops on irrigated area good; on unirrigated bad.	...
4	Delhi ...	...	1. Scarce ... 2. Canal water-supply insufficient. 3. Good.	Wheat, 7½ seers... Barley, 10 seers. Gram, 9½ seers. Bajra, 9 seers. Jowar, 10½ seers. Maize, 11 seers.	Sowings finished. Condition of standing crops average	Outturn of cotton, sugarcane, vegetable and fruits on irrigated land below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Scarce in parts and is imported from Karnál and Patiála State. 2. Scarce in parts. 3. Good.	Wheat, 7½ to 8¼ seers. Gram, 10¾ to 11 seers. Barley, 11 seers. Maize, 10 seers. Jowar, 11 seers. Bajra, 10 seers.	Sowings continue on well irrigated lands. Crops on unirrigated areas injured by rats in tahsil Ambála, and by white ants and rats in tahsil Naráingarh.	...
6	Jullundur ...	...	1. Decreasing ... 3. Suffering from over-work.	Wheat, Maize, Gram, } 11 seers	Sowings on irrigated areas continue	Cotton picking and sugarcane pressings continue
7	Ferozepore ...	...	1. Sufficient, but green fodder not available. 3. Good.	Wheat, 8 seers ... Barley, 13 seers. Gram, 11 seers. Jowar, 9 seers. Maize, 11 seers. Bajra, 9 seers.	Sowings finished. Standing crops in good condition.	...
8	Lahore ..	...	1. Scarce in tahsil Sharakpur and in Hithar Circle of tahsils Kasúr and Lahore. 3. Suffering from over-work and cold.	Wheat, 7½ seers .. Gram, 11 seers. Maize, 10 seers.	Harvesting of toria (*brassica campestris*) going on. Outturn average. Sowings of wheat and barley on irrigated land continue. Condition of standing crops on irrigated land average. Rats and grass-hoppers have done some damage to standing crops in some places. Opium crop average.	Sugarcane pressings going on. Outturn below average.
9	Amritsar ...	...	1. Green fodder scarce, dry sufficient, except in tahsil Ajnála. 3. Good.	Wheat, 8¾ seers... Gram, 11 seers. Barley, 12 seers. Jowar, 10½ seers. Maize, 10½ seers. Bajra, 9¾ seers.	Reaping of toria (*brassica campestris*) and sowing of wheat and barley in progress. Condition of crops on irrigated area average; on unirrigated bad. Condition of poppy crop average on irrigated land.	Sugarcane pressings continue.
10	Siálkot ...	...	1. Insufficient. Green fodder not procurable. Sugarcane used as fodder. 3. Getting meagre by overwork and want of fodder.	Wheat, 7½ seers Barley, 13 seers. Gram, 11 seers. Rice, 6 seers.	Sowings of wheat and barley continue. Condition of standing crops average on irrigated and bad on unirrigated areas.	Sugarcane pressings continue. Picking of cotton nearly finished. Yield average on irrigated and poor on unirrigated lands. Sugarcane crop damaged to some extent by frost.
11	Gujránwála ...	...	1. Scarce ... 3. Poor.	Wheat, 8 to 9 seers. Gram, 11 to 12 seers. Maize, 10 to 11 seers. Bajra, 10 to 12 seers.	Sowings of wheat and barley on well and riverain land continue. Standing crops on irrigated land average; on unirrigated poor. Rats damaging young wheat crop.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Shahpur ...	...	1. Scarce. 3. Fair to poor.	Wheat, 8 to 9 seers. Barley, 14 seers. Gram, 11¾ to 12 seers. Bajra, 11 seers. Jowar, 11 to 12 seers. Maize, 11½ to 12 seers.	Sowings continue on well land. Condition of standing crops on unirrigated area bad; on irrigated fair. Toria (*brassica campestris*) damaged by tela (green fly) in tahsil Sargodha.	...
13	Ráwalpindi ...	...	1. Sufficient, except in Gujar Khan and Kahúta tahsils. 3. Fair.	Wheat, 8¼ seers. Barley, 12¼ seers. Bajra, 10¼ seers. Gram, 10¼ seers. Maize, 11 seers.	Condition of standing crops average on irrigated and bad on unirrigated lands.	...
14	Miánwáli ...	...	1. Procurable ... 3. Fair.	Wheat, 9 seers ... Gram, 12 seers. Bajra, 11 seers. Barley, 14 seers.	Sowings continue Condition of standing crops on irrigated lands average; on unirrigated poor.	...
15	Lyallpur ...	...	1. Green fodder insufficient. 3. Good.	Wheat, 8⅞ seers. Jowar, 10¼ seers. Maize, 11 seers. Gram, 12 seers.	Sowings continue. Standing crops average except in tahsil Samundri where their condition is not good for want of canal water. White ants have damaged wheat crop in parts of the district.	Outturn of cotton, sugarcane and great millet average.
16	Jhang ..	...	1. Insufficient ... 3. Fair.	Wheat, 8 seers ... Bajra, Jowar, Maize, } 12 seers. Gram, 11 seers.	Sowings nearly completed.	...
17	Multán ...	...	1. Scarce ... 3. Fair.	Wheat, 9½ seers... Gram, 12 seers. Maize, 11¾ seers.	Sowings continue. Condition of standing crops average both on irrigated and unirrigated areas.	Cotton below average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—Prices of food-grains are generally above scarcity rates except in Multán where prices are between scarcity and warning rates. Prices are still rising in many districts.

Agricultural operations.—Sugarcane pressing and harvesting of toria (*brassica campestris*) in progress. Wheat and barley sowings continue on irrigated areas except in Delhi.

Crops and outturn.—Prospects and condition of irrigated crops good to average, and of unirrigated bad. Opium crop below average in Lahore and Amritsar. Outturn of autumn crops and of toria (*brassica campestris*) average to below average. Unirrigated crops in Hissar withering for want of rain.

Damage done to crops.—Sugarcane crop damaged by frost in Rohtak and Siálkot. Rats are damaging young crops in Ambála, Lahore and Gujránwála, and grass-hoppers in Lahore. Young wheat injured by white ants in parts of Ambála and Lyallpur. Damage to toria (*brassica campestris*) by green fly reported from Shahpur.

Agricultural stock.—Cattle suffering from overwork, cold and scarcity of fodder in Jullundur, Lahore and Siálkot. Cattle in fair to poor condition in Shahpur.

Pasturage.—Fodder scarce in Delhi, Siálkot, Gujránwála, Shahpur, Jhang, Multán, and in parts of Gurgaon, Ambála, Lahore, Amritsar and Ráwalpindi. Green fodder not available in Ferozepore, Amritsar, Siálkot and Lyallpur. Fodder supply decreasing in Jullundur and Rohtak.

Water-supply.—Insufficient in Delhi and Ambála.

TULSI DAS,

for *Director of Agriculture, Punjab.*

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING OCTOBER 1907.

STATION.	PRESSURE.		WIND.		TEMPERATURE IN SHADE.						Humidity at 8 h.	Vapour tension at 8 h.	Amount of cloud, 10 = overcast.

(a) Mean of 15 days.

Dry weather and clear skies prevailed up to the 12th, except that a slight disturbance in Kashmír gave cloud there on the 7th and 8th, and light rain at Drás. On the 12th a depression of the cold weather type began to show itself in Kashmír, and skies were heavily clouded in that region on the following morning, while light to moderate cloud was reported from the greater part of the Punjab. The disturbance caused rain and snow in Kashmír and the Punjab Himaláyás, and a few drops of rain also fell in parts of the Punjab plains : in the Punjab hills the rain was accompanied by thunderstorms with hail. The snow in Kashmír, while not unusual at this time of year, very seldom occurs at such low elevations. The depression had disappeared by the 17th, and skies were again clear in the Punjab. A well-marked cold weather depression entered Upper India, probably from Afghánistán, on the 19th, and was the cause of heavy cloud in Kashmír, light cloud in the Punjab and light precipitation at Cherat and in Kashmír; it disappeared by the 24th. Another depression entered Kashmír on the 29th and produced light cloud in parts of the Punjab on the 31st.

Pressure and winds.—Pressure was in defect over the Punjab, the North-West Frontier Province and parts of Kashmír, Leh being the only station that showed an excess on the average of the month. The deficiency of pressure was much greater on the plains than at the hill stations. The winds were slightly above their usual strength, and their directions did not differ much from the normal direction.

Temperature.—Temperature was in excess throughout the month except from the 22nd to the 27th, when a cold wave, which followed in the rear of a depression, caused a considerable fall and temperature was in moderate defect on the 23rd and 24th. The hottest weather of the month occurred about the 7th or 8th, when temperature was on the average over 4° higher than usual.

The following table shows the departures from the normal of the mean temperature of the Punjab, and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24th.	Highest maximum temperature recorded during the previous 24th.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24th.	Highest maximum temperature recorded during the previous 24th.	Station at which registered.

Humidity and cloud.—The air contained from 31 per cent. to 55 per cent. of the moisture required for saturation in the Punjab and the North-West Frontier Province, but in Kashmír the humidity averaged nearly 70 per cent. of the saturation value. Skies also were lightly clouded in Kashmír, while elsewhere they were almost clear.

Rainfall.—The month was rainless over the greater part of the Punjab, but the depression of the 19th to the 24th gave thunderstorms with hail in the Punjab hills and a light fall of rain at Lahore. In Kashmír the precipitation was about the average.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for October 1907 :—

Station.	Actual rainfall in October 1907.	Normal average rainfall in October	Difference from the average in October 1907.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 31st December 1907.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

• DURING the week ending 21st December 1907 there were 1,359 births registered in the 41 large municipal towns (698 males and 661 females), giving a birth rate of 50 *per mille* of population, and 1,506 deaths were registered (773 males and 733 females), giving a death rate of 55 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 66 against 53 in the corresponding week of the previous year; Lahore 43 against 44; Amritsar 62 against 44; and Multán 57 against 81. There were 22 deaths reported from plague in Palwal, 3 in Sirsa, 2 in Ambála, and 1 in Shababad. Of the 72 deaths from small-pox, 24 were registered in Amritsar, 17 in Batála, 10 in Kartárpur, 7 in Kasúr, 3 in Jalálpur, 2 each in Jagraon, Lahore and Wazírabad, and 1 each in Bhiwáni, Siálkot, Gujrát, Pind Dádan Khan and Multán.

Deaths reported from plague during the week ending 28th December 1907, in the districts including all municipal towns:—Hissar 2, Rohtak 15, Gurgaon 51, Delhi 4, Karnál 35, Ambála 10, Hoshiárpur 9, Ludhiana 8, Ferozepore 12, Montgomery 3, Amritsar 1, Gurdáspur 3, Jhelum 32, Ráwalpindi 14, Jhang 2 and Lyallpur 4; Patiála State 14, Maler Kotla State 2, Jínd State 4, and Baháwalpur State 1. Total for the province 251. Total for the previous week 291. Total for the corresponding week of the previous year 2,624.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, JANUARY 10, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 7th JANUARY 1908.

[Seventeen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 7 seers ... Gram, 10 seers. Bajra, 7½ seers. Bejhar, 10½ seers.	Irrigated crops in fair condition Unirrigated crops wherever sown are withering for want of rain.	...
2	Rohtak ...	...	1. Sufficient, but getting dearer. 3. Good.	Wheat, 7½ seers... Gram, 9½ seers. Jowar, 9½ seers. Maize, 9½ seers.	Sowings continue in tahsil Gohána. Prospects of irrigated crops good.	Sugarcane pressing in progress. Outturn below average.
3	Gurgaon ...	...	1. Sufficient for present need except in tahsils Palwal and Firozpur where scarcity has begun.	Wheat, 7 to 8¼ seers. Barley, 9¼ to 10½ seers. Gram, 9½ to 10 seers. Bajra, 8 to 9¼ seers. Maize, 9 to 10 seers.	Sowings continue in tahsil Nuh. Irrigated crops good; unirrigated bad. Yield on irrigated area is expected to be average, while that on unirrigated poor.	...
4	Delhi ...	...	1. Scarce ... 2. Canal water-supply insufficient.	Wheat, 7¼ seers... Barley, 9½ seers. Gram, 9 seers. Jowar, 9 seers. Bajra, 8 seers. Maize, 9½ seers.	Sowings completed in tahsils Delhi and Sonepat. Condition of standing crops average	Yield of cotton, sugarcane, vegetables and fruits average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Scarce ... 3. Generally good.	Wheat, 7 to 7½ seers. Gram, 9¼ to 9¾ seers. Barley, 9¾ seers. Maize, 9¼ seers. Jowar, 9¾ seers. Bajra, 9¼ seers.	Sowings of wheat in progress on well irrigated lands in parts of tahsils Ambála and Rúpar. Condition of standing crops generally bad for want of rain.	...
6	Jullundur ...	...	1. Supply decreasing. 3. Suffering from overwork.	Wheat, 8 seers ... Maize, 9¾ seers. Gram, 10 seers.	Sowings on irrigated areas in progress. Irrigated crops fair; unirrigated bad.	Sugarcane pressings continue. Sugarcane attacked by *gadhi* (moth-borer) and *tela* (green-fly).
7	Ferozepore ...	...	1. Sufficient. Green fodder not available. 3. Good.	Wheat, 7½ seers... Barley, 13 seers. Gram, 10 seers. Jowar, 9 seers. Bajra, 8 seers. Maize, 10 seers.	Germination of crops good.	...
8	Lahore ...	...	1. Scarce except in tahsil Chúnián 3. Suffering from overwork and cold.	Wheat, 7½ seers .. Gram, 11 seers. Maize, 10½ seers.	Wheat and barley sowings on irrigated lands continue. Harvesting of toria (*brassica campestris*) in progress. Outturn average. Condition of standing crops on irrigated area average. Rats have done some damage to young crops in tahsil Chúnián. Opium crop average.	Sugarcane pressing in progress. Outturn below average.
9	Amritsar ...	...	1. Dry sufficient, except in tahsil Ajnála. Green fodder scarce. 3. Generally good.	Wheat, 8 seers ... Gram, 10¼ seers. Barley, 11½ seers. Jowar, 10 seers. Maize, 10 seers. Bajra, 8½ seers.	Harvesting of toria (*brassica campestris*) in progress. Condition of crops on irrigated areas average; on unirrigated bad. Condition of poppy crop on irrigated area average.	Sugarcane pressings continue.
10	Siálkot ...	...	1. Insufficient. Green fodder not procurable. Sugarcane used as fodder. 3. Weak from overwork and want of fodder.	Wheat, 7½ seers Barley, 13 seers. Gram, 10½ seers. Rice, 6 seers.	Sowings of wheat and barley continue on irrigated land and to some extent on unirrigated areas. Condition of crops average on irrigated and bad on unirrigated lands.	Sugarcane pressings continue. Yield average on irrigated and poor on unirrigated areas. Frost damaged sugarcane crop to some extent.
11	Gujránwála ...	...	1. Scarce ... 3. Cattle impoverished.	Wheat, 7¾ to 8 seers. Gram, 10 seers. Maize, 10 seers. Bajra, 9½ seers.	Irrigated crops average; unirrigated poor. Rats damaging young wheat crop.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
12	Shahpur ...	...	1. Scarce except in tahsils Shahpur and Sargodha. 3. Poor except in tahsils Shahpur and Sargodha.	Wheat, 8 to 9 seers. Barley, 13 to 14 seers. Gram, 10½ to 12 seers. Bajra, 9½ to 10¼ seers. Jowar, 11 to 12 seers. Maize, 10 to 12 seers.	Sowings of wheat and barley continue in tahsil Shahpur. Standing crops good to fair on irrigated and poor on unirrigated tracts. *Tela* (green fly) has damaged toria (*brassica campestris*) in tahsil Sargodha.	Sugarcane pressings continue in tahsils Bhera and Sargodha. Outturn average.
13	Ráwalpindi ...	...	1. Scarce in tahsils Kahúta and Gujar Khan. 2. Ditto. 3. Fair.	Wheat, 8¼ seers. Barley, 11½ seers. Bajra, 9¼ seers. Gram, 10 seers. Maize, 10½ seers.	Condition of standing crops average on irrigated and bad on unirrigated lands.	...
14	Miánwáli ...	...	1. Becoming scarce... 3. Average.	Wheat, 9 seers ... Gram, 12 seers. Bajra, 11 seers. Barley, 13 seers.	Sowings generally finished. Condition of standing irrigated crops average; unirrigated bad.	...
15	Lyallpur ...	...	1. Insufficient ... 2. Complaints of canal water-supply are general.	Wheat, 8 seers ... Jowar, 10 seers. Gram, 10½ seers. Maize, 11 seers.	Sowings continue but are short owing to deficiency of water. Standing crops in average condition. Outturn of toria (*brassica campestris*) average in tahsil Samundri. Gram damaged by rats, wheat by white-ants and toria by green fly.	...
16	Jhang ...	...	1. Insufficient ... 3. Fair.	Rising ...	Sowings finished. Condition of irrigated crops average and of unirrigated below average. Turnips being damaged by insects.	...
17	Multán ...	...	1. Scarce ... 3. Fair.	Wheat, 9 seers ... Gram, 11¼ seers. Maize, 11¼ seers.	Sowings in progress. Condition of standing crops average.	...

GENERAL REMARKS.

Rainfall.—Nil.

Prices.—Prices of food-grains are above scarcity rates in all districts except Multán. Prices are still rising in many districts.

Agricultural operations.—Pressing of sugarcane and harvesting of toria (*brassica campestris*) in progress. Sowings of spring crops generally finished in Miánwáli and Jhang, but still continue on irrigated areas in other districts.

Crops and outturn.—Condition of irrigated spring crops good to average, and of unirrigated bad. Unirrigated crops are withering in Hissar for want of rain. Opium crop average in Lahore and Amritsar. Outturn of toria (*brassica campestris*) generally average and of sugarcane below average.

Damage done to crops.—Sugarcane damaged by frost in Siálkot and by moth-borer and green fly in Jullundur and toria (*brassica campestris*) by green fly in Shahpur and Lyallpur. Wheat being damaged by rats in Lahore and Gujránwála and by white-ants in Lyallpur. Rats are causing injury to gram in Lyallpur and insects to turnips in Jhang.

Agricultural stock.—Cattle suffering from overwork, cold and scarcity of fodder in Jullundur, Lahore and Siálkot. Cattle in fair to poor condition in Shahpur.

Pasturage.—Fodder scarce in Delhi, Ambála, Siálkot, Gujránwála, Miánwáli, Jhang, Lyallpur, Multán, and in parts of Gurgaon, Lahere, Amritsar, Shahpur and Ráwalpindi. Green fodder not available in Ferozepore, Amritsar and Siálkot. Fodder supply decreasing in Jullundur. Fodder sufficient but getting dearer in Rohtak.

Water-supply.—Canal water-supply insufficient in Delhi and Lyallpur. Supply of water also scarce in parts of Ráwalpindi.

WILLIAM H. MILLS, OFFG. SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

EIGHTY-TWO THOUSAND SEVEN HUNDRED AND EIGHTY-NINE births were registered in the province during the month of November 1907, giving a birth-rate of 50 *per mille* of population. Of the total number of births, 43,226 were boys and 39,563 were girls.

The total number of deaths registered from all causes in the province during the month of November 1907 was 65,029 against 60,828 in the previous month, and 93,501 in the corresponding month of the past year, giving an annual death-rate of 39, 36 and 57 *per mille* of population per annum, respectively.

There were 79 deaths registered under the head of cholera against 58 in the previous month, and 17 in the corresponding month of the past year.

The total mortality from plague amounted to 1,245 against 1,201 in the previous month and 4,915 in the corresponding month of the past year.

From small-pox 617 deaths were registered against 328 in the previous month and 624 in the corresponding month of the past year; fevers 41,759 against 38,570 and 64,315; dysentery and diarrhœa 1,515 against 1,764 and 2,243; respiratory diseases 6,026 against 5,191 and 6,149. During the month there were 24 deaths registered from suicide against 29 in the past month; wounding 33 against 44; accidents 299 against 287; snake-bite and killed by wild beasts 51 against 117; and from all other causes 13,381 against 13,239 in the previous month and 14,912 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 7th January 1908.

WILLIAM H. MILLS, OFFG. SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 28th December 1907 there were 1,252 births registered in the 43 large municipal towns (622 males and 630 females), giving a birth rate of 45 *per mille* of population, and 1,522 deaths were registered (780 males and 742 females), giving a death rate of 55 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 62 against 50 in the corresponding week of the previous year; Lahore 51 against 49; Amritsar 71 against 45; and Multán 32 against 75. There were 19 deaths reported from plague in Palwal and 3 in Sirsa. Of the 113 deaths from small-pox, 38 were registered in Amritsar, 21 in Lahore, 13 in Ferozepore, 11 in Kartárpur, 9 in Batála, 5 in Jalálpur, 4 each in Jullundur and Wazírabad, and 1 each in Hoshiárpur, Ludhiána, Jagraon, Kasúr, Siálkot, Gujránwála, Ráwalpindi and Lyallpur.

Deaths reported from plague during the week ending 4th January 1908, *in the districts including all municipal towns*:—Hissar 14, Rohtak 41, Gurgaon 32, Karnál 14, Ambála 4, Hoshiárpur 9, Ludhiána 8, Ferozepore 9, Montgomery 12, Lahore 1, Amritsar 1, Siálkot 1, Jhelum 22, and Lyallpur 9; Patiála State 32 and Máler Kotla State 2. Total for the province 211. Total for the previous week 251. Total for the corresponding week of the previous year 2,886.

WILLIAM H. MILLS, OFFG. SUPDT.,

for *Sanitary Commissioner, Punjab.*

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, JANUARY 17, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 14th JANUARY 1908.

[Seventeen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·86 at Sadr ... 0·83 at Fatahabad. 0·56 at Sirsa. 1·17 at Hánsi. 1·30 at Bhiwáni. 1·65 at Budhláda. 1·41 at Tohána.	1. Sufficient in parts. 3. Good.	Wheat, 8 seers ... Gram, 10½ seers. Bajra, 9 seers. Bejhar, 11 seers.	Crops greatly benefited by recent rain.	...
2	Rohtak ...	0·49 at Sadr ... 1·24 at Sámpla. 1·25 at Gohána. 0·70 at Salhwas. 0·70 at Jhajjar.	1. Sufficient, but getting dearer. 3. Good.	Wheat, 8 seers ... Gram, 10 seers. Jowar, 10 seers. Maize, 10 seers.	Recent rain benefited the standing crops.	Sugarcane pressings continue.
3	Gurgaon ...	1·38 throughout the district.	1. Scarce in tahsils Firozpur and Palwal.	Wheat, 7½ to 8¾ seers. Barley, 10 to 11¼ seers. Gram, 9½ to 10½ seers. Bajra, 9 to 10 seers. Maize, 9½ to 10 seers.	Recent rain benefited the standing crops, especially where water is brackish. Sowings of tara mira (*Raphanus raphanistrum*) commenced in parts and of wheat, barley and gram continue in tahsil Firozpur. Standing crops on irrigated area in good condition, while those on unirrigated expected to be fair. Probable outturn of irrigated crops expected to be average and of unirrigated below average.	...
4	Delhi ...	1·53 at Sadr ... 1·56 at Balabgarh. 1·05 at Mahrauli. 1·77 at Sonepat.	1. Scarce ... 3. Canal supply insufficient.	Wheat, 7¾ seers ... Gram, 9½ seers. Barley, 10 seers. Jowar, 9½ seers. Bajra, 8½ seers.	Sowings on irrigated lands finished. Prospects of standing crops much improved by recent rain.	Yield of sugarcane and cotton average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	PROSPECTS OF Spring.	PROSPECTS OF Autumn.
5	Ambála ...	0·68 at Sadr ... 0·28 at Jagádhri. 0·53 at Naráingarh 0·68 at Kharar. 0·43 at Rupar. 0·58 at Kasauli.	1. Getting scarce ... 3. Fair.	Wheat, 7¼ to 7¾ seers. Gram, 9½ to 10 seers. Barley, 10 seers. Maize, 9½ seers. Jowar, 10 seers. Bajra, 9½ seers.	Crops much benefited by recent rain. Barley, &c., will now be sown in some places.	Frost has damaged st[illegible] ing sugarcane crop [illegible] some places.
6	Jullundur ...	1·0 at Sadr. More in other tahsils.	1. Sufficient ... 3. Good.	Wheat, 8½ seers Maize, 11 seers. Gram, 10½ seers. Jowar, 12½ seers.	Irrigated crops fair; unirrigated bad.	Sugarcane pressing co[illegible] tinued. Sugarcane [illegible] tacked by *gadhi* (m[illegible] borer) and *tela* (gr[illegible] fly).
7	Ferozepore ...	1·75 throughout the district, but not sufficient.	1. Sufficient. Green not available. 3. Good.	Wheat, 8½ seers Barley, 14 seers. Gram, 11 seers. Jowar, 0 seers. Bajra, 8 seers. Maize, 10 seers.	Growth of crops good.	...
8	Lahore ...	1·65 at Sadr ... 0·52 at Chúnián. 1·10 at Kasúr. 1·42 at Shurakpur.	1. Scarce except in Chúnián. 3. Suffering from cold and overwork, but recent rains are expected to improve their condition.	Wheat, 8 seers ... Gram, 11 seers. Maize, 11 seers.	Barley being sown in some places. Harvesting of toria (*Brassica campestris*) continued. Out-turn average. Condition of standing crops good. Rats damaged young crops in parts of tahsil Chúnián. Opium crop average.	Sugarcane pressings [illegible] progress. Out tur[illegible] below average.
9	Amritsar ...	0·75 at Sadr ... More in other parts.	1. Dry sufficient. Green scarce. 3. Good.	Wheat, 8½ seers Gram, 11½ seers. Barley, 11 seers. Jowar, 10 seers. Maize, 10¼ seers. Bajra, 8½ seers.	Harvesting of toria (*Brassica campestris*) continued. Barley being sown. Condition of standing crops on irrigated areas average and an improvement expected on unirrigated Poppy crop on irrigated area average.	Sugarcane pressings [illegible] progress.
10	Siálkot ...	1·18 at Sadr ... 0·69 at Zafarwál. 1·55 at Pasrúr. 2·22 at Raya. 2·90 at Daska.	1. Dry insufficient. Green not procurable. Sugarcane used as fodder. 3. Weak from overwork and want of fodder. Some cattle died in Raya from weakness and cold.	Wheat, 8 seers... Barley, 11½ seers. Gram, 10½ seers. Rice, 5 seers.	Sowings of wheat and barley continue. Condition of standing crops average. Recent rain has benefited the standing crops.	Sugarcane pressings c[illegible] tinue. Yield average [illegible] irrigated and poor on [illegible] irrigated land.
11	Gujránwála ...	Good rain fell throughout the district.	1. Scarce 3. Poor. ...	Wheat, 7½ to 8 seers. Gram, 10 to 11 seers. Maize, 9½ to 10 seers. Bajra, 9¼ to 10 seers.	Prospects of crops greatly improved by recent rain. Rats damaging young wheat.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Shahpur ...	0·83 at Sadr ... Heavier over other parts of the district.	1. Sufficient in Sargodha and Shahpur tahsils scarce elsewhere. 3. Good.	Wheat, 8 to 9 seers. Barley, 13 to 14 seers. Gram, 10¾ to 11 seers. Jowar, 11 to 12 seers. Bajra, 10 seers. Maize, 10 to 12 seers.	Condition of standing crops good in Sargodha tahsil, fair on irrigated and poor on unirrigated areas, but may improve.	...
13	Ráwalpindi ...	1·35 at Sadr ... 2·08 at Gujar Khan. 0·91 at Kahúta. Rainfall general and well distributed.	1. Scarce in Gujar Khan and Kahúta. 3. Fair.	Wheat, 9 seers. Barley, 12 seers. Bajra, 10½ seers. Gram, 10¾ seers. Maize, 11½ seers.	Condition of standing crops average on irrigated and bad on unirrigated lands.	...
14	Miánwáli ...	1·66 at Sadr ... 1·53 at Isa Khel. 1·53 at Bhakkar. 1·20 at Leiah.	1. Procurable. 3. Average.	Wheat, 8¾ seers. Barley, 13 seers. Gram, 11 seers. Bajra, 10 seers.	Recent rain benefited the standing crops. Condition of standing irrigated crops average; unirrigated poor.	...
15	Lyallpur ...	0·78 at Sadr ... 0·57 at Samundri. 0·16 in Toba Tek Singh.	1. Insufficient ... 2. Complaints of short water-supply are general.	Wheat, 8½ seers ... Gram, 10½ seers. Maize, 10½ seers. Jowar, 10½ seers.	Sowings finished. Standing crops slightly benefited by recent rain and are in average condition. Outturn of toria (*Bassica campestris*) average.	Outturn of sugarcane average.
16	Jhang ..	0·21 at Sadr ... 0·72 at Chiniot. 0·31 at Shorkot.	1. Insufficient ... 3. Fair.	Falling slightly ...	Crops benefited by recent rain. Condition of irrigated crops average and of unirrigated below average. Turnips being damaged by *tela* (green fly).	...
17	Multán ...	0·36 at Sadr ... 0·27 at Shujabad. 0·19 at Lodhrán. 0·53 at Kabírwála.	1. Scarce ... 3. Fair.	Wheat, 9 seers ... Gram, 11¾ seers. Maize, 11¾ seers.	Wheat sowings completed. Condition of standing crops average.	...

GENERAL REMARKS.

Rainfall.—Good to moderate rain has been received throughout the Province.

Prices.—Prices of food-grains are above scarcity rates except in Multán. Generally prices have fallen slightly in all districts except Miánwáli.

Agricultural operations.—Pressings of sugarcane and harvesting of toria (*Brassica campestris*) continue. Sowing of wheat nearly finished, but sowings of barley in progress after the recent rainfall. Sowings of tara mira (*Raphanus raphanistrum*) commenced in Gurgaon and of china (*Panicum miliaceum*), &c. in Ambála.

Crops and outturn.—Condition of irrigated spring crops good to average and of unirrigated bad, but greatly improved by the recent rain. Opium crop average in Lahore and Amritsar. Outturn of sugarcane below average in Lahore and average elsewhere and of toria (*Brassica campestris*) generally average.

Damage done to crops.—Sugarcane damaged by frost in parts of Ambála and by moth-borer and green fly in Jullundur and turnips damaged by green fly in Jhang. Wheat being injured by rats in Lahore and Gujránwála.

Agricultural stock.—Cattle suffering from overwork, cold and scarcity of fodder in Lahore and Siálkot, and in poor condition in Gujránwála.

Pasturage.—Fodder scarce in Delhi, Ambála, Siálkot, Gujránwála, Lyallpur, Jhang and Multán, and in parts of Hissar, Gurgaon, Lahore, Shahpur and Ráwalpindi. Green fodder not available in Ferozepore, Amritsar and Siálkot. Fodder sufficient but getting dearer in Rohtak.

Water-supply.—Canal water-supply insufficient in Delhi and Lyallpur.

slight rain.
raingauge station.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of December 1907.

1.—HISSAR DISTRICT.

There has been no rainfall during the month which was urgently needed. Unirrigated rabi crops and sailab or unirrigated area in the Fattehabad and Sirsa tahsils are withering for want of rain and Ghaggar floods. In other tracts rabi crops have not been sown for want of rain. Prospects of irrigated crops fairly good. Fodder sufficient. Cattle in good condition.

2.—ROHTAK DISTRICT.

Sowing of wheat and barley in nahri lands in progress. Standing crops fair. Rain badly wanted. Nothing can be said of the yield as yet. Cattle are generally in good condition. Canal supply was stopped during the greater part of the month.

3.—GURGAON DISTRICT.

No rain at all. Rabi sowings were completed. Irrigated crops were in good condition, but the unirrigated crops in a bad state. Outturn of irrigated crops is expected to be average, but that of unirrigated bad. Cattle in fair condition. Fodder sufficient for present needs except in parts where scarcity has begun. Canal water was in use during the month.

4.—DELHI DISTRICT.

Sowing of wheat, barley and sarshaf in progress on well and canal irrigated lands; unirrigated lands being sown to a very small extent only on sailab area. The condition of standing rabi crops average. The outturn of cotton, sugarcane, vegetables and fruits on canal and well irrigated areas average. Cattle in fair condition. Health of people good. Canal supply insufficient. Canal was closed during the greater part of the month. Fodder scarce

5.—KARNAL DISTRICT.

Sowings of wheat and barley on irrigated lands have been finished. Condition of vegetables and other crops on irrigated lands fair. Sugarcane is being cut. The expected yield of sugarcane, cotton and chillies, &c., is below average Condition of cattle is fairly good, but deficiency of fodder has begun to be felt. Public health is good. Inundation canals and nalas have dried up. The Sirhind canal was closed on account of clearings. There has been a shortage of canal water in the the Western Jamna Canal. Very high rates are ruling.

6.—AMBALA DISTRICT.

No rainfall. Wheat and oilseeds were sown during the month, total up to date about one-third of the normal. Crops on irrigated lands are fair, on unirrigated they have germinated fairly, but for want of rain there is very little improvement. They have not, however, yet dried up. Of the kharif crops only sugarcane remains in some places and is being pressed Condition of cattle fair up to this time, but scarcity of fodder is being felt in a few places. The health of the people is fair on the whole. Supply of canal water is not sufficient.

7.—SIMLA DISTRICT.

No rain. In the Simla tahsil wheat and barley were sown during the month to the extent of one-forth of the expected sowings. No sowings were made in Kot Khái during the month. Condition of crops bad in both tahsils for want of rain. The condition of cattle in both tahsils is good. Fodder and grazing insufficient in the Simla tahsil; in Kot Khái sufficient. Public health good in both tahsils. Water-supply from hill streams insufficient in the Simla tahsil, but one-third of the normal area was watered; water in the Kot Khái tahsil sufficient.

8.—KANGRA DISTRICT.

Some irrigated area has been sown with wheat and barley. Water was sufficient in the kuhls (water-streams) for irrigation purposes. The prices of food grains are rising.

9.—HOSHIARPUR DISTRICT.

No rain has fallen during the month. Wheat, barley, &c., were being sown on canal and well lands. The seed sown has germinated fairly and the crop is in average condition. Sugarcane pressing begun. Yield of sugarcane average owing to cold. The outturn on the whole is expected to be poor unless it rains. Cattle suffering from scarcity of fodder. The zamindars are beginning to feel the effects of the scarcity. Health of people generally good. Irrigation from Shah Nahr canal, hill torrents and wells continued. Shortage of water-supply reported from Una and Garhshanker. Prices of food grains have risen during the month.

10.—JULLUNDUR DISTRICT.

Rabi ploughings and sowings on irrigated areas continued. Chahi crops slightly below average, barani bad, sugarcane damaged by tela. Outturn below average. Cattle in good condition, but suffering from overwork. Public health good. Rain very badly wanted.

11.—LUDHIANA DISTRICT.

Those portions of the barani land which were not sown before in the expectation of rainfall, were irrigated from wells and canal where this was practicable and sown with wheat and barley during the month. The sowing on the irrigated area was completed. Owing to failure of rainfall and to frost the crops on unirrigated area are in danger; crops on irrigated area good with the exception of sugarcane which has deteriorated. The condition of cattle is good. Fodder sufficient. State of public health satisfactory. Irrigation from canals fairly satisfactory. Prices rose during the month.

12.—FEROZEPORE DISTRICT.

Sowings have been finished. Only a small area on well irrigated lands was sown with wheat during this month. Growth of rabi crops is good; yield depends on future rains. No estimate of outturn can be framed at present. Cattle in good condition. Public health good. Sirhind Canal had been flowing during the month and a normal area was irrigated from it. There were no floods in the river. Agriculturists generally well off, but the want of rain is keenly felt. Prices are rising very high. Stocks of food grains and fodder ample for the requirements of this district. Green fodder is not available.

13.—MONTGOMERY DISTRICT.

Rabi sowings carried on to a certain extent on well irrigated land. Cotton picking has been finished. The absence of rain has injured the unirrigated crops. Dry cold has also affected the chahi crops. If rain does not fall shortly, there is no hope of any outturn from unirrigated crops. Absence of rain will also affect the well irrigated areas. Fodder has become scarce and the cattle are becoming weak in consequence. Canals dry. Little water in the Sutlej. The Ravi is dry.

14.—LAHORE DISTRICT.

Wheat and barley were sown in wet lands during the month. Standing crops are below average. Rain badly wanted. Yield of toria crop is average. Condition of cattle is generally fair, but they are suffering from overwork, cold and want of sufficient fodder. The perennial canals ran by turn; there was no flood in the rivers. Prices of food grains are rising abnormally.

15.—AMRITSAR DISTRICT.

No rainfall during the month, and therefore no sowings on barani lands. There was sowing of wheat, barley, senji and poppy on irrigated area. Standing kharif crops of sugarcane, cotton and red pepper are average. Sugarcane slightly injured by frost. The rabi crops on irrigated areas average and on unirrigated poor. Late sown toria is below the average; that sown early is satisfactory. Yield of standing kharif crops expected to be average. No estimate can be framed as to standing rabi crops at this stage. Cattle in good condition though becoming lean for want of sufficient fodder. Public health generally good. Water supply from canal running short; hence less sowings than usual on nahri lands. No river floods. Prices rising daily.

16.—GURDASPUR DISTRICT.

Sowings completed. A large proportion of the barani land could not be sown. Irrigated crops in average and unirrigated in very poor condition. If the rains hold off in this way, there is no hope of any outturn from barani lands. The yield of irrigated crops will be up to average. Condition of cattle on the whole good, but the scarcity of fodder will be felt more day by day as stocks are running out. Public health good on the whole. No waterings were given from Government canals, which are flowing. Hill torrents and Andhor kuhls (water streams) dry. Rivers normal. Prices have risen very high. Famine rates are prevailing.

17.—SIALKOT DISTRICT.

Sowing of wheat and barley continued on irrigated lands and to some extent on barani lands. The condition of standing crops average on irrigated and bad on barani lands. Frost damaged the sugarcane crops. Pressing of sugarcane continued. Yield average on irrigated lands and poor on barani lands. The cattle getting feeble by overwork and scarcity of fodder. Public health generally good. Water sufficient in Bajwat canals according to the season. No inundation during the month.

18.—GUJRANWALA DISTRICT.

Sowings of wheat and barley on irrigated lands were completed. The condition of irrigated stan ding crops is about the average. There are practically no unirrigated crops. Sugarcane, cotton and toria have been damaged by rats and frost. The yield of rice has been below the average, that of cotton and sugarcane about the average. Much of the sugarcane has been used as fodder. Fodder scarce. The state of public health good. No complaint about the insufficiency of canal water supply. Prices are rising. Stocks of grain insufficient.

19.—GUJRAT DISTRICT.

Sowings of rabi crops finished. The absence of rain and severe frost have told severely on cotton and sugarcane crops. Spring crops have also suffered from the same causes and their condition varies from fair to bad. Sugarcane pressing in progress. Estima ted yield about average. Expected yield of spring crops uncertain. Cattle are suffering in consequence of overwork and insufficiency of fodder. Public health good. Prices rising.

20.—SHAHPUR DISTRICT.

Sowings of wheat, barley, oats and poppy continued during the month. Standing crops were generally poor over unirrigated areas owing to drought; fair on irrigated areas. Tela has damaged toria in the Sargodha tahsil, especially that of later sowings. Outturn of sugarcane was fair. Cattle in fair condition. Fodder very scarce in Khusháb tahsil, and people have migrated with their cattle to the Miánwáli district and to the Jhelum Canal Colony. Public health good. The Lower Jhelum Canal continued to run. Owing to scarcity of fodder people have commenced feeding their cattle on leaves of trees. Prices of food grains are rising.

21.—JHELUM DISTRICT.

No rainfall during the month and hence no further sowings. Condition of chahi crops fair, but barani withering for want of rain. Condition of cattle generally good. Prices of fodder and food grains are rising daily.

22.—RAWALPINDI DISTRICT.

There was no rainfall in this month; hence no sowings were made. Crops on irrigated lands are only of average condition, while the condition of crops on the barani lands is below the average and in some cases bad. In the Gujar Khán tahsil there is a scarcity of fodder and in the Kahúta tahsil both of fodder and water. No grazing available.

23.—ATTOCK DISTRICT.

No sowings were made during the month for want of rain. Condition of crops on unirrigated lands is not good. The expected yield is very little under the present circumstances. Condition of cattle fairly good. State of public health good. Water in the Harro has decreased, rain is badly wanted. Rates of food-grain and fodder are rising.

24.—MIANWALI DISTRICT.

Sowings of wheat and barley in progress during the month. Condition of standing irrigated crops average, unirrigated poor for want of rain. The expected outturn of irrigated crops average; unirrigated below average. Condition of cattle below average. Fodder becoming scarce for want of rain. No floods in the river. Kurram river in the Isa Khel tahsil irrigated the nahri lands. Prices rising.

25.—LYALLPUR DISTRICT.

Wheat and fodder sowings in progress. Canal was working by rotational closures. Some complaints of short supply even where branches were in flow. Late sown toria has been attacked by "tela." Early frosts somewhat damaged sugarcane. White ants damaging wheat through lack of water. Toria on the whole giving fair outturn. Outturn of cotton and sugarcane fair. Green fodder scarce. Other fodder sufficient. General complaints of short supply of canal water. Sown area restricted by short water supply in canal and rotational closure.

26.—JHANG DISTRICT.

No rain has fallen. Wheat sowings are over. Condition of crops is below average. Rain is badly wanted. Cotton gathering is over. Yield is good. Toria and rice plants were grown in small number, hence the outturn was small. Sugarcane is being pressed Fodder is scarce throughout the district. Canal closed for some days. Water insufficient. No floods. Water is also insufficient in the river. Prices and wages are rising. Famine generally complained of throughout the district.

27.—MULTAN DISTRICT.

Sowing of wheat, barley and methra continue. Condition of standing crops average. Condition of cattle good. Inundation and Sidhnai canals dry. Fodder scarce and famine prices prevailing.

28.—MUZAFFARGARH DISTRICT.

Sowing of rabi crops completed during the month. Condition of standing crops good in the Sinánwán tahsil and poor in the Alipur and Muzaffargarh tahsils. Condition of cattle on the whole fair. Condition of public health good. With the exception of Maggassan in Sinánwán tahsil, all the canals are dry. Fodder insufficient. Price of food-grains very high.

29.—DERA GHAZI KHAN DISTRICT.

Rabi sowing finished. Condition of crops at present fair, but future seems gloomy for want of rain. Produce of jowar, bajra and cotton turned out fair. Condition of cattle fair, but fodder is diminishing. Public health good. Export of grain is going on on large scale. The rates of food-grains have risen very high. Practically famine rates are prevailing.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

SUPPLEMENTARY STATEMENT ... PRICES OF SALT IN THE GUJRANWALA DISTRICT OF THE PUNJAB DURING THE FORTNIGHT ENDING 31ST DECEMBER 1907, RECEIVED TOO LATE FOR INSERTION IN THE SUPPLEMENT TO "PUNJAB GAZETTE," DATED 10TH JANUARY 1908.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 14th January 1908.

KANSHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 4th January 1908 there were 1,378 births registered in the 42 large municipal towns (708 males and 670 females), giving a birth rate of 50 *per mille* of population, and 1,581 deaths were registered (848 males and 733 females), giving a death rate of 57 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 63 against 48 in the corresponding week of the previous year; Lahore 58 against 46; Amritsar 69 against 43; and Multán 50 against 60. There were 10 deaths reported from plague in Palwal. Of the 126 deaths from small-pox, 36 were registered in Amritsar, 28 in Lahore, 14 in Batála, 11 in Ferozepore, 6 in Kartárpur, 5 in Jalálpur, 3 each in Kasúr, Siálkot and Ráwalpindi, 2 each in Bhiwáni, Tánda-Urmar, Jullundur, Jagraon, Gujránwála, Wazírabad and Multán, and 1 each in Jhajjar, Gujrát and Pind Dádan Khan.

Deaths reported from plague during the week ending 11th January 1908, *in the districts including all municipal towns*:—Hissar 14, Rohtak 32, Gurgaon 30, Karnál 25, Ambála 4, Hoshiárpur 9, Ludhiána 3, Ferozepore 3, Montgomery 6, Lahore 1, Amritsar 11, Siálkot 1, Jhelum 12, Ráwalpindi 7 and Lyallpur 15; Patiála State 19 and Jind State 5. Total for the province 197. Total for the previous week 235. Total for the corresponding week of the previous year 3,142.

KANSHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

LAHORE, FRIDAY, JANUARY 24, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 21ST JANUARY 1908.

[Seventeen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 7¼ seers ... Gram, 10½ seers. Bajra, 9 seers. Bejhar, 11 seers.	Prospects of irrigated crops good, and of unirrigated improved by recent rain.	...
2	Rohtak ...	...	1. Sufficient, but getting dearer. 3. Good.	Wheat, 8¼ seers... Gram, 10½ seers. Jowar, 10 seers. Maize, 10 seers.	Sowings of rapeseed (sarshaf) continue on irrigated land. Condition of standing irrigated crop much improved by recent rain.	Sugarcane pressings continue. Outturn below average.
3	Gurgaon ...	...	1. Scarce in Firozpur tahsil.	Wheat, 7½ to 8½ seers. Barley, 10 to 11 seers. Gram, 9½ to 11 seers. Bajra, 9 to 10 seers. Maize, 8½ to 10 seers.	Heavy dews have benefited the unirrigated crops. Some tara mira (*Eruca sativa*) sown on unirrigated area. Tobacco and onions being planted. Irrigated crops good; unirrigated fair. Probable outturn of irrigated crops expected to be good, and that of unirrigated below average.	...
4	Delhi ...	...	1. Scarce ... 3. Canal water-supply insufficient.	Wheat, 7¼ seers... Barley, 10 seers. Gram, 9½ seers. Jowar, 9½ seers. Bajra, 9 seers. Maize, 10 seers.	Dews have benefited standing crops which are in good condition.	Outturn of sugarcan average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	0·67 at Sadr ... 1·04 at Jagádhri. 2·36 at Naráingarh. 1·30 at Kharar. 1·65 at Rupar. Snowfall at Kasauli 4½ inches.	1. Getting scarce in tahsils Ambála and Jagádhri. 3. Fair.	Wheat, 7¾ to 8 seers. Gram, 10½ to 10¾ seers. Barley, 10 seers. Maize, 10½ seers. Jowar, 10 seers. Bajra, 10 seers.	Rain has greatly improved the standing crops. Sowings of spring crops continue. Condition of standing crops good.	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 8¼ seers. Maize, 11 seers. Gram, 10½ seers. Jowar, 10 seers. Gur, 6 seers.	Weeding of wheat commenced. Sowing of barley on unirrigated lands in progress. Standing well crops fair; unirrigated below average.	Sugarcane pressings continue.
7	Ferozepore ...	...	1. Sufficient. Green fodder not available. 3. Good.	Wheat, 8 seers ... Barley, 14 seers. Gram, 11 seers. Jowar, 0 seers. Bajra, 8 seers. Maize, 10 seers.	Barley sowings in progress in parts. Condition of standing crops good.	...
8	Lahore ..	0·05 at Kasúr. 0·71 at Sharakpur.	1. Dry sufficient. Green insufficient. 3. Fair.	Wheat, 7½ seers .. Gram, 11 seers. Maize, 10 seers.	Barley sownings continue. Condition of standing crops good. Rats have damaged standing spring crops in parts of tahsil Chúnián. Opium crop average.	Sugarcane pressings in progress.
9	Amritsar ...	...	1. Dry sufficient. Green fodder expected to become more plentiful. 3. Fair.	Wheat, 8¼ seers. Gram, 11¾ seers. Maize, 11 seers. Barley, 12 seers. Bajra, 9 seers. Jowar, 10 seers.	Harvesting of toria (*Brassica campestris*) in progress. Wheat and barley being sown. Condition of standing crops on irrigated area good, and on unirrigated improved by rain. Poppy crop on irrigated area good. Potato crop damaged by frost.	Sugarcane being pressed.
10	Siálkot ...	...	1. Dry insufficient. Green fodder not procurable. Sugarcane used as fodder. 3. Weak from overwork and want of fodder. Some cattle died of weakness and cold.	Wheat, 8 seers... Barley, 11 seers. Gram, 10 seers. Rice, 6 seers.	Sowings on unirrigated lands in progress. Condition of standing crops good.	Pressings of sugarcane continue. Yield average on irrigated and poor on unirrigated lands.
11	Gujránwála ...	...	1. Scarce ... 3. Cattle impoverished.	Wheat, 8 to 9 seers. Gram, 11 seers. Maize, 10 seers. Bajra, 10 seers.	Barley, &c., being sown on unirrigated lands owing to recent rains. Prospects of standing crops improving owing to increased moisture.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Shahpur ...	Slight rainfall at Bhera and Khushâb.	1. Scarce in tahsil Khushâb. 3. Fair.	Wheat, 8½ to 9½ seers. Barley, 13 to 14 seers. Gram, 10½ to 11½ seers. Jowar, 10 to 13 seers. Bajra, 10 to 11 seers. Maize, 10½ to 13 seers.	Sowings of wheat, barley and tara mira (*Eruca sativa*) in progress. Standing crops in good condition.	Pressings of sugarcane finished. Outturn average.
13	Râwalpindi ...	0·22 at Gujar Khan 0·59 at Kahûta. 0·31 at Murree.	1. Scarce in Kahûta and Gujar Khan. 3. Fair.	Wheat, 7½ seers. Barley, 11½ seers. Bajra, 10¾ seers. Gram, 10½ seers. Maize, 11 seers.	Condition of standing crops average. Sowings of spring crops in progress.	...
14	Miánwáli ...	0·07 at Bhakkar.	1. Scarce ... 3. Below average.	Wheat, 9¾ seers Barley, 12 seers. Gram, 12 seers. Bajra, 11½ seers.	Wheat being sown. Condition of standing irrigated crops fair; unirrigated average.	...
15	Lyallpur ...	...	1. Insufficient ... 2. Complaints of short water-supply continue.	Wheat, 7½ seers... Gram, 11 seers. Maize, 11 seers. Jowar, 11 seers.	Standing crops in average condition. Outturn of toria (*Brassica campestris*) average.	Sugarcane outturn average.
16	Jhang ...	...	1. Insufficient ... 3. Fair.	Wheat, 9 seers ... Bajra, } Gram, } 10 seers. Jowar, } Maize, } 11 seers.	Condition of irrigated crops average; unirrigated below average. Turnips being damaged by tela (green fly).	...
17	Multán ...	...	1. Scarce ... 3. Fair.	Wheat, 9 seers ... Gram, 11¾ seers. Maize, 11¾ seers.	Condition of standing crops average.	...

GENERAL REMARKS.

Rainfall.—Good rain has fallen in Ambála, and light to moderate rain in parts of Lahore, Shahpur, Ráwalpindi and Miánwáli.

Prices.—Prices of food-grains are falling slightly in 6 and are rising in 7 districts, but are still above scarcity rates, except in Multán.

Agricultural operations.—Pressings of sugarcane and harvesting of toria (*Brassica campestris*) continue. Owing to the recent rainfall sowings of barley and tara mira (*Eruca sativa*) are being made on unirrigated land in northern, central and sub-montane districts. Wheat is also being sown in a few districts.

Crops and outturn.—Condition of irrigated crops generally good to fair, and of unirrigated average to poor, but the latter have greatly improved in consequence of the recent rainfall. Opium crop average in Lahore and Amritsar. Outturn of sugarcane average to below average.

Damage done to crops.—Young spring crops slightly damaged by rats in parts of Lahore, and turnips by green fly in Jhang. Potato crop injured by frost in Amritsar.

Agricultural stock.—Cattle poor in Gujránwála, and suffering from overwork and scarcity of fodder in Siálkot.

Pasturage.—Fodder scarce in Delhi, Lahore, Siálkot, Gujránwála, Miánwáli, Lyallpur, Jhang and Multán, and in parts of Gurgaon, Ambála, Shahpur and Ráwalpindi. Green fodder not procurable in Ferozepore, Amritsar and Siálkot. Sugarcane being used as fodder in the last-named district. In Rohtak fodder sufficient, but getting dearer.

Water-supply.—Canal water-supply insufficient in Delhi and Lyallpur.

W. C. RENOUF,

Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 21st January 1908.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 11th January 1908, there were 1,118 births registered in the 43 large municipal towns (584 males and 534 females), giving a birth rate of 40 *per mille* of population, and 1,372 deaths were registered (693 males and 679 females), giving a death rate of 49 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 49 against 46 in the corresponding week of the previous year; Lahore 49 against 49; Amritsar 69 against [illegible]; and Multán 41 against 54. There were 4 deaths reported from plague in Palwal, 2 in Shahabad and 1 each in Hissar and Ferozepore. Of the 102 deaths from small-pox, 30 were registered in Amritsar, 19 in Lahore, 15 in Batála, 8 each in Ferozepore and Kasúr, 5 in Kartárpur, 4 in Siálkot, 3 in Jullundur, 2 each in Jagraon, Wazírabad, Jalálpur and Multán, and 1 each in Jhajjar and Gujránwála.

Deaths reported from plague during the week ending 18th January 1908, in the districts including all municipal towns:— Rohtak 29, Gurgaon 36, Karnál 6, Ambála 1, Hoshiárpur 6, Ludhiána 3, Ferozepore 1, Montgomery 4, Lahore 1, Amritsar 4, Siálkot 1, Shahpur 2, Jhelum 11, Ráwalpindi 16 and Lyallpur 27; Patiála State 35, Maler Kotla State 3 and Jind State 12. Total for the province 198. Total for the previous week 199. Total for the corresponding week of the previous year 4,166

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

LAHORE, FRIDAY, JANUARY 31, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 28TH JANUARY 1908.

[Seventeen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 7¾ seers ... Gram, 10 seers. Bajra, 9 seers. Bejhar, 10½ seers.	Prospects of irrigated crops good. Condition of unirrigated crops standing in certain tracts fair.	...
2	Rohtak ...	...	1. Sufficient, but getting dearer. 3. Good.	Wheat, 7¼ seers ... Gram, 10½ seers. Jowar, 10 seers. Maize, 10 seers.	Condition of standing crops on irrigated lands good.	...
3	Gurgaon ...	...	1. Sufficient for present needs, except in Firozpur tahsil where some scarcity exists.	Wheat, 7½ to 8¾ seers. Barley, 10½ to 11¾ seers. Gram, 10 to 11 seers. Bajra, 8 to 10 seers. Maize, 9 to 10 seers.	Tobacco and onions being planted. Zira (*Nigella sativa*) being sown. In Rewári tahsil standing crops on irrigated area good; unirrigated fair. Probable outturn of irrigated crops expected to be good, and that of unirrigated fair. Test work opened at village Ghamráj in tahsil Gurgaon and 921 persons attend it.	...
4	Delhi ...	...	1. Scarce ... 2. Canal closed during the week.	Wheat, 7¾ seers ... Gram, 9½ seers. Barley, 10 seers. Bajra, 9 seers. Jowar, 9½ seers. Maize, 9½ seers.	Standing crops in good condition.	Outturn of sugarcane average. Sugarcane pressing continues.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	PROSPECTS OF Spring.	Autumn.
5	Ambála ...	...	1. Getting scarce in Ambala, Jagádhri and Naráingarh tahsils. 3. Good.	Wheat, 7¾ to 8 seers. Gram, 10½ to 10¾ seers. Barley, 10 seers. Maize, 10½ seers. Jowar, 10 seers. Bajra, 10 seers.	Sowings of spring crops continue. Condition of standing crops good.	...
6	Jullundur ...	0·20 at Sadr ... 0·13 at Phillaur.	1. Sufficient ... 3. Good.	Wheat, 8½ seers. Maize, 11¼ seers. Gram, 10½ seers. Jowar, 10 seers. Gur, 7 seers.	Weeding of wheat in progress. Sowings of barley, &c., finished. Standing well crops fair; unirrigated below average.	Sugarcane pressings continue.
7	Ferozepore ...	0·07 at Sadr ...	1. Sufficient. Green fodder not available. 3. Generally good.	Wheat, 8 seers ... Barley, 14 seers. Gram, 11 seers. Jowar, 0 seers. Bajra, 8 seers. Maize, 10 seers.	Sowings of barley, &c., continue. Condition of crops good.	...
8	Lahore ..	0·16 at Sadr ...	1. Dry fodder in tahsils Lahore and Sharakpur and green fodder in all tahsils insufficient. 3. Generally fair.	Wheat, 8 seers ... Gram, 11 seers. Maize, 11 seers.	Barley and toria (*Brassica campestris*) being sown in some places of tahsil Lahore. Condition of standing crops fair. Rats have damaged spring crops in tahsil Chúnián. Opium crop average.	Sugarcane pressings in progress.
9	Amritsar ..	0·32 at Sadr ... Less in Tarn Táran and Ajnála.	1. Sufficient ... 3. Good.	Wheat, 8¾ seers. Gram, 11¾ seers. Barley, 13 seers. Jowar, 10¼ seers. Maize, 13½ seers. Bajra, 9 seers.	Harvesting of toria (*Brassica campestris*) continues. Barley, &c., being sown owing to recent rain. Outturn of toria average. Condition of spring crops improving. Condition of poppy crop on irrigated area average.	Sugarcane being pressed. Outturn of sugarcane average.
10	Siálkot ...	0·45 at Sadr ... 0·17 at Daska. 0·17 at Raya. 0·09 at Zafarwál.	1. Dry insufficient. Green fodder not procurable. Sugarcane used as fodder. 3. Cattle weak from overwork and want of fodder.	Wheat, 8 seers... Barley, 12 seers. Gram, 11 seers. Rice, 6 seers.	Sowings of barley, &c., on unirrigated lands in progress. Condition of standing crops good.	Sugarcane pressings continue. Yield average on irrigated and poor on unirrigated lands.
11	Gujránwála ...	Slight rain throughout the district.	1. Scarce ...	Unchanged ...	Prospects of standing crops fair.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Shahpur ...	...	1. Scarce in tahsil Khusháb. 3. Fair.	Wheat, 8½ to 9½ seers. Barley, 13 to 14 seers. Gram, 10½ to 11½ seers. Jowar, 11 seers. Bajra, 10 to 10¾ seers. Maize, 10½ to 11 seers.	Standing crops in good condition. Toria (*Brassica campestris*) being harvested in Shahpur and Sargodha tahsils. Outturn good in Shahpur and average in Sargodha tahsils.	...
13	Ráwalpindi ...	0·47 at Sadr ... 0·15 at Gujar Khan 0·33 at Kahúta. 1·18 at Murree.	1. Scarce in Gujar Khan and Kahúta tahsils. Grass sufficient. 3. Fair.	Wheat, 9 seers ... Barley, 12½ seers. Bajra, 11 seers. Gram, 11 seers. Maize, 11¾ seers.	Condition of standing crops average on irrigated and below average on unirrigated lands. Sowings in progress.	...
14	Miánwáli ...	0·06 at Sadr ... 0·05 at Isa Khel.	1. Scarce ... 2. Average.	Wheat, 9½ seers. Barley, 13 seers. Gram, 12 seers. Bajra, 11½ seers.	Condition of standing irrigated and unirrigated crops fair.	...
15	Lyallpur ...	0·03 at Sadr ...	1. Insufficient ...	Wheat, 8½ seers... Gram, 11½ seers. Maize, 12 seers. Jowar, 11½ seers.	Standing crops in average condition. Outturn of toria (*Brassica campestris*) average.	Outturn of sugarcane average.
16	Jhang ..	0·03 at Chiniot ...	1. Insufficient ... 3. Fair.	Wheat, 9 seers ... Jowar, Maize, Bajra, Gram, } 11 seers.	Condition of irrigated crops average; unirrigated below average. Turnips being damaged on account of drought.	...
17	Multán ...	...	1. Scarce ... 3. Fair.	Wheat, 9½ seers... Gram, 12¾ seers. Maize, 11¾ seers.	Condition of standing crops average, both on irrigated and unirrigated areas.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in all districts except Hissar, Rohtak, Gurgaon, Delhi, Ambála, Shahpur and Multán.

Prices.—Prices of food-grains are falling in 8 and are rising in 4 districts, and are still above scarcity rates except in M[illegible]n.

Agricultural operations.—Sowings of spring crops still continue in the central and submontane districts. Pressings of sugarcane and harvesting of toria (*Brassica campestris*) continue.

Crops and outturn.—Condition of irrigated crops good to average, and of unirrigated generally fair. Opium crop average in Lahore and Amritsar. Outturn of sugarcane average on the whole. Outturn of toria (*Brassica campestris*) good to average.

Damage done to crops.—Rats have done some damage to spring crops in parts of Lahore. Turnips damaged by drought in Jhang.

Agricultural stock.—Cattle generally in good condition. In Siálkot cattle are suffering from overwork and want of fodder.

Pasturage.—Fodder scarce in Delhi, Siálkot, Gujránwála, Miánwáli, Lyallpur, Jhang, Multan, and in parts of Gurgaon, Ambála, Lahore, Shahpur and Ráwalpindi. Green fodder not procurable in Ferozepore and Siálkot; sugarcane being used as fodder in the latter.

Water-supply.—Canal closed during the week in Delhi.

Test works.—921 persons attended the famine test works in Gurgaon tahsil.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

A cold weather depression gave light precipitation at Leh on the 16th, and another caused light rain in the Ráwalpindi district and light precipitation in Kashmír on the 29th. During the rest of the month, although several cold weather depressions entered India from the west, they did not affect the weather beyond causing cloud chiefly in Kashmír.

Pressure and winds.—In the plains pressure was in slight defect in the North-West Frontier Province and the south-west and central Punjab, while it was normal elsewhere. The deficiency of pressure was much less at the hill stations of Cherát and Srinagar, and at the other hill stations it was in excess, the excess being considerable at Leh. The vertical pressure gradients were thus unfavourable for cold weather precipitation. Winds were generally light and of normal strength. As regards direction, the wind at Leh was exactly opposite to its normal direction, N. 45° E, but at the other stations wind directions did not depart appreciably from the normal direction.

Temperature.—Temperature was in slight excess throughout the month, especially during the periods from the 1st to the 9th, the 18th and 19th, and from the 27th to the 29th. The excess occurred chiefly in day temperature, but neither day nor night temperatures were much above the normal at any time.

The following table shows the departures from the normal of the mean temperature of the Punjab, and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and cloud.—Skies were moderately overcast in Kashmír, but in the Punjab the cloud was very light. The amount of moisture in the air at 8 hrs. varied from 35 per cent. of that required for saturation at Montgomery to 69 per cent. at Lahore.

Rainfall.—Ráwalpindi received about a tenth of an inch of rain, but over the rest of the Punjab no rain of any significance was received.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for November 1907:—

Station.	Actual rainfall in November 1907.	Normal average rainfall in November.	Difference from the average in November 1907.

NOTE —The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,

LAHORE :

The 28th January 1908.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 18th January 1908, there were 1,181 births registered in the 43 large municipal towns (599 males and 582 females), giving a birth rate of 42 *per mille* of population, and 1,420 deaths were registered (756 males and 664 females), giving a death rate of 51 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 53 against 48 in the corresponding week of the previous year; Lahore 61 against 52; Amritsar 66 against 38; and Multan 42 against 27. There were 3 deaths reported from plague in Palwal and 1 in Sirsa. Of the 110 deaths from small-pox, 35 were registered in Amritsar, 28 in Lahore, 11 in Batála, 7 in Kasúr, 4 each in Kartárpur, Ferozepore and Siálkot, 3 each in Jullundur and Wazírabad, 2 each in Jhajjar and Hoshiárpur and 1 each in Hissar, Kaithal, Shahabad, Gujránwála, Pind Dádan Khan, Ráwalpindi and Jhang-Maghiána.

Deaths reported from plague during the week ending 25th January 1908, in the districts including all municipal towns:—Hissar 20, Rohtak 78, Gurgaon 37, Delhi 86, Karnál 60, Ambála 4, Hoshiárpur 10, Ludhiána 3, Ferozepore 4, Montgomery 17, Lahore 11, Amritsar 14, Gurdáspur 10, Siálkot 2, Jhelum 1, Ráwalpindi 11 and Lyallpur 39; Patiála State 57, Máler Kotla State 8 and Jínd State 5. Total for the province 477. Total for the previous week 212. Total for the corresponding week of the previous year 4,485.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, FEBRUARY 7, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 4TH FEBRUARY 1908.

[Seventeen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·17 at Budhláda ... 0·08 at Fattahabad.	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Gram, 11½ seers. Bajra, 10¼ seers. Bejhar, 12 seers.	Prospects of irrigated crops good. Unirrigated crops in Fattahabad and Sirsa tahsils in fair condition.	...
2	Rohtak ..	0·11 at Sadr ... 0·13 at Sámpla. 0·1 at Gohána. 0·70 at Jhajjar. 0·15 at Salhawas.	1. Sufficient, but getting dearer. 3. Good.	Wheat, 8¼ seers ... Gram, 10½ seers. Jowar, 10 seers. Maize, 10 seers Bajra, 9¼ seers.	No sowings. Condition of irrigated crops good.	...
3	Gurgaon ...	0·25 at Sadr ... More was received at other stations.	1. Sufficient for present needs, except in Firozpur tahsil, where scarcity is prevalent to some extent. 3. Fair.	Wheat, 7½ to 8½ seers. Barley, 10¼ to 12½ seers. Gram, 10 to 11¼ seers. Bajra, 9 to 10½ seers. Maize, 10 to 10¼ seers.	Rain benefitted the standing crops. Onions and tobacco being planted in Gurgaon tahsil. Standing crops in good condition. Outturn expected good. Test work in progress at Ghumroj with an attendance of 1,223 persons.	...
4	Delhi ...	0·48 at Sadr ... 0·04 at Balabgarh. 0·26 at Mahrauli. 0·06 at Sonepat.	1. Scarce ... 2. Insufficient.	Wheat, 8 seers ... Gram, 10½ seers. Barley, 10½ seers. Jowar, 10 seers. Bajra, 10 seers. Maize, 10½ seers.	Standing crops in good condition.	Sugarcane pressings nearly finished. Outturn average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	0·39 at Sadr ... 0·72 at Jagádhri. 1·16 at Naráingarh. 0·33 at Kharar. 0·25 at Rúpar. 1·5 Kasauli.	1. Insufficient in Ambala, Jagádhri and Naráingarh tahsils. 3. Generally good.	Wheat, 7¾ to 8 seers. Gram, 10¼ to 10¾ seers. Barley, 9¾ seers. Maize, 10¼ seers. Jowar, 9¾ seers. Bajra, 9¼ seers.	Sowings finished. Condition of standing crops good	...
6	Jullundur ...	0·51 at Sadr ... 0·28 at Nakodar. 0·39 at Phillaur. 0·88 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Maize, 11½ seers. Gram, 11 seers. Jowar, 10 seers. Gur, 7 seers.	Weeding of wheat in progress. Standing well crops fair; unirrigated below average.	Sugarcane pressings continue.
7	Ferozepore ...	0·10 at Jalalábad...	1. Sufficient. Green fodder scarce. 3. Generally good.	Wheat, 7 seers ... Barley, 14 seers. Gram, 11 seers. Jowar, 0 seers. Bajra, 13 seers. Maize, 12 seers.	Standing crops good.	...
8	Lahore ...	0·18 at Chúnián... 0·11 at Kasúr. 0·05 at Sharakpur.	1. Dry sufficient; green fodder insufficient. 3. Average.	Wheat, 8 seers ... Gram, 11 seers. Maize, 11 seers.	Condition of standing crops average. Rats have partially damaged spring crops in parts of tahsil Chúnián. Poppy crop average.	Sugarcane being pressed.
9	Amritsar ...	0·34 at Sadr ... More in tahsil Ajnála.	1. Sufficient ... 3. Good.	Wheat, 8¾ seers. Gram, 12 seers. Barley, 13 seers. Jowar, 10 seers. Maize, 11½ seers. Bajra, 9 seers.	Toria (*Brassica campestris*) being sown in some places. Outturn of toria previously sown and now harvested average; other spring crops improving. Condition of poppy crop on irrigated area average. Hailstones damaged the toria and senji *meli lotus parvi flora*) to some extent in tahsil Amritsar.	Sugarcane being pressed; outturn average.
10	Siálkot ...	0·33 at Sadr ... 0·47 at Zafarwál. 0·25 at Pasrúr. 0·36 at Raya. 0·38 at Daska.	1. Dry insufficient. Green fodder procurable in very little quantities. Sugarcane used as fodder. 3. Cattle weak from overwork and want of fodder.	Wheat, 8½ seers... Barley, 12 seers. Gram, 10½ seers. Rice, 5½ seers.	Sowings of barley, &c., on unirrigated land still continue. Condition of standing crops good.	Pressings of sugarcane in progress; yield average on irrigated and poor on unirrigated lands.
11	Gujránwála ...	Slight rain in parts of district.	1. Scarce ... 3. Fair.	Wheat 8 to 10 seers. Bajra 10 to 10½ seers. Maize 10 to 11 seers. Gram 11½ to 12 seers. Barley 14 seers.	Condition of crops fair. Hail fell in several places without doing any appreciable damage. Some damage done to toria (*Brassica campestris*) and sarshaf (rape seed) by tela (green fly).	...

No.	Reporting station	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee	Prospects of Spring.	Prospects of Autumn.
12	Shahpur ..	0·89 at Sadr; heavier in other stations.	1. Sufficient, except in Khusháb tahsil.	Wheat, 9 to 10 seers. Barley, 14 seers. Gram, 12½ seers. Jowar, 12 seers. Bajra, 12 seers. Maize, 11 seers.	Standing crops in fair condition in Khusháb tahsil; good elsewhere.	...
13	Ráwalpindi ...	1·71 at Sadr ... 0·37 at Gujar Khan 0·74 at Kahúta. 2·50 at Murree.	1. Scarce in Gujar Khan and Kahúta tahsils. 3. Fair.	Wheat, 9½ seers... Barley, 12¼ seers. Bajra, 12 seers. Gram, 12 seers. Maize, 12½ seers.	Condition of standing crops average on irrigated and below average on unirrigated. Sowings still in progress.	...
14	Miánwáli ...	0·77 at Sadr ... 0·75 at Isa Khel. 0·02 at Bhakkar.	1. Scarce ... 2. Average.	Wheat, 9½ seers... Gram, 1[illegible] seers. Bajra, 12 seers. Barley, 16 seers.	The rain has benefited the standing crops. Condition of standing irrigated crops good; unirrigated crops improving.	...
15	Lyallpur ...	...	1. Insufficient, especially in Jungi ráj-baha.	Wheat, 9 seers ... Gram, 12 seers. Maize, Jowar, } 12 seers.	Toria (*Brassica campestris*) being threshed. Standing crops in average condition. Outturn of toria average.	Sugarcane being pressed; outturn average.
16	Jhang ..	Sufficient rainfall at Lalián.	1. Insufficient ... 3. Fair.	Wheat, 9 seers ... Gram, 11 seers. Jowar, Maize, Bajra, } 12 seers.	Rain beneficial to crops. Condition of irrigated crops average; unirrigated below average. Turnips damaged by tela (green fly).	...
17	Multán ...	...	1. Scarce ... 3. Fair.	Wheat, 9½ seers... Gram, 13¼ seers. Maize, 11¼ seers.	Sowings of extra spring crops commenced. Condition of standing crops average both on irrigated and unirrigated land.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has been received in all districts except Lyallpur and Multán.

Prices.—Prices of food-grains are falling in 10 and are rising in 2 districts, but are still above scarcity rates except in Multán.

Agricultural operations.—Sowings of spring crops still continue in a few districts and those of extra spring crops commenced in Multán. Pressings of sugarcane in progress. Toria (*brassica campestris*) being threshed in Lyallpur.

Crops and outturn.—Condition of irrigated crops good to average and of unirrigated average to below average. Opium crop average in Lahore and Amritsar. Outturn of sugarcane and toria average. Recent rain has benefited the standing crops.

Damage done to crops.—Spring crops slightly damaged by rats in parts of Lahore. Tela (green fly) damaged toria and rapeseed (sarshaf) in Gujránwála and turnips in Jhang. Hailstones injured toria (*Brassica campestris*) and senji (*meli lotus parvi flora*) in Amritsar.

Agricultural stock.—Cattle generally in good condition except in Siálkot, where cattle are weak from overwork and want of fodder.

Pasturage.—Fodder scarce in Delhi, Siálkot, Gujránwála, Miánwáli, Lyallpur, Jhang, Multán, and parts of Gurgaon, Ambála, Shahpur and Ráwalpindi. Green fodder scarce in Ferozepore and Lahore. Sugarcane being used as fodder in Siálkot.

Water-supply.—Canal water-supply insufficient in Delhi.

Test works.—1,223 persons attended the famine test works in Gurgaon tahsil.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

SUMMARY OF REMARKS ON THE KHARIF CROP OF THE PUNJAB FOR THE YEAR 1907.

1. April was marked by very heavy general rain which fell between the 9th and 18th. The weather during the month was unusually rainy, damp and cold, the rainfall being 311 per cent. in excess of the average. Normal conditions prevailed in May. A storm entered the Province from the Sind direction on the 7th of June, giving heavy rain in the south-west, central and west Punjab. There were light general showers towards the end of June and in the first week of July, but the monsoon was somewhat late in reaching the Punjab Holding off until the 20th of July, it was very feeble during that month. It strengthened during August and gave ample, continuous and general rain up to the 4th, when the current unfortunately withdrew completely. September, October, November and December were rainless except for a few scattered and very light showers in the first week of September. Special mention should be made of good falls registered in the Hissar district in the last weeks of June and July. The supply of water in perennial canals was on the whole rather short. Inundation canals generally opened rather late and closed early. River floods were disappointing.

2. *Area sown*.—The heavy rainfall of April was excellent for sowings of sugarcane and cotton, and the monsoon, although somewhat belated, was in time to permit of a satisfactory area being brought under cultivation, conditions being more favourable in the Delhi Division than in other parts of the Province. The total area sown, 11,396,703 acres, is 4·3 per cent. above the area sown in 1906, but 2·7 per cent. below the quinquennial average. The principal district variations from the averages of the last 5 years are as follows:—

District.	*Percentage above or below the quinquennial average.*
Hissar	+ 13
Multán	+ 5
Montgomery	— 11
Jhelum	— 12
Lahore	— 12
Miánwáli	— 12
Muzaffargarh	— 13
Gujrát	— 15
Gujránwála	— 17
Siálkot	— 21

The wet and dry areas compare as below with those in the previous year:—

	Irrigated. Acres.	*Unirrigated.* Acres.
1906	3,545,274	7,376,593
1907	3,685,315	7,711,388

The chief variations under the more important crops are as follows:—

District.	*Area in 1906.* Acres.	*Area in 1907.* Acres.	*Difference in acres.*
Jowar	1,557,818	1,363,826	—193,992
Bajra	2,501,351	2,628,535	—127,184
Sugarcane... ...	279,317	393,738	—114,421
Cotton	1,260,510	1,317,100	— 56,560
Chari	1,252,963	1,561,047	—308,084

The severe frost of February 1905 which destroyed almost all the standing seed canes, led to a sharp contraction in the sugarcane area in 1905 and 1906. But the area sown this year is well above the average, and this may be attributed to the high price of gur, to timely rain in April, and to a slight shortage in the area under cotton. The cotton area is expanding again, but it is still somewhat below the normal owing to apprehensions of a recurrence of boll-worm.

3. *Outturns*.—The prospects of the autumn crop were remarkably hopeful up to the third week in August, but the sudden and untimely cessation of the monsoon was absolutely disastrous. Most of the dry crops were practically lost except in the submontane districts and in tracts which benefited from flood water. Outturns on wet lands were also affected by the drought. The yields of each of the principal crops is summarised as follows:—

Rice.—Rice suffered severely in the dry autumn. Normal yields on irrigated land are reported only from Amritsar, Gurdáspur and Gujránwála. Low percentages on the normal occur in the following districts:—

Lahore, 50; Karnál, 56; Siálkot, 60; and Kángra 70. The unirrigated crop represents about 5·2ths of the total area. It was almost a failure in many districts and was very poor all round. A severe hailstorm was the cause of serious loss in Kángra.

Jowar.—Outturns on irrigated land were generally below the average, and were poor, in Rohtak, 25 per cent., Gurgaon, 42 per cent. and Multán, 50 percent. The outturn on unirrigated land was extremely poor. In many districts the crop only yielded a scanty supply of fodder. Rohtak, 8 per cent. Karnál, 18 per cent. and Gurgaon 20 per cent. were the worst off.

Bajra.—Good yields were obtained on irrigated land in Rawalpindi and Ferozepore. In other districts, outturns ranged from average to fair. On unirrigated land, bajra was only a little better than Jowar.

Maize.—On irrigated land, Rawalpindi and Ferozepore show a good harvest, while other districts report average or fair outturns. Maize did comparatively well on unirrigated land. Taking the Province as a whole the lowest yields were in Karnal, 19 per cent., and Lahore, 20 per cent., most districts securing an 8 or 10 anna outturn.

Sugarcane.—The sugarcane was classed at the end of November as equal to 14 annas on irrigated and 12 annas on unirrigated land. These estimates are subject to revision in the final forecast for this crop.

Cotton.—Irrigated cotton has been a little below the average. The valuable unirrigated crop of the D[illegible]i Division was almost an entire failure.

4. *Failed area.*—The failed area amounts to 4,894,503 acres, representing 42·9 per cent. of the sown area. This is very heavy indeed, but not quite as bad as in 1899 when the estimated failed area was 50 per cent. The failed area in 1906 was 15 per cent., but 1905 was only a trifle better than the year under report with 41 per cent. The heaviest losses in the current year were naturally in the Delhi and Rawalpindi divisions, which are most dependent on rainfall. District figures will be noticed in paragraph 6.

5. *Calamities of season.*—The unpropitious climatic conditions have already been described. Apart from these, the most serious calamity was a plague of rats which was experienced throughout the summer and autumn in most districts, and particularly in the Central Punjab. These ravaged the standing crops and did great injury to cereals and cotton. There were no complaints of boll-worm. Locusts were very threatening early in the season, but energetic measures were undertaken for their destruction, and they disappeared without doing any appreciable harm. Continuous rain in August interfered with sowings in some districts.

6. *Notes by divisions and districts Delhi division.*—Failed areas were very extensive throughout the Delhi division and are tabulated thus by districts:—

District.				*Area failed in acres.*	*Percentages of failed area on the sown area.*
Gurgaon	...	...	...	566,806	79
Rohtak	...	...	...	555,598	74
Delhi	...	...	...	221,586	64
Hissar	...	...	...	915,239	57
Karnal	...	...	...	324,663	56
Ambala	...	...	...	237,971	55
Simla	...	...	...	2,842	37

It is fortunate that excellent crops were harvested in the preceding year. But the situation is still critica on account of the strong demand for grain in the United Provinces and consequent high prices. Fodder stocks are also reduced, especially in Gurgaon. Hissar was exceptionally favoured with early rain in the Fatahabad and Sirsa tahsils which resulted in a good crop of early sown bajra, but late sown unirrigated crops were poor. Taken all round, the irrigated crop was satisfactory and the irrigated crop below average. Rohtak suffered severely from the drought, although not quite as much as Gurgaon. The supply of canal water was very deficient in Rohtak, and failures on irrigated land amount to 11 per cent.

Jullundur division.—Kángra exhibits the unusual percentage of 38 per cent. of failures, this being due to deficient rainfall and a destructive hailstorm just before harvest. Hoshiárpur also returns heavy failures amounting to 29 per cent. which are ascribed to excessive and continuous rain early in the season as well as to the drought in September. Heavy spring rains spoilt the mango blossoms in Hoshiárpur, and this valuable crop was 71 per cent short. Failures were only 6 per cent in Jullundur and Ludhiána and 26 per cent. in Ferozepore. Light soils in Ferozepore appear to have benefited by local showers as late as August 30th.

Lahore division.—Failures range from 16 per cent. in Amritsar to 39 per cent. in Siálkot. The Division is well protected by irrigation.

Rawalpindi division.—The Ráwalpindi division is largely dependent on rainfall. Heavy sowings were made on unirrigated land, and the losses were accordingly severe. Failures are as below:—

District.					*Failed area in acres.*	*Percentage on the sown area.*
Attock	...	...	...	...	172,594	57
Jhelum	...	...	...	...	119,644	46
Ráwalpindi	...	...	...	...	11[illegible],613	37
Shahpur	...	...	...	...	106,344	33
Gujrat	...	...	...	...	78,000	27

The preceding harvest were above the average. The rabi harvest is far more important than the kharif in this tract, and the effects of the dry autumn will be most apparent in the spring, unless there is good rain in February and March to mature the late January sowings.

Multan division.—There were extensive sowirgs in Mianwali, and failures reached 47 per cent. The early closure of inundation canals, and deficient moisture in riverain tracts, account for failures of 40 per cent. in Multan, 28 per cent. in Muzaffargarh and 30 per cent. in Dera Ghazi Khan.

7. *Summary.*—Having regard to area and yield the crop works out to 73 per cent. of the average of the last 5 years, or almost a 12 anna crop. The cotton and sugarcane crops will probably prove remunerative, and toria has done distinctly well. The shortage is mainly in the staple cereals.

W. C. RENOUF,
Director of Agriculture, Punjab.

STATEMENT No. III A.—*Crop Return in acres for the Kharif* 1907.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

...ITARY COMMISSIONER'S OFFICE,
LAHORE:
The 4th February 1908.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 25th January 1908, there were 1,200 births registered in the 43 large municipal towns (610 males and 590 females), giving a birth rate of 43 *per mille* of population, and 1,274 deaths were registered (664 males and 610 females), giving a death rate of 46 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 46 against 44 in the corresponding week of the previous year: Lahore 56 against 46; Amritsar 74 against 36; and Multán 39 against 52. There were 4 deaths reported from plague in Palwal and 1 in Rewári. Of the 146 deaths from small-pox, 51 were registered in Amritsar, 41 in Lahore, 21 in Batála, 10 in Kasúr, 3 in Ráwalpindi, 2 each in Shahabad, Jagráon, Ferozepore, Siálkot, Guját and Jalálpur, and 1 each in Hánsi, Kaithal, Hoshiárpur, Jullundur, Kartárpur, Ludhiána, Wazírabad and Multán.

Deaths reported from plague during the week ending 1st February 1908, in the districts including all municipal towns:—Hissar 21, Rohtak 56, Gurgaon 104, Delhi 44, Karnál 24, Ambála 5, Hoshiárpur 13, Ludhiána 10, Montgomery 18, Lahore 14, Amritsar 20, Gurdáspur 8, Gujránwála 1, Jhelum 19, Ráwalpindi 15, Jhang 5 and Lyallpur 17; Patiála State 51, Máler Kotla State 13, Jínd State 9 and Baháwalpur State 11. Total for the province 478. Total for the previous week 477. Total for the corresponding week of the previous year 5,475.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

KANSHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

EIGHTY-SEVEN THOUSAND AND EIGHTY-THREE births were registered in the province during the month of December 1907, giving a birth rate of 51 *per mille* of population. Of the total number of births, 45,452 were boys and 41,631 were girls.

The total number of deaths registered from all causes in the province during the month of December 1907 was 76,728 against 65,029 in the previous month, and 84,527 in the corresponding month of the past year, giving an annual death rate of 45, 39 and 49 *per mille* of population per annum, respectively.

There were 6 deaths registered under the head of cholera against 79 in the previous month and 3 in the corresponding month of the past year.

The total mortality from plague amounted to 1,103 against 1,245 in the previous month and 9,463 in the corresponding month of the past year.

From small-pox 1,493 deaths were registered against 617 in the previous month and 1,050 in the corresponding month of the past year; fevers 49,695 against 41,759 and 52,976; dysentery and diarrhœa 1,263 against 1,515 and 1,674; respiratory diseases 8,141 against 6,026 and 6,077. During the month there were 10 deaths registered from suicide against 24 in the past month; wounding 26 against 33; accidents 294 against 299; snake-bite and killed by wild beasts 25 against 51; and from all other causes 14,672 against 13,381 in the previous month and 12,961 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 4th February 1908.

18	Multán ...	...	1. Scarce ... 3. Fair.	Wheat, 10 seers ... Gram, $13\frac{1}{4}$ seers. Maize, $11\frac{1}{4}$ seers.	Sowings of extra spring crops in progress. Condition of standing crops average both on irrigated and unirrigated areas.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in Ambála, Siálkot, Shahpur, Ráwalpindi, Miánwáli and Jhang.

Prices.—Prices of food-grains show a general downward tendency except in Ráwalpindi, where prices have risen as compared with the last week. Prices are still everywhere above scarcity rates except in Multán.

Agricultural operations.—Sowings of spring crops still continue in a few districts. Sowing of extra spring crops in progress in Delhi, Siálkot and Multán. Pressings of sugarcane in progress. Harvesting of toria (*brassica campestris*) continued in Amritsar and Lyallpur. Cotton being sown in Lahore and sugarcane in Gurgaon.

Crops and outturn.—Condition of irrigated crops good to average and of unirrigated crops generally below average. Opium crop average in Lahore and Amritsar. Outturn of sugarcane and *toria* average.

Damage done to crops.—Spring crops slightly damaged by rats in parts of Lahore.

Agricultural stock.—Cattle generally in good condition. In Siálkot cattle are weak, but are improving.

Pasturage.—Fodder scarce in Delhi, Ambála, Siálkot, Miánwáli, Lyallpur, Jhang, Multán, and parts of Gurgaon, Lahore, Shahpur and Ráwalpindi. Green fodder scarce in Ferozepore. Sugarcane being used as fodder in Siálkot.

Water-supply.—Canal closed in Delhi during the week.

Test-works.—1,399 persons attended the famine test-works in Gurgaon tahsil.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 11th February 1908.

KASHI RAM, Supdt.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 1st February 1908, there were 1,060 births registered in the 41 large municipal towns (525 males and 475 females), giving a birth rate of 37 *per mille* of population, and 1,059 deaths were registered (547 males and 512 females), giving a death rate of 39 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 35 against 44 in the corresponding week of the previous year; Lahore 44 against 48; Amritsar 52 against 56; and Multán 39 against 38. There were 11 deaths reported from plague in Palwal, 5 in Jhang-Maghiána, 3 in Rewári and 2 in Shahabad. Of the 98 deaths from small-pox, 34 were registered in Amritsar, 19 in Lahore, 9 in Batála, 7 in Kasúr, 5 in Kartárpur, 4 in Siálkot, 3 each in Shahabad, Jagadhri, Ferozepore and Wazírabad, 2 each iu Jullundur and Jagráon and 1 each in Kaithal, Gujrát, Ráwalpindi and Multán.

Deaths reported from plague during the week ending 8th February 1908, in the districts including all municipal towns:—Hissar 23, Rohtak 80, Gurgaon 147, Delhi 16, Karnál 31, Ambála 3, Hoshiárpur 23, Jullundur 3, Ludhiána 32, Ferozepore 3, Montgomery 16, Lahore 16, Amritsar 15, Jhelum 13, Ráwalpindi 13, Jhang 3 and Lyallpur 43; Patiála State 89, Máler Kotla State 17, Jínd State 9 and Baháwalpur State 24. Total for the province 619. Total for the previous week 478. Total for the corresponding week of the previous year 8,110.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner*, *Punjab*.

18	Multán ...	...	1. Scarce ... 3. Fair.	Wheat, 10½ seers. Gram, 13½ seers. Maize, 11½ seers.	Sowings of extra spring crops in progress. Condition of standing crops average on both irrigated and unirrigated lands.	...

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in Râwalpindi.

Prices.—Prices of food-grains are rising in 4 and falling in 6 districts, but they are still above scarcity rates except in Jhang and Multán.

Agricultural operations.—Sowings of extra spring crops in progress in some districts. Harvesting of toria (*brassica campestris*) continued in Amritsar. Ploughings for next autumn crops going on in Delhi and Siálkot. Sugarcane sowings commenced in Gujránwála.

Crops and outturn.—Condition of irrigated crops good to average, and of unirrigated generally below average. Opium crop average in Lahore and Amritsar.

Pasturage.—Fodder scarce in Delhi, Siálkot, Gujránwála, Miánwáli, Jhang, Multán, and parts of Lahore, Shahpur and Râwalpindi. Green fodder scarce in Ferozepore. Sugarcane being used as fodder in Siálkot.

Agricultural stock.—Cattle generally in fair to good condition. In Siálkot cattle are weak for want of fodder.

Water-supply.—Canal flowed in Delhi during the week.

P. A. GABRIEL, SUPDT.,

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

ITARY COMMISSIONER'S OFFICE,
LAHORE:
The 18th February 1908.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 8th February 1908, there were 1,073 births registered in the 43 large municipal towns (565 males and 508 females), giving a birth rate of 38 *per mille* of population, and 1,000 deaths were registered (529 males and 471 females), giving a death rate of 36 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 35 against 51 in the corresponding week of the previous year; Lahore 41 against 59; Amritsar 55 against 39; and Multán 30 against 53. There were 22 deaths reported from plague in Palwal, 19 in Rewári and 1 each in Shahabad and Jhang-Maghiána. Of the 74 deaths from small-pox, 29 were registered in Amritsar, 13 in Lahore, 6 in Kasúr, 3 each in Batála and Jalalpur, 2 each in Shahabad, Jagádhri, Jullundur, Gujránwála, Gujrát and Ráwalpindi, and 1 each in Hánsi, Bhiwáni, Rohtak, Jhajjar, Kartárpur, Jagraon, Wazírabad, and Bhera.

Deaths reported from plague during the week ending 15th February 1908, *in the districts including all municipal towns*:— Hissar 24, Rohtak 66, Gurgaon 136, Delhi 126, Karnál 24, Ambála 6, Hoshiárpur 6, Ludhiána 38, Ferozepore 8, Montgomery 22, Lahore 21, Amritsar 25, Gurdáspur 4, Gujránwála 7, Jhelum 5, Ráwalpindi 5, Jhang 26, and Lyallpur 81; Patiála State 44, Máler Kotla State 30, and Jínd State 6. Total for the province 710. Total for the previous week 619. Total for the corresponding week of the previous year 9,691.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Gram, 11½ seers. Bajra, 10 seers. Bijhar, 12 seers.	Prospects of irrigated crops good; unirrigated crops in Fatahabad and Sirsa tahsils in fair condition.	...
2	Rohtak ..	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers... Gram, 11 seers. Jowar, 11 seers. Maize, 10 seers.	Standing crops on irrigated lands good. Outturn expected to be good if sufficient canal water is provided.	...
3	Gurgaon ...	...	1. Sufficient for present needs in Gurgaon and Rewári tahsils, and scarce in other tahsils where leaves of trees, &c., being used as fodder. 3. Fair.	Wheat, 7¾ to 9½ seers. Barley, 11 to 12½ seers. Gram, 10½ to 12 seers. Bajra, 9½ to 11¾ seers. Maize, 9 to 12 seers.	Tobacco and onions were being planted in Gurgaon, Rewári and Firozpur tahsils. Standing crops in good condition. Outturn expected to be good. Test-work in progress at Ghamrauj with an attendance of 1,334 persons.	Sugarcane is being sown.
4	Delhi ..	...	1. Scarce ... 2. Canal closed in the week.	Gram, 10½ seers. Barley, 11 seers. Bajra, 9½ seers. Jowar, 10 seers. Maize, 10 seers.	Sowings of extra spring crops in progress. Standing crops in good condition.	Ploughings for next autumn crops continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Insufficient in Ambála, Jagádhri and Naráingarh tahsils. 2. Sufficient. 3. Generally good.	Wheat, 8½ to 9 seers. Gram, 10½ to 11 seers. Barley, 10 seers. Maize, 10½ to 11 seers. Bajra, 9½ seers. Jowar, 10 seers.	Condition of crops sown before January good, but rain badly wanted for those sown after January rains.	Sowing of sugarcane commenced in Rúpar tahsil.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9¾ seers Maize, 11½ seers. Gram, 11¼ seers. Jowar, 10 seers. Gur, 7 seers.	Standing well crops fair; unirrigated below average.	...
7	Ludhiána ...	...	1. Sufficient ... 3. Satisfactory.	Wheat, 9½ seers Barley, 12 seers. Maize, 11½ seers. Gram, 11½ seers.	Condition of spring crops good.	...
8	Ferozepore ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8½ seers Barley, 14 seers. Gram, 11½ seers. Jowar, 10 seers. Bajra, 13 seers. Maize, 12 seers.	Standing crops average.	Sugarcane sown in certain places.
9	Lahore ..	...	1. Sufficient, except in tahsil Sharakpur where Government rakhs have been opened for lopping. 3. Generally fair.	Wheat, Bajra, } 9½ seers Gram, Maize, } 12 seers.	Extra spring crops being sown. Standing crops average. Rats damaging spring crops in parts of Kasúr and Chúnián. Opium crops average.	Lands being prepared for next cotton crop.
10	Amritsar ..	...	1. Sufficient ... 3. Good.	Wheat, 8¾ seers Gram, 12 seers. Barley, 14 seers. Jowar, 10 seers. Maize, 11¼ seers. Bajra, 9¾ seers.	Toria (*brassica campestris*) being harvested. Outturn average. Condition of crops average. Poppy crop on irrigated land average.	...
11	Siálkot ..	...	1. Dry fodder insufficient. Sugarcane used as fodder. 3. In Siálkot and Raya tahsils cattle weak owing to want of fodder.	Wheat, 7¾ seers... Barley, 12 seers. Gram, 10¼ seers. Rice, 5½ seers.	Sowings of extra spring crops continue. Condition of standing crops generally good on irrigated and average on unirrigated lands.	Sowing of sugarcane commenced in moist parts of tahsil Pasrúr. Ploughings for coming autumn crops in progress.
12	Gujránwála ...	...	1. Insufficient ... 3. Good.	Wheat, 8 to 10 seers. Maize, 11½ seers. Bajra, 11 seers. Gram, 11½ to 12 seers.	Tobacco being sown. Condition of crops fair.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	...	1. Scarce in Khushâb tahsil. 3. Good.	Wheat, 9½ to 11 seers. Barley, 14 seers. Gram, 12 seers. Jowar, Bajra, } 11 seers. Maize, 12 seers.	Sowings of extra spring crops continue in Shahpur tahsil. Standing crops in good condition.	Ploughings for autumn crops in progress.
14	Râwalpindi ...	...	1. Scarce in Gujar Khan and Kahûta tahsils. 3. Fair.	Wheat, 9 seers ... Barley, 12¼ seers. Bajra, 11¼ seers. Gram, 11 seers. Maize, 12¼ seers.	Condition of standing crops average on irrigated and below average on unirrigated lands.	...
15	Miânwâli ...	...	1. Scarce ... 3. Fair.	Wheat, 10½ seers Barley, 16 seers. Gram, 12 seers. Bajra, 13 seers.	Sowings of extra spring crops continue. Condition of expected yield of irrigated and unirrigated crops good.	...
16	Lyallpur ...	...	1. Insufficient, particularly in the area commanded by Rajbaha Mungi.	Wheat, 10 seers ... Gram, 13 seers. Jowar, 13 seers. Maize, 14 seers.	Extra spring crops being sown. Standing crops in average condition.	
17	Jhang ...	...	1. Insufficient ... 3. Fair.	Wheat, 9 to 10 seers. Bajra, Maize, } 11 seers. Jowar, Gram, } 12 seers.	Condition of irrigated crops average and of unirrigated below average.	...
18	Multân ...	...	1. Scarce ... 3. Fair.	Wheat, 10¼ seers Gram, 13½ seers. Maize, 12 seers.	Sowings of extra spring crops continue. Condition of standing crops average on irrigated and unirrigated areas.	...

GENERAL REMARKS.

Rainfall.—Nil.

Prices.—Prices of food-grains are rising in 5 and falling in 6 districts, but they are still at or above scarcity rates except in Multân.

Agricultural operations.—Sowings of extra spring crops and ploughings for next autumn crops in progress. Harvesting of toria (*Brassica campestris*) continued in Amritsar. Sugarcane being sown in Gurgaon and parts of Ambâla, Ferozepore and Siâlkot.

Crops and culture.—Condition of irrigated crops good to average, and of unirrigated crops average to below average. Opium crop average in Lahore and Amritsar.

Damage done to crops.—Rats damaging crops in parts of Lahore.

Pasturage.—Fodder scarce in Delhi, Siâlkot, Gujrânwâla, Miânwâli, Lyallpur, Jhang, Multân, and parts of Gurgaon, Ambâla, Lahore, Shahpur and Râwalpindi. Sugarcane being used as fodder in Siâlkot.

Agricultural stock.—Cattle generally in fair to good condition. In parts of Siâlkot cattle are weak for want of fodder.

Water-supply.—Canal closed during the week in Delhi.

Test-works.—1,334 persons attended the famine test-works in the Gurgaon tahsil.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

P. A. GABRIEL, Supdt.

Office of Director of Agriculture, Punjab.

Snowfall Report.

The depth of snowfall at Dalhousie (Gurdaspur district) was 15 inches on the 11th and 5 inches on the 31st January 1908.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of January 1908.

1.—HISSAR DISTRICT.

Rainfall of 11th January has greatly benefited the standing unirrigated and irrigated crops. Prospects of irrigated and condition of unirrigated crops where sown are fair. Cattle in good condition. Fodder sufficient. Water-supply in canal greatly deficient. General health of people good.

2.—ROHTAK DISTRICT.

No sowings made during the month. Standing nahri and chahi crops fair. Rain wanted. Cattle generally in good condition. Canal supply sufficient.

3.—GURGAON DISTRICT.

Good rainfall throughout the district which benefited the standing crops to a great extent. Taramira and zira were sown. Tabacco and onions were being planted. Standing crops in good condition. Outturn on irrigated area is expected to be good, and that on unirrigated fair. Cattle in fair condition. Fodder was sufficient for present needs except at Firozpur, where scarcity to little extent is prevalent. Canal water was in use during the month. Test work at Ghamrauj in the Gurgaon tahsil was opened on the 15th and has been in progress ever since. The total number of persons on the work was 1,223.

4.—DELHI DISTRICT.

Sowing of rabi crops on well and canal-irrigated lands finished; barley, masur, taramira and peas were sown to a small extent owing to the recent rainfall. The ploughings for the next kharif have commenced in the Ballabgarh tahsil. The condition of standing rabi crop has been much improved by the recent rains, and it has also been benefited by the dew. Cotton picking finished. The pressing of sugar-cane was in progress. The outturn of sugar-cane, cotton, vegetables and fruits was average, but chillies have been damaged by frost. Public health generally good. Canal supply insufficient. Canal closed for about two weeks in the month. Fodder scarce.

5.—KARNAL DISTRICT.

The rains of the 11th and 12th enabled late sowings of barley, masri and wheat. The condition of standing crops is good. Cane is below average, but the rabi yield will probably be excellent, though the area under crop will be small. The condition of cattle is good, but fodder is scarce, especially in the khadar where kikar, &c., leaves are being used for fodder. Health of the people generally good. Canals are still short of water, but with the late excellent rainfall there is little complaint on this account at present.

6.—AMBALA DISTRICT.

The rainfall on the 11th and 12th of January 1908 was very beneficial to the standing crops, and a large area of land was sown with barley, masri and also china in some places throughout the district. All the standing crops are in a fair condition. Cattle in fair condition. Fodder is scarce and it is brought in from outside in many places. The health of the people is also on the whole fair.

7.—SIMLA DISTRICT.

The rainfall in both tahsils was sufficient. Further sowings of wheat and barley in Simla and of poppy in Kot Khai t hsil were made during the month. The condition of standing crops is bad. The condition of cattle good. Fodder and grazing are sufficient. The state of public health good. In the Simla tahsil the water-supply in hill streams is insufficient; in Kot Khai sufficient.

8.—KANGRA DISTRICT.

Sowings completed. Nothing can be said for certain as yet about the condition of the crops except that the recent rainfall has been beneficial. The public health is generally good. Water was sufficient in the kuhls (water streams) for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

Rainfall general. It has enabled more rabi crops (barley, &c.), to be sown. These further sowings were done on about ⅕th of the cultivated area and were very late. The entire rabi cultivation is now ⅘ths of what it was estimated to

be in the forecast before these sowings took place. The prospects of the rabi crops sown have greatly improved by the recent rainfall. In parts of the district sugarcane and cotton have been affected by cold. The outturn on the whole is expected to be good. The condition of agricultural stock is fair, and the rain will enable much needed rest to be given to overworked cattle. Fodder is dear and scarce, but the rain should increase the supply of grass. Health of people is generally good. Irrigation from the Shah Nahr Canal, hill torrents and wells continued until the rainfall on January 11th, but it has since ceased altogether. Famine is no longer apprehended. The upward tendency of prices has been checked, and they have fallen slightly, but high rates still continue. A further fall in prices is expected.

10.—JULLUNDUR DISTRICT.

Statement returned for corrections.

11.—LUDHIANA DISTRICT.

Owing to rainfall during the month wheat and barely were sown. Sowing of onion was in progress. The condition of crops good. Yield of vegetable fairly good and that of sugarcane and cotton average. Condition of cattle good. Fodder sufficient State of public health satisfactory. Irrigation from canals fairly satisfactory.

12.—FEROZEPORE DISTRICT.

Barely, &c, were sown on unirrigated lands in some places. The condition of standing crops was good. Cattle generally in good condition. Public health generally good. The Sirhind Canal had been flowing during the month and a normal area was irrigated from it. There were no floods in the river. The agriculturists are generally well off. The recent rains have somewhat bettered the condition of crops. Stocks of food-grains and fodder are sufficient. Green fodder is scarce.

13.—MONTGOMERY DISTRICT.

No sowings during the month. Condition of crops good. With more rain, the yield will be good. Cattle in the Ravi tahsils weak owing to scarcity of fodder, but in the Sutlej tahsils cattle are in good condition. Canals all dry; less water in the rivers. Grain is still selling dear; there was a slight drop in prices after the rain.

14.—LAHORE DISTRICT.

Barley and sanji (fodder) were sown in wet lands in some places. Some barley and kangni have also been sown in barani lands. Recent rainfall has improved the condition of the standing crops which are now about average. Tela has appeared in rapeseed sown with wheat in tahsil Lahore. The expected yield is about average. The cattle in the Hithar tracts and Sharakpur tahsil are suffering from scarcity of fodder, cold and overwork. The Bari Doab Canals ran by turns. Chenab Canal branches were closed for clearance. There were no floods in rivers. The prices of food-grains were very high, though there was some slight fall owing to the rains in this month.

15.—AMRITSAR DISTRICT.

Average rainfall of about 2 inches proved very useful for standing crops and enabled further sowings of barley, toria and china. There is considerable improvement in the condition of standing crops due to opportune rains. Yield of first sowings especially on irrigated areas is expected to be satisfactory and that of late sowings cannot be estimated at present. Condition of cattle good. Fodder sufficient, though dear. Public health generally good. Water-supply from canals running short, but at present the deficiency has sufficiently been made up by recent rains. Prices falling slightly, upward tendency being checked.

16.—GURDASPUR DISTRICT.

Late sowings of wheat, masur and barley were made owing to recent rainfall. Irrigated crops in good and unirrigated in fair condition. Hopes are now entertained of average yield from barani lands and yield of irrigated crops will be good. Condition of cattle generally good. The state of public health good on the whole. There has been no irrigation from Government canals which are closed for clearance. Prices have somewhat fallen owing to rainfall.

17.—SIALKOT DISTRICT.

Sowings of barley, &c., continued. The condition of standing crops good. Frost damaged sugarcane crop before rainfall. Pressing of sugarcane continued. Yield average on irrigated, poor in *barani* lands. The cattle getting feeble by overwork and scarcity of fodder. Public health generally good. Water sufficient in Bajwat canals according to the season.

18.—GUJRANWALA DISTRICT.

Some sowings of barley were made in consequence of the recent rain. The condition of the irrigated crops is fair and that of the unirrigated below average. Some damage, was done to sarshaf by hail in a few villages. Rats damaging sugarcane, toria and wheat in the Khángah Dográn tahsil. Toria has also been affected by tela. Fodder scarce. The recent rains have, however, brought some relief to cattle. The state of public health is generally good. Canals are running by rotation. Prices have slightly fallen owing to rain.

19.—GUJRAT DISTRICT.

Statement returned for corrections.

20.—SHAHPUR DISTRICT.

Rain fell almost all over the district. Sowings of wheat, barley, taramira and jowar continued during the month in the Bhera, Shahpur and Khusháb tahsils. Standing crops were in good condition on irrigated area in the Bhera and Shahpur tahsils and fair in Sargodha; fair also on unirrigated areas. Toria harvested in the Shahpur tahsil; outturn fair. The expected yield of standing crops good. Cattle in fair condition except in Khushab tahsil where scarcity of fodder still exists. Public health good. The Lower Jhelum Canal continued to run.

21.—JHELUM DISTRICT.

Good and well distributed rain allowed further sowings especially in Jhelum and Chakwal. It was too late for the Thal. Condition of crops fair. Condition of cattle generally good. Fodder sufficient. Prices generally stationary.

22.—RAWALPINDI DISTRICT.

Statement returned for corrections.

23.—ATTOCK DISTRICT.

Rabi sowings were effected in consequence of good rains during the month. Condition of crops good. Condition of cattle good throughout the district. The state of public health good.

24.—MIANWALI DISTRICT.

Owing to rainfall the sowings of wheat, etc., continued during the month under report. Condition of standing irrigated crops good, that of unirrigated crops improving. Rainfall during the month was beneficial to the standing crops. Expected outturn fair. Cattle in fair condition. Fodder scarce.

25.—LYALLPUR DISTRICT.

The rain in Lyallpur and Samundri did good to the standing crops. In Toba Tek Singh it was insufficient. Toria being threshed, but it has been somewhat damaged by *tela*. Sugarcane pressings in progress. Outturn good to normal. Wheat in places sown late and needs a second watering. Cattle in good condition. Green fodder scarce. Public health good. Better prospects of standing crops owing to rainfall. Canal working by rotational closures.

26.—JHANG DISTRICT.

There were no sowings during the month. The condition of irrigated crops is average and that of unirrigated below average. The standing crops have been much benefited by the recent rains. In Shorkot tahsil absence of rain is keenly felt. Turnips have been damaged by *tela* throughout the district. Toria was harvested during the month. The yield is small. Fodder very scarce. In the Shorkot tahsil the villages situated at the tail of canal are often put to inconvenience for want of canal water. In the Chaniot tahsil the canal remained almost closed during the month and when running the water in the canal is reported to be insufficient. In the Jhang tahsil canals are flowing, but water is insufficient. Water in rivers also insufficient. Scarcity is much complained of throughout the district and is much felt by the people.

27.—MULTAN DISTRICT.

Extra rabi sowings commenced. Condition of standing crops average both on irrigated and unirrigated areas. Public health fair. Inundation and Sidhnai canals dry. Fodder scarce and famine prices prevailing.

28.—MUZAFFARGARH DISTRICT.

Tobacco and methra sown during the month. Condition of crops improved by the recent rains. Condition of cattle on the whole fair. Public health on the whole good. Canals dry. Fodder insufficient in the Sinanwán and Muzaffargarh tahsils. Price of food grains still high.

29.—DERA GHAZI KHAN DISTRICT.

Sowings finished. Good rain has much improved the condition of crops. Yield expected to be good. Condition of cattle good. Fodder available. The state of public health good. Hill torrents have done much good to crops. Price of grain has fallen since the rainfall.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 26th February 1908.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 15th February 1908, there were 848 births registered in the 41 large municipal towns (453 males and 395 females), giving a birth rate of 35 *per mille* of population, and 770 deaths were registered (395 males and 375 females), giving a death rate of 32 *per mille* of population. The death rates registered in the following largest towns were :—Delhi 37 against 48 in the corresponding week of the previous year; Lahore 47 against 59; and Multán 29 against 36. There were 19 deaths reported from plague in Rewári, 18 in Palwal, 3 in Jhang-Maghiána and 1 each in Shahabad, Ferozepore and Chiniot. Of the 55 deaths from small-pox, 25 were registered in Lahore, 10 in Batála, 4 each in Kasúr and Siálkot, 3 in Shahabad, 2 each in Jullundur, Jagraon and Jalalpur, and 1 each in Bhiwáni, Hoshiárpur and Kartárpur.

Deaths reported from plague during the week ending 22nd February 1908, *in the districts including all municipal towns*:— Hissar 12, Rohtak 97, Gurgaon 150, Delhi 111, Karnál 49, Ambála 2, Ludhiána 61, Ferozepore 28, Montgomery 23, Lahore 33, Amritsar 12, Gurdáspur 3, Siálkot 3, Jhelum 8, Ráwalpindi 10, Jhang 1 and Lyallpur 29; Patiála State 93, Máler Kotla State 30, Jínd State 23 and Baháwalpur State 7. Total for the province 785. Total for the previous week 725. Total for the corresponding week of the previous year 9,871.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

Punjab Government Press, Lahore—28-2-08—916.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, MARCH 6, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 2ND MARCH 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Bajra, 10 seers. Gram, 12 seers. Bejhar, 12 seers.	Prospects of irrigated crops good. Unirrigated crops in the Sirsa and Fatahabad tahsils in fair condition.	...
2	Rohtak ...	...	1. Sufficient but getting scarce. 2. Canal water badly wanted. 3. Good.	Wheat, 8½ seers... Gram, 10¼ seers. Jowar, 10¼ seers. Maize, 10¼ seers.	Standing crops on irrigated lands in good condition.	...
3	Gurgaon ...	...	1. Sufficient for present needs in Gurgaon and Rewári tahsils, and scarce in other tahsils where leaves of trees, &c., are being used as fodder. 3. Fair.	Wheat, 8¼ to 9½ seers. Barley, 12 to 12½ seers. Gram, 11¾ to 12½ seers. Bajra, 10 to 11½ seers. Maize, 10 to 12 seers.	Tobacco and onions being planted in Gurgaon and Firozpur tahsils. Standing crops in good condition. Outturn expected to be good. Famine test-works at Ghamedj in tahsil Gurgaon in progress with an attendance of 1,321 persons.	...
4	Delhi ...	...	1. Scarce ... 2. Canal closed during the week. 3. Fair.	Wheat, 8 seers ... Barley, 11½ seers. Gram, 11 seers. Jowar, 10½ seers. Maize, 10½ seers. Bajra, 10 seers.	Sowings of extra spring crops continued. Standing spring crops in good condition.	Ploughings for next autumn crops in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of: Spring.	Prospects of: Autumn.
5	Ambála ...	0·10 at Kasauli ...	1. Insufficient in Ambála, Jagádhri and Naráingarh tahsils. 2. Sufficient. 3. Generally in good condition except in some places in Ambála tahsil.	Wheat, 8½ to 9 seers. Gram, 11 to 11½ seers. Barley, 9¾ seers. Maize, 10 seers. Jowar, 10 seers. Bajra, 9½ to 10½ seers.	Rain wanted especially for crops sown after January rains.	Sowing of sugarcane in progress.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9¾ seers. Maize, 11½ seers. Gram, 11½ seers. Jowar, 10 seers. Gur, 7 seers.	Standing well crops fair; unirrigated below average.	...
7	Ludhiána ...	...	1. Sufficient ... 3. Satisfactory.	Wheat, 9½ seers. Maize, 12 seers. Barley, 11¾ seers. Gram, 11½ seers.	Rain wanted. Prospects of spring crops fair.	...
8	Ferozepore ...	...	1. Sufficient. Green fodder also available. 3. Good.	Wheat, 8½ seers. Barley, 14 seers. Gram, 11½ seers. Bajra, 13 seers. Maize, 12 seers.	Standing crops average.	Sugarcane sown in certain places.
9	Lahore ..	...	1. Sufficient, except in tahsil Sharakpur where Government rakhs have been opened for lopping. 3. Fair.	Wheat, 9 seers ... Gram, 12 seers. Maize, 11 seers. Bajra, 11 seers.	Extra spring crops being sown. Standing crops average. Rats damaging crops in parts of Chúnián and Kasúr tahsils. Opium crop average.	Lands being prepared for sugarcane and cotton.
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 8¼ seers. Gram, 11¾ seers. Barley, 14 seers. Jowar, 10½ seers. Maize, 11 seers. Bajra, 10 seers.	Toria (*brassica campestris*) being harvested. Condition of crops on irrigated and unirrigated lands average. Poppy crop on irrigated lands average.	...
11	Siálkot ...	...	1. Dry fodder insufficient. Green fodder procurable in small quantity. Sugarcane and kahi (*saccharum spontaneum*) used as fodder. 3. Cattle weak owing to want of fodder.	Wheat, 8¾ seers... Barley, 12½ seers. Gram, 10¾ seers. Rice, 5¾ seers.	Sowings of tobacco and vegetables continued. Condition of standing crops and expected yield average on irrigated and poor on unirrigated lands. Late sown crops withering for want of rain.	Sowings of sugarcane continue in irrigated parts of tahsil Pasrúr. Ploughings for cotton, sugarcane and melons in progress.
12	Gujránwála ...	A drizzle in tahsils Háfizabad and Wazirabad.	1. Scarce ... 3. Good.	Wheat, 8 to 10 seers. Gram, 11 to 12 seers. Maize, 12 seers. Bajra, 11 to 11½ seers.	Tobacco and vegetables being sown. Condition of crops fair on irrigated and below average on unirrigated lands.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	...	1. Scarce in the Khushâb tahsil. 3. Fair.	Wheat, $9\frac{5}{8}$ to 11 seers. Barley, 15 seers. Gram, 13 seers. Jowar, 11 seers. Bajra, Maize, } 12 seers.	Sowing of extra spring crops in progress in Shahpur tahsil. Standing crops in good condition in Shahpur and Khushâb tahsils, and fair elsewhere.	Ploughings for the coming autumn continue.
14	Râwalpindi ...	0·36 at Râwalpindi 0·10 at Gujar Khan. 0·33 at Kahûta.	1. Scarce in Gujar Khan and Kahûta tahsils. 3. Fair.	Wheat, $9\frac{3}{4}$ seers ... Barley, $12\frac{1}{2}$ seers. Bajra, $11\frac{1}{2}$ seers. Gram, $11\frac{3}{4}$ seers. Maize, 13 seers.	Condition of standing crops average on irrigated and below average on unirrigated lands.	...
15	Miânwâli ...	...	1. Scarce ... 3. Average.	Wheat, $10\frac{1}{16}$ seers Barley, $15\frac{1}{2}$ seers. Gram, 12 seers. Bajra, $12\frac{1}{2}$ seers.	Sowings of extra spring crops continued. Condition and expected yield of irrigated crops good and of unirrigated fair.	...
16	Lyallpur ...	...	1. Insufficient ... 2. Fair.	Wheat, 10 seers ... Gram, 13 seers. Jowar, 13 seers. Maize, 14 seers.	Vegetables being sown. Standing crops below average for want of rain and owing to canal closure.	Land being prepared for cotton and sugarcane.
17	Jhang ...	...	1. Insufficient ... 3. Fair.	Wheat, 9 seers ... Bajra, Maize, } 11 seers. Gram, Jowar, } 12 seers.	Condition of irrigated crops average and of unirrigated below average.	...
18	Multân ...	...	1. Scarce ... 3. Good.	Wheat, $10\frac{1}{4}$ seers Gram, $13\frac{3}{4}$ seers. Maize, 12 seers.	Sowings of extra spring crops continue. Condition of standing crops both on irrigated and unirrigated areas average.	...

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in Râwalpindi and in the hill tracts of Ambâla.

Prices.—Prices of food-grains are rising in 4 and falling in 3 districts but are still generally at or above scarcity rates except in Multân. Wheat is selling between scarcity and warning rates in Gurgaon and Miânwâli.

Agricultural operations.—Sowings of extra spring crops and ploughings for next autumn crops in progress. Sugarcane being sown in parts of Ambâla, Ferozepore and Siâlkot.

Crops and culture.—Condition of irrigated crops good to average, and of unirrigated crops below average. Opium crop average in Lahore and Amritsar. Late sown crops are withering for want of rain in Siâlkot.

Damage done to crops.—Rats damaging crops in parts of Lahore.

Pasturage.—Fodder scarce in Delhi, Siâlkot, Gujrânwâla, Miânwâli, Lyallpur, Multân, Jhang, and in parts of Gurgaon, Ambâla, Lahore, Shahpur and Râwalpindi. Also getting scarce in Rohtak. Sugarcane and kahi (*saccharum spontaneum*) being used as fodder in Siâlkot and leaves of trees in parts Gurgaon and Lahore.

Agricultural stock.—Cattle generally in good to fair condition. In Siâlkot cattle are weak for want of fodder.

Water-supply.—Canal closed during the week in Delhi.

Test-work.—1,321 persons attended the famine test-works in Gurgaon tahsil against 1,334 last week.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING DECEMBER 1907.

(a) Indeterminate.

Weather was unusually dry, and no rain whatever fell in the Punjab and the North-West Frontier Province. Four depressions passed into north-west India from the regions to the west, but only the first and last gave any precipitation, and that only in Kashmír.

Pressure and winds.—Pressure was normal or in excess: the largest excess occurred at Leh, thus showing that the vertical gradient was less steep than usual,—a feature in pressure distribution which is usually associated with dry weather. Winds were of about their average strength, and with a few exceptions fairly normal in direction: at Leh, however, the resultant wind direction was as in November exactly opposite to that usually prevalent.

Temperature.—The comparative absence of cloud had a marked influence on the temperature conditions, for at nearly every station while day temperature was higher than usual night temperature was in more or less marked defect. This is well exemplified in the case of Srinagar where the proportion of cloud was only 30 per cent. of that usual in December, and maximum temperature was nearly 5° above normal, while the minimum was no less than 7° below.

The mean of the maximum and minimum was on an average of all stations in the Punjab and North-West Frontier Province from 2° to 5° in defect during the period from the 18th to the 26th. It was nearly normal on most of the remaining days.

The following table shows the departures from the normal of the mean temperature of the Punjab and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and cloud.—The amount of cloud was everywhere considerably below the average, the deficiency at Srinagar amounting to nearly 70 per cent. The air was much drier than usual at most stations; and at Cherát the amount of moisture present was on an average of the whole month only 19 per cent. of that required for saturation.

Rainfall.—With the exception of two cents. of rain at Murree the only area which received any precipitation was Kashmír, and in that area only three stations received as much as a tenth of an inch.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for December 1907:—

Station.	Actual rainfall in December 1907.	Normal average rainfall in December.	Difference from the average in December 1907.

Snowfall Report.

The depth of snow at Murree (Rawalpindi district) during the month of January 1908 was measured 1 foot 3·22 inches.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

Supplementary notes on the condition and prospects of crops, etc., in the Jullundur, Gujrat and Rawalpindi districts in the Punjab during the month of January 1908, received too late for insertion in the Supplement to "Punjab Gazette," dated 28th February 1908.

JULLUNDUR DISTRICT.

Sowings of massar and barley on barani land in progress. Condition of chahi crops average; barani below average. Yield expected to be average. Cattle in good condition. The state of public health good. The timely fall of rain has greatly improved the rabi prospects.

GUJRAT DISTRICT.

The zamindars having taken advantage of the good rainfall of January, a considerable area has been brought under rabi crop during the month. Good rainfall of 11th January 1908 followed by some subsequent showers improved the condition of the standing crops, and the germination of crops recently sown is good. Condition of cattle generally good. Fodder cannot be said to be sufficient as yet. Public health good. Prices stationary.

RAWALPINDI DISTRICT.

Rain was general and has been beneficial to the rabi crops during this month, and further sowings were made. The condition of the standing crops on irrigated land was average, and that on unirrigated below average. Condition of cattle fair. Fodder scarce in Gujar Khan and Kahuta. No grazing available.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 3rd March 1908.

KASHI RAM, [illegible] DT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 22nd February 1908, there were 1,134 births registered in the 43 large municipal towns (595 males and 539 females), giving a birth rate of 41 *per mille* of population, and 987 deaths were registered (540 males and 447 females), giving a death rate of 35 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 34 against 47 in the corresponding week of the previous year; Lahore 38 against 49; Amritsar 45 against 34 and Multán 37 against 25. There were 18 deaths reported from plague in Rewári, 10 in Palwal, 3 in Shahabad, 2 in Ferozepore and 1 each in Ambála and Jhang-Maghiána. Of the 60 deaths from small-pox, 23 were registered in Amritsar, 10 in Lahore, 6 in Kasúr, 3 each in Jagraon and Batála, 2 each in Hissar, Jagádhri, Jullundur, Siálkot and Wazírabád, and 1 each in Bhiwáni, Jhajjar, Palwal, Shahabad and Gujrát.

Deaths reported from plague during the week ending 29th February 1908 in the districts including all municipal towns:— Hissar 40, Rohtak 92, Delhi 190, Karnál 125, Ambála 7, Hoshiárpur 43, Ludhiána 70, Ferozepore 18, Montgomery 25, Lahore 75, Amritsar 24, Gurdáspur 13, Siálkot 2, Gujránwála 5, Gujrát 1, Jhelum 7, Ráwalpindi 16, Jhang 3 and Lyallpur 40; Patiála State 133, Máler Kotla State 35, and Jínd State 17. Total for the province 981. Total for the previous week 819. Total for the corresponding week of the previous year 12,048.

Test work in progress at Ghamraj in Gurgaon tahsil with an attendance of 1,219 persons.	...
4	Delhi ...	...	1. Scarce ... 2. Canal closed during the week.	Wheat, 8 seers ... Barley, 12 seers. Gram, 11 seers. Jowar, 10½ seers. Bajra, 10 seers. Maize, 11 seers.	Sowings of extra spring crops continue. Standing crops in good condition.	Ploughings for next autumn crops in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
5	Ambála ...	...	1. Insufficient in Ambála, Jagádhri and Naráingarh tahsils. 2. Sufficient. 3. Generally good.	Wheat, 8¼ to 8¾ seers. Gram, 11 to 11½ seers. Barley, 9¾ seers. Maize, 10¾ seers. Jowar, 10¼ seers. Bajra, 9¾ seers.	Rain badly wanted.	Sowing of sugarcane in progress.
6	Jullundur ...	...	1. Sufficient ... 3. Cattle suffering from overwork.	Wheat, 9½ seers... Maize, 10½ seers. Gram, 11 seers. Jowar, 10 seers. Gur, 7 seers.	Sowings of extra spring crops commenced. Standing well crops fair; unirrigated below average. Rain badly wanted.	...
7	Ludhiána ...	...	1. Sufficient ... 3. Satisfactory.	Wheat, 9¼ seers Barley, 11½ seers. Maize 11¾ seers. Gram, 11½ seers.	Rain badly wanted Onion being planted. Irrigated crops fair; unirrigated crops, especially those sown after 1st January, below average.	Sowings of sugarcane in progress.
8	Ferozepore ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8½ seers Barley, 14 seers. Gram, 11½ seers Jowar, 10 seers. Bajra, 13 seers. Maize, 12 seers.	Extra spring crops being sown Standing crops average.	Sugarcane sown in certain places.
9	Lahore ..	...	1. Sufficient, except in tahsil Sharakpur where Government rakhs have been opened for lopping. 3. Fair.	Wheat, 10 seers .. Gram, Maize, } 12 seers. Bajra, 11 seers.	Extra spring crops being sown. Standing irrigated crops average; unirrigated crops withering. Rats damaging crops in parts of Chúnián. Opium crop average.	Land being prepared for cotton and sugarcane.
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 8¾ seers Gram, 12 seers. Barley, 14 seers. Jowar, 10¼ seers. Maize, 11 seers. Bajra, 11 seers.	Toria (*brassica campestris*) being harvested. Extra spring crops being sown. Condition of crops on irrigated and unirrigated land average. Poppy crop average on irrigated area.	...
11	Siálkot ...	...	1. Dry fodder insufficient. Green fodder procurable in small quantity. Kahi (*sacckarum spontaneum*) used as fodder in the Raya and Siálkot tahsils 3. Cattle weak for want of fodder.	Wheat, 9½ seers... Barley, 12¼ seers Gram, 10¾ seers. Rice, 6¾ seers.	Rain badly wanted. Sowings of extra spring crops continue in some parts. Condition of standing crops average on irrigated and poor on unirrigated lands. Late sown crops withering for want of rain and heavy winds.	Sugarcane being sown in irrigated parts of tahsil Pasrúr. Ploughings for cotton and sugarcane in progress.
12	Gujránwála ...	...	1. Scarce ... 3. Good.	Wheat, 8 to 10 seers. Barley, 11¾ to 12½ seers. Maize, 11½ seers. Bajra, 11 seers.	Sowings of extra spring crops in progress. Condition of irrigated crops fair; unirrigated poor.	...

No.	Reporting station	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee	Prospects of Spring	Prospects of Autumn.
13	Shahpur ...	...	1. Scarce in the Khushab tahsil. 3. Fair.	Wheat, 9½ to 10½ seers. Barley, 15 seers. Gram, 12½ seers. Jowar, 11 seers. Bajra, Maize, } 12 seers.	Sowings of extra spring crops in progress in Shahpur tahsil. Standing crops in good condition in Shahpur and Khushab tahsils, fair elsewhere.	Ploughings for autumn crops in progress.
14	Rawalpindi ...	0·17 at Sadr ... 0·10 at Gujar Khan. 0·06 at Kahuta. 0·82 at Murree.	1. Scarce in Gujar Khan and Kahuta tahsils. 3. Fair.	Wheat, 9 seers ... Barley, 11½ seers. Bajra, 12 seers. Gram, 11½ seers. Maize, 13¼ seers.	Condition of standing crops average on irrigated and below average on unirrigated lands.	...
15	Mianwali ...	0·05 at Sadr ... 0·06 at Isa Khel.	1. Scarce ... 3. Average.	Wheat, 10 seers ... Barley, 16 seers. Gram, 13 seers. Bajra, 10 seers.	Sowings of extra spring crops in progress. Condition and expected yield of irrigated crops good and of unirrigated fair. Cold winds caused damage to crops.	...
16	Lyallpur ...	...	1. Insufficient ... 2. Canal working by rotational closures.	Wheat 10 seers ... Gram, Jowar, Maize, } 13 seers.	Extra spring crops being sown. Standing crops below average for want of rain and on account of canal working by rotational closures.	Land being prepared for cotton and sugarcane.
17	Jhang ...	...	1. Insufficient ... 3. Fair.	Wheat, 10 seers ... Bajra, Maize, } 11 seers. Jowar, Gram, } 12 seers.	Condition of irrigated crops average and of unirrigated below average.	
18	Multan ...	...	1. Scarce ... 3. Good.	Wheat, 10¼ seers. Gram, 13½ seers. Maize, 12¼ seers.	Extra spring crops being sown. Condition of standing crops both on irrigated and unirrigated areas average.	...

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in Rawalpindi and parts of Mianwali.

Prices.—Prices of food-grains are rising in 6 and falling in 5 districts, but are still generally at or above scarcity rates except in Multan.

Agricultural operations.—Sowings of extra spring crops and ploughings for next autumn crops in progress. Sugarcane being sown in Ambala, Ludhiana, and parts of Rohtak, Ferozepore and Sialkot.

Crops and outturn.—Condition of irrigated crops good to average, and of unirrigated average to poor. Opium crop average in Lahore and Amritsar. Rain badly wanted.

Damage done to crops.—Crops are withering for want of rain and heavy winds in Gurgaon, Lahore, Sialkot and Mianwali. Rats are damaging crops in parts of Lahore.

Pasturage.—Fodder scarce in Delhi, Sialkot, Gujranwala, Mianwali, Lyallpur, Jhang, Multan, and in parts of Gurgaon, Ambala, Lahore, Shahpur and Rawalpindi. Also getting scarce in Rohtak. Kahi (*saccharum spontaneum*) being used as fodder in parts of Sialkot and leaves of trees in parts of Gurgaon and Lahore.

Agricultural stock.—Condition of cattle generally good to fair. Cattle are weak from over-work in Jullundur and for want of fodder in Sialkot.

Water-supply.—Canal closed during the week in Delhi and is running by rotational closures in Lyallpur. Canal water-supply is badly wanted in many districts.

Test-work.—1,219 persons attended the famine test-works in Gurgaon tahsil against 1,321 last week.

KANSHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SEVENTY-EIGHT THOUSAND TWO HUNDRED AND SEVENTY-EIGHT births were registered in the province during the month of January 1908, giving a birth rate of 46 *per mille* of population. Of the total number of births, 40,854 were boys and 37,424 were girls.

The total number of deaths registered from all causes in the province during the month of January 1908 was 73,677 against 76,728 in the previous month and 77,599 in the corresponding month of the past year, giving an annual death rate of 43, 45 and 45 *per mille* of population per annum respectively.

There was not a single death registered under the head of cholera.

The total mortality from plague amounted to 1,173 against 1,103 in the previous month and 17,633 in the corresponding month of the past year.

From small-pox 2,268 deaths were registered against 1,493 in the previous month and 1,041 in the corresponding month of the past year; fevers 45,692 against 49,695 and 40,608; dysentery and diarrhœa 1,043 against 1,263 and 1,222; respiratory diseases 8,659 against 8,141 and 5,667. During the month there were 26 deaths registered from suicide against 10 in the past month; wounding 48 against 26; accidents 292 against 294; snake-bite and killed by wild beasts 10 against 25; and from all other causes 14,466 against 14,672 in the previous month and 11,143 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 10th March 1908.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

ANITARY COMMISSIONER'S OFFICE,
LAHORE :
The 11th March 1908.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 29th February 1908, there were 885 births registered in the 42 large municipal towns (450 males and 435 females), giving a birth rate of 36 *per mille* of population, and 782 deaths were registered (430 males and 352 females), giving a death rate of 32 *per mille* of population. The death rates registered in the following largest towns were :—Delhi 30 against 54 in the corresponding week of the previous year; Lahore 36 against 58; and Multán 43 against 22. There were 44 deaths reported from plague in Rewári, 11 in Palwal, 8 in Shahabad, 2 each in Ambála and Jhang-Maghiána, and 1 each in Ferozepore, Gujránwála and Chiniot. Of the 49 deaths from small-pox, 18 were registered in Lahore, 6 in Kasúr, 5 in Jagádhri, 3 each in Shahabad and Multán, 2 each in Hissar, Hánsi, Batála and Siálkot, and 1 each in Rohtak, Jhajjar, Jullundur, Ferozepore, Gujrát and Dera Gházi Khan.

Deaths reported from plague during the week ending 7th March 1908 *in the districts including all municipal towns* :—Hissar 11, Rohtak 93, Gurgaon 346, Delhi 184, Karnál 115, Ambála 21, Hoshiárpur 16, Ludhiána 123, Ferozepore 20, Montgomery 38, Lahore 38, Amritsar 37, Gurdáspur 2, Siálkot 3, Gujránwála 5, Jhelum 2, Ráwalpindi 11, Jhang 6 and Lyallpur 14; Patiála State 74, Máler Kotla State 88, Jínd State 19, Nábha State 7, and Baháwalpur State 4. Total for the province 1,277. Total for the previous week 1,314. Total for the corresponding week of the previous year 14,651.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

C. R. HOSKYN,
Chief Auditor and Accountant.

Punjab Government Press, Lahore—13.3 08—916.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, MARCH 20, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 16TH MARCH 1908.

[Eighteen out of 20 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Fodder getting scarce in certain tracts. 3. Good.	Wheat, 8 seers ... Bajra, 10¼ seers. Gram, 12 seers. Bejhar, 13 seers.	Prospects of irrigated crops good; unirrigated crops in Fatahabad and Sirsa tahsils fair.	...
2	Rohtak ...	...	1. Fodder getting scarce. Old fodder generally used for cattle. 2. Large supply of canal water badly needed. 3. Good.	Wheat, 9 seers ... Gram, 11 seers. Jowar, 11 seers. Maize, 10½ seers	Condition of irrigated crops good. Rain badly wanted. Strong westerly winds slightly damaged the crops.	Sowing of sugarcane in progress in Sámpla tahsil.
3	Gurgaon ...	...	1. Sufficient for present needs in Gurgaon and Rewári tahsils but scarce in other tahsils where cattle were being fed on leaves of trees, &c.	Wheat, 7¼ to 9 seers. Barley, 11¼ to 13 seers. Gram, 11¼ to 12½ seers. Bajra, 9½ to 11 seers. Maize, 10 to 12 seers.	Standing crops in good condition. Outturn of irrigated crops expected to be good, and of unirrigated fair. A little damage done to standing crops by strong winds. Test work in progress at Ghamrauj in Gurgaon tahsil with an attendance of 1,235 persons.	...
4	Delhi ...	...	1. Scarce ... 2. Canal closed during the week.	Wheat, 8½ seers Barley, 12 seers. Gram, 11 seers. Jowar, 11 seers. Bajra, 10 seers. Maize, 11 seers.	Sowings of extra spring crops continue. Standing crops in good condition. Late sown crops slightly damaged by winds.	Ploughings for next autumn crops in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Insufficient in Ambála, Jagádhri and Naráingarh tahsils. 2. Sufficient. 3. Generally good.	Wheat, 8¾ to 9 seers. Gram, 10¾ to 11 seers. Barley, 9¾ seers. Maize, 10¾ seers. Jowar, 10¼ seers. Bajra, 9½ seers.	Late sown crops have suffered from drought. Rain badly wanted for all standing crops.	Sowing of sugarcane in progress in Naráingarh Rúpar tahsils.
6	Jullundur ...	...	1. Sufficient ... 3. Cattle suffering from overwork.	Wheat, 8½ seers... Maize, 10 seers. Gram, 10½ seers. Jowar, 10 seers. Gur, 7 seers.	Sowings of extra spring crops continue. Standing well crops fair; unirrigated below average. Rain badly wanted.	...
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers Barley, 11½ seers. Maize 11¼ seers. Gram, 11¼ seers.	Rain badly wanted. Condition of irrigated crops fair; unirrigated crops inferior, especially those sown after 1st January.	Sugarcane being sown.
8	Ferozepore ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8½ seers Barley, 14 seers. Gram, 11½ seers Jowar, 10 seers. Bajra, 13 seers. Maize, 12 seers.	Extra spring crops being sown in some places. Standing crops average. Gram slightly damaged by frost.	Sowings of sugarcane in progress.
9	Lahore ...	...	1. Pasture insufficient, but stocked fodder available. 3. Fair.	Wheat, 11 seers ... Gram 12 seers. Maize, 12 seers.	Sowings of extra spring crops in progress. Standing irrigated crops average; unirrigated withering. Rats damaging wheat in parts of the district. Opium crop average.	Sugarcane being sown.
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers Gram, 11¾ seers. Barley, 13¼ seers. Jowar, 10½ seers. Maize, 10 seers. Bajra, 11 seers.	Toria (*brassica campestris*) being reaped. Extra spring crops being sown. Condition of irrigated crops average; unirrigated bad. Poppy crop on irrigated area average.	...
11	Siálkot ...	...	1. Dry fodder insufficient. Green fodder procurable in small quantities. Kahi (*saccharum spontaneum*) used as fodder in the Siálkot and Raya tahsils. 3. Cattle weak for want of fodder.	Wheat, 9½ seers... Barley, 12 seers Gram, 11½ seers. Rice, 5½ seers.	Rain badly wanted. Sowings of extra spring crops continue. Condition of standing crops average on irrigated and poor on unirrigated lands. Late sown crops have withered for want of rain.	Ploughings for and sowings of sugarcane and cotton continue.
12	Gujránwála ...	...	1. Scarce ... 3. Good.	Wheat, 8 to 10 seers. Barley, 16 seers. Gram, 11¾ to 12½ seers. Maize, 11½ seers. Bajra, 11 seers.	Sowings of extra spring crops in progress. Condition of irrigated crops fair; unirrigated poor. Prospects not too good for want of rain.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
13	Shahpur ...	...	1. Scarce in Khushâb tahsil. 3. Fair.	Wheat, 9½ to 10½ seers. Barley, 15 seers. Gram, 12½ seers. Baira, 11 seers. Jowar, 11 seers. Maize, 12 seers.	Sowings of extra spring crops in progress in Shahpur and Sargodha tahsils. Condition of standing crops good in Khushâb and in the irrigated tracts of Shahpur tahsil; fair in Sargodha tahsil; and poor over the unirrigated part of Bhera tahsil. Rats damaging wheat in Bhera and Sargodha tahsils.	Cotton and sugarcane being sown in Shahpur tahsil. Ploughings for autumn crops continue.
14	Râwalpindi ...	...	1. Scarce in Gujar Khan and Kahúta tahsils. 3. Fair.	Wheat, 8½ seers... Barley, 13 seers. Bajra, 11½ seers. Gram, 11½ seers. Maize, 12 seers.	Condition of standing crops average on irrigated and below average on unirrigated lands.	...
15	Miánwáli ...	...	1. Scarce ... 3. Average.	Wheat, 9½ seers... Barley, 14 seers. Gram, 13 seers. Bajra, 12 seers.	Condition and expected yield of irrigated crops fair; unirrigated average. Cold winds damaged gram, peas and masar.	...
16	Lyallpur ...	...	1. Insufficient ... 2. Canals working by rotational closures, and a general complaint of insufficiency of canal water.	Wheat, 9½ seers... Gram, 13 seers. Jowar, 12 seers. Maize, 12 seers.	Extra spring crops being sown. Standing crops below average for want of rain and on account of canal working by rotational closures.	Land being prepared for cotton and sugarcane.
17	Jhang ...	...	1. Insufficient ... 3. Fair.	Wheat, 10 seers ... Bajra, 11 seers. Maize, 12 seers. Jowar, 12 seers. Gram, 12 seers.	Irrigated crops average; unirrigated bad.	...
18	Multán ...	...	3. Good ...	Wheat, 9½ seers... Gram, 13 seers. Maize, 12½ seers.	Sowings of extra spring crops continue. Condition of crops below average both on irrigated and unirrigated areas. Wheat and matar crops partly damaged by the recent severe cold.	...

GENERAL REMARKS.

Rainfall.—Nil.

Prices.—Prices of food-grains are rising in 8 and falling in 3 districts, but are still generally at or above scarcity rates. In Lahore and Multán wheat selling between warning and scarcity rates.

Agricultural operations.—Sowings of extra spring crops and ploughings for the next autumn crops in progress. Sugarcane being sown in Ludhiána, Lahore, parts of Rohtak, Ambála, Ferozepore, Siálkot and Shahpur. In the two last named districts cotton also being sown.

Crops and outturn.—Condition of irrigated crops generally good to average, and of unirrigated average to poor. Opium crop average in Lahore and Amritsar. Rain badly wanted.

Damage done to crops.—Unirrigated crops, especially late sown, suffering from drought. Rats damaging wheat in parts of Lahore and Shahpur. Crops slightly damaged by strong winds in Rohtak, Gurgaon, Delhi and Miánwáli, and by severe cold in Ferozepore and Multán.

Pasturage.—Fodder scarce in Delhi, Lahore, Siálkot, Gujránwála, Miánwáli, Lyallpur, Jhang, and parts of Gurgaon, Ambála, Shahpur and Ráwalpindi. Also getting scarce in Hissar and Rohtak. Kahi (*saccharum spontaneum*) being used as fodder in parts of Siálkot, and leaves of trees in parts of Gurgaon.

Agricultural stock.—Cattle generally in good to fair condition. In Jullundur cattle weak from overwork, and in Siálkot for want of fodder.

Water-supply.—Canal closed during the week in Delhi and running by rotational closures in Lyallpur where there is a general complaint of insufficiency of canal water-supply. A larger supply of canal water badly wanted in Rohtak.

Test-work.—1,235 persons attended the famine test-works in Gurgaon tahsil against 1,219 last week.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

(a) Indeterminate.

A number of depressions entered north-west India during the month, but only one was important from a rain-producing point of view; the others though causing cloud gave only light precipitation, and that chiefly in Kashmír. The rainfall in the North-West Frontier Province and the Punjab shown in the table at the end was almost entirely due to the storm which entered Sind on the 9th. In its passage across north-west India it gave rise to a deep secondary depression in the south-west Punjab on the 10th, and the combined action of these two disturbances resulted in rainfall in all parts of the North-West Frontier Province and the Punjab and snowfall in Kashmír; a well marked cold wave followed this storm, the effects of which were shown chiefly in reducing the day temperature. During the rest of the month weather was dry except for occasional snow showers in Kashmír and a few falls of rain in the submontane districts of the west Himalayas.

Pressure and winds.—Pressure was generally in slight excess, but the relatively high pressure in the hills, shown last month, had almost disappeared. Winds were fairly normal in strength, but at Sirsa and Lahore they were more southerly than usual, at Ráwalpindi more easterly, and at Srinagar and Leh more northerly.

Temperature.—In the hill districts on the mean of the whole month maximum and minimum temperatures were both higher than usual, especially in Kashmír; in the plains the maximum was approximately normal, while the minimum was in excess.

The following table shows the departures from the normal of the mean temperature of the Punjab and the North-West Frontier Province on each day of the month, and the lowest minimum temperature registered in the plains with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours	Lowest minimum temperature recorded in the plains during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Lowest minimum temperature recorded in the plains during the previous 24 hours.	Station at which registered.

" 16th ...	−2·1	35·6	Do				

The effects of the cold wave referred to above are shown in the preceding table from the 11th to the 18th; the lowest temperatures having been recorded on the 12th. During the rest of the month mean temperature was in excess, especially from the 21st to the 25th. The lowest night temperature registered in the plains was 30·6° reported from Dera Ismail Khan on the 12th.

Humidity and cloud.—The air was drier than usual except at a few stations, but the amount of cloud was approximately equal to the average.

Rainfall.—In the Punjab the only stations where the rainfall of the month was above the average were Delhi, Ludhiána, Lahore and Khusháb, and in Kashmír precipitation was everywhere in defect. In the North-West Frontier Province on the contrary rainfall was very much in excess and was nearly three times the normal amount, the excess being most striking at Dera Ismail Khan where 2·63″ were recorded as compared with the normal fall of only 0·44″.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for January 1908:—

Station.	Actual rainfall in January 1908.	Normal average rainfall in January.	Difference from the average in January 1908.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Snowfall Report.

The depth of snowfall at Dalhousie (Gurdaspur district) was measured 8 feet 7 inches during the month of February 1908.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of February 1908.

1.—HISSAR DISTRICT.

PROSPECTS of irrigated crops good. Unirrigated rabi crops sown in the Fatahabad and Sirsa tahsils in fair condition. Rain is urgently required to invigorate the standing crops. Fodder sufficient. Cattle in good condition. Canal water-supply is utterly insufficient for the irrigated crops, and town tanks are reeking with stagnant water and threatening the health of townspeople. More water is wanted badly. If tanks are not filled soon, an epidemic is seriously feared. General health of the people good.

2.—ROHTAK DISTRICT.

Standing nahri and chahi crops fair. Rain badly wanted. Yield in nahri and chahi crops expected to the fair. Cattle generally in good condition. Canal supply ordinary, but in Gohána tahsil there are complaints of insufficient supply.

3.—GURGAON DISTRICT.

Good rain fell throughout the district which benefited the standing crops. Tobacco and onions were planted, and zira (cummin seed) sown. Standing crops in good condition. Rain needed, especially for barani crops. Outturn expected to be good. Cattle in fair condition. Fodder sufficient for present needs in Gurgaon and Rewari tahsils, but not in other tahsils where cattle were being fed on green leaves of trees, &c. Canal water used during the month, but the supply was reported to be insufficient in the Palwal tahsil. Test work at Ghamrauj in the Gurgaon tahsil was in progress.

4.—DELHI DISTRICT.

Ploughings for next kharif and sowings of extra rabi crops in progress. Condition of standing rabi crops good. Pressing of sugarcane in progress. Outturn of sugarcane, vegetables and fruits average. Public health generally good. Canal supply insufficient. Canal closed for the greater part of the month. Fodder scarce.

5.—KARNAL DISTRICT.

Very little sowings of china, onions and tobacco in Kaithal and Gulah tahsils. Condition of irrigated crops good to average. Unirrigated crops in need of rains. Yield of cane average There is scarcity of fodder to some extent. Leaves of trees used for fodder, but methi (trigonella fœnum græcum) is now available. In the Kaithal tahsil water in ponds has begun to diminish. General health of the public on the whole good. Sirhind and Western Jumna canals running, but were short of water. Sarusti and Ghaggar streams and river Jumna have flooded to some extent, but no area has been watered. Necessity for rains is being keenly felt. Condition of crops average.

6.—AMBALA DISTRICT.

The rainfall on 1st and 2nd of February did much good to the standing rabi crops. Those sown after the January rains germinated with the help of the rainfall in February, but more rain is badly wanted to mature the late sown crops. Sugarcane has largely been sown during the month and is being sown still. Cattle generally in fair condition, but fodder is not sufficient now in many places. There is no complaint about insufficiency of canal water. General health of people good on the whole.

7.—SIMLA DISTRICT.

Rainfall in both tahsils sufficient. Condition of cattle good. Fodder and grazing sufficient. Public health good. In the Simla tahsil water-supply in hill streams insufficient; in the Kot Khai tahsil sufficient.

8.—KANGRA DISTRICT.

Nothing can be said for certain as yet about the condition of crops except that rains are needed. Condition of cattle is fair. Public health is generally good. Water in the kuhls (water streams) sufficient for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

Sowings of sugarcane, cotton and extra rabi crops began in parts of the district during the month. Mango trees commenced flowering abundantly. Condition of the rabi crops sown in November is so far good. Crops sown with the rainfall in January have germinated well, but their growth is stunted for want of further rain. Outturn of rabi crops on the whole expected to be far below the average unless it rains, in which case outturn will be about average. Nothing can at present be said of the extra rabi crops and the sugarcane and cotton crops sown during the month. Mango crop expected to be good. Condition of cattle good. Fodder sufficient. State of public health satisfactory. Irrigation from wells and hill torrents will commence after the 1st fortnight. Some irrigation done from the Shah Nahr during the month, the water-supply of which was ample.

10.—JULLUNDUR DISTRICT.

Sowings of vegetables on chahi lands in progress. Condition of chahi crops average; barani below average. Expected yield below average. Cattle in fair condition, but begininng to feel effects of overwork and bad fodder. Public health good. Rain very badly wanted. Unirrigated crops withering. It will be difficult to fully irrigate all the well-irrigated area.

11.—LUDHIANA DISTRICT.

Sowings of sugarcane, onions and vegetables in progress. Irrigated crops in fair condition. Barani crops, especially those sown after 1st January, below average. Yield of potatoes and vogetables good, and that of sugarcane average. Expected yield of barani rabi crops below everage. Condition of cattle good. Fodder sufficient. State of public health on the whole satisfactory. Irrigation from canals fairly satisfactory.

12.—FEROZEPORE DISTRICT.

Sugarcane was sown in certain places during the month. Condition of standing crops average. Cattle generally in a good condition. Public health generally good. The Sirhind canal had been flowing during the month, and irrigated the normal area. Agriculturists are generally well off. Stocks of food-grains and fodder sufficient. Green fodder available, but not abundantly.

13.—MONTGOMERY DISTRICT.

Owing to the absence of rains the condition of crops has changed. The outturn will be average unless it rains. Condition of cattle good. Fodder becoming scarce. Canals are dry. There is little water in the rivers, and there has, therefore, been no irrigation from them.

14.—LAHORE DISTRICT.

Rabi crops were irrigated. Some extra rabi crops were sown, and lands prepared for cotton and sugarcane. Standing crops in average condition. Expected yield about the average. Condition of cattle fair, except in tahsil Sharakpur where fodder is insufficient and Government rakhs have been opened for lopping. Public health fair. The perennial canals ran by turns.

15.—AMRITSAR DISTRICT.

Rainfall in Amritsar and Ajnála tahsils in the early part of the month benefited the standing crops. Further rains required for maturity of rabi crops. Onions, vegetables and tobacco were sown on irrigated lands. Irrigated crops average; unirrigated below average. Sugarcane pressings in progress with average yield. It is early to form an estimate of the outturn of wheat and other rabi crops, but may be expected to be average on irrigated and below average on barani areas. Cattle in good condition. Fodder sufficient. Public health generally good. Canal water-supply insufficient. Stock of grain sufficient with grain-dealers, but running short with zamindars.

16.—GURDASPUR DISTRICT.

Irrigated crops in Patháṅkot good; in Batála and Gurdáspur average. The unirrigated crops are suffering for want of rain. Yield expected to be average in chahi, nahri and riverain tracts, and below average in unirrigated lands. Cattle are weak in Gurdáspur

and Shakargarh tahsils, and are in good condition in the Pathánkot tahsil. Fodder scarce throughout. Public health generally good. Slight irrigation from private kuhls (water-streams) in Pathánkot tahsil. Rain wanted.

17.—SIALKOT DISTRICT.

Sowings of goji (wheat and gram mixed), barley and vegetables continued. Ploughings for sugarcane and melons in progress. In the beginning of the month the condition of standing crops was generally good, but on account of heavy winds and want of rain the crops are withering. Pressing of sugarcane continued. Yield average in irrigated and poor on barani lands. Cattle are getting feeble by overwork and scarcity of fodder. Public health generally good.

18.—GUJRANWALA DISTRICT.

Extra rabi sowings in progress. Sugarcane was sown. Condition of crops in irrigated area fair and on barani poor. Yield is expected to be normal. Prospects would improve if it rained. Condition of cattle good. Canal water sufficient. Zamindars have not sufficient grain for food.

19.—GUJRAT DISTRICT.

Early sown crops are so far in fair condition, but those sown in January are withering for want of rain. More rain badly needed. Cattle generally in good condition. Scarcity of fodder still reported. Public health good.

20.—SHAHPUR DISTRICT.

Sowings of tobacco, melons and vegetables continued in Bhera, Shahpur and and Sargodha tahsils. Standing crops in good condition in Shahpur and Khusháb, and fair in Sargodha and Bhera. Expected yield average. Cattle in fair condition. Fodder scarce in Khusháb tahsil; sufficient elsewhere. Public health good. The Lower Jhelum canal continued to flow.

21.—JHELUM DISTRICT.

Light showers were received nearly all over the district on the 1st and 2nd of the month. The rabi sowings were completed at the end of 1st week of this month. Rabi crops are generally good except those sown late, *i.e.*, in January and 1st week of February 1908. Cattle in good condition. Fodder sufficient. Public health generally good.

22.—RAWALPINDI DISTRICT.

Statement returned for corrections.

23.—ATTOCK DISTRICT.

Condition of irrigated crops good, and that of unirrigated fair. Condition of cattle generally good. State of public health good.

24.—MIANWALI DISTRICT.

Sowings of extra rabi crops were in progress. Condition and expected yield of irrigated and unirrigated crops good. Fodder scarce. Cattle in fair condition.

25.—LYALLPUR DISTRICT.

No rain. Melons and zaid rabi sowings commenced. There is a good deal of wheat still requiring irrigation. Some is withering. Irrigated wheat below average. Sugarcane pressings nearly completed. Cattle in good condition. Want of fodder is felt in parts of Samundri tahsil. Canal running by rotational turns.

26.—JHANG DISTRICT.

Sowings of vegetables in progress in tahsil Shorkot. Condition of irrigated crops average, and that of unirrigated below average. Rain is badly wanted. Condition of cattle fair. Fodder scarce. Complaints of insufficiency of water in tahsil Chiniot and on the tail of the Chenab canal in tahsil Shorkot. In tahsil Jhang canals were closed for a few days, but are working again. Insufficiency of water in the canals is complained of. Water in the rivers low. Scarcity prevails throughout the district.

27.—MULTAN DISTRICT.

Extra rabi sowings continued. Condition of standing rabi crops average both on irrigated and unirrigated area. Condition of cattle fair. Health of people good. Inundation and Sidhnai canals dry. Fodder insufficient.

28.—MUZAFFARGARH DISTRICT.

Sugarcane, tobacco and vegetables sown during the month. Condition of crops average. Yield expected to be average. Condition of cattle fair. Public health good. Canals are dry. Fodder insufficient. There is scarcity of bhusa specially.

29.—DERA GHAZI KHAN DISTRICT.

Nothing is being sown except vegetables. Condition of crops good. Yield expected to be good, but depends mainly on timely rains. Condition of cottle good. State of public health good.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 16th March 1908.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 7th March 1908, there were 1,045 births registered in the 43 large municipal towns (540 males and 505 females), giving a birth rate of 37 *per mille* of population, and 1,027 deaths were registered (556 males and 471 females), giving a death rate of 37 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 37 against 70 in the corresponding week of the previous year; Lahore 48 against 79; Amritsar 39 against 51; and Multán 36 against 22. There were 38 deaths reported from plague in Rewári, 12 in Palwal, 6 in Ferozepore, 3 in Shahabad, 2 each in Gujránwála and Jhang-Maghiána, and 1 in Ambála. Of the 82 deaths from small-pox, 25 were registered in Lahore, 12 in Amritsar, 6 in Jhajjar, 5 each in Shahabad and Jagádhri, 4 in Multán, 3 each in Jagraon, Kasúr and Batála, 2 each in Hissar, Bhiwáni, Jullundur, Siálkot, Gujránwála and Ráwalpindi, and 1 each in Hánsi, Kaithal, Hoshiárpur and Gujrát.

Deaths reported from plague during the week ending 14th March 1908 in the districts including all municipal towns :—Rohtak 75, Gurgaon 404, Delhi 195, Karnál 133, Ambála 23, Jullundur 2, Ludhiána 95, Ferozepore 22, Montgomery 47, Amritsar 44, Gurdáspur 4, Siálkot 3, Gujránwála 7, Gujrát 3, Ráwalpindi 18, Jhang 64 and Lyallpur 53; Patiála State 248, Máler Kotla State 88, Jínd State 32, Nábha State 37, and Baháwalpur State 13. Total for the province 1,610. Total for the previous week 1,277. Total for the corresponding week of the previous year 19,574.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, MARCH 27, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 23RD MARCH 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Fodder getting scarce in Bhiwáni tahsil. 3. Good.	Wheat, 8 seers ... Bajra, 10 seers. Gram, 11½ seers. Bejhar, 12 seers.	Prospects of irrigated crops good; unirrigated crops in Fatahabad and Sirsa tahsils fair.	...
2	Rohtak ..	...	1. Fodder getting scarce. Old fodder used for cattle. 2. Larger supply of canal water wanted in tahsils Sámpla and Guhána. 1. Good.	Wheat, 9 seers ... Gram, 11¾ seers. Jowar, 11 seers. Maize, 1[illegible] seers.	Prospects of irrigated crops good. Barley being harvested in tahsil Jhajjar.	Sowings of sugarcane continue.
3	Gurgaon ...	...	1. Sufficient for present needs in Gurgaon and Rewári tahsils but scarce in other tahsils where cattle being fed on leaves of trees, &c.	Wheat, 7¾ to 9¾ seers. Barley, 11¾ to 14 seers. Gram, 10½ to 12 seers. Bajra, 10½ to 12 seers. Maize, 10 to 12 seers.	Barley and sarshaf (rapeseed) being cut. Standing crops in good condition. Outturn of irrigated crops expected good, and of unirrigated fair. Some damage done to standing crops by strong winds. Test work in progress at Ghamrauj with an attendance of 851 persons.	...
4	Delhi ..	...	1. Scarce ... 2. Canal flowed during the week.	Wheat, 8 seers. Barley, 11½ seers. Gram, 10½ seers. Jowar, 10½ seers. Bajra, 9½ seers. Maize, 10 seers.	Extra spring crops being sown. Standing crops in good condition. Sarshaf (rapeseed) and barley being reaped.	Ploughings for next autumn crops continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Insufficient in Ambála, Jagádhri and Naráingarh tahsils. 2. Sufficient. 3. Generally good.	Wheat, 8¾ to 9 seers. Gram, 10½ to 11 seers. Barley, 9¾ seers. Maize, 10¾ seers. Jowar, 10¼ seers. Bajra, 9¾ seers.	Rain badly wanted for all standing crops.	Sowing of sugarcane in progress in Rúpar tahsil.
6	Jullundur ...	...	1. Sufficient ... 3. Cattle suffering from overwork.	Wheat, 8¼ seers... Maize, 10 seers. Gram, 10½ seers. Jowar, 10 seers. Gur, 7 seers.	Sowings of extra spring crops continue. Standing well crops fair; unirrigated bad. Rain badly wanted.	...
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 8¾ seers. Maize, 10¼ seers. Barley, 12½ seers. Gram, 11¼ seers.	Rain badly wanted. Irrigated crops fair; unirrigated inferior, especially those sown after 1st January.	Sownings of sugarcane continue.
8	Ferozepore ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8½ seers. Barley, 14 seers. Gram, 11 seers. Jowar, 10 seers. Bajra, 13 seers. Maize, 12 seers.	Extra spring crops being sown in some places. Standing crops average.	Sowings of sugarcane in progress.
9	Lahore ...	...	1. Pasture insufficient, but dry fodder available. 3. Fair.	Wheat, 10 seers. Gram, 12 seers. Maize, } Bajra, } 11 seers.	Extra spring crops being sown. Irrigated standing crops below average; unirrigated bad. Rats damaging the wheat crop. Opium crop average.	Sowings of cotton and of sugarcane in progress.
10	Amritsar ...	0·02 at Ajnála ...	1. Sufficient ... 3. Fair.	Wheat, 8¾ seers. Gram, 11¾ seers. Barley, 14½ seers. Jowar, 11 seers. Maize, 10 seers. Bajra, 12 seers.	Extra spring crops being sown. Condition of crops average on irrigated and bad on unirrigated areas. Poppy crop on irrigated area average.	...
11	Siálkot ...	...	1. Dry fodder insufficient. Green fodder procurable in small quantities. Kahi (*saccharum spontaneum*) and sar (*saccharum ciliare*) used as fodder in the Siálkot and Raya tahsils. 3. Cattle weak owing to overwork and want of fodder.	Wheat, 8½ seers... Barley, 12¼ seers. Gram, 11½ seers. Rice, 6 seers.	Rain badly wanted. Sowings of extra spring crops continue. Condition of standing crops average on irrigated and poor on unirrigated lands. Late sown crops withered for want of rain.	Ploughings for and sowings of cotton and sugarcane in progress.
12	Gujránwála ...	...	1. Scarce ... 3. Good.	Wheat, 8 to 9 seers. Gram, 11 to 12 seers. Maize, 10 to 11½ seers. Bajra, 10 to 11 seers.	Irrigated crops fair; unirrigated poor and withering.	Sowing of sugarcane in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	...	1. Scarce in the Khusháb tahsil. 3. Good.	Wheat, 9 to 10 seers. Barley, 13 to 14 seers. Gram, 12 seers. Jowar, 11 to 13 seers. Bajra, 10 to 12 seers. Maize, 11 to 13 seers.	Sowings of extra spring crops continue. Condition of standing crops good on irrigated lands; poor elsewhere. Strong winds have withered green wheat on riverain tracts of Bhera tahsil. Rats did some damage in Sargodha tahsil.	Cotton being sown.
14	Ráwalpindi ...	0·03 at Sadr ...	1. Scarce in Gujar Khan and Kahúta tahsils. 3. Fair.	Wheat, 8¼ seers... Barley, 13 seers. Bajra, 10 seers. Gram, 11½ seers. Maize, 11¼ seers.	Rain wanted. Condition of standing crops average on irrigated and below average on unirrigated lands.	...
15	Miánwáli ...	...	1. Scarce ... 3. Average.	Wheat, 9½ seers... Barley, 14 seers. Gram, 13 seers. Bajra, 12 seers.	Condition and expected yield of irrigated crops fair and of unirrigated average. Cold wind has damaged gram and peas.	...
16	Lyallpur ...	...	1. Insufficient ... 2. Canal working by rotational closures and a general complaint of insufficiency of canal water.	Wheat, 9½ seers... Gram, 12 seers. Jowar, 11½ seers. Maize, 11½ seers.	Sowings of extra spring crops nearly finished. Standing crops below average on account of want of rain and canals working by rotational closures. Frost has damaged gram crops generally.	Ploughings for and sowings of cotton and sugarcane going on.
17	Jhang ...	...	1. Insufficient ... 3. Poor.	Wheat, 9 to 10 seers Jowar, 12 seers. Bajra, } Gram, } 11 seers. Maize, 13 seers.	Condition of irrigated crops average and of unirrigated bad.	...
18	Multán ...	...	1. Scarce ... 3. Good.	Wheat, 9½ seers... Gram, 13 seers. Maize, 12¼ seers.	Sowings of extra spring crops in progress. Standing crops below average both on irrigated and unirrigated lands.	...

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Amritsar and Ráwalpindi.

Prices.—Prices of food-grains are rising in 12 and falling in 3 districts, but are still generally at or above scarcity rates, except in Multán.

Agricultural operations.—Sowings of extra spring crops and ploughings for the next autumn crops in progress. Sugarcane and cotton being sown in several districts. Barley and sarshaf (rape-seed) being harvested in Gurgaon, Delhi and parts of Rohtak.

Crops and outturn.—Condition of irrigated crops good to below average, and of unirrigated average to bad. Opium crop average in Lahore and Amritsar. Rain badly wanted.

Damage done to crops.—Unirrigated crops, especially late sown, withering for want of rain. Rats damaging wheat in Lahore and parts of Shahpur. Gram crop damaged by frost in Lyallpur.

Pasturage.—Fodder scarce in Delhi, Siálkot, Gujránwála, Miánwáli, Lyallpur, Jhang, Multán, parts of Gurgaon, Ambála, Shahpur and Ráwalpindi. Also getting scarce in Hissar and Rohtak. Sar (*saccharum ciliare*) and kahi (*saccharum spontaneum*) being used as fodder in parts of Siálkot, and leaves of trees, &c., in parts of Gurgaon. Pasture insufficient in Lahore.

Agricultural stock.—Condition of cattle generally good to poor.

Water-supply.—Canal running by rotational closures in Lyallpur. Canal supply deficient in Lyallpur and parts of Rohtak.

Test-work.—851 persons attended the famine test-works in Gurgaon tahsil against 1,235 last week.

W. C. RENOUF,

Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 24th March 1908.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 14th March 1908, there were 948 births registered in the 43 large municipal towns (488 males and 460 females), giving a birth rate of 34 *per mille* of population, and 1,001 deaths were registered (542 males and 459 females), giving a death rate of 36 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 37 against 96 in the corresponding week of the previous year; Lahore 49 against 104; Amritsar 34 against 54; and Multán 34 against 22. There were 36 deaths reported from plague in Rewári, 17 in Pánipat, 10 in Palwal, 9 in Shahabad, 2 in Ferozepore, and 1 in Jhang-Maghiána. Of the 82 deaths from small-pox, 24 were registered in Lahore, 8 in Multán, 7 each in Jagádhri and Amritsar, 6 in Jhajjar, 4 each in Hissar, Kasúr and Siálkot, 3 each in Gujránwála and Wazírabad, 2 each in Hánsi and Shahabad and 1 each in Bhiwáni, Rohtak, Rewári, Jullundur, Jagraon, Ráekot, Batála and Bhera.

Deaths reported from plague during the week ending 21st March 1908 in the districts including all municipal towns :— Hissar 34, Rohtak 72, Gurgaon 539, Delhi 141, Karnál 120, Ambála 41, Hoshiárpur 38, Jullundur 4, Ludhiána 130, Ferozepore 69, Montgomery 88, Lahore 57, Amritsar 35, Gurdáspur 4, Siálkot 4, Gujránwála 30, Jhelum 7, Ráwalpindi 33, Jhang 11, Lyallpur 13; Patiála State 227, Máler Kotla State 119, Jínd State 38 and Nábha State 53. Total for the province 1,907. Total for the previous week 1,750. Total for the corresponding week of the previous year 24,433.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

No. 14 of 1908.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, APRIL 3, 1908

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 30TH MARCH 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
1	Hissar ...	...	1. Fodder getting scarce in Bhiwáni tahsil. 2. Good.	Wheat, 8¼ seers... Gram, 11¾ seers. Bajra, 10 seers. Bejhar, 12½ seers.	Prospects of irrigated crops good; unirrigated crops in Fatahabad and Sirsa tahsils fair.	...
2	Rohtak ...	...	1. Fodder getting scarce. Old fodder used for cattle. 2. Insufficient ... 3. Good.	Wheat, 9 seers ... Gram, 11¼ seers. Jowar, 11 seers. Maize, 11 seers.	Condition of irrigated crops fair. Harvesting of barley in tahsil Jhajjar continues. Slight damage to crops caused by westerly winds and insufficient supply of canal water.	Sowing of sugarcane in progress in Sámpla tahsil.
3	Gurgaon ...	0·25 at Sohna ... 0·07 at Tauru.	1. Sufficient for present needs in Gurgaon and Rewári tahsils, but scarce in other tahsils, where cattle were being fed on leaves of trees, &c.	Wheat, 7¾ to 9 seers. Barley, 11 to 13 seers. Gram, 10 to 12½ seers. Bajra, 10 to 12 seers. Maize, 10 to 12 seers.	Barley and rapeseed being harvested. Standing crops in fair condition. Outturn of irrigated crops expected good, and of unirrigated fair. Some damage done to crops by hot winds. Test work in progress at Ghamrauj with an attendance of 977 persons.	...
4	Delhi ...	...	1. Scarce ... 2. Canal flowed during the week.	Wheat, 8 seers... Barley, 11½ seers. Gram, 10½ seers. Bajra, 9½ seers. Jowar, 10½ seers. Maize, 10 seers.	Extra spring crops being sown. Standing crops in good condition. Rapeseed and barley being reaped.	Ploughings for next autumn crops continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	0·15 at Naráingarh 0·21 at Rúpar ... 0·32 at Kasauli ...	1. Insufficient in Ambála, Jagádhri and Naráingarh tahsils. 2. Sufficient. 3. Generally good.	Wheat, 7¾ seers Gram, 10½ to 10¾ seers. Barley, 9¾ seers. Maize, 10¾ to 11 seers. Jowar, 10¼ seers. Bajra, 9¾ seers.	Rain badly wanted	Sowing of sugarcane in progress in Rúpar tahsil.
6	Jullundur ...	...	1. Sufficient ... 3. Cattle suffering from overwork.	Wheat, 8¼ seers... Maize, 9¾ seers. Gram, 11 seers. Jowar, 11 seers. Gur, 7 seers.	Sowings of extra spring crops continue. Standing well crops fair; unirrigated bad. Rain badly wanted.	Sowning of sugarcane commenced.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Gurgaon, Ambâla, Ludhiâna, Lahore, Râwalpindi and Multân.

Prices.—Prices of food-grains are rising in 6 and falling in 7 districts, but are still generally at or above scarcity rates, except in Multân.

Agricultural operations.—Sowings of extra spring crops and ploughings for the next autumn crops in progress. Sugarcane, cotton, moth (*phaseolus aconitifolius*) and chari (great millet) being sown in several districts. Barley, rape-seed and massar (*ervum lens*) being harvested in certain districts.

Crops and outturn.—Condition of irrigated crops good to below average, and of unirrigated, average to bad. Opium crop average in Lahore and Amritsar. Rain badly wanted.

Damage done to crops.—Unirrigated crops, especially late sown spring crops, withering for want of rain. Rats damaging wheat in Lahore and parts of Shahpur. Crops damaged by strong winds in Rohtak, Gurgaon and Shahpur.

Pasturage.—Fodder scarce in Delhi, Siâlkot, Gujrânwâla, Miânwâli, Lyallpur, Jhang, Multân, parts of Gurgaon, Ambâla, Shahpur and Râwalpindi. Also getting scarce in Hissar and Rohtak. Pasture insufficient in Lahore.

Agricultural stock.—Condition of cattle good to fair.

Water-supply.—Canal water-supply insufficient in Rohtak and Lyallpur.

Test-work.—977 persons attended the famine test-works in Gurgaon tahsil against 851 last week.

W. C. RENOUF,

Director of Agriculture, Punjab.

KASHI RAM, Supdt.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SIXTY-FIVE THOUSAND EIGHT HUNDRED AND SEVENTY-FOUR births were registered in the province during the month of February 1908, giving a birth-rate of 41 *per mille* of population. Of the total number of births, 34,388 were boys and 31,486 were girls.

The total number of deaths registered from all causes in the province during the month of February 1908 was 50,843 against 73,677 in the previous month and 87,423 in the corresponding month of the past year, giving an annual death rate of 32, 43 and 57 *per mille* of population per annum, respectively.

There was not a single death registered under the head of cholera.

The total mortality from plague amounted to 3,126 against 1,173 in the previous month and 36,973 in the corresponding month of the past year.

From small-pox 1,783 deaths were registered against 2,268 in the previous month and 919 in the corresponding month of the past year; fevers 27,656 against 45,692 and 32,647; dysentery and diarrhœa 720 against 1,043 and 987; respiratory diseases 5,535 against 8,659 and 5,634. During the month there were 19 deaths registered from suicide against 26 in the past month; wounding 24 against 48; accidents 260 against 292; snake-bite and killed by wild beasts 22 against 10; and from all other causes 11,698 against 14,466 in the previous month and 9,953 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 31st March 1908.

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 31st March 1908.

KASHI RAM, Supdt.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 21st March 1908, there were 1,019 births registered in the 43 large municipal towns (545 males and 474 females), giving a birth rate of 37 *per mille* of population, and 936 deaths were registered (493 males and 443 females), giving a death rate of 34 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 32 against 97 in the corresponding week of the previous year; Lahore 48 against 108; Amritsar 37 against 59; and Multán 28 against 25. There were 28 deaths reported from plague in Rewári, 13 in Shahabád, 7 each in Palwal and Ferozepore, 2 in Pánipat and 1 in Wazírábad. Of the 69 deaths from small-pox, 20 were registered in Lahore, 17 in Amritsar, 7 each in Hánsi and Jagádhri 3 each in Hissar and Kartárpur, 2 each in Jhajjar, Jullundur, Kasúr and Multán, and 1 each in Shahabád, Ferozepore, Bhera and Jhang-Maghiána.

Deaths reported from plague during the week ending 28th March 1908 in the districts including all municipal towns:—Hissar 77, Rohtak 136, Gurgaon 527, Delhi 187, Karnál 163, Ambála 33, Hoshiárpur 29, Jullundur 2, Ludhiána 143, Ferozepore 54, Montgomery 56, Lahore 59, Amritsar 68, Gurdáspur 4, Siálkot 6, Gujránwála 41, Shahpur 1, Jhelum 1, Ráwalpindi 25, Jhang 6 and Lyallpur 39; Patiála State 459, Máler Kotla State 152, Jínd State 73 and Nábha State 40. Total for the province 2,381. Total for the previous week 1,915. Total for the corresponding week of the previous year 29,154.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

LAHORE, FRIDAY, APRIL 10, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 6TH APRIL 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient except in Bhiwáni tahsil. 3. Good.	Wheat, 8¼ seers ... Bajra, 10¼ seers. Gram, 11¼ seers. Bejhar, 12 seers.	Prospects of irrigated crops good. Unirrigated crops being reaped in Fatehabad and Sirsa tahsils. Outturn average.	...
2	Rohtak ...	...	1. Fodder getting scarce. Old fodder used for cattle. 3. Good.	Wheat, 9 seers ... Gram, 11 seers. Jowar, 11 seers. Maize, 1[illegible] seers.	Harvesting of spring crops commenced. Outturn expected to be average. Slight damage to crop by strong westerly winds and insufficient supply of canal water.	Sowing of sugarcane in progress.
3	Gurgaon ...	Light showers of rainfall at Rewári, Taoru, Nuh and Sohna.	1. Sufficient for present needs in Gurgaon and Rewári tahsils, but scarce in other tahsils, where cattle being fed on leaves of trees, &c.	Wheat, 8 to 9 seers. Barley, 12 to 13¼ seers. Gram, 10¼ to 12 seers. Bajra, 10 to 12 seers. Maize, 10 to 12 seers.	Wheat, barley, &c., being harvested. Standing crops in fair condition. Outturn of irrigated crops expected average and that of unirrigated below average. Test-work in progress at Ghamraoj with an attendance of 1,146 persons.	...
4	Delhi ...	...	1. Scarce ... 2. Canal closed during the week.	Wheat, 7¼ seers Barley, 12 seers. Gram, 11 seers. Bajra, 9½ seers. Jowar, 11 seers. Maize, 10 seers.	Extra spring crops being sown. Standing crops in good condition. Sarshaf (rape-seed) and barley being reaped. Yield average.	Ploughings for next autumn crops in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Insufficient in Ambála, Jagádhri, Naráingarh and Kharar tahsils. 2. Insufficient. 3. Not good.	Wheat, 8 to 9 seers. Gram, 11 to 11½ seers. Barley, 10½ seers. Maize, 11 seers. Jowar, 11 seers. Bajra, 10 seers.	Standing crops suffering much on account of drought.	Sowing of sugarcane in progress in Rópar tahsil.
6	Jullundur ...	0·31 at Sadr ...	1. Sufficient ... 3. Fair.	Wheat, 8½ seers... Maize 10½ seers. Gram, 11½ seers. Jowar, 11 seers. Gur, 7 seers.	Extra spring crops being sown. Standing well, crops fair; unirrigated bad.	Sowing of sugarcane in progress.
7	Ludhiána ...	0·11 throughout the district.	1. Sufficient ... 3. Good.	Unchanged ...	Irrigated crops fair; unirrigated average, excepting those sown late, which are poor.	Ploughings for next autumn crops and sowing of sugarcane in progress.
8	Ferozepore ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8 seers... Barley, 14 seers. Gram, 11 seers. Jowar, 10 seers. Bajra, 13 seers. Maize, 12 seers.	Extra spring crops being sown. Standing crops average.	Sowing of cotton continues.
9	Lahore ..	...	1. Pasture insufficient. 3. Fair.	Wheat, 9½ seers. Gram, 12 seers. Maize, Bajra, } 11 seers.	Extra spring crops being sown. Irrigated standing crops below average; unirrigated bad. Rats damaging the standing wheat. Opium crop average.	Sowings of cotton and sugarcane continue.
10	Amritsar ...	0·12 at Sadr; more in tahsil Ajnála.	1. Sufficient ... 3. Fair.	Wheat, 9 seers... Gram, 12 seers. Barley, 14 seers. Jowar, 13½ seers. Maize, Bajra, } 11¼ seers.	Extra spring crops being sown. Condition of irrigated crops average and of unirrigated bad. Poppy crop on irrigated area average.	Sowings of cotton and sugarcane in progress.
11	Siálkot ...	0·05 at Sadr ...	1. Dry fodder insufficient. Green fodder procurable in small quantities. Kahi (*saccharum spontaneum*) and sar (*saccharum Siliari*) used as fodder in Raya tahsil.	Wheat, 9½ seers... Barley, 12¾ seers. Gram, 11¾ seers. Rice, 6¼ seers.	Rain badly wanted. Extra spring crops being sown in tahsils Daska, Zafarwal and Raya. Reaping of massar (*ervum lens*) and barley in progress in Raya, Pasrúr, and Zafarwal tahsils. Condition of standing crops average on irrigated and poor on unirrigated lands. Late sown crops totally withered owing to want of rain.	Sowings of cotton and sugarcane continue and that of fodder crops commenced in well areas of tahsil Zafarwál.
12	Gujránwála ...	...	1. Green gram and wheat used as fodder. 2. Canal closed for clearance. 3. Cattle overworked and Impoverished.	Wheat, 8 to 9½ seers. Gram, 11 to 12 seers. Maize, 10 to 11½ seers. Bajra, 10 to 11 seers.	Sowings of extra spring crops in progress. Irrigated crops fair; unirrigated poor and withering. Rats damaging wheat. ...	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee	Prospects of — Spring	Prospects of — Autumn.
13	Shahpur ...	0·50 at Sadr ...	1. Fodder scarce in Khushâb. 3. Good.	Wheat, 8¾ to 10 seers. Gram, 12 to 13 seers. Barley, 10 to 15 seers. Jowar, 11 to 12 seers. Bajra, 10½ to 11 seers. Maize, 11 to 13 seers.	Extra spring crops being sown on irrigated areas. Condition of standing crops good in Shahpur; fair in Bhera and Sargodha and poor in Khushâb tahsils. Barley being harvested in Shahpur tahsil. Outturn good. Rats damaging standing crops in Bhera and Sargodha tahsils.	Sowings of cotton continues on irrigated area.
14	Râwalpindi ...	1·63 at Sadr ... 0·04 at Kahûta ...	1. Scarce in Gujar Khan and Kahûta tahsils. 3. Fair.	Wheat, 8¾ seers... Barley, 13¾ seers. Bajra, 10 seers. Gram, 11½ seers. Maize, 11½ seers.	Condition of crops average on irrigated and bad on unirrigated lands.	...
15	Miánwáli ...	0·10 at Sadr ... 0·08 at Bhakkar ... 0·19 at Leiah ...	1. Scarce ... 3. Average.	Wheat, 9 seers ... Barley, 15 seers. Gram, 13 seers. Bajra, 12 seers.	Land being prepared for extra spring crops. Condition and expected yield of irrigated crops fair; unirrigated somewhat below average. Wheat damaged by rats in villages of tahsil Miánwáli.	...
16	Lyallpur ...	0·28 at Sadr ... 0·14 at Samundri 0·04 at Toba Tek Singh.	1. Insufficient ... 2. Canal working by rotational closures and a general complaint of insufficiency of canal water.	Wheat, 10 seers ... Gram, 12 seers. Jowar, 12 seers. Maize, 11½ seers.	Reaping of gram and barley commenced in tahsil Lyallpur. Standing crops below average.	Sowings of cotton and sugarcane in progress.
17	Jhang ...		Report not	received.		
18	Multán ...	0·28 at Sadr ...	1. Scarce ... 3. Good.	Wheat, 9½ seers ... Gram, 12¾ seers. Maize, 11¾ seers.	Sowings of extra spring crops in progress. Standing crops below average both on irrigated and unirrigated lands.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in Gurgaon, Jullunder, Ludhiána, Amritsar, Siálkot, Shahpur, Ráwalpindi, Miánwáli, Lyallpur and Multán.

Prices.—Prices of food-grains are rising in 5 and falling in 9 districts, but are still generally at or above scarcity rates, except in Multán.

Agricultural operations.—Sowings of extra spring crops and ploughings for the next autumn crops in progress. Sugarcane and cotton being sown. Sowings of fodder crops commenced in parts of Siálkot. Spring crops being harvested in some districts.

Crops and outturn.—Condition of irrigated crops good to below average and of unirrigated average to bad. Opium crop average in Lahore and Amritsar.

Damage done to crops.—Unirrigated crops, especially late sown crops, withering for want of rain. Rats damaging wheat in Lahore, Gujránwála, parts of Shahpur and Miánwáli. Crops damaged by strong winds in Rohtak.

Pasturage.—Fodder scarce in Delhi, Siálkot, Miánwáli, Lyallpur, Multán, parts of Hissar, Gurgaon, Ambála, Shahpur and Ráwalpindi. Also getting scarce in Rohtak. Pasture insufficient in Lahore. Kahi (*saccharum spontaneum*) and sar (*saccharum ciliare*) being used as fodder in parts of Siálkot and green wheat and gram in Gujránwála. Cattle are being fed on leaves of trees in Gurgaon.

Agricultural stock.—Condition of cattle good to fair. Cattle overworked and impoverished in Gujránwála.

Water-supply.—Canal water-supply insufficient in Ambála and Lyallpur. In the latter district canal running by rotational closures. Canal closed during the week in Delhi and Gujránwála.

Test-work.—1146 persons attended the famine test-works in Gurgaon tahsil against 977 last week.

P. A. GABRIEL, SUPDT.,

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th March 1908.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 28th March 1908, there were 1,061 births registered in the 43 large municipal towns (546 males and 515 females), giving a birth rate of 38 *per mille* of population, and 993 deaths were registered (530 males and 463 females), giving a death rate of 36 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 29 against 106 in the corresponding week of the previous year; Lahore 45 against 127; Amritsar 32 against 54; and Multán 34 against 35. There were 51 deaths reported from plague in Rewári, 16 in Shahabád, 6 in Palwal, 5 in Pánipat, 3 in Ráekot and 1 each in Rohtak, Ambála, Ferozepore and Gujránwála. Of the 78 deaths from small-pox, 24 were registered in Lahore, 7 in Amritsar, 6 each in Jagádhri and Multán, 4 each in Hissar, Hánsi and Shahabád, 3 each in Jullundur and Siálkot, 2 each in Jhajjar, Rewári, Delhi, Kasúr, Wazírábad and Bhera and 1 each in Bhiwáni, Ferozepore, Batála, Ráwalpindi and Lyallpur.

Deaths reported from plague during the week ending 4th April 1908 in the districts including all municipal towns :—Hissar 49, Rohtak 104, Gurgaon 619, Delhi 177, Karnál 179, Ambála 47, Hoshiárpur 11, Jullundur 1, Ludhiána 283, Ferozepore 54, Montgomery 77, Lahore 113, Amritsar 66, Gurdáspur 10, Siálkot 13, Gujránwála 35, Gujrát 5, Shahpur 13, Jhelum 3, Ráwalpindi 15, Jhang 29 and Lyallpur 101; Patiála State 230, Máler Kotla State 212, Jínd State 67, Nábha State 28 and Baháwalpur State 1. Total for the province 2,542. Total for the previous week 2,382. Total for the corresponding week of the previous year 34,547.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, APRIL 17, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 13TH APRIL 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·14 at Sadr ... 0·09 at Hánsi. 0·30 at Bhiwáni. 0·08 at Sirsa. 0·28 at Budhláda. 0·28 at Tohána.	1. Sufficient, except in Bhiwáni tahsil. 3. Good.	Wheat, 0 seers ... Bajra, 10½ seers. Gram, 12 seers. Bejhar, 12 seers.	Crops being reaped. Outturn of irrigated crops good; of unirrigated average. Matured unirrigated area very small.	...
2	Rohtak ...	0·15 at Sadr ...	1. Scarce ... 3. Good.	Wheat, 9 seers ... Gram, 11½ seers. Bajra, 11 seers. Maize, 1[illegible] seers. Jowar, 11½ seers.	Harvesting of rabi crops nearly finished.	Sowings of sugar-cane in progress.
3	Gurgaon ...	0·03 at Sadr ... 0·03 at Sohna. 0·10 at Rewári.	1. Sufficient for present needs in Gurgaon and Rewári tahsils, but scarce in other tahsils, where cattle are being fed on leaves of trees, &c. 3. Fair.	Wheat, 8½ to 9½ seers. Barley, 12½ to 14 seers. Gram, 10½ to 12 seers. Bajra, 10½ to 12 seers. Maize, 10 to 12 seers.	Wheat, barley and sarshaf (rapeseed) being harvested. Standing spring crops in good condition. Good outturn expected. Test-work in progress at Ghamrauj with an attendance of 1,187 persons.	...
4	Delhi ...	Slight rain at Delhi	1. Scarce ... 2. Canal closed during the week.	Wheat, 8 seers ... Barley, 12 seers. Gram, 11 seers. Bajra, 9½ seers. Jowar, 11 seers. Maize, 10 seers.	Sowings of extra spring crops in progress. Standing crops in good condition. Sarshaf (rapeseed) and barley being reaped. Yield average.	Ploughings for the next autumn crops continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	0·55 at Sadr ... 0·42 at Jagádhri. 0·59 at Naráingarh. 1·01 at Kharar. 0·37 at Rúpar. 1·42 at Kasauli.	1. Insufficient in Ambála, Jagádhri, Naráingarh and Kharar tahsils. 2. Insufficient. 3. Not good.	Wheat, 8 to 9 seers Gram, 11 to 11½ seers. Barley, 9½ seers. Maize, 11 seers. Jowar, 11 seers. Bajra, 10 seers.	Present rain benefited extra spring crops in Ambála and Naráingarh tahsils. Hail damaged crops in some 20 villages in Rúpar and Kharar tahsils.	Sowings of sugar-cane in progress in Rúpar tahsil.
6	Jullundur ...	1·74 at Sadr ... 1·80 at Nakodar. 1·32 at Phillaur. 1·16 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 8½ seers... Maize, 11½ seers. Gram, 12 seers. Jowar, 11 seers. Gur, 6½ seers.	Extra spring crops being sown. Standing well crops fair; unirrigated bad.	Sowings of sugar-cane in progress and of cotton commenced.
7	Ludhiána ...	1·15 throughout the district.	1. Sufficient ... 3. Good.	Unchanged ...	Harvesting of barley commenced. Irrigated crops generally good; unirrigated generally poor, but average in Jagraon tahsil. Hailstorms damaged the crops of two villages in the Samrála tahsil.	Sowings of sugar-cane in progress.
8	Ferozepore ...	0·54 all over the district.	1. Sufficient ... 3. Generally good.	Wheat, 7½ seers Barley, 12 seers. Gram, 11 seers. Maize, 14 seers.	Rain did harm to the harvested crops Extra spring crops being sown. Standing irrigated crops fair; unirrigated fair or poor.	Sowings of cotton in progress.
9	Lahore ...	0·63 at Sadr ... 0·82 at Chúnián. 0·60 at Kasúr. 1·00 at Sharakpur.	1. Pasture insufficient 3. Fair.	Wheat, 9½ seers Maize, 12 seers. Gram, 12 seers.	Extra spring crops being sown. Rapeseed, barley and wheat being harvested. Irrigated crops below average; unirrigated bad. Rats damaging the standing wheat. Some damage done by hailstorms in Kasúr and Chúnián tahsils. Opium crop below average.	Sowings of cotton and sugarcane continue.
10	Amritsar ...	1·00 at Sadr and at Ajnála; more in Tarn Táran.	1. Sufficient ... 3. Fair.	Wheat, 9 seers ... Gram, 12 seers. Barley, 14 seers. Jowar, 10½ seers. Maize, Bajra, } 11 seers.	Extra spring crops being sown. Condition of crops on irrigated and riverain areas average and on unirrigated bad. Poppy crop on irrigated area average.	Sowings of sugar-cane and cotton in progress.
11	Siálkot ...	1·07 at Sadr ... 0·57 at Daska. 0·81 at Pasrúr. 1·16 at Zafarwál. 0·96 at Raya.	1. Scarce Kahi (*saccharum spontaneum*) and sar (*saccharum ciliari*) being used as fodder in Raya tahsil. 3. Cattle weak owing to over-work and want of fodder.	Wheat, 8¾ seers... Barley, 13 seers. Gram, 11¾ seers. Rice, 5¾ seers.	Extra spring crops being sown. Harvesting of barley, massar (*ervum lens*) and gram in progress. Standing crops average on irrigated and poor on unirrigated lands.	Sowings of sugar-cane, cotton and fodder crops in progress.
12	Gujránwála ...	1·50 throughout the district.	1. Scarce ... 3. Cattle impoverished.	Unchanged ...	Irrigated crops fair; unirrigated poor. Slight damage to spring crops by hailstones.	Sowings of sugar-cane and cotton and ploughings for other autumn crops continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
13	Shahpur ...	1·59 at Sadr ... More elsewhere.	1. Scarce in Khushâb tahsil. 3. Good.	Wheat, 8 to 11 seers. Gram, 12 to 13 seers Barley, 13 to 15 seers Jowar, 10 to 12½ seers. Bajra, 10 to 10½ seers. Maize, 10 to 11 seers.	Extra spring crops being sown. Condition of standing crops good in Shahpur and Khushâb; fair on irrigated areas in Bhera tahsil. The recent rain and a flood in the Jhelum river have damaged crops on riverside lands in Khushâb tahsil. Rats damaging standing crops in Bhera tahsil.	Sowings of cotton, sugarcane and chari (great millet) in progress.
14	Râwalpindi ...	5·72 at Sadr ... 3·03 at Gujar Khan. 3·97 at Kahûta. 4·71 at Murree.	1. Scarce in Gujar Khan and Kahûta tahsils. 3. Fair.	Wheat, 9 seers ... Barley, 11½ seers Bajra, 10½ seers. Gram, 11½ seers. Maize, 11½ seers.	Conditions of standing crops average on irrigated and bad on unirrigated lands.	...
15	Miânwâli ...	4·25 at Sadr ... 5·55 at Isa Khel. 0·84 at Bhakkar. 1·49 at Leiah.	1. Scarce ... 3. Average.	Wheat, 9½ seers... Bajra, 13 seers. Gram, 13 seers. Barley, 12 seers.	Rain beneficial for late sown crops, but has generally damaged standing crops. Hailstones damaged crops in a few villages in tahsils Miânwâli and Bhakkar. Expected yield below average.	...
16	Lyallpur ...	0·55 at Sadr ... 0·73 at Samundri 0·47 at Toba Tek Singh.	1. Sufficient in Lyallpur tahsil, but scarce in other tahsils. 2. Insufficient.	Wheat, 10 seers ... Gram, 13 seers. Jowar, 12 seers. Maize, 12½ seers.	Extra spring crops being sown. Crops suffering from shortage of canal water. Gram, barley, wheat, massar (*ervum lens*) being harvested. Crops damaged by hailstones. Standing crops below average.	Sowings of cotton and sugarcane in progress.
17	Jhang ...	1·25 at Sadr ... 0·18 at Chiniot. 1·33 at Shorkot.	1. Insufficient ... 3. Poor.	Wheat, 9 to 10 seers Bajra, Jowar, Maize, } 10 seers. Gram, 12 seers.	Hailstones damaged crops in some villages. Irrigated crops average; unirrigated bad. Gram, massar (*ervum lens*), &c., being harvested. Extra spring crops being sown.	...
18	Multân ...	0·58 at Sadr ... 0·22 at Lodhrân. 0·29 at Shujabad. 0·34 at Kabîrwâla	1. Insufficient ... 3. Good.	Wheat, 9½ seers ... Gram, 12½ seers. Maize, 10½ seers.	Extra spring crops being sown. Standing crops below average on irrigated and unirrigated areas.	...

GENERAL REMARKS.

Rainfall.—Heavy to moderate rain has fallen in all districts except Hissar, Rohtak, Gurgaon and Delhi where light rain has been received.

Prices.—Prices of food-grains are rising in 3 and falling in 8 districts, but are still generally at or above scarcity rates.

Agricultural operations.—Sowings of extra spring crops and ploughings for the next autumn crops in progress. Sugarcane, cotton and chari (great-millet) being sown. Spring crops being harvested in some districts.

Crops and outturn.—Condition of irrigated crops good to below average and of unirrigated average to bad. Opium crop average in Amritsar and below average in Lahore.

Damage done to crops.—Rats damaging wheat in Lahore and Shahpur. Hailstorms reported from several districts. A river flood has injured the crops in riverain villages in Shahpur.

Pasturage.—Fodder scarce in Rohtak, Delhi, Gujrânwâla, Siâlkot, Miânwâli, Jhang, Multân, parts of Hissar, Gurgaon, Ambâla, Shahpur, Râwalpindi and Lyallpur. Pasture insufficient in Lahore.

Agricultural stock.—Condition of cattle good to poor.

Water-supply.—Canal water-supply insufficient in Ambâla and Lyallpur. Canal closed during the week in Delhi.

Test-work.—1,187 persons attended the famine test-works in Gurgaon tahsil against 1,146 last week.

A depression crossed into India from Baluchistán on the 30th January, and a deep secondary depression formed in the Central Punjab next day, and was further intensified by another disturbance from Baluchistán. The combined depression then moved slowly into the Simla hills where it broke up. The precipitation accompanying this storm occurred chiefly in the submontane districts, the North-West Frontier Province, Kashmír and the Punjab hills, but it was comparatively light except in the Simla hills where snowfall was very heavy. This was the onl y depression of any importance with respect to its rain producing properties, and though several disturbances gave precipitation in Kashmír, no rain fell on the plains until the last two days of the month when a storm from Persia caused light rain in the north of the North-West Frontier Province and in the Ráwalpindi district of the Punjab.

Pressure and winds.—Pressure was in defect everywhere, but the deficiency was more marked in the plains than in the hills, the vertical gradient thus being weaker than usual. The strength of the winds was rather above the average except in the North-West Frontier Province: at several stations winds were more northerly than usual.

Temperature.—Weather was on the mean of the month warmer than usual at nearly every station, the excess in temperature being shown more in the day than at night.

The following table shows the departures from the normal of the mean temperature of the Punjab, and the North-West Frontier Province on each day of the month and the lowest minimum temperature registered with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Lowest minimum temperature recorded in the plains during the previous 24 h.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Lowest minimum temperature recorded in the plains during the previous 24 h.	Station at which registered.

" 15th ...	+5·7	43·1	Siálkot and Rawalpindi.				

From the above table it will be seen that during the first few days of the month weather was cooler than usual, but from the 11th to the 28th temperature was in excess, the excess being very large on the 16th, 17th and 18th. The lowest temperature recorded in the plains was 34·9° registered at Pesháwar during the night of the 1st-2nd.

Humidity and cloud.—The amount of cloud was below the average, and the air was drier than usual.

Rainfall.—Simla, Khusháb, Pesháwar and Leh were the only stations where the rainfall was in excess of the normal : at all the remaining stations rainfall was more or less in defect, and no rain whatever was received at Sirsa, Montgomery and Lahore.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for February 1908 :—

…slight rain.
…rain gauge station.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of March 1908.

1.—HISSAR DISTRICT.

Prospects of irrigated crops good. Unirrigated crops sown in the Fatahabad and Sirsa tahsils in fair condition. Harvesting of unirrigated crops, where matured, commenced. Outturn expected to be average. Canal water supply very limited. It is impossible to fill drinking tanks and no water can be given for that purpose. Fodder getting scarce in the Bhiwáni tahsil. Cattle in good condition. The scanty supply of water for tanks is causing great hardships to cattle.

2.—ROHTAK DISTRICT.

Sowing of sugarcane in irrigated tracts commenced. Standing chahi and nahri crops fair to poor. Rain badly wanted. Yield in nahri tracts owing to insufficient canal water-supply expected to be below average. Crops withered. Cattle generally in good condition. Public health generally good. Canal water-supply insufficient.

3.—GURGAON DISTRICT.

Slight showers of rain fell at Taoru and Sohna. Barley and sarshaf were being harvested. Other standing crops being irrigated by wells and canal. Tobacco and onions were planted and vegetables sown. Standing crops in fair condition. Some damage, amounting to 25 per cent. was done to standing crops by strong west winds. Cattle in fair condition. Fodder sufficient for present needs except in Palwal, Núh and Fírozpur tahsils where cattle were fed on leaves of green trees. Supply of canal water sufficient during the month.

4.—DELHI DISTRICT.

Ploughings for next kharif and sowings of extra rabi crops on irrigated lands in progress. Condition of standing rabi crops good on the whole. Some damage caused by high winds. Barley and sarshaf being reaped. Outturn of barley and sarshaf average. Public health generally good. Canal water-supply insufficient. Fodder scarce.

5.—KARNAL DISTRICT.

A good deal of sugarcane sown in Pánipat and some in Kaithal and Karnál tahsils. Canal water required for the wheat crop. Condition of standing crops on irrigated lands average. West winds have begun to blow and crops have suffered in consequence. Expected yield average to below average. Condition of cattle fairly good. There is however scarcity of fodder throughout the district. Water-supply deficient in the Kaithal tahsil. Only the Sirsa Branch of the Western Jumna Canal was running. There is a general complaint of shortage of water-supply.

6.—AMBALA DISTRICT.

Condition of the rabi crops generally fair on irrigated and bad on barani lands. Crops sown after the January rains have been much damaged and there is no hope of anything coming out of them. Cattle so far in average condition. Hard work and scarcity of fodder have had a bad effect on them. No complaint about the insufficiency of canal water.

7.—SIMLA DISTRICT.

Rainfall in both tahsils insufficient. Rice was sown in Kot Khai tahsil. Condition of the standing crops bad. Condition of cattle good. Fodder and grazing insufficient. In the Simla tahsil water-supply in hill streams insufficient, in the Kot Khai tahsil sufficient. A small area was watered in the Simla tahsil.

8.—KANGRA DISTRICT.

Condition of crops on unirrigated areas very bad and on irrigated not good. Crops on unirrigated lands damaged for want of rain. Cattle suffering much from scarcity of fodder. Water in the kuhls (water streams) not quite sufficient for irrigation purposes owing to want of rain.

9.—HOSHIARPUR DISTRICT.

Sugarcane, cotton, melons, tobacco and vegetables were sown during the month. Condition of crops on irrigated lands good and on unirrigated average. Late sown crops generally poor Yield expected to be below average. Cattle generally in fair condition. Fodder available for present needs with some local exceptions. Public health good. Irrigation made from wells Shah Nahr canal was being cleaned out. Water in hill torrents has diminished.

10.—JULLUNDUR DISTRICT.

Sowings of vegetable and sugarcane on chahi lands in progress. Condition of chahi crops average; barani bad. Yield expected to be below average. Cattle in fair condition, but suffering from overwork. Health of people good. Rain very badly wanted.

11.—LUDHIANA DISTRICT.

Sowings of sugarcane, tobacco, onion, melon and vegetables in progress. Condition of irrigated crops fair; barani average excepting those sown after 1st January 1908 which are poor. Yield of oilseeds, harvested during the month, expected to be average. Cattle in good condition. Fodder sufficient. Public health generally satisfactory. Irrigation from canals fairly satisfactory.

12.—FEROZEPORE DISTRICT.

Tobacco, cotton, sugarcane, onions and other vegetables were sown in certain places during the month. Condition of standing crops average. Yield expected to be average. Cattle generally in good condition. Public health generally good. The Sirhind Canal had been flowing for a few days at the end of the month and a small area was irrigated from it. Agriculturists are generally well off. Stocks of food-grains and fodder sufficient. Green fodder available, but not abundant.

13.—MONTGOMERY DISTRICT.

Zaid rabi sowings were carried on during the month. Chahi and chahi-nahri crops average, rest bad owing to scarcity of rains and to frost. Outturn expected to be below average. Fodder scarce. Public health generally good.

14.—LAHORE DISTRICT.

Rabi crops were irrigated and extra rabi crops, sugarcane and cotton sown during the month. Irrigated crops below average; unirrigated bad. Rats are damaging wheat. Cold nipped sailaba crops on the Ravi in the Chunian tahsil. Expected yield below average. Condition of cattle fair. Public health fair. The perennial canals ran by turns.

15.—AMRITSAR DISTRICT.

Tobacco, vegetables, melons, onion, sugarcane and cotton being sown. Crops on irrigated and sailab area average and on unirrigated bad. Yield of crops on irrigated and sailab lands expected to be average and those on barani below average. Condition of cattle fair. Public health generally good. Canal water-supply insufficient.

16.—GURDASPUR DISTRICT.

Sowings of sugarcane and cotton commenced throughout the district. Barani crops suffered for want of rain. On the whole, the condition of crops is below average. Yield expected average on irrigated and below average on unirrigated lands. In Shakargarh tahsil bad on barani and average on Bet lands. Cattle weak owing to dearth of fodder. Canals flowing.

17.—SIALKOT DISTRICT.

Sowings of sugarcane, tobacco, cotton and vegetables in progress and those of chari and moth for fodder commenced on irrigated lands towards the end of the month. Condition of standing crops average on irrigated and poor on barani lands. Crops have withered for want of rain. Late sown crops are used as fodder. No yield expected. Reaping of barley and massar commenced in some parts. Cattle weak owing to scarcity of fodder and overwork. Public health generally good.

18.—GUJRANWALA DISTRICT.

Sowings of tobacco and vegetable were finished and those of sugarcane and cotton commenced. Condition of chahi and sailab crops below average. Barani crops withering for want of rain. Rats doing some damage to crops in parts of the district. Yield expected to be below average. Condition of cattle poor owing to scarcity of fodder. A

considerable portion of green wheat is being used as fodder. State of public health good. No complaint about the insufficiency of water in the canal. Zimindars have no stock of food-grains.

19.—GUJRAT DISTRICT.

Sowings of cotton, sugarcane and extra rabi crops on irrigated lands in progress. Cotton and some extra rabi crops also being sown on barani and sailab lands where there was moisture. Rain is badly needed to admit of further sowings. Early sown crops generally in fair condition and those sown in January nearly all withered. Expected yield in the case of early sown crops average to below average. Cattle generally in good condition. Fodder scarce. Public health good.

20.—SHAHPUR DISTRICT.

Sowings of tobacco, onions, sugarcane, cotton and vegetables in progress. Standing crops in good condition in Khusháb tahsil. Gram and wheat slightly damaged in Khusháb tahsil by unfavourable weather. Condition of crops good on irrigated area in Shahpur tahsil; fair on irrigated and bad on unirrigated areas in Bhera tahsil; fair in Sargodha tahsil. Rats damaged the wheat crops in Bhera tahsil. Expected yield average. Cattle in good condition, except in Khusháb tahsil where their condition is fair. Fodder scarce in Khusháb tahsil; sufficient elswhere. Public health good. Lower Jhelum Canal continued to flow. The private canal of Malik Mubariz Khan has commenced to run and irrigated a certain amount of area. Stock of food-grains in Khusháb tahsil insufficient.

21.—JHELUM DISTRICT.

Slight showers of rain were received in a few villages of Chakwál tahsil on the 23rd March which enabled extra rabi crops to be sown on barani lands of those villages. Extra rabi crops are being sown on chahi and sailab lands. Rabi crops sown in time are generally average, but those sown late are poor and withering owing to want of rain. Condition of cattle genrally good. Public health generally good.

22.—RAWALPINDI DISTRICT.

A very little rain fell during the month. Condition of crops average on irrigated and bad on unirrigated lands. Crops are withering. Condition of cattle fair. Fodder scarce in Gujar Khan and Káhuta tahsils.

23.—ATTOCK DISTRICT.

Condition of crops bad except in Attock tahsil where it is fair. Expected yield not good. Condition of cattle fairly good. State of public health good. The outlook is bad if it does not rain shortly.

24.—MIANWALI DISTRICT.

Sowings of extra rabi crops in progress. Cold wind and want of rain damaged the gram, peas and massar crops. Condition and expected yield of standing irrigated crops fair and of unirrigated crops somewhat below average. Fodder scarce. Cattle in fair condition. Public health generally good.

25.—LYALLPUR DISTRICT.

Sowings of cotton and extra rabi crops commenced on irrigated lands. Gram and massar largely destroyed by frost and cold winds. A good deal of wheat withering for want of canal water. Harvesting of barley and gram commenced. Outturn of whea will be below average and that of barley average. Green fodder scarce. Canal running by rotational turns. General complaints of short supply of canal water. Some locusts laid eggs in one zail.

26.—JHANG DISTRICT.

Sowings of extra rabi crops such as tobacco, melons, china, onion and vegetables in progress. Condition of irrigated crops average and of unirrigated bad. Gram and peas damaged by cold winds in tahsil Shorkot. No yield expected. Fodder insufficient throughout the district. Canals working, but general complaints of insufficiency of water in tahsils Chiniot and Shorkot. Water in the rivers insufficient.

27.—MULTAN DISTRICT.

Sowings of extra rabi crops in progress. Condition of standing crops below average both on irrigated and unirrigated areas. Condition of cattle good. Health of people good. Inundation and Sidhnai canals dry. Fodder insufficient.

28.—MUZAFFARGARH DISTRICT.

Sugarcane, jowar, china, pepper, tobacco and vegetables were sown during the month. Peas, turnips, gram and wheat suffered somewhat from the recent cold. Yield expected to be slightly below average. Public health good. Canals are dry. Wheat damaged by cold is being used as fodder. Fodder insufficient.

29.—DERA GHAZI KHAN DISTRICT.

Extra rabi crops and cotton were sown in tracts watered by hill torrents. General condition of crops fair except gram, peas and massar on sailab tracts which have suffered considerably from cold. Yield expected fair. Condition of cattle good. Public health good.

P. A. GABRIEL, SUPDT.,

SANITARY COMMISSIONER'S OFFICE,
LAHORE :
The 15th April 1908.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 4th April 1908, there were 931 births registered in the 43 large municipal towns (477 males and 454 females), giving a birth rate of 33 *per mille* of population, and 1,072 deaths were registered (569 males and 503 females), giving a death rate of 38 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 36 against 151 in the corresponding week of the previous year ; Lahore 44 against 152 ; Amritsar 32 against [illegible]; and Multán 33 against 25. There were 59 deaths reported from plague in Rewári, 16 in Shahabád, 7 in Palwal, 5 in Pánipat, 4 in Ferozepore, 2 each in Kasúr and Gujránwála and 1 each in Sonepat, Ambála, Ludhiana, Ráekot and Chiniot. Of the 103 deaths from small-pox, 22 were registered in Lahore, 12 in Shahabád, 11 in Jagádhri, 7 in Amritsar, 6 each in Jullundur, Siálkot, and Multán, 4 in Jhajjar, 3 each in Hissar, Rohtak, Ferozepore, Batála, and Gujránwála, 2 each in Hánsi, Delhi, Kartárpur, Wazírábad and Bhera and 1 each in Ludhiána, Jagráon, Kasúr, and Jhang-Maghiana. There was one death recorded from cholera in Delhi.

Deaths reported from plague during the week ending 11th April 1908 in the districts including all municipal towns :— Hissar 46, Rohtak 145, Gurgaon 449, Delhi 145, Karnál 351, Ambála 54, Hoshiárpur 44, Jullundur 1, Ludhiána 372, Ferozepore 156, Montgomery 45, Lahore 178, Amritsar 60, Gurdáspur 6, Siálkot 16, Gujránwála 68, Gujrát 6, Shahpur 4, Jhelum 3, Ráwalpindi 21, Miánwali 1, Jhang 13 and Lyallpur 112 ; Patiála State 130, Máler Kotla State 186, Jínd State 51, and Baháwalpur State 2. Total for the province 2,665. Total for the previous week 2,542. Total for the corresponding week of the previous year 39,056.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, APRIL 24, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 20TH APRIL 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient, except in Bhiwâni tahsil. 3. Good.	Wheat, 8 seers ... Bajra, 10½ seers. Gram, 11½ seers. Bejhar, 12 seers.	Irrigated and unirrigated crops being harvested: outturn of irrigated crops average. Matured unirrigated area very small.	...
2	Rohtak ...	...	1. Scarce. Old fodder used for cattle. 3. Good.	Wheat, 8½ seers ... Gram, 11½ seers. Jowar, 11 seers. Maize, 11 seers.	Wheat and barley being harvested: outturn expected to be below average.	Sowings of sugarcane in progress.
3	Gurgaon ...	...	1. Sufficient for present needs. 3. Fair.	Wheat, 8¾ to 9¾ seers. Barley, 12½ to 14 seers. Gram, 10 to 11 seers. Bajra, 10 to 11 seers. Maize, 10 to 12 seers.	Standing crops in good condition: outturn expected average. Test-work in progress at Ghamraoj with an attendance of 1,292 persons.	...
4	Delhi ...	...	1. Scarce ... 2. Canal closed during the week.	Wheat, 8 seers ... Barley, 12 seers. Gram, 11 seers. Bajra, 9½ seers. Jowar, 11 seers. Maize, 10 seers.	Extra spring crops being sown. Standing crops in good condition. Wheat being harvested. Yield average on irrigated and below average on unirrigated lands.	Ploughings for next autumn crops in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
5	Ambála ...	0·48 at Sadr ... 0·14 at Jagádhri. 0·24 at Naráingarh. 0·15 at Kharar. 0·40 at Rúpar. 1·07 at Kasauli.	1. Insufficient in Ambála, Jagádhri, Naráingarh and Kharar tahsils. 2. Insufficient. 3. Not good.	Wheat, 8 to 9 seers. Gram, 11 to 11½ seers. Barley, 9½ seers. Maize, 11 seers. Jowar, 11 seers. Bajra, 10 seers.	...	Sowings of sugarcane in progress in some places in the Rúpar tahsil.
6	Jullundur ...	0·81 at Sadr ... 0·25 at Nakodar. 0·09 at Phillaur. 0·82 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 8½ seers... Maize, 10½ seers. Gram, 11 seers. Jowar, 11 seers. Gur, 6 seers.	Extra spring crops being sown. Harvesting of spring crops commenced. Standing well crops fair; unirrigated bad.	Sowings of cotton and sugarcane continue.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Barley, 13½ seers. Gram, 11¼ seers. Maize, 10½ seers.	Spring crops being harvested. Irrigated crops good; unirrigated average, excepting those some late, which are poor. Expected yield fair.	...
8	Ferozepore ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8½ seers Barley, 12 seers. Gram, 11 seers. Maize, 11½ seers.	Spring crops being harvested. Irrigated crops fair; unirrigated poor.	...
9	Lahore ...	0·07 at Sadr ... 0·19 at Kasúr.	1. Pasture insufficient 3. Average	Wheat, 9 seers... Gram, 12 seers.	Extra spring crops being sown. Rapeseed, wheat and barley being harvested. Irrigated crops below average; unirrigated bad. Opium crop below average.	Sowings of cotton and sugarcane in progress.
10	Amritsar ..	...	1. Sufficient ... 3. Fair.	Wheat, 9⅛ seers Gram, 12 seers. Barley, 15 seers. Jowar, 10¾ seers. Maize, 11 seers. Bajra, 10 seers.	Sowings of extra spring crops in progress. Wheat, gram, barley, &c., being reaped. Condition of crops on irrigated and riverain areas average, and on unirrigated bad. Poppy crop on irrigated area average.	Cotton, sugarcane and fodder crops being sown.
11	Siálkot ..	0·39 at Daska ... 0·67 at Pasrúr. 1·22 at Zafarwál. 0·97 at Raya.	1. Scarce. 3. Cattle weak owing to over-work and scarcity of fodder.	Wheat, 8⅓ seers... Barley, 14 seers. Gram, 11½ seers. Rice, 6 seers.	Extra spring crops being sown. Harvesting of barley, massar (*ervum lens*) and gram in progress, and of wheat commenced. Condition of standing crops average on irrigated and poor on unirrigated lands.	Sowings of cotton, sugarcane and fodder crops in progress.
12	Gujránwála ...	...	1. Scarce ...	Wheat, 8 to 9½ seers. Gram, 11½ to 12 seers. Bajra, 11 seers. Maize, 11½ seers.	Extra spring crops being sown; expected yield of irrigated crops below averge. Unirrigated crops have practically withered.	Sowings of cotton, sugarcane and great-millet in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
[illegible]	Shahpur ...	—	1. Sufficient except in Khusháb tahsil. 3. Fair.	Wheat, 8 to 10 seers. Barley, 13 to 18 seers. Jowar, 10½ to 12½ seers. Maize, 11 to 13 seers. Gram, 11 to 12½ seers. Bajra, 10 to 12 seers.	Extra spring crops being sown. Standing crops good in Shahpur and Khusháb; fair in Sargodha and irrigated portion of Bhera tahsil and poor on unirrigated tracts of Bhera tahsil; gram, barley and masur (*ervum lens*) being harvested.	Sowings of great millet cotton, &c., in progress.
14	Ráwalpindi ...	1·87 at Gujar Khan 2·25 at Kahúta.	1. Scarce in Gujar Khan and Kahúta tahsils. 3. Fair.	Wheat, 9½ seers. Barley, 13¾ seers. Bajra, 10½ seers. Gram, 11¾ seers. Maize, 12 seers.	Condition of standing crops average on irrigated and bad on unirrigated lands. Extra spring crops being sown	Sowings of autumn crops in progress.
15	Miánwáli ...	0·58 at Bhakkar ... 0·20 at Leiah.	1. Scarce ... 3. Fair.	Wheat, 9½ seers... Gram, 13 seers. Bajra, 12 seers. Barley, 15 seers.	Rain beneficial to sowings of extra spring crops, but injurious to standing crops. Crops damaged by hailstorm, river inundation and cold winds in kacha tract. Harvesting of spring crops commenced. Expected yield on irrigated lands average and on unirrigated below average.	Ploughings for autumn crops in progress.
16	Lyallpur ...	—	1. Insufficient ... 2. Do.	Wheat, 9½ seers... Gram, 11½ seers. Jowar, 10 seers. Maize, 11½ seers.	Extra spring crops being sown. Spring crops being harvested. Standing crops below average.	Sowings of cotton and sugarcane in progress.
17	Jhang ...	0·13 at Shorkot ...	1. Insufficient ... 3. Poor.	Wheat, 9 to 10 seers Bajra, Gram } 12 seers. Jowar, 11 seers. Maize, 13 seers.	Condition of standing crops average on irrigated and bad on unirrigated lands. Wheat being harvested. Extra spring crops being sown.	—
18	Multán ...	0·11 at Sadr ...	1. Insufficient ... 3. Good.	Wheat, 9½ seers ... Gram, 12¾ seers. Maize, 10¾ seers.	Extra spring crops being sown. Harvesting of wheat and barley commenced. Condition of crops below average, both on irrigated and unirrigated areas.	—

GENERAL REMARKS.

Rainfall.—Good to light rain has fallen in Ambála, Jullundur, Lahore, Siálkot, Ráwalpindi, Miánwáli, Jhang and Multán.

Prices.—Prices of food-grains are rising in 8 and falling in 5 districts, but are still generally at or above scarcity rates except in [illegible].

Agricultural operations.—Sowings of extra spring crops and of autumn crops going on. Spring crops being harvested in several districts.

Crops and culture.—Expected yield of irrigated crops good to below average and of unirrigated, average to bad. Opium crop average in Amritsar and below average in Lahore. The rainfall of the last two weeks did some good to standing crops in the Salt Range, but did neither harm nor good in other tracts. The rain has come too late to revive very late sown crops on dry land. Rainfall beneficial for extra spring crops and early autumn sowings.

Damage done to crops.—Crops damaged by hailstorm, river flood and cold winds in Miánwáli.

Pasturage.—Fodder scarce in Rohtak, Delhi, Siálkot, Gujránwála, Miánwáli, Lyallpur, Jhang, Multán, parts of Hissar, [illegible], Shahpur and Ráwalpindi. Pasture insufficient in Lahore.

Agricultural stock.—Condition of cattle good to poor.

Water-supply.—Canal water-supply insufficient in Ambála and Lyallpur. Canal closed during the week in Delhi.

Test-work.—1,192 persons attended the famine test-works in Gurgaon tahsil against 1,187 last week.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 22nd April 1908.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 11th April 1908, there were 1,023 births registered in the 43 large municipal towns (539 males and 484 females), giving a birth rate of 37 *per mille* of population, and 1,073 deaths were registered (584 males and 489 females), giving a death rate of 38 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 40 against 180 in the corresponding week of the previous year ; Lahore 47 against 160; Amritsar 35 against 61; and Multán 39 against 23. There were 28 deaths reported from plague in Rewári, 14 in Shahabád, 5 in Palwal, 2 each in Sonepat, Pánipat, Ambála, Jagraon and Kasúr, and 1 each in Ludhiana, Gujránwála and Lyallpur. Of the 114 deaths from small-pox, 23 were registered in Lahore, 15 in Multán, 11 in Shahabád, 10 in Hánsi, 9 in Amritsar, 8 in Jagádhri, 5 in Jullundur, 4 in Ferozepore, 3 each in Hissar, Rewári and Ráwalpindi, 2 each in Sonepat, Kartárpur, Jhang-Maghiana and 1 each in Bhiwáni, Sirsa, Rohtak, Jhajjar, Delhi, Kaithal, Hoshiárpur, Ludhiána, Kasúr, Siálkot, Gujránwála, Wazírábad and Bhera. There were 2 deaths recorded from cholera, 1 each in Delhi and Kasúr.

Deaths reported from plague during the week ending 18th April 1908 *in the districts including all municipal towns* :— Hissar 22, Rohtak 105, Gurgaon 333, Delhi 116, Karnál 262, Ambála 77, Hoshiárpur 32, Jullundur 7, Ludhiána 5, Ferozepore 212, Montgomery 58, Lahore 272, Amritsar 67, Gurdáspur 37, Siálkot 23, Gujránwála 70, Gujrát 2, Shahpur 6, Jhelum 1, Ráwalpindi 6, Miánwali 2, Jhang 12 and Lyallpur 104; Patiála State 376, Máler Kotla State 126 and Jínd State 11. Total for the province 2,344. Total for the previous week 2,668. Total for the corresponding week of the previous year 46,821.

2	Rohtak ...	...	1. Scarce. Old fodder used for cattle. 3. Good.	Wheat, 9 seers ... Gram, 11½ seers. Jowar, 11 seers. Maize, 11 seers.	Spring crops being harvested. Extra spring crops good.	Sowings of cotton and sugarcane in progress on irrigated lands.
3	Gurgaon ...	...	1. Sufficient for present needs in Gurgaon and Rewári tahsils, but scarce in other tahsils where cattle being fed on green leaves of trees, &c. 3. Fair.	Wheat, 8¼ to 10 seers. Barley, 12½ to 14¼ seers. Gram, 10¼ to 11¼ seers. Bajra, 9 to 10½ seers. Maize, 9 to 12 seers.	Harvesting of zira (cummin seed) and tobacco commenced in certain places of Rewári tahsil. Standing crops in good condition. Probable outturn average. Test work in progress at Ghamraaj with an attendance of 1,275 persons.	...
4	Delhi ...	...	1. Scarce ... 2. Canal opened for three days in the week.	Wheat, 8 seers ... Barley, 12 seers. Gram, 10½ seers. Jowar, 10½ seers. Bajra, 9½ seers. Maize, 11 seers.	Extra spring crops being sown. Spring crops on irrigated and unirrigated areas nearly reaped. Yield average on irrigated and below average on unirrigated lands.	Ploughings for next autumn crops in progress. Sowings of cotton and sugarcane commenced on canal irrigated lands.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Insufficient in some places in Ambála, Jagádhri, Naráingarh and Kharar tahsils. 2. Insufficient. 3. Not good.	Wheat, 7 to $9\frac{1}{8}$ seers. Gram, 11 to 11½ seers. Barley, 10½ seers. Maize, 11 seers. Jowar, 11 seers. Bajra, 9½ seers.	...	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers... Maize, 10½ seers. Gram, 11 seers. Jowar, 11 seers. Gur, 6 seers.	Sowings of extra spring crops and harvesting of spring crops in progress. Standing well crops fair. Unirrigated crops bad.	Sugarcane and cotton being sown.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers .. Gram, 11¼ seers. Barley, 13½ seers. Maize, 10½ seers.	Harvesting of spring crops in progress. Irrigated crops good, unirrigated average, excepting those sown late, which are poor. Outturn fairly well.	...
8	Ferozepore ...	...	1. Sufficient. Green fodder scarce. 3. Fair.	Wheat, 8½ seers Barley, 12 seers. Gram, 11 seers. Maize, 10 seers.	Harvesting of spring crops in progress. Irrigated crops fair; unirrigated poor.	Cotton being sown.
9	Lahore ...	...	1. Pasture insufficient 3. Fair	Wheat, 9 seers... Gram, 12 seers.	Extra spring crops being sown. Irrigated spring crops below average; unirrigated bad.	Sowings of cotton, sugarcane and great-millet in progress.
10	Amritsar ...	...	1. Sufficient ... 3. Fair.	Wheat, 9½ seers Gram, 10¾ seers. Barley, 14¼ seers. Jowar, 10¼ seers. Maize, 10½ seers. Bajra, 9½ seers.	Extra spring crops being sown. Spring crops being harvested. Condition of crops on irrigated and riverain tracts average, and on unirrigated bad. Poppy crop on irrigated area average.	Sowings of cotton, sugarcane, maize, great-millet, &c., in progress.
11	Siálkot ...	...	1. Scarce ... 3. Cattle weak owing to overwork and scarcity of fodder.	Wheat, 9 seers ... Barley, 13 seers. Gram, 11½ seers. Rice, 5½ seers.	Extra spring crops being sown. Barley and massar (*ervum lens*) being harvested.	Sowings of sugarcane, cotton and fodder crops in progress.
12	Gujránwála ...	...	1. Scarce ... 3. Fair.	Wheat, 8½ to 11 seers. Maize, 11½ seers. Bajra, 11 seers. Gram, 11½ to 12 seers.	Wheat being harvested. Late sown crops poor.	Sowings of cotton, sugarcane and great-millet in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
13	Shahpur ...	...	1. Sufficient except in Khushab tahsil. 3. Good.	Wheat, 8 to 10 seers. Gram, 12 to 13 seers. Barley, 13 to 18 seers. Jowar, 10 to 10½ seers. Bajra, 10 to 11½ seers. Maize, 11 seers.	Extra spring crops being sown. Harvesting of wheat and gram continue. Outturn average.	Harvesting of cotton, &c., in progress.
14	Ráwalpindi ...	...	1. Scarce in Gujar Khan and Kahúta tahsils. 3. Fair.	Wheat, 9¼ seers ... Barley, 13¼ seers. Bajra, 10½ seers. Gram, 11¾ seers. Maize, 12 seers.	Condition of crops average on irrigated and bad on unirrigated land. Spring crops being harvested. Extra spring crops being sown.	Sowings of autumn crops in progress.
15	Miánwáli ...	...	1. Scarce ... 3. Fair.	Wheat, 9 seers ... Gram, 13 seers. Bajra, 11 seers. Barley, 15 seers.	Extra spring crops being sown. Harvesting of spring crops continues. Yield of irrigated crops average; unirrigated below average.	Ploughings for autumn crops in progress.
16	Lyallpur ...	...	1. Dry fodder sufficient. Green fodder scarce. 2. Canal closed for annual repairs.	Wheat, 9¾ seers ... Gram, 11¾ seers. Jowar, 10 seers. Maize, 11¾ seers.	Spring crops being harvested. Extra spring crops being sown. Outturn of barley average and that of gram below average.	Sowings of cotton, sugarcane and great-millet in progress.
17	Jhang ...	...	1. Insufficient ... 3. Poor.	Wheat, 10 to 11 seers. Bajra, Maize, } 11 seers. Gram, 12 seers. Jowar, 10 seers.	Condition of crops on irrigated lands below average and on unirrigated bad. Wheat being harvested. Sowings of extra spring crops in progress.	Cotton being sown.
18	Multán ...	...	1. Insufficient ... 3. Good.	Wheat, 9½ seers ... Gram, 12¾ seers. Maize, 10¾ seers.	Extra spring crops being sown. Wheat being harvested. Condition of standing crops below average on irrigated and unirrigated areas.	...

GENERAL REMARKS.

Rainfall.—Nil.

Prices.—Prices of food-grains are rising in 6, falling in 7 and unchanged in other districts, but are still generally at or above scarcity rates except in Multán.

Agricultural operations.—Spring crops being harvested. Sowings of extra spring and autumn crops in progress.

Crops and outturn.—Expected yield of irrigated crops good to below average and of unirrigated average to bad. Opium crop average in Amritsar.

Pasturage.—Fodder scarce in Rohtak, Delhi, Siálkot, Gujránwála, Miánwáli, Jhang, Multán, parts of Hissar, Gurgaon, Ambála, Shahpur and Ráwalpindi. Green fodder scarce in Ferozepore and Lyallpur. Pasture insufficient in Lahore.

Agricultural stock.—Condition of cattle good to poor.

Water-supply.—Canal water-supply insufficient in Ambála. Canal closed during the week in Lyallpur and opened for 3 days in Delhi.

Test works.—1,275 persons attended the famine test works in Gurgaon tahsil against 1,292 last week.

P. A. GABRIEL, SUPDT.,

for Director of Agriculture, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 28th April 1908.

KASHI RAM, Supdt.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 18th April 1908, there were 917 births registered in the 43 large municipal towns (464 males and 453 females), giving a birth rate of 33 *per mille* of population, and 976 deaths were registered (508 males and 468 females), giving a death rate of 35 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 40 against 151 in the corresponding week of the previous year; Lahore 41 against 203; Amritsar 34 against 78; and Multán 34 against 29. There were 10 deaths reported from plague in Shahabád, 7 each in Rewári and Palwal, 6 in Ferozepore, 4 in Pánipat, 2 each in Sonepat, Ludhiána, Jagraon and Gujránwála and 1 in Kasúr. Of the 75 deaths from small-pox, 21 were registered in Lahore, 7 each in Amritsar, and Multán, 5 each in Hissar and Jagádhri, 4 in Jullundur, 3 each in Hánsi, Jhajjar and Shahabad, 2 each in Rohtak, Delhi, Gujránwála, Bhera and Jhang-Maghiána and 1 each in Rewári, Sonepat, Kasúr, Batála, Siálkot, Gujrát and Ráwalpindi. There were 36 deaths recorded from cholera in Pind Dádan Khán, 4 in Amritsar, 3 in Jhang-Maghiána, 2 in Bhera and 1 each in Khushábó and Jhelum.

Deaths reported from plague during the week ending 25th April 1908 in the districts including all municipal towns :—Hissar 15, Rohtak 18, Gurgaon 304, Delhi 124, Karnál 183, Ambála 51, Hoshiárpur 39, Jullundur 5, Ludhiána 510, Ferozepore 244, Montgomery 44, Lahore 330, Amritsar 111, Gurdáspur 43, Siálkot 15, Gujránwála 49, Gujrát 8, Shahpur 10, Jhelum 4, Ráwalpindi 20, Attock, 4, Miánwali 1, Jhang 20 and Lyallpur 55; Patiála State 470, Máler Kotla State 117, Jind State 49, Nábha State 103 and Baháwalpur State 2. Total for the province 3,028. Total for the previous week 2,441. Total for the corresponding week of the previous year 54,402.

KASHI RAM, SUPDT.,

for Sanitary Commissioner, Punjab.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, MAY 8, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 4TH MAY 1908.

[Eighteen out of 29 districts are dealt with]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient, except in Bhiwáni tahsil. 3. Good.	Wheat, 8 seers ... Bajra, 10 seers. Gram, 11½ seers. Bejhar, 12 seers.	Crops being harvested. Outturn of irrigated crops fairly good, and that of unirrigated average. Very small unirrigated area matured except in Fattahabad and Sirsa tahsils. Extra spring crops in fair condition.	...
2	Rohtak ...	...	1. Scarce. Old fodder used for cattle. 3. Good.	Wheat, 9 seers ... Gram, 11 seers. Jowar, 11 seers. Maize, 1[illegible] seers.	Harvesting of spring crops nearly finished. Outturn below average. Extra spring crops in good condition.	Sowings of autumn crops in progress.
3	Gurgaon ...	...	1. Scarce except in Gurgaon and Rewári tahsils. 3. Fair.	Wheat, 8½ to 10 seers. Barley, 12 to 14 seers. Gram, 10 to 11 seers. Bajra, 9 to 10½ seers. Maize, 10 to 12 seers.	Tobacco and melons being cut. Spring crops being collected. Standing crops in fair condition. Outturn average. Test work in progress at Ghamroj with an attendance of 1,596 persons.	...
4	Delhi ...	Slight rain at Sadr	1. Scarce ... 2. Canal opened during the week.	Wheat, 8½ seers ... Barley, 12 seers. Gram, 10½ seers. Bejhar 11½ seers. Jowar, 10½ seers. Bajra, 9½ seers. Maize, 11 seers.	Extra spring crops being sown on canal irrigated lands. Harvesting of spring crops finished. Yield average on irrigated and below average on unirrigated lands. Condition of extra spring crops good.	Ploughings for next autumn crops and sowings of sugarcane and cotton on irrigated lands in progress.

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Sufficient ... 2. Insufficient. 3. Generally good.	Wheat, 9 to 11 seers. Gram, 11¼ to 11¾ seers. Barley, 11 seers. Maize, 11 seers. Jowar, 11 seers. Bajra, 10 seers.	Standing extra spring crops below average on unirrigated and average on irrigated lands.	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Maize, 10½ seers. Gram, 10¼ seers. Jowar, 11 seers. Gur, 6 seers.	Extra spring crops being sown. Spring crops being harvested. Yield good.	Sowings of sugarcane and cotton in progress.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers ... Barley, 13½ seers. Gram, 10¼ seers. Maize, 10½ seers.	Extra spring crops above average, excepting those sown late, which are poor. Outturn of irrigated spring crops good, unirrigated average.	Condition of sugarcane above average.
8	Ferozepore ...	...	1. Sufficient. Green fodder not available. 3. Generally fair.	Wheat, 8½ seers Barley, 12 seers. Gram, 10¾ seers Maize, 10 seers.	Spring crops nearly harvested. Yield poor.	Great millet sown in certain places.
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, 9 seers ... Gram, 11 seers.	Sowings of extra spring crops in progress. Wheat and gram being threshed. Yield average. Extra spring crops fair.	Sugarcane, cotton and moth (*phaseolus aconitifolius*) being sown.
10	Amritsar ...	...	1. Sufficient ... 3. Fair.	Wheat, 10½ seers Gram, 10½ seers. Barley, 14 seers. Jowar, 10½ seers. Maize, 11 seers. Bajra, 9½ seers.	Spring crops being harvested. Condition of crops average.	Sowings of great-millet, maize, &c., in progress.
11	Siálkot ...	0·02 at Daska ... 0·85 at Raya.	1. Scarce. Bhusa of barley and massar (*ervum lens*) available in small quantity and straw used as fodder. 3. Cattle generally good but weak owing to overwork and scarcity of fodder.	Wheat, 9½ seers ... Barley, 12¾ seers. Gram, 11¼ seers. Rice, 5½ seers.	Harvesting of wheat and threshing of barley, &c., in progress. Yield on irrigated lands average and on unirrigated poor.	Sowings of sugarcane, cotton and fodder crops continue, and that of moth (*phaseolus aconitifolius*) commenced throughout the district.
12	Gujránwála ...	...	1. Cattle being fed on stubble grass and cut wheat fields. 3. Fair.	Wheat, 8½ to 11 seers. Gram, 11 seers. Maize, 11½ seers. Bajra, 10 seers.	Harvesting of spring crops nearly over. Extra spring crops in fair condition.	Sowings of cotton, sugarcane, great-millet in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	...	1. Sufficient except in Khusháb tahsil. 3. Fair.	Wheat, 8 to 11 seers. Barley, 13 to 18 seers. Bajra, 10 to 10½ seers. Jowar, 9½ to 10 seers. Gram, 12½ to 13 seers. Maize, 12½ to 13 seers.	Extra spring crops being sown. Wheat, barley and gram harvested. Outturn fair.	Sowings of great-millet, bajra, &c., in progress.
14	Ráwalpindi ...	0·01 at Sadr. 0·13 at Gujar Khan. 0·16 at Kahúta. 0·21 at Murree.	1. Scarce in Gujar Khan and Kahúta tahsils. 3. Fair.	Wheat, 9 seers ... Barley, 13¼ seers. Bajra, 10½ seers. Gram, 11 seers. Maize, 12 seers.	Condition of standing crops average on irrigated and bad on unirrigated lands. Extra spring crops being sown. Spring crops being harvested.	Sowings of autumn crops in progress.
15	Miánwáli ...	...	1. Scarce ... 3. Fair.	Wheat, 9½ seers... Barley, 15 seers. Gram, 12 seers. Bajra, 12 seers.	Extra spring crops being sown. Harvesting of spring crops continues. Expected yield of irrigated crops average and of unirrigated below average.	Ploughings for and sowings of autumn crops in progress.
16	Lyallpur ...	0·09 at Sadr ...	1. Dry fodder sufficient; green fodder scarce. 2. Canal closed for annual repairs.	Wheat, 10 seers ... Gram, 11 seers. Jowar, 10 seers. Maize, 11½ seers.	Harvesting of spring crops continues. Outturn of wheat is below average and that of gram poor. Wheat in certain parts damaged by Earcockle. Matter being investigated by the Agricultural Department. No more sowings of extra spring crops owing to the closure of canal.	Sowings of cotton, and great-millet in progress.
17	Jhang ...	0·07 at Sadr ...	1. Insufficient ... 3. Poor.	Wheat, 9 to 10 seers. Bajra, 9 seers. Maize, Gram, } 11 seers. Jowar, 10 seers.	Condition of crops below average on irrigated and bad on unirrigated lands. Wheat being harvested. Sowings of extra spring crops in progress.	Cotton being sown.
18	Multán ...	0·01 at Sadr ...	1. Insufficient ... 3. Good.	Wheat, 10 seers ... Gram, 11 seers. Maize, 10¼ seers.	Sowings of extra spring crops completed. Wheat being harvested. Condition of standing crops below average, both on irrigated and unirrigated areas.	...

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in Delhi, Siálkot, Ráwalpindi, Lyallpur, Jhang and Multán.

Prices.—Prices of food-grains are rising in 8 and falling in 7 districts, but are still generally at or above scarcity rates except in Multán.

Agricultural operations.—Spring crops being harvested. Sowings of extra spring and autumn crops in progress.

Crops and outturn.—Expected yield of irrigated crops good to below average and of unirrigated average to poor.

Damage done to crops.—Wheat damaged by Earcockle in parts of Lyallpur.

Pasturage.—Fodder scarce in Rohtak, Delhi, Siálkot, Miánwáli, Jhang, Multán, parts of Hissar, Gurgaon, Shahpur and Ráwalpindi. Green fodder scarce in Ferozepore and Lyallpur. Cattle being fed on stubble and chaff.

Agricultural stock.—Condition of cattle generally good.

Water-supply.—Water insufficient in Ambála. Canal running in Delhi and closed for annual repairs in Lyallpur.

Test work.—1,596 persons attended the famine test work in Gurgaon tahsil against 1,275 last week.

NOTE.—The birth and death rates of the above towns (except Lyallpur) are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 6th May 1908.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 25th April 1908, there were 1,015 births registered in the 43 large municipal towns (511 males and 504 females), giving a birth rate of 36 *per mille* of population, and 1,077 deaths were registered (559 males and 518 females), giving a death rate of 39 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 46 against 167 in the corresponding week of the previous year; Lahore 44 against 175; Amritsar 39 against 79; and Multán 36 against 25. There were 11 deaths reported from plague in Rewári, 6 each in Shahabad, Ludhiána and Jagraon, 5 in Lyallpur, 3 each in Palwal and Gujránwála, 2 each in Ráekot, Lahore and Kasúr, and 1 in Ferozepore. Of the 95 deaths from small-pox, 27 were registered in Lahore, 14 in Multán, 9 in Jagádhri, 5 each in Shahabad and Amritsar, 4 each in Hánsi and Sonepat, 3 each in Hissar, Jhajjar and Jullundur, 2 each in Delhi, Siálkot, Gujránwála and Wazirabad, and 1 each in Sirsa, Rohtak, Rewári, Karnál, Pánipat, Kartárpur, Ludhiána, Jagráon, Bhera and Ráwalpindi. There were 20 deaths recorded from cholera in Pind Dádan Khan, 6 in Ráwalpindi, 4 each in Amritsar, and Jhang-Maghiána, 3 in Bhera, 2 in Jhelum and 1 in Hánsi.

Deaths reported from plague during the week ending 2nd May 1908 in the districts including all municipal towns:— Hissar 3, Rohtak 64, Gurgaon 183, Delhi 55, Karnál 154, Ambála 48, Hoshiárpur 40, Jullundur 10, Ludhiána 470, Ferozepore 331, Montgomery 26, Lahore 378, Amritsar 60, Gurdáspur 39, Siálkot 14, Gujránwála 32, Jhelum 4, Ráwalpindi 8, Attock 6, Jhang 47, and Lyallpur 90; Patiála State 220, Máler Kotla State 59, Jínd State 37, Nábha State 2 and Baháwalpur State 7. Total for the province 2,407. Total for the previous week 3,028. Total for the corresponding week of the previous year 52,698.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, MAY 15, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 11TH MAY 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	1·67 at Sadr ... 1·27 at Hánsi. 1·11 at Budhláda. 1·04 at Tohána. 0·62 at Fattahabad. 0·11 at Sirsa.	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Bajra, 10 seers. Gram, 11¼ seers. Bejhar, 11½ seers.	Spring crops harvested. Extra spring crops in good condition.	Bulrush millet will be sown where rainfall is sufficient. Cotton being sown on canal irrigated land.
2	Rohtak ...	0·66 at Sadr ... 0·49 at Gohána. 0·43 at Sámpla. 0·41 at Jhajjar. 0·63 at Salháwas.	1. Scarce ... 3. Good.	Wheat, 9 seers ... Gram, 11 seers. Jowar, 11 seers. Maize, 10½ seers.	Harvesting of spring crops completed. Outturn below average. Extra spring crops in good condition.	Sowings of autumn crops in progress.
3	Gurgaon ...	1·53 at Sadr ... More at Fírozpur and Sohna.	1. Sufficient for present needs in Gurgaon and Rewári tahsils, but scarce in other tahsils where cattle are being fed on leaves of trees, &c. 3. Fair.	Wheat, 8¼ to 9½ seers. Barley, 13 to 14¼ seers. Gram, 9½ to 11 seers. Bajra, 9 to 10½ seers. Maize, 9 to 10 seers.	Standing crops in fair condition. Outturn expected to be average. Test work in progress at Ghamrauj with an attendance of 1,646 persons.	Sowings of cotton on canal irrigated lands commenced in Palwal and Fírozpur tahsils.
4	Delhi ...	0·43 at Sadr ... 0·50 at Ballabgarh. 0·65 at Mahrauli. 0·55 at Sonepat.	1. Scarce ... 2. Canal ran during the week.	Wheat, 9 seers ... Barley, 10½ seers. Gram, 10½ seers. Bejhar 12 seers. Jowar, 11 seers. Bajra, 10 seers. Maize, 11 seers.	Condition of standing extra spring crops good. Outturn expected average.	Ploughings for next autumn crops and sowings of cotton and sugarcane on irrigated lands in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	0·08 at Jagádhri ...	1. Sufficient ... 2. Insufficient. 3. Generally good.	Wheat, 9 to 10 seers. Gram, 11¼ to 11¾ seers. Barley, 11 seers. Maize, 11 seers. Jowar, 11 seers. Bajra, 10 seers.	Harvesting of spring crops finished.	...
6	Jullundur ...	0·28 at Sadr. ... 0·45 at Nakodar. 0·58 at Phillaur. 0·18 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 10½ seers Maize, 10½ seers. Gram, 10¼ seers. Jowar, 11 seers. Gur, 6½ seers.	Threshing of rabi crops commenced. Yield good.	Fodder and cotton being sown.
7	Ludhiána ...	0·36 all over the district.	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Barley, 13½ seers. Gram, 10½ seers. Maize, 10½ seers.	Spring crops being threshed. Extra spring crops in good condition. Outturn of irrigated crops above average and of unirrigated below average. Outturn of straw of irrigated crops good and of unirrigated below average.	Condition of sugarcane good.
8	Ferozepore ...	0·07 at Sadr ...	1. Scarce ... 3. Generally fair.	Wheat, 8½ seers Barley, 12 seers. Gram, 10½ seers Maize, 10 seers.	Extra spring crops in good condition.	Chari (great-millet) sown in some places.
9	Lahore ...	0·06 at Sadr ... 0·36 at Chúnián. 0·74 at Sharakpur.	1. Sufficient ... 3. Fair.	Wheat, 9 seers... Gram, 11 seers.	Threshing of wheat in progress. Extra spring crops fair.	Cotton, jowar and moth (*phaseolus aconitifolius*) being sown.
10	Amritsar ...	0·40 at Tarn Táran	1. Sufficient ... 3. Fair.	Wheat, 10⅜ seers Gram, 10 seers. Barley, 13½ seers. Jowar, 10 seers. Maize, 10½ seers. Bajra, 9½ seers.	Spring crops being reaped and threshed Condition of standing crops good.	Maize, jowar (great-millet), cotton and fodder crops being sown.
11	Siálkot ...	0·45 at Sadr ...	1. Dry fodder sufficient in parts. 3. Generally good.	Wheat, 11 seers ... Barley, 13¼ seers. Gram, 10¾ seers. Rice, 5½ seers.	Harvesting of wheat in progress. Yield good on irrigated and poor on unirrigated lands.	Sowings of cotton, chari (great millet) and moth in progress. Growth of cotton and sugarcane good.
12	Gujránwála ...	Slight rain accompanied with hail.	1. Cattle feeding on stubble. 3. Fair.	Wheat, 9½ to 11 seers. Gram, 10 seers. Maize, 11½ seers. Bajra, 10 seers.	Wheat being threshed. Yield good. Extra spring crops fair.	Sowings of sugarcane, cotton, and chari (great-millet) completed.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
13	Shahpur ...	0·11 at Sadr ... Heavier in Sargodha and Bhera tahsils.	1. Sufficient except in Khusháb tahsil. 3. Fair.	Wheat, 8 to 10½ seers. Gram, 11 to 13 seers. Barley, 14 to 16 seers. Jowar, 11 seers. Bajra, 10 seers.	Melons being sown. Wheat being harvested. Expected outturn average.	Sowings of chari (great-mille), and moth (*phaseolus aconitifolius*) in progress.
14	Ráwalpindi ...	0·03 at Sadr ... 0·08 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 9¼ seers... Barley, 12¾ seers. Bajra, 10½ seers. Gram, 10¼ seers. Maize, 12 seers.	Sarshaf (rapeseed) barley and taramira (Eruca sativa) being harvested.	...
15	Miánwáli ...	0·06 at Leiah ...	1. Scarce ... 3. Fair.	Wheat, 9 seers ... Barley, 15 seers. Gram, 11 seers. Bajra, 11 seers.	Sowings of extra spring crops and harvesting of spring crops approaching completion. Expected yield of irrigated crops average and of unirrigated below average.	Sowings of autumn crops in progress.
16	Lyallpur ...	0·91 at Sadr ... 0·15 at Toba Tek Singh.	1. Sufficient green fodder scarce. 2. Canal now running after closure.	Wheat, 10½ seers Gram, 10½ seers. Jowar, 10 seers. Maize, 11½ seers.	No more sowings of extra spring crops owing to closure of canal. Harvesting of spring crops in progress. Outturn of wheat below average. Standing crops in average condition.	...
17	Jhang ...	0·50 at Sadr with hailstones in Maghiána and round about.	1. Insufficient ... 3. Poor.	Wheat, 10 to 11 seers. Bajra, 10 to 11 seers. Maize, } 11 seers. Jowar, } Gram, 10 seers.	Spring crops harvested. Yield below average. Sowings of extra spring crops nearly completed. Standing crops damaged of hailstones.	Sowings of autumn crops in progress.
18	Multán ...	0·02 at Sadr ...	1. Sufficient ... 3. Good.	Wheat, 10¼ seers Gram, 10½ seers. Maize, 11½ seers.	Wheat being threshed. Condition of standing extra spring crops average, both on irrigated and unirrigated areas.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in all districts.

Prices.—Prices of food-grains are rising in 8 and falling in 6 districts, but are still generally at or above scarcity rates except in Siálkot, Lyallpur and Multán where wheat is selling between warning and scarcity rates. The spring harvest has not affected prices.

Agricultural operations.—Spring crops being harvested. Sowings of autumn crops in progress.

Crops and outturn.—Yield of irrigated spring crops good to below average and of unirrigated average to poor. Condition of standing extra spring crops good to average.

Damage done to crops.—Some damage by hailstones in Jhang.

Pasturage.—Fodder scarce in Rohtak, Delhi, Ferozepore, Miánwáli, Jhang and parts of Gurgaon, Siálkot and Shahpur.

Agricultural stock.—Condition of cattle generally good.

Water-supply.—Water insufficient in Ambála. Canals running in Delhi and Lyallpur.

Test work.—1,646 persons attended the famine test work in Gurgaon tahsil against 1,596 last week.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

slight rain.
rain gauge station.

P. A. GABRIEL, Supdt.

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of April 1908.

1.—HISSAR DISTRICT.

THERE was very slight rainfall during the month, which practically did no good. Rabi crops being harvested. Outturn of irrigated crops fairly good, and that of unirrigated average in the Fatahabad and Sirsa tahsils. In other tahsils very small area could be sown owing to scanty rainfall. Fodder sufficient except in the Bhiwáni tahsil, where it is getting scarce. Condition of cattle good. General health of the people good. Water-supply in the canal greatly deficient, and it is urgently required for sowing cotton crop and for watering cattle. Village tanks drying up. Drinking water scanty in many parts.

2.—ROHTAK DISTRICT.

Sowing of sugarcane in irrigated tracts in progress. Standing chahi and nahri crops fair. Yield below average on canal irrigated and fair on chahi lands. Cattle generally in good condition. Canal water-supply insufficient.

3.—GURGAON DISTRICT.

Slight rainfall was received in different parts of the district, but it was not beneficial to the zaid rabi crops. Rabi crops were being irrigated by wells and canals. In canal irrigated villages sugarcane and cotton were sown on about ¼th of the area allotted for the purpose. Condition of standing zaid rabi crops on irrigated lands good. Average outturn expected. Cattle in fair condition. Fodder insufficient and cattle were fed on the leaves of trees, &c. Supply of canal water insufficient.

4.—DELHI DISTRICT.

The ploughings for next kharif and sowings of extra rabi crops on irrigated lands continued. About the end of the month sowings of sugarcane and cotton commenced on canal irrigated lands. Condition of extra rabi crops good ; rabi crops have been reaped. Outturn on irrigated area average and on unirrigated area below average. Yield of the extra rabi crops expected to be average. Canal opened only 5—6 days in the month owing to breaches. Fodder scarce. New fodder has come in the market, but is not sufficient to meet the demand ; the rate is also high.

5.—KARNAL DISTRICT.

Sowings of sugarcane, china, chari, extra rabi crops, such as melons and vegetables, were made during the month. Hail has done some damage to the crops in Karnál, Kaithal and Guhla tahsils. Wheat has been successfully harvested. The yield is average. Condition of cattle generally good. Fodder still scarce. Western Jumna and Sirhind Canals flowing. No inundations.

6.—AMBALA DISTRICT.

Melons and vegetables were sown during the month. The rabi crops which had matured were cut and gathered. Yield of irrigated crops as well as of those sown early is fair to average and of barani crops poor. The late sown crops failed almost entirely. Cattle reduced in condition owing to scarcity of fodder. Supply of canal water insufficient.

7.—SIMLA DISTRICT.

Statement returned for corrections.

8.—KANGRA DISTRICT.

Some area was sown with rice, sugarcane and cotton. The rainfall during the month was useful for kharif harvest and also for the standing crops to some extent. Condition and the expected yield of the crops, on the whole, on unirrigated area bad and on irrigated area average. Cattle are suffering much from scarcity of fodder. The health of the public is generally good. Water in kuhls (water-streams) sufficient for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

The rainfall during the month stimulated sowings of cotton, melon, rice, moth, chari (great millet), &c. Reaping of rabi crops finished. Early sown crops fairly good with some local exceptions and late sown crops generally poor. Mango crop appears to be promising. Yield is expected to be not more than 50 per cent. on the whole. Condition of agricultural stock fairly good. Prospects improved by recent rainfall and fresh supply of fodder. Public health good. Irrigation from wells continued as the Shah Nahr Canal is still being cleaned out.

10.—JULLUNDUR DISTRICT.

Sowings of vegetables, sugarcane and cotton on chahi land in progress. Condition of chahi crops good and of barani bad. Expected yield average. Cattle in good condition. Public health good.

11.—LUDHIANA DISTRICT.

Sowings of sugarcane, cotton and extra rabi crops, *viz.*, tobacco, melon, chillies and vegetables completed during the month. Condition of standing crops good. Yield of rabi crops on the whole above average, excepting those sown late, which are poor. Outturn of straw of irrigated crops good and of unirrigated average. Cattle in good condition. Fodder sufficient. Public health generally satisfactory. Irrigation from canals fairly satisfactory.

12.—FEROZEPORE DISTRICT.

Tobacco, cotton, sugarcane, melons and other vegetables sown during the month. Rabi crops have nearly been cut. Yield poor. Cattle generally in fair condition. Public health generally good. The Sirhind Canal had been flowing during the month, and a normal area was irrigated from it Owing to the high prices the prospects of agriculturists are fair except in the Bet. Stocks of food-grains are believed to be sufficient, but fodder is getting scarce and difficult to procure.

13.—MONTGOMERY DISTRICT.

Zaid rabi and kharif sowings have been carried on during the month to a certain extent. Rabi crops have been cut. Zaid rabi average. Yield ordinary. Fodder scarce. There is little water in the Khanwah and Mahdi Canals, and so far no irrigation has been done.

14.—LAHORE DISTRICT.

Extra rabi crops, cotton, sugarcane, chari and moth (babal) were sown during the month. Condition of standing irrigated crops average. Yield of irrigated crops about average and of unirrigated bad. Condition of cattle fair. Fodder insufficient. Perennial canals ran as usual.

15.—AMRITSAR DISTRICT.

Cotton, chari and vegetables being sown. Crops on irrigated and sailab area average and on barani bad. Yield of crops on irrigated and sailab expected average, and of those on barani ¼th of an average. Condition of cattle fair. Canal water-supply average.

16.—GURDASPUR DISTRICT.

Good showers of rain fell during the month. Sowings of sugarcane and cotton in progress. Sowing of rice also commenced. Condition of irrigated and sailab crops average, and of unirrigated poor. The rain during the month was too late to be of any use to the rabi crops. A large area failed owing to scarcity of rain. The outturn of bhoosa (straw) is good and that of grain fair. Condition of cattle good. Fodder scarce. Public health generally good. Bari Doab Canal and its distributaries were in full flow. Private kuhls (water-streams) were also flowing.

17.—SIALKOT DISTRICT.

Sowings of sugarcane, tobacco, cotton, chari, moth, vegetables, melon and water-melon in progress. Reaping of barley and massar commenced towards the beginning and that of wheat towards the middle of the month. Thrashing of massar and barley in progress. Yield average on irrigated and poor on barani lands. Cattle weak owing to scarcity of fodder and overwork. Public health generally good. Water sufficient in Bajwat Canals. Rivers Chenab and the Ravi flooded once in the month.

18.—GUJRANWALA DISTRICT.

Sowings of cotton, sugarcane and chari in progress. Condition of irrigated crops average: sailab below average. Harvesting of spring crops in progress. Condition of extra rabi crops fair. Hail damaged a small area under crops. A fair yield is expected. Condition of cattle poor owing to insufficiency of fodder. General health fairly good. Canal closed for annual clearance.

19.—GUJRAT DISTRICT.

Fairly good rain fell during the month, which admitted of further sowings of cotton, sugarcane and extra rabi crops. The recent rain much improved the condition of the standing crops. Germination of cotton, sugarcane and extra rabi crops good. Harvesting of rabi crops commenced. Expected yield average to poor. Condition of cattle good. Fodder is still reported to be insufficient.

20.—SHAHPUR DISTRICT.

Rainfall was universal. Green vegetables, chari, cotton, tobacco, jowar, mandwa and melons were sown; also sugarcane in Sargodha tahsil. Condition of standing wheat crop good in the Shahpur tahsil, fair on irrigated and poor on unirrigated portions of the Bhera tahsil; fair in Sargodha. Gram in Khusháb tahsil damaged to some extent by rain and also by floods in the river. Wheat being cut. Barley and gram harvested. Outturn fair. Cattle in fair condition. Fodder scarce in the Khusháb tahsil; sufficient in other parts. The Lower Jhelum Canal and private inundation canals were flowing. Stock of food-grains insufficient in the Khusháb tahsil.

21.—JHELUM DISTRICT.

There was well distributed and copious rainfall throughout the district which allowed sowings of extra rabi crops. Rabi crops nearly failed in Thal and Phaphra and some parts of Chakwál tahsil; those sown during January did not mature and were cut for cattle. No definite estimate of yield can be framed as yet. Condition of cattle good. Pind Dádan Khan Canal worked during the month owing to the rain.

22.—RAWALPINDI DISTRICT.

Copious rain fell during the month. The rain was general and well distributed, but late. Cotton, chari, &c., being sown. State of crops average on irrigated and below average on unirrigated lands. Rabi crops being cut. Condition of cattle fair. Fodder scarce in Gujar Khan and Kahúta tahsils.

23.—ATTOCK DISTRICT.

Rainfall was plenty. Sowings of kharif crops commenced. Condition of crops better. Expected yield average. Condition of cattle fair.

24.—MIANWALI DISTRICT.

Sowings of extra rabi crops continued during the month. Harvesting of rabi crops commenced late in the month. Condition of standing extra rabi crops good. Excessive and continuous rain damaged gram, peas, massar and barley. Crops damaged by hail-storm in Thal and by river inundation in Kacha.

25.—LYALLPUR DISTRICT.

Hail in Toba Tek Singh and Lyallpur tahsils wiped out crops entirely in two zones; the first was 7 miles by ½ mile broad and the second 12 miles by a ½ mile broad. There has been a little general rain which has benefited kharif and zaid rabi sowings. Wheat cutting is practically finished. The crop which is all canal-irrigated came in early owing to short supply of canal water. Gram was spoilt by frosts and cold wind in March, and there is no outturn anywhere. Outturn of wheat average. Cattle in good condition. Green fodder scarce. There has been a general closure of the Lower Chenab Canal in the latter part of the month, which has damaged early cotton sowings. Bhusa is being exported from most colony stations.

26.—JHANG DISTRICT.

Cotton, china, melons and vegetables are being sown. Rabi crops being harvested. Crops slightly damaged by hail. Extra rabi crops benefited by recent rain. Yield of barley average and of wheat and other grains below average. Fodder insufficient. Canals working. General complaint of insufficieny of water in tahsil Shorkot. The Chenab and Jhelum rivers are reported to be in flood.

27.—MULTAN DISTRICT.

Sowings of extra rabi crops completed. Condition of standing crops below average both on irrigated and unirrigated areas. Yield of rabi crops below average. Condition of cattle fair. Health of people good. Sutlej Inundation and Sidhnai Canals commenced flowing in the latter part of the month. Fodder insufficient.

28.—MUZAFFARGARH DISTRICT.

Jowar, rawan and indigo sown. The recent rainfall delayed the harvesting of wheat. Condition of crops below average. Wheat is being harvested Yield of wheat on irrigated lands expected to be below average and on unirrigated lands ¾ths of an average. Condition of cattle fair. Bhusa (straw) available as fodder. Chenab Canals dry. Indus Canals running in Sinánwán and Alipur tahsils, and in the latter tahsil insufficiency of canal water is complained of.

29.—DERA GHAZI KHAN DISTRICT.

Cotton, jowar, &c., sown during the month. Condition of crops fair, but in some villages of the Dera Ghází Khan tahsil the crops damaged by hail and river flood. Yield of extra rabi crops expected to be fair, of wheat normal, and of gram and peas below average owing to unusual cold in last month. Condition of cattle good. State of public health generally good. River flood damaged the harvests in the Kacha part. No canals worked, but hill torrents did some good to the extra rabi crops. Rabi crop has generally been cut and collected.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 13th May 1908.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 2nd May 1908, there were 917 births registered in the 43 large municipal towns (452 males and 465 females), giving a birth rate of 33 *per mille* of population, and 1,213 deaths were registered (640 males and 573 females), giving a death rate of 43 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 51 against 182 in the corresponding week of the previous year ; Lahore 46 against 162 ; Amritsar 48 against 96 ; and Multán 53 against 22. There were 8 deaths reported from plague in Shahabad, 4 each in Rewári, Palwal, Ludhiána, Jagráon and Lyallpur, 3 in Ráekot, 1 each in Karnál, Pánipat, Ferozepore and Gujránwála. Of the 89 deaths from small-pox, 14 were registered in Lahore, 10 in Multán, 8 in Sonepat, 7 in Shahabad, 5 each in Hánsi, Jagádhri and Amritsar, 3 each in Jhajjar, Kaithal and Bhera, 2 each in Hissar, Rohtak, Rewári, Delhi, Jullundur, Kasúr, Siálkot, Jhang-Maghiána and Lyallpur, and 1 each in Sirsa, Pánipat, Kartárpur, Jagráon, Ferozepore, Jalálpur, Khusháb and Ráwalpindi. There were 17 deaths recorded from cholera in Pind Dádan Khan, 11 in Lahore, 10 each in Amritsar and Bhera, 7 each in Khusháb and Jhang-Maghiána, 5 in Ráwalpindi, 3 in Ferozepore, and 1 each in Karnál, Hoshiárpur, Wazirabad and Jhelum.

Deaths reported from plague during the week ending 9th May 1908 in the districts including all municipal towns :— Hissar 9, Rohtak 50, Gurgaon 115, Delhi 51, Karnál 118, Ambála 20, Ferozepore 249, Montgomery 27, Amritsar 119, Gurdáspur 30, Siálkot 17, Gujránwála 47, Jhelum 28, Ráwalpindi 21, Attock 123, Jhang 14 and Lyallpur 15 ; Patiála State 528, Máler Kotla State 13 and Jínd State 41. Total for the province 1,635. Total for the previous week 2,413. Total for the corresponding week of the previous year 58,876.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

The 21st April 1908.

G. B. GOYDER,
for *Examiner of Accounts, North-Western Railway.*

Punjab Government Press, Lahore—15-5-08—916.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, MAY 22, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 18TH MAY 1908.

[Eighteen out of 29 districts are dealt with]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	1·20 at Sadr ... 0·95 at Bhiwáni. 1·50 at Fatahabad. 0·11 at Budhláda. 0·42 at Tohána. 0·41 at Sirsa.	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Bajra, 10 seers. Gram, 11 seers. Bejhar, 12 seers.	The rainfall has greatly benefited the extra spring crops. Extra spring crops in good condition.	Rain will be of great use for sowing bajra (bulrush millet) crops on irrigated land.
2	Rohtak ...	...	1. Scarce ... 3. Good.	Wheat, 9 seers ... Gram, 11 seers. Jowar, 10½ seers. Maize, 11 seers.	Extra spring crops being sown on irrigated lands. Condition of standing crops on irrigated lands good.	Sowings of autumn crops on irrigated lands in progress.
3	Gurgaon ...	0·04 at Sadr ... More rain was received at a few other stations.	1. Sufficient for present needs in Gurgaon and Rewári tahsils. 3. Fair.	Wheat, 8½ to 9½ seers. Barley, 12¾ to 14 seers. Gram, 9½ to 11½ seers. Bajra, 9 to 10 seers. Maize, 9 to 10 seers.	Standing crops in fair condition. Outturn of extra spring crops expected to be average. Test-work in progress at Ghamrauj with an attendance of 1,728 persons.	Cotton being sown on canal irrigated lands and ploughings for other autumn crops in progress.
4	Delhi ...	0·06 at Sonepat ... Slight rainfall at sadr and Ballabgarh.	1. Scarce ... 2. Canal closed during the week.	Wheat, 8¾ seers... Barley, 12 seers. Gram, 10 seers. Jowar, 9½ seers. Bajra, 9½ seers. Maize, 11 seers.	Condition of standing extra spring crops good. Outturn expected average.	Ploughings for next autumn crops and sowings of cotton and sugarcane on irrigated lands in progress.

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	0·84 at Sadr ... 0·56 at Jagádhri. 1·02 at Naráingarh. 0·89 at Kasauli. 0·38 at Kharar. 0·80 at Rúpar.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 8¾ to 9½ seers. Gram, 10¼ to 10½ seers. Barley, 11 seers. Maize, 11 seers. Jowar, 11 seers. Bajra, 10 seers.	Condition of standing extra spring crops fair.	Cotton sown in some parts of Naráingarh tahsil.
6	Jullundur ...	0·21 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 10½ seers. Maize, 10½ seers. Gram, 9½ seers. Jowar, 11 seers. Gur, 6½ seers.	Spring crops being threshed. Yield good.	Fodder and cotton being sown.
7	Ludhiána ...	0·09 at Samrála ...	1. Sufficient ... 3. Good.	Wheat, 9½ seers ... Barley, 13½ seers. Gram, 10½ seers. Maize, 10½ seers.	Threshing of spring crops in progress. Condition of standing crops good.	...
8	Ferozepore ...	...	1. Scarce ... 3. Generally fair.	Wheat, 9 seers Gram, 10 seers. Maize, 10 seers.	Extra spring crops in average condition.	...
9	Lahore ...	0·19 at Chúnián ...	1. Sufficient ... 3. Fair.	Wheat, } 10 seers. Gram, }	Threshing of wheat in progress. Extra spring crops in fair condition. Hailstones did some damage to crops in parts of Chunián tahsil.	Cotton, great-millet and moth (*phaseolus aconitifolius*) being sown.
10	Amritsar ...	...	1. Sufficient ... 3. Fair.	Wheat, 10¾ seers Gram, 10 seers. Barley, 13½ seers. Jowar, 10¼ seers. Maize, 10½ seers. Bajra, 8½ seers.	Condition of standing crops good.	Maize (great-millet) and fodder being sown.
11	Siálkot ...	0·03 at Sadr ... 0·19 at Daska. 0·60 at Pasrúr. 0·55 at Zafarwál.	1. Dry fodder sufficient in parts. 3. Weak owing to overwork.	Wheat, 10¼ seers Barley, 12½ seers. Gram, 10 seers. Rice, 5¾ seers.	Wheat being threshed. Yield good on irrigated and poor on unirrigated lands. Hailstones damaged extra spring crops slightly in parts of tahsil Zafarwál.	Sowings of cotton and great-millet in progress. Growth of cotton and sugarcane good on irrigated and poor on unirrigated lands.
12	Gujránwála ...	...	1. Scarce. Cattle grazing on stubble. 3. Fair.	Wheat, 9½ to 11 seers. Gram, 10 seers. Bajra, 10 seers. Maize, 11½ seers.	Threshing of spring crops in progress. Extra spring crops fair on well irrigated and poor on sailab lands.	Cotton, great-millet and moth (*phaseolus aconitifolius*) being sown.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	0·36 at Sadr ... Less in other places except Khushâb.	1. Sufficient ... 3. Good.	Wheat, 10 to 11 seers. Gram, 10½ to 11 seers. Barley, 12 to 16 seers. Jowar, 9 to 10 seers. Bajra, 10 seers. Maize, 11 seers.	Melons being sown. Wheat being harvested. Outturn average. Standing extra spring crops slightly damaged by hailstones in the Shahpur tahsil.	Sowings of cotton, maize, great-millet and baira (bulrush millet) in progress.
14	Râwalpindi ...	0·12 at Sadr ... 0·35 at Gujar Khan. 0·14 at Kâhuta. 2·07 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 9¾ seers... Barley, 13 seers. Bajra, 10¾ seers. Gram, 10¾ seers. Maize, 12½ seers.	Spring crops being harvested.	...
15	Miánwâli ...	...	1. Scarce ... 3. Fair.	Wheat, 9 seers ... Barley, 14 seers. Gram, 11½ seers. Bajra, 11 seers.	Harvesting of spring crops in progress. Expected yield of irrigated crops fair and of unirrigated below average.	Sowings of autumn crops continued.
16	Lyallpur ...	0·42 at Toba Tek Singh. 1·43 at Samundri.	1. Sufficient, green fodder scarce.	Wheat, 10½ to 11 seers. Gram, 10 seers. Jowar, 10 seers. Maize, 11½ seers.	Threshing of wheat in progress. Outturn of wheat average. Condition of standing crop average except those which have been damaged by hailstones.	Cotton and chari (great-millet) being sown.
17	Jhang ...	Slight rainfall ...	1. Insufficient ... 3. Poor.	Wheat, 10 to 11 seers. Gram, 10 seers. Bajra, 9 seers. Jowar, 9 to 10 seers. Maize, 11 seers.	Rain beneficial to extra spring crops.	Sowings of autumn crops in progress.
18	Multân ...	0·11 at Sadr ... 0·14 at Mailsi.	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Gram, 10½ seers. Maize, 11½ seers.	Wheat being threshed. Condition of extra spring crops average.	Sowings of autumn crops commenced.

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in all districts except Rohtak, Ferozepore, Amritsar, Gujránwála and Miánwáli.

Prices.—Prices of food-grains are rising in 7 and falling in 3 districts, but are still generally at or above scarcity rates except in Siálkot, Lyallpur and Multán where wheat is selling between scarcity and warning rates.

Agricultural operations.—Harvesting of spring and sowings of autumn crops in progress.

Crops and outturn.—Yield of irrigated spring crops good to below average and of unirrigated average to poor. Condition of standing extra spring crops good to average. Recent rain has benefited standing crops.

Damage done to crops.—Some damage by hailstones in Lahore, Siálkot, Shahpur and Lyallpur.

Pasturage.—Fodder scarce in Rohtak, Delhi, Ferozepore, Gujránwála, Miánwáli and Jhang and parts of Gurgaon and Siálkot.

Agricultural stock.—Condition of cattle generally good.

Water-supply.—Canal closed in Delhi during the week.

Test work.—1,728 persons attended the famine test works in Gurgaon tahsil against 1,646 last week.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING MARCH 1908.

Station.	Pressure.		Wind.		Temperature in shade.						Humidity at 8 h.	Vapour tension at 8 h.	Amount of cloud, 10 = overcast.
	Barometer at 8 h. reduced to 32°, to constant gravity at 45° Lat. and to sea-level.	Departure from normal.	Mean direction and velocity in miles per hour, March 1908. (a) Indeterminate.

The weather during March was extremely dry throughout the month, and the depressions that entered north-west India from the west did not cause any precipitation of importance except in Kashmír and the Punjab hills; in the latter area it occurred chiefly on the 24th and 25th during the existence of a feeble secondary depression.

In spite of the unusual dryness of the weather it was cooler than usual during the first half of the month and warmer during the latter half.

Pressure and winds.—Pressure was in moderate to large excess on the plains, but at Srinagar it was only slightly above normal, while at Leh there was a deficiency of pressure; the vertical pressure gradients were thus steeper than usual, although the precipitation was in defect. The air movement was about normal in amount, but winds were more southerly than usual in direction; at Cherat they were almost due south instead of north, and at Simla south-east instead of north-west.

Temperature.—Weather was colder than usual for the first 17 days of the month, probably due to the high pressure and northerly winds which prevailed; the greatest deficiency in temperature occurred on the 8th, when the mean of the maximum and the minimum was over 10° below normal, and the night temperature was in greater defect than the day temperature. From the 18th, however, until the end of the month temperature was above normal, and during the last few days of the month it was very much warmer than usual The highest temperature recorded was 103°·3 at Sirsa on the 30th and 31st; with two exceptions this is the highest temperature ever recorded at Sirsa during March.

The following table shows the departures from the normal of the mean temperature of the Punjab and the North-West Frontier Province on each day of the month and the highest maximum temperature registered, with the name of the station recording it:—

Date	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.

Humidity and cloud.—The amount of moisture in the air was less than usual owing in great measure to the dry northerly winds that prevailed, and skies were freer from cloud than usual.

Rainfall.—No rainfall of any importance occurred on the plains, and at the hill stations of Murree and Simla it was very much less than usual.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for March 1908 :—

Station.	Actual rainfall in March 1908.	Normal average rainfall in March.	Difference from the average in March 1908.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 9th May 1908, there were 976 births registered in the 43 large municipal towns (493 males and 483 females), giving a birth rate of 35 *per mille* of population, and 1,315 deaths were registered (660 males and 655 females, giving a death rate of 47 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 44 against 137 in the corresponding week of the previous year; Lahore 61 against 141; Amritsar 44 against 94; and Multán 50 against 22. There were 4 deaths each reported from plague in Shahabad, Ludhiána and Kárkot, 2 each in Palwal and Ferozepore and 1 each in Lahore, Kasúr, Gujránwála and Jhelum. Of the 105 deaths from small-pox, 21 were registered in Lahore, 19 in Multán, 8 in Jullundur, 6 in Amritsar, 4 each in Hissar, Hánsi, Jhajjar and Siálkot, 3 each in Bhiwáni, Rewári, Shahabad, Kasúr and Bhera, 2 each in Sonepat, Jagádhri, Ferozepore and Jhang-Maghiána, and 1 each in Rohtak, Kaithal, Pánipat, Ambála, Tánda-Urmar, Kartárpur, Gujrát, Jhelum, Pind Dádan Khan, Ráwalpindi, Chinict and Dera Ghási Khan. There were 27 deaths recorded from cholera in Lahore, 18 in Kasúr, 11 in Bhera, 10 each in Amritsar and Siálkot, 6 each in Ráwalpindi and Dera Ghási Khan, 5 each in Wazirabad and Jhang-Maghiána, 2 each in Khusháb and Pind Dádan Khan, and 1 each in Delhi, Fe[illegible]pore and Jhelum.

Deaths reported from plague during the week ending 16th May 1908, in the districts including all municipal towns.—Hissar 12, Rohtak 45, Gurgaon 84, Delhi 13, Karnál 95, Ambála 25, Hoshiárpur 24, Jullundur 2, Ludhiána 233, Ferozepore 150, Montgomery 26, Lahore 385, Amritsar 61, Gurdáspur 20, Siálkot 16, Gujránwála 40, Shahpur 8, Jhelum 12, Ráwalpindi 6, Attock 7, Jhang 6, and Lyallpur 84; Patiála State 831 and Jind State 27. Total for the province 2,215. Total for the previous week 2,373. Total for the corresponding week of the previous year 53,654.

LAHORE, FRIDAY, MAY 29, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 25TH MAY 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 1 ½ seers. Bajra, 10½ seers. Bejhar, 12 seers.	Prospects of extra spring crops good.	Bajra (bulrush millet) and other autumn crops being sown on irrigated lands where rainfall was sufficient.
2	Rohtak ...	...	1. Scarce. Leaves of trees used as fodder for cattle. 3. Good.	Wheat, 9 seers ... Gram, 10¼ seers. Jowar, 10½ seers. Maize, 11 seers.	Condition of extra spring crops good.	Sowings of autumn crops on irrigated lands in progress. Condition of autumn crops good.
3	Gurgaon ...	...	1. Sufficient for present needs in Gurgaon and Rewári tahsils. 3. Fair.	Wheat, 8½ to 10 seers. Barley, 12¾ to 14 seers. Gram, 8½ to 10¾ seers. Bajra, 9 to 10 seers.	Standing crops in fair condition. Outturn of extra spring crops expected to be average. Test work in progress at Ghamrauj, with an attendance of 1,758 persons.	Cotton and great-millet being sown on canal-irrigated lands, and ploughings for other autumn crops in progress.
4	Delhi ...	...	1. Scarce ... 2. Canal closed during the week.	Wheat, 9 seers ... Gram, 10 seers. Barley, 12½ seers. Jowar, 10 seers. Bajra, 11 seers. Maize, 11½ seers.	Condition of standing extra spring crops good.	Sowings of cotton and sugarcane on irrigated lands and ploughings for other autumn crops in progress.

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 8¾ to 9½ seers. Gram, 9¾ to 10 seers. Barley, 11 seers. Maize, 12 seers. Jowar, 11 seers. Bajra, 10 seers.	Condition of extra spring crops average.	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 10½ seers. Maize, 10 seers. Gram, 10 seers. Jowar, 11 seers. Gur, 6½ seers.	Threshing of spring crops continued. Yield good. Extra spring crops being weeded.	Sowings of cotton in progress.
7	Ludhiána ...	...	1. Sufficient ... 3. Satisfactory.	Wheat, 9¼ seers... Barley, 13½ seers. Gram, 10½ seers. Maize, 10½ seers.	Spring crops being threshed. Condition of standing crops good.	...
8	Ferozepore ...	...	1. Scarce ... 3. Generally fair.	Wheat, 9 seers. Gram, 10 seers. Maize, 10 seers.	Extra spring crops average.	...
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers... Gram, 10 seers.	Threshing of wheat in progress. Extra spring crops fair.	Cotton, great-millet and moth (*phaseolus aconitifolius*) being sown. Condition of sugarcane fair
10	Amritsar ...	...	1. Sufficient ... 3. Fair.	Wheat, 10⅜ seers. Gram, 9⅞ seers. Barley, 13½ seers. Jowar, 10 seers. Maize, 10½ seers. Bajra, 8½ seers.	Wheat, &c., being threshed. Conditions of standing crops good. Weeding of extra spring crops in progress.	Maize, great-millet, cotton, fodder, chillies, &c., being sown. Sugarcane, &c., being weeded.
11	Siálkot ...	...	1. Sufficient in parts 3. Generally good.	Wheat, 10 seers ... Barley, 12 seers. Gram, 10 seers. Rice, 5½ seers.	Wheat being threshed. Yield good on irrigated and poor on unirrigated lands.	Sowings of great-millet in progress in irrigated tracts of tahsil Pasrur. Growth of sugarcane and cotton good on irrigated and poor on unirrigated lands.
12	Gujránwála ...	...	1. Scarce. Cattle fed on straw. 3. Weak and overworked.	Wheat, 9½ to 10½ seers. Gram, 10 seers. Bajra, 10 seers. Maize, 11½ seers.	Threshing of spring crops in progress. Extra spring crops fair on well irrigated and poor on unirrigated lands.	Sowings of great-millet and moth (*phaseolus aconitifolius*) in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 to 11 seers. Barley, 14 to 15 seers. Gram, 10¾ to 11 seers. Jowar, 8 to 10 seers. Bajra, 8 to 10 seers. Maize, 9 to 12 seers.	Standing extra spring crops in good condition. Hailstones did some damage in Shahpur tahsil. Wheat being harvested. Outturn average.	Sowings of cotton, great-millet and maize in progress.
14	Ráwalpindi ...	0·35 at Kahúta ... 0·28 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 9¼ seers. Barley, 13¼ seers. Bajra, 11 seers. Gram, 11 seers. Maize, 12¾ seers.	Spring crops being harvested.	...
15	Miánwáli ...	...	1. Scarce ... 3. Fair.	Wheat, 9 seers ... Barley, 14 seers. Gram, 11 seers. Bajra, 11 seers.	Harvesting of spring crops in progress. Expected yield of irrigated crops average; unirrigated below average.	Autumn crops being sown.
16	Lyallpur ...	...	1. Dry fodder sufficient. Green fodder scarce.	Wheat, 10¼ seers. Gram, 10 seers. Jowar, 10 seers. Maize, 11½ seers.	Threshing of wheat in progress. Outturn of wheat average. Condition of standing crops average.	Cotton and great-millet being sown. Sowing is late, because there was closure of canal for annual repairs.
17	Jhang ...	...	1. Insufficient ... 3. Poor.	Wheat, 10 seers. Bajra, 10 seers. Jowar, 10 seers. Gram, 10 seers. Maize, 12 seers.	Extra spring crops average on irrigated and unirrigated lands.	Sowings of autumn crops in progress.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 10¼ seers. Gram, 10¾ seers. Maize, 11½ seers.	Wheat being gathered. Condition of extra spring crops average both on irrigated and unirrigated lands.	Sowings of autumn crops in progress, but not promising for want of canal water.

GENERAL REMARKS.

Rainfall.—Slight rain fell in parts of Ráwalpindi.

Prices.—Prices of food-grains are rising in 9 and falling in 5 districts, but are still generally at or above scarcity rates, except Lyallpur and Multán, where wheat is selling between warning and scarcity rates.

Agricultural operations.—Harvesting of spring crops nearly over. Sowings of autumn crops in progress.

Crops and outturn.—Condition of extra spring crops generally good to average.

Damage done to crops.—Some damage by hailstones reported from Shahpur.

Pasturage.—Fodder scarce in Rohtak, Delhi, Ferozepore, Gujránwála, Miánwáli, Jhang, and parts of Gurgaon and Siálkot.

Agricultural stock.—Condition of cattle generally good.

Water-supply.—Canal closed during the week in Delhi.

Test work.—1,758 persons attended the famine test works in the Gurgaon tahsil against 1,728 last week.

W. RENOUF,

Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 16th May 1908 there were 910 births registered in the 43 large municipal towns (476 males and 434 females), giving a birth rate of 33 *per mille* of population, and 1,293 deaths were registered (688 males and 605 females, giving a death rate of 46 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 42 against 95 in the corresponding week of the previous year; Lahore 66 against 109; Amritsar 44 against 85; and Multán 48 against 28. There were 3 deaths reported from plague each in Ludhiána and Lyallpur, 2 each in Shahabad and Gujránwála and 1 each in Tánda-Urmar, Jagraon and Kasúr. Of the 107 deaths from small-pox, 21 were registered in Lahore, 12 in Multán, 7 each in Shahabad and Amritsar, 6 each in Hánsi, Jullundur and Siálkot, 4 each in Jhajjar, Jagádhri and Ráwalpindi, 3 each in Sonepat, Karnál, Kaithal and Batála, 2 each in Delhi, Ambála and Jagráon, and 1 each in Bhiwáni, Rohtak, Rewári, Hoshiárpur, Ludhiána, Ferozepore, Kasúr, Gujránwála, Wazírabad, Gujrát, Bhera and Lyallpur. There were 48 deaths ...rded from cholera in Kasúr, 21 each in Lahore and Ráwalpindi, 19 in Dera Gházi Khan, 10 in Amritsar, 7 in Jhang-Maghiána, 4 each in Siálkot and Bhera, and 1 each in Ambála, Ludhiána, Ferozepore, Wazirabad and Jhelum.

Deaths reported from plague during the week ending 23rd May 1908, in the districts including all municipal towns.—Hissar 12, Rohtak 30, Gurgaon 49, Delhi 13, Karnál 70, Ambála 16, Hoshiárpur 34, Jullundur 2, Ludhiána 226, Ferozepore 125, Montgomery 14, Lahore 240, Amritsar 50, Gurdáspur 9, Siálkot 6, Gujránwála 18, Shahpur 4, Jhelum 2, Ráwalpindi 3, Attock 10, Jhang 20 and Lyallpur 40; Patiála State 100 and Jind State 6. Total for the province 1,099. Total for the previous week 2,260. Total for the corresponding week of the previous year 42,931.

LAHORE:
The 27th May 1908.

W. H. MILLS, HEAD ASST.,
for *Sanitary Commissioner, Punjab.*

No. 23 of 1908.

SUPPLEMENT TO THE Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, JUNE 5, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 1ST JUNE 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient except in tahsil Bhiwáni. 3. Good.	Wheat, 8½ seers... Bajra, 9 seers. Gram, 10¼ seers. Bejhar, 11⅛ seers.	Extra spring crops flourishing.	Cotton being sown on wet lands and bajra (bulrush millet) sown on unirrigated lands where rainfall was sufficient.
2	Rohtak ...	...	1. Scarce. Old fodder and leaves of trees used as fodder. 2. Canal water urgently needed. 3. Good.	Wheat, 9 seers ... Gram, 10 seers. Jowar, 10½ seers. Maize, 10½ seers.	Condition of extra spring crops good.	Sowings of cotton and great-millet on irrigated lands in progress. Autumn crops in good condition.
3	Gurgaon ...	...	1. Sufficient for present needs in Rewári tahsil, but scarce in other tahsils where cattle were being fed on leaves of trees, &c. 3. Fair.	Wheat, 8¼ to 10 seers. Barley, 12¾ to 14½ seers. Gram, 9½ to 11 seers. Bajra, 9 to 10 seers. Maize, 9 to 10 seers.	Standing crops in fair condition. Outturn expected average. Test work in progress at Ghamrauj, with an attendance of 1,710 persons.	Cotton and fodder being sown on canal-irrigated lands.
4	Delhi ...	0·03 at Ballabgarh	1. Scarce ... 2. Canal closed during the week. 3. Generally good.	Wheat, 9½ seers... Barley, 13 seers. Gram, 10 seers. Jowar, 10 seers. Bajra, 11 seers. Maize, 11½ seers.	Condition of standing extra spring crops good. Outturn expected average.	Sowings of sugar-cane and cotton and ploughings for other autumn crops in progress on irrigated lands.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Sufficient ... 2. Ditto. 3. Generally good.	Wheat, 9½ to 10 seers. Gram, 9¾ to 10 seers. Barley, 11 seers. Maize, 10½ seers. Jowar, 10 seers.	Condition of standing extra spring crops average.	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Maize, 10 seers. Gram, 10 seers. Jowar, 11 seers. Gur, 7 seers.	Threshing of spring crops in progress. Yield good.	Sowings of cotton in progress.
7	Ludhiána ...		Report not received.			
8	Ferozepore ...	...	1. Scarce ... 3. Generally fair.	Wheat, 9 seers... Gram, 10 seers.	Condition of extra spring crops average.	Great-millet being sown in certain places.
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers... Gram, 10 seers.	Standing crops in fair condition.	Cotton, great-millet, moth (*phaseolus aconitifolius*) and bajra (bulrush millet) being sown.
10	Amritsar ...	...	1. Sufficient ... 3. Fair.	Wheat, 10⅔ seers. Gram, 9⅞ seers. Barley, 13½ seers. Jowar, 10 seers. Maize, 11 seers. Bajra, 8½ seers.	Spring crops being threshed and collected. Condition of standing crops good.	Maize, great-millet, cotton, chillies, fodder, &c., being sown.
11	Siálkot ...	...	1. Sufficient in parts 2. Water-supply insufficient for animals. 3. Generally good.	Wheat, 10¾ seers. Barley, 12 seers. Gram, 10 seers. Rice, 5½ seers.	Threshing of wheat continued. Yield good on irrigated and poor on unirrigated lands.	Sowings of great-millet on irrigated lands in progress. Condition of cotton and sugarcane good on irrigated, but withering on unirrigated, lands.
12	Gujránwála ...	...	1. Scarce. Cattle being fed on straw. 3. Fair.	Wheat, 9½ to 10½ seers. Gram, 10 seers. Bajra, 9 to 10 seers. Maize, 11 to 12½ seers.	Threshing of spring crops nearly completed. Extra spring crops in average condition.	Great-millet being sown on irrigated areas.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	...	1. Sufficient except in parts of Bhera tahsil. 3. Good.	Wheat, 10½ to 11 seers. Gram, 10½ to 11 seers. Barley, 14 to 15 seers. Jowar, 9 to 10 seers. Bajra, 8 to 10 seers. Maize, 9 to 11 seers.	Condition of extra spring crops good. Wheat being harvested. Outturn average.	Sowings of cotton, great-millet, maize, &c., in progress.
14	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 9¼ seers... Barley, 13½ seers. Bajra, 11¼ seers. Gram, 11 seers. Maize, 13 seers.	Spring crops being harvested.	...
15	Miánwáli ...	...	1. Scarce ...	Wheat, 8½ seers... Gram, 13 seers. Barley, 15 seers. Bajra, 11 seers.	Spring crops being harvested. Condition of extra spring crops average. Outturn average on irrigated and poor on unirrigated lands.	Rain badly wanted in Thal. River rising.
16	Lyallpur ...	...	1. Sufficient green fodder scarce.	Wheat, 10¾ seers. Gram, 10 seers. Jowar, 10 seers. Maize, 12 seers.	Threshing of wheat in progress. Outturn of wheat below average Condition of standing crops average.	Cotton and great-millet being sown.
17	Jhang ...	...	1. Insufficient ... 3. Poor.	Wheat, 10 to 11 seers. Jowar, 10 seers. Bajra, 10 seers. Gram, 10 seers. Maize, 11 seers.	Condition of extra spring crops average.	Sowings of autumn crops in progress.
18	Multán ...	...	1. Sufficient, except in Kabirwála. 2. Insufficient. 3. Good.	Wheat, 10¼ seers. Gram, 10¾ seers. Maize, 11½ seers.	Wheat being gathered. Condition of standing crops below average both on irrigated and unirrigated areas.	Autumn crops not promising owing to scarcity supply of canal water.

GENERAL REMARKS.

Rainfall.—Slight rain fell in parts of Delhi.

Prices.—Prices of food-grains are rising in 5 and falling in 8 districts, but are still generally at or above scarcity rates, except in Delhi, Sialkot, Lyallpur and Multán.

Agricultural operations.—Harvesting of spring crops nearly over. Sowings of autumn crops in progress.

Crops and outturn.—Condition of extra spring crops good to below average. Sugarcane and cotton crops withering on unirrigated lands in Siálkot. Autumn crops in Multán not promising, owing to deficient canal water-supply.

Pasturage.—Fodder scarce in Rohtak, Delhi, Ferozepore, Gujránwála, Jhang, parts of Hissar, Gurgaon, Siálkot, Shahpur and Multán.

Agricultural stock.—Condition of cattle generally good.

Water-supply.—Canal closed during the week in Delhi; canal water-supply insufficient in Rohtak, Siálkot and Multán.

Test work.—1,710 persons attended the famine test works in the Gurgaon tahsil against 1,758 last week.

W. RENOUF,

Director of Agriculture, Punjab.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

Supplementary Notes on the condition and prospects of crops, etc., in the Simla district in the Punjab during the month of April 1908, received too late for insertion in the Supplement to "Punjab Gazette" dated 15th May 1908.

SIMLA DISTRICT.

Rainfall in both tahsils sufficient. The rain has benefited the crops in Kot Khái to some extent, but was too late for those in the Simla tahsil. Rice, cotton and suank sown to some extent. Condition of crops bad. Condition of cattle in both tahsils good. Fodder and grazing scarce. Water insufficient in the streams of the Simla tahsil; sufficient in Kot Khái.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 23rd May 1908 there were 845 births registered in the 43 large municipal towns (416 males and 429 females), giving a birth rate of 30 *per mille* of population, and 1,342 deaths were registered (688 males and 654 females), giving a death rate of 48 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 45 against 73 in the corresponding week of the previous year; Lahore 60 against 68; Amritsar 48 against 71; and Multán 50 against 35. There were 5 deaths reported from plague in Ludhiána, 4 in Panipat, 3 in Shahabad, and 1 each in Jagraon and Kasúr. Of the 119 deaths from small-pox, 17 were registered in Lahore, 14 in Multán, 9 in Amritsar, 7 in Ambála, 6 in Delhi, 5 each in Hánsi and Shahabad, 4 each in Jhajjar, Kaithal, Jagraon and Siálkot, 3 each in Hissar, Karnál, Hoshiárpur, Jullundur and Ferozepore, 2 each in Rohtak, Rewári, Sonepat, Panipat, Batála, Gujrát, Bhera and Ráwalpindi, and 1 each in Bhiwáni, Jagádhri, Kartárpur, Ludhiána, Ráekot, Kasúr, Gujránwála, Wazírabad and Chiniot. There were 68 deaths recorded from cholera in Kasúr, 19 in Lahore, 13 in Siálkot, 10 in Amritsar, 9 in Dera Gházi Khan, 6 in Ráwalpindi, 4 in Ferozepore, 3 in Jhang-Maghiána, and 2 each in Pánipat, Batála, Gujránwála and Gujrát.

Deaths reported from plague during the week ending 30th May 1908, in the districts including all municipal towns.—Hissar 8, Rohtak 17, Gurgaon 31, Delhi 12, Karnál 62, Ambála 12, Hoshiárpur 45, Jullundur 11, Ludhiána 245, Ferozepore, 93, Montgomery 14, Lahore 189, Amritsar 53, Gurdáspur 11, Siálkot 11, Gujránwála 27, Shahpur 11, Jhelum 10, Ráwalpindi 6, Attock 2, Jhang 4 and Lyallpur 25; Patiála State 683 and Jind State 7. Total for the province 1,589. Total for the previous week 1,099. Total for the corresponding week of the previous year 31,753.

Errata.—Weekly plague deaths reports, published on pages 427 and 438 of the Supplement to *Punjab Government Gazette* dated 19th and 22nd May 1908—

LAHORE, FRIDAY, JUNE 12, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 8TH JUNE 1908.

[Eighteen out of 29 districts are dealt with]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers... Bajra, 9 seers. Gram, 10 seers. Bejhar, 11 seers.	Extra spring crops flourishing.	Cotton being sown on canal land. Bulrush millet (bajra) sown in certain tracts on unirrigated land in fair condition.
2	Rohtak ..	...	1. Scarce. Old fodder used for cattle. 3. Good.	Wheat, 9 seers ... Gram, 10 seers. Jowar, 10½ seers. Maize, 11 seers.	Standing crops fair ...	Sowings on irrigated lands continue. Sugarcane crop damaged by white ants in tahsil Sampla owing to dryness of weather and insufficiency of canal water.
3	Gurgaon ...	...	1. Scarce, except in Rewári. 3. Fair.	Wheat, 8¼ to 10 seers. Barley, 12¼ to 14 seers. Gram, 9½ to 10½ seers. Bajra, 9½ to 10 seers. Maize, 9 to 10 seers.	Standing crops in fair condition. Outturn expected to be average. Test works in progress at Ghamrauj, with an attendance of 1,530 persons.	Cotton sowings continue on canal-irrigated lands.
4	Delhi ...	...	1. Scarce ... 2. Canal open during the week. 3. Good.	Wheat, 9½ seers... Barley, 13 seers. Gram, 10 seers. Jowar, 10 seers. Bajra, 11 seers. Maize, 11½ seers.	Reaping of tobacco commenced. Condition of standing extra spring crops good. Yield expected to be good.	Sowings of cotton and ploughings for other autumn crops in progress. Sowings of sugarcane and melon, &c., finished.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
5	Ambála ...	...	1. Sufficient except in parts 2. Ditto. 3. Good.	Wheat, 9¾ seers. Gram, 10 seers. Barley, 11 seers. Maize, 10½ seers Jowar, 10 seers.	Condition of standing extra spring crops average.	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 10½ seers Maize, 10½ seers. Gram, 10 seers. Jowar, 10 seers. Gur, 7 seers.	Threshing of spring crops finished.	Standing fodder crop good.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Barley, 13½ seers. Gram, 10 seers. Maize, 10½ seers.	Standing crops in good condition. Outturn of melons and vegetables good.	...
8	Ferozepore ...	...	1. Scarce ... 3. Poor.	Wheat, 9 seers .. Gram, 10 seers.	Extra spring crops average.	Fodder crops sown in parts.
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers Gram, 10 seers.	Standing crops fair ...	Cotton, rice and fodder crops still being sown.
10	Amritsar ...	...	1. Sufficient ... 3. Fair.	Wheat, 10½ seers Gram, 10 seers. Barley, 13½ seers. Jowar, 10 seers. Maize, 11 seers. Bajra, 8½ seers.	Spring crops being harvested. Weeding of tobacco and melons continues. Condition of standing crops on irrigated and unirrigated area good.	Cotton, maize paddy and fodder crops being sown. Cotton, sugarcane, &c., being weeded.
11	Siálkot ...	0·10 at Sadr ...	1. Sufficient in parts 2. Water insufficient for animals in tahsil Pasrúr. 3. Good.	Wheat, 10½ seers Gram, 9¾ seers. Rice, 6 seers.	Wheat harvesting finished.	Weeding of sugarcane and cotton commenced. Condition of standing crops good on irrigated lands, but withering on unirrigated lands. Sugarcane slightly damaged by ants in Zafarwál.
12	Gujránwála ...	...	1. Green fodder scarce. 3. Fair.	Wheat, 9½ to 10½ seers. Gram, 10 seers. Bajra, 10 seers. Maize, 11½ seers.	Extra spring crops average.	Great-millet sown on irrigated lands. Sugarcane attacked by insects in Khángáh Dográn tahsil.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ..	Slight rainfall at Sadr.	1. Scarce in parts ... 3. Good to fair.	Wheat, 10 to 12 seers. Gram, 10½ to 11 seers. Barley, 13 to 15 seers. Jowar, 8 to 10 seers. Bajra, 9 to 10 seers. Maize, 9 to 11 seers.	Harvesting of spring crops in progress. Yield average. Standing extra spring crops in good condition.	Sowings of cotton, maize, &c., continue.
14	Ráwalpindi	0·08 at Murree ...	1. Sufficient ... 3. Fair.	Wheat, 9¾ seers... Barley, 13½ seers. Bajra, 11½ seers. Gram, 9¾ seers. Maize, 13 seers.	Spring crops being harvested. Outturn below average.	...
15	Miánwáli	...	...	Wheat, 9¾ seers... Gram, 11¼ seers. Barley, 16 seers. Bajra, 11 seers	Condition of extra spring crops fair. Spring crops being harvested. Outturn poor on unirrigated area.	Rain badly wanted in Thal. River rising.
16	Lyallpur ...	...	1. Dry sufficient. Green scarce.	Wheat, 11 seers ... Gram, 10 seers. Jowar, 9¾ seers. Maize, 11¾ seers.	Wheat is being harvested. Outturn average. Condition of standing crops average.	Cotton and fodder crop sowings continue.
17	Jhang ...	...	1. Insufficient ... 3. Poor.	Wheat, 11 seers ... Maize, 11 seers. Jowar, 10 seers. Gram, 10 seers. Bajra, 10 seers.	Condition of extra spring crops average.	Sowings of autumn crops in progress.
18	Multán ...	...	1. Sufficient, except in Multán and Kabírwála tahsils. 3. Fair.	Wheat, 10¼ seers Gram, 10½ seers. Maize, 11¼ seers.	Wheat being gathered. Condition of standing crops below average.	Autumn crops not promising owing to insufficient supply of canal water.

GENERAL REMARKS.

Rainfall.—Slight rain fell in parts of Siálkot, Shahpur and Ráwalpindi.

Prices.—Slight fluctuations in the prices of food-grains. Price of wheat is rising in Ambála and Amritsar; falling in Jullundur, Shahpur and Miánwáli. Prices are generally above scarcity rates except in Delhi, Siálkot, Lyallpur, Shahpur and Multán.

Agricultural operations.—Harvesting of spring crops nearly over. Sowings of autumn crops continue.

Crops and outturn.—Condition of extra spring crops good to below average. Autumn crops in Multán not promising owing to deficient canal water-supply. River rising in Miánwáli.

Damage done to crops.—Insects have done some damage to sugarcane in Rohtak, Siálkot and Gujránwála, due to dry weather and deficient supply of canal water.

Agricultural stock.—Cattle in good to fair condition in all districts except in Ferozepore and Jhang where cattle in poor condition.

Pasturage.—Fodder scarce in Rohtak, Delhi, Ferozepore, Jhang and parts of Gurgaon, Ambála, Siálkot, Shahpur and Multán.

Water-supply.—Canal open during the week in Delhi; canal water-supply deficient in Siálkot and parts of Ambála.

Test work.—1,530 persons attended the famine test work in the Gurgaon tahsil against 1,710 last week.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

W. H. MILLS, Supdt.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SIXTY-NINE THOUSAND ONE HUNDRED AND FORTY-FOUR births were registered in the province during the month of March 1908, giving a birth-rate of 40 *per mille* of population. Of the total number of births, 35,788 were boys and 33,356 were girls.

The total number of deaths registered from all causes in the province during the month of March 1908 was 55,932 against 50,843 in the previous month, and 154,720 in the corresponding month of the past year, giving an annual death rate of 33, 32 and 91 *per mille* of population per annum, respectively.

There was one death registered under the head of cholera in the Ludhiána district.

The total mortality from plague amounted to 7,404 against 3,126 in the previous month and 100,419 in the corresponding month of the past year.

From small-pox 2,842 deaths were registered against 1,783 in the previous month and 983 in the corresponding month of the past year; fevers 28,401 against 27,656 and 34,479; dysentery and diarrhœa 763 against 720 and 949; respiratory diseases 5,562 against 5,535 and 6,137. During the month there were 24 deaths registered from suicide against 19 in the past month; wounding 53 against 34; accidents 320 against 260; snake-bite and killed by wild beasts 26 against 22; and from all other causes 10,536 against 11,698 in the previous month and 11,416 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th June 1908.

NOTE.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 30th May 1908, there were 970 births registered in the 43 large municipal towns (505 males and 465 females), giving a birth rate of 35 *per mille* of population, and 1,374 deaths were registered (730 males and 644 females), giving a death rate of 49 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 48 against 62 in the corresponding week of the previous year; Lahore 56 against 62; Amritsar 47 against 70; and Multán 50 against 38. There were 3 deaths reported from plague in Kasúr, 2 each in Shahabad, Ludhiána and Ráekot, and 1 each in Pánipat and Lyallpur. Of the 112 deaths from small-pox, 23 were registered in Lahore, 13 in Multán, 9 in Hánsi, 7 each in Delhi, Jullundur and Amritsar, 6 in Shahabad, 5 in Siálkot, 4 each in Kaithal, Ambála and Hoshiárpur, 3 each in Rewári, Batála and Jhang-Maghiána, 2 each in Hissar, Ráwalpindi and Chiniot, and 1 each in Rohtak, Jhajjar, Karnál, Jagádhri, Kartárpur, Ludhiána, Ferozepore and Kasúr. There were 65 deaths recorded from cholera in Kasúr, 21 in Pánipat, 18 in Lahore, 7 in Amritsar, 6 in Ráwalpindi, 4 each in Siálkot and Dera Gházi Khan, and 1 in Wazírabad.

Deaths reported from plague during the week ending 6th June 1908 in the districts, including all municipal towns.—Gurgaon 11, Delhi 2, K[illegible] 50, Ambála 5, Hoshiárpur 9, Jullundur 1, Ludhiána 116, Ferozepore 87, Montgomery 21, Lahore 135, Amritsar 30, Gurdáspur 8, Siálkot 3, Gujránwála 5, Jhelum 10, Ráwalpindi 3, Attock 2, Miánwáli 4, Jhang 20 and Lyallpur 52; Patiála State 71 and Jínd State 3. Total for the province 643. Total for the previous week 1,595. Total for the corresponding week of the previous year 19,477.

LAHORE:
The 9th June 1908.

W. H. MILLS, SUPDT.,
for Sanitary Commissioner, Punjab.

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, JUNE 19, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 15TH JUNE 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·42 at Sadr ... 0·28 at Fatahabad. 0·46 at Sirsa. 0·16 at Budhláda. 0·77 at Tohána.	1. Sufficient except in Bhiwáni. 3. Good.	Wheat, 8½ seers... Gram, 10 seers. Bajra, 9 seers. Bejhar, 11 seers.	Extra spring crops ripe. Outturn good.	Cotton sowings continue on canal-irrigated lands. Condition of bajra (bulrush millet) sown on certain unirrigated tracts in fair condition.
2	Rohtak ...	0·13 at Jhajjar ...	1. Scarce. Old fodder used for cattle. 3. Good.	Wheat, 9¼ seers... Gram, 10¼ seers. Maize, 11 seers. Jowar, 11 seers.	...	Condition of crops on canal land, owing to late and insufficient supply of canal water, indifferent.
3	Gurgaon ...	0·15 at Sadr ...	1. Scarce, except in Rewári. Cattle being fed on leaves of green trees.	Wheat, 8 to 9½ seers. Barley, 12 to 13½ seers. Gram, 9½ to 10¼ seers. Bajra, 9 to 10 seers. Maize, 9 to 10 seers.	Standing crops in fair condition. Probable outturn expected to be average. Test-works in progress at Ghamrauj, with an attendance of 1,441 persons.	Ploughings continue.
4	Delhi ...	...	1. Scarce ... 2. Canal open in the week. 3. Good.	Wheat, 9½ seers... Barley, 13 seers. Gram, 10 seers. Bajra, 11 seers. Jowar, 10 seers. Maize, 11½ seers.	Reaping of tobacco in progress. Outturn of extra spring crops good.	Sowings of cotton and ploughings for other autumn crops in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	Slight rainfall ...	1. Insufficient ... 2. Scarce. 3. Good.	Wheat, 10 seers ... Gram, 9¾ seers. Barley, 11 seers. Maize, 10 seers. Jowar, 9 seers.	Condition of standing extra spring crops average.	...
6	Jullundur ...	0·39 at Nakodar ... 0·45 at Phillaur. 0·55 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 10½ seers Maize, 10½ seers. Gram, 10 seers. Jowar, 10 seers. Gur, 7 seers.	Standing well crops good	...
7	Ludhiána ...	0·38 at Sadr ... 0·46 at Samrála.	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Barley, 13½ seers. Gram, 10 seers. Maize, 10½ seers.	Condition of standing crops good.	...
8	Ferozepore ...	...	1. Scarce ... 3. Poor for want of fodder.	Wheat, 9 seers... Gram, 10 seers.	Standing crops average	Fodder crops sown in certain places.
9	Lahore ...	0·42 at Sadr ... 0·15 at Sharakpur.	1. Sufficient ... 3. Fair.	Wheat, 10 seers Gram, 10 seers.	Standing crops fair ...	Cotton, rice, great millet, &c., being sown.
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 10¾ seers Gram, 10⅛ seers. Barley, 13½ seers. Jowar, 10¼ seers. Maize, 11 seers. Bajra, 9½ seers.	Extra spring crops being cut. Harvesting of spring crops over. Condition of standing crops average. Melons being damaged by insects.	Paddy, &c., being sown. Sugarcane being damaged by insects.
11	Siálkot ...	0·11 at Zafarwál... 2·25 at Pasrúr. 0·17 at Raya. 2·36 at Daska.	1. Sufficient in parts owing to produce of bhusa (straw), maize &c., used as fodder. 3. Weak owing to over-work.	Wheat, 10 seers... Barley, 12 seers. Gram, 10 seers. Rice, 6 seers.	...	Condition of sugarcane and cotton crops good on irrigated lands. Sugarcane slightly damaged by ants in tahsil Zafarwál. Ploughings for other autumn crops in progress.
12	Gujránwála ...	Slight rainfall ...	1. Scarce ... 3. Fair.	Wheat, 9½ to 11 seers. Gram, 10 to 10½ seers. Maize, 11 seers. Bajra, 10 seers.	Extra spring crops average.	Sowings of fodder crops in progress. Standing crops average. Agricultural prospects very poor.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	0·08 at Sadr ... More in other parts of the district.	1. Sufficient except in Thal circle of Khusháb tahsil, where scarcity still exists. 3. Good to fair.	Wheat, 10½ to 11½ seers. Barley, 14 to 15 seers. Gram, 10½ to 11 seers. Jowar, 8 to 10 seers. Bajra, 9 to 10 seers. Maize, 9 to 10 seers.	Standing crops good to fair.	Maize, great millet and fodder crops sown during the week.
14	Ráwalpindi ...	0·48 at Murree ...	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Barley, 13½ seers. Bajra, 11½ seers. Gram, 10 seers. Maize, 13 seers.	Outturn of spring crops below average.	Condition of standing crops average. Rain badly wanted.
15	Miánwáli ...	0·05 at Leiah ...	1. Insufficient ...	Wheat, 9¾ seers... Gram, 11¾ seers. Barley, 16 seers. Bajra, 11 seers.	Extra spring crops in fair condition. Outturn of spring crops on unirrigated area nearly average.	Rain badly wanted in Thal. River rising.
16	Lyallpur ...	0·04 at Sadr ... 0·06 at Toba Tek Singh.	1. Dry sufficient. Green scarce.	Wheat, 11¼ seers. Gram, 10½ seers. Jowar, 10 seers. Maize, 11¾ seers.	Outturn of wheat average. Condition of standing crops average.	Fodder crop (chari) still being sown.
17	Jhang ...	Slight rainfall at Chiniot and Shorkot.	1. Insufficient ... 3. Poor.	Wheat, 10 to 11 seers. Jowar, 10 seers. Gram, 10 seers. Maize, 11 seers. Bajra, 9 seers.	Extra spring crops average.	Recent rain beneficial to standing crops. Sowings in progress.
18	Multán ...	0·04 at Mailsi ...	1. Sufficient, except in Multán and Kabírwála. 3. Fair.	Wheat, 10½ seers. Gram, 10½ seers. Maize, 11¾ seers.	Condition of standing crops below average on irrigated and unirrigated areas.	Prospects below average owing to poor supply of canal water.

GENERAL REMARKS.

Rainfall.—Light to moderate rain in all districts except Delhi, Ferozepore and Amritsar.

Prices.—Price of wheat is rising in Gurgaon, Ludhiána, Siálkot and Jhang; falling in Rohtak, Ambála, Amritsar, Gujránwála, Shahpur, Ráwalpindi, Lyallpur and Multán. Prices are generally at or above scarcity rates except in Delhi, Lyallpur and Multán where prices are between warning and scarcity rates.

Agricultural operations.—Harvesting of spring crops over. Ploughings for and sowings of autumn crops continue.

Crops and outturn.—Condition of prospects of standing crops generally good to average. Crops below average in Rohtak and Multán owing to late and insufficient supply of canal water.

Damage done to crops.—Insects slightly damaging sugarcane in Amritsar and Siálkot.

Agricultural stock.—Cattle generally in good to fair condition except in Ferozepore, Siálkot and Jhang, where their condition is poor owing to scarcity of fodder and overwork.

Pasturage.—Fodder scarce in Rohtak, Delhi, Ambála, Ferozepore, Gujránwála, Jhang and parts of Gurgaon, Siálkot, Shahpur and Multán.

Water-supply.—Water-supply deficient in Ambála and a shortage of canal water-supply in Rohtak and Multán.

Test-works.—1,441 persons attended the famine test-works in the Gurgaon tahsil against 1,530 last week.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING APRIL 1908.

Station.	Pressure.		Wind.		Temperature in shade.						Humidity at 8 h.	Vapour tension at 8 h.	Amount of cloud, 10 = overcast.

(a) Indeterminate.

*Mean of 29 days.

On the 1st and 2nd a disturbance, probably from Persia, gave light precipitation in Kashmír and at Multán and Peshávar in the plains, and until its disappearance the weather became slightly cooler. A period of wet weather was initiated on the 4th in upper India by a depression from the west, and from this date until the 18th rain fell in some part of the Punjab, but chiefly in the north, western districts, while on the 7th and 8th it was general over the whole province; weather in consequence was much cooler than usual up to the 18th. During the rest of the month weather was dry on the plains, but towards the end rain again occurred in Kashmír.

Pressure and winds.—Pressure was in slight to moderate defect on the plains and in the hills, the vertical pressure gradients thus being approximately normal. Winds were somewhat stronger than usual, but their directions were nearly normal.

Temperature.—Weather was much hotter than usual for the first 5 days of the month, and on the 4th temperature was 8° in excess, while at Multán the maximum rose to 104°, but with the commencement of rainfall on the 5th there followed a spell of comparatively cool weather which lasted until the 17th; and on the 13th and 14th mean temperatu was nearly 13° less than usual, while the highest maximum was only 87·2° on the latter date. From the 20th to the 25th temperature was again in excess, and the maximum now rose to 110° at Montgomery on the 24th; but a disturbance in Kashmír, while it gave no rain on the plains, caused a fall in temperature, and for the remaining 5 days temperature was normal.

The following table shows the departures from the normal of the mean temperature of the Punjab and the North-West Frontier Province on each day of the month and the highest maximum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.

Humidity and cloud.—The prolonged period of wet weather during the first fortnight was sufficient to cause an excess of humidity at most stations and of cloud in Kashmír and the north-western districts of the Punjab.

Rainfall.—The extreme dryness of the two preceding months was followed by a very wet April, but almost all the rain occurred from the 5th to the 13th, and the only stations that received less than the normal quantity of rain were Sirsa and Delhi. Rainfall was heaviest at Ráwalpindi where 6·13″ fell instead of a normal fall of 1·70″.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for April 1908 :—

Station.	Actual rainfall in April 1908	Normal average rainfall in April	Difference from the average in April 1908.	Station.	Actual rainfall in April 1908.	Normal average rainfall in April.	Difference from the average in April 1908.

...n gauge station.

Snowfall Report.

The depth of snow at Kahuta (Rawalpindi district) during the month of March 1908 was 5 inches.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of May 1908.

1.—HISSAR DISTRICT.

RAINFALL of the month was useful for cotton and bajra sowings on irrigated and unirrigated land. Extra rabi crops flourishing. Fodder sufficient except in the Bhiwáni tahsil. Condition of cattle good. Water-supply in the canal insufficient, especially for village tanks. General health of people good.

2.—ROHTAK DISTRICT.

Sowings of cotton, chari and sugarcane to some extent in progress in irrigated tracts only In the Jhajjar tahsil ploughing for autumn crops in progress. Standing nahri crops fair, but cannot last long. Cattle generally in good condition. Supply of canal water is stopped, which is badly wanted.

3.—GURGAON DISTRICT.

Statement returned for corrections.

4.—DELHI DISTRICT.

The ploughings for next kharif and sowings of extra rabi crops as also of cotton and sugarcane on irrigated lands continued. Condition of extra rabi crops good. Yield of vegetables, melons, &c., good. Condition of cattle fair. Public health generally good. Canal kept open about two weeks in the month. Fodder scarce. New fodder not sufficient to meet the demand; its rate is also high.

5.—KARNAL DISTRICT.

Cotton was sown to a slight extent. Some chari sowing took place in the Powadh circle, Guhla sub-tahsil. Condition of extra rabi crops average. There was some hail during the month in the Pánipat and Kaithal tahsils, but little damage was done. Rabi crops have been harvested; yield average. Condition of the cattle very fair. Early rains, however, are required to bring on the grass. Water is easily obtainable everywhere for cattle except in parts of Kaithal where the ponds are drying up. The perennial canals were working as usual. There was no inundation, and the Sarsuti canal and hill torrents did not flow.

6.—AMBALA DISTRICT.

The extra rabi crop is about average, the unirrigated crop being below the mark. Condition of cattle generally good. Fodder sufficient except in the Dakar circle of Ambála tahsil, where the well-to-do persons import it from outside, such as the Jangal ilaqa of Patiála State and other accessible places, while the poorer zamindars drive their cattle to the Jumna Khadir circle for grazing. The Ghaggar and other streams of the district are generally dry, and a great scarcity of water in the district is being felt.

7.—SIMLA DISTRICT.

Rainfall was below average in both tahsils. In the Simla tahsil maize, rice, koda and ginger were sown, and in the Kot Khái tahsil china, koda, bathu and rice. Condition of cattle good. Fodder is sufficient, but grazing is scarce. Public health good. Water-supply insufficient in the hill streams of the Simla tahsil; sufficient in the Kot Khái tahsil. Lands were not watered in the Simla tahsil; in the Kot Khái tahsil $\frac{1}{20}$th of the normal area was watered.

8.—KANGRA DISTRICT.

Some area was sown with maize and sugarcane. A considerable area of barani land and a small irrigated area was sown with rice. Owing to scanty fodder, condition of cattle is not good. In some places cattle are suffering for want of sufficient water. The Forest Department, as a measure of relief, have opened Government reserves for the grazing of cattle. Water was not quite sufficient in the kuhls (water streams) for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

Rice, cotton and maize were sown during the month. Cotton, sugarcane, melons, water-melons, tobacco, mango crop and vegetables in good condition. Yield of rabi crops in hill tracts below average and in other parts of the district average. Taking the district as a whole, it is expected to be $\frac{3}{4}$ths of the average crop. Cattle in good condition. New fodder has come into the market and is sufficient to meet the demand. General health of

the people good. The Shah Nahr canal was opened. Crops were irrigated by wells, canals and torrents. Fresh supply of food grains has come into the market, but the rate is still high.

10.—JULLUNDUR DISTRICT.

Sowings of cotton and fodder in progress. Condition of standing crops good. Expected yield average. Condition of cattle good. Public health good.

11.—LUDHIANA DISTRICT.

Condition of standing crops good. Yield of vegetables and melons good. Condition of cattle satisfactory. Fodder sufficient. The Sirhind canal was practically closed for the month. Irrigation from wells satisfactory.

12.—FEROZEPORE DISTRICT.

Chari and jowar sown during the month in certain places. Standing extra rabi crops average. Yield expected to be average. Cattle generally in good condition. Public health generally good. Sirhind canal and some of the district inundation canals had been flowing and small area was irrigated.

Owing to the high prices the prospects of agriculturists are fair except in the Bet circle. Stocks of food-grains nearly sufficient, but fodder is getting scarce. Green fodder not available.

13.—MONTGOMERY DISTRICT.

Kharif sowings have to a certain extent been carried on in the month. Condition of crops average except in the Gugera tahsil where the crops have been damaged by hail. Outturn of rabi crops average. Scarcity in fodder. Ravi quite dry. Sutlej has some water, and the Khanwah, Lower Sohag and Mehdi canals have irrigated some area in the Dipálpur and Pákpattan tahsils. The zamindars of the Ravi tahsils have gone and taken abode in tracts irrigated by the canals owing to scarcity.

14.—LAHORE DISTRICT.

Jowar, chari, moth and cotton were sown during the month. Condition of standing crops fair. Expected yield about average. Condition of cattle fair. The perennial canals ran as usual.

15.—AMRITSAR DISTRICT.

Char chara (maize-jowar), cotton, chillies, vegetables and paddy being sown. Condition of crops good; their expected yield fair. Condition of cattle fair. Canal water-supply average.

16.—GURDASPUR DISTRICT.

Slight showers in tahsils Pathánkot and Shakargarh. Rice sowings in progress. The condition of sugarcane, cotton and melons good except in tahsil Shakargarh where these crops are suffering from want of rain. Threshing of wheat continued. Outturn of bhusa small, but that of grain fair. Fodder scarce. Rivers and Government canal flowing.

17.—SIALKOT DISTRICT.

Sowing of sugarcane, tobacco, cotton, chari, moth and green vegetables in progress. Condition of sugarcane and cotton good in irrigated, but they are withering in barani tracts. Hailstones slightly damaged the extra rabi crops in the Zafarwál tahsil. Threshing of wheat and barley in progress. Yield good in irrigated and poor in barani lands. Condition of cattle generally good. Water sufficient in Bajwat canals. Rivers Chenab and the Ravi flooded.

18.—GUJRANWALA DISTRICT.

Cotton, sugarcane, chari and moth being sown. Condition of extra rabi crops about average. Kharif crops not doing well owing to want of rain. Sugarcane has been attacked by an insect called locally *kiri* in parts of the Khangah Dográn tahsil. Yield of rabi harvest about the average, and that of extra rabi expected fair. There is scarcity of green fodder, and cattle are not generally in good condition. No complaint about deficiency of water-supply.

19.—GUJRAT DISTRICT.

Sowings of certain fodder crops and ploughings for the kharif were in progress. Cotton, sugarcane and extra rabi crops in fair condition. Threshing of wheat nearly finished. Estimated yield average to poor. Cattle generally in good condition. Fodder scarce.

20.—SHAHPUR DISTRICT.

Chari, jowar, cotton, melons, vegetables, bajra, moth, maize and swank sown during the month. Condition of autumn crops and zaid rabi good all over the district except in Sargodha tahsil where it is fair. Crops in four villages of tahsil Shahpur slightly damaged by hailstorms. Outturn of wheat average. Cattle in good condition except in Khusháb tahsil where their condition is fair. Scarcity of fodder still exists in Thal circle of tahsil Khusháb and uncommanded area of Bar circle of tahsil Bhera. Lower Jhelum canal and inundation canals continued to run.

21.—JHELUM DISTRICT.

No fresh sowings except in a few villages of Chakwál tahsil. Extra rabi crops on irrigated lands are in good condition, but those on barani lands are withering somewhat for want of rain. Indifferent crop on the whole. Outturn of bhusa small. Condition of cattle generally good. Pind Dádan Khan canal is in working order.

22.—RAWALPINDI DISTRICT.

The rains received during the month under report were below average. No sowings were made during the month. Rabi crops are being harvested. The estimated outturn of wheat on irrigated lands is average, while that on unirrigated below average. Condition of cattle fair. Stock of grain and fodder sufficient.

23.—ATTOCK DISTRICT.

No sowing. Extra rabi crop good on irrigated area and bad on unirrigated area. Expected yield of rabi crop sown early is good, while that of the crop sown late is below average. Condition of cattle good. Fodder sufficient.

24.—MIANWALI DISTRICT.

Sowings of extra rabi crops over. Condition of standing extra rabi crop fair. Rabi crops being still harvested. Outturn of rabi crops on irrigated area average; on unirrigated poor. Fodder was procurable. River rising. Extra rabi crops were watered by the Kurram canal in Isa Khel.

25.—LYALLPUR DISTRICT.

Cotton and fodder sowings in progress. Condition of sugarcane and zaid rabi crops below average. Some damage to standing crops by hail. Wheat outturn average. Green fodder scarce; dry plentiful. General complaints of indifferent canal water-supply. Cotton sowings were late in consequence.

26.—JHANG DISTRICT.

China, melons, cotton, chari, sawank, moth and rawan are being sown. Condition of crops average. Yield of wheat average. Condition of cattle poor. Fodder insufficient. General complaint of insufficiency of canal water in tahsil Shorkot. Chenab canal in tahsil Jhang is now closed for annual repairs Occasional complaints of insufficiency of canal water in villages on the tail of the Jhelum and Chenab canals in tahsil Chiniot.

27.—MULTAN DISTRICT.

Kharif sowings in progress, but not promising well. Condition of standing crops below average both on irrigated and unirrigated areas. Indigo and other crops drying for want of canal water except in Mailsi tahsil. Condition of cattle fair. Sidhnai canal dry. Chenab and Sutlej inundation canals flowing by turns with insufficient supply of water in the Sutlej canals; Sardarwah and Muhammadwah are still dry.

28.—MUZAFFARGARH DISTRICT.

Jowar, cotton, indigo, rawan, moth and rice sown. Condition of crops below average. Rabi harvesting nearly over. Bhusa used as fodder. Public health good. The Chenab canals are running. The Indus is low, and hence there is not sufficient water in Indus canals. No inundations.

29.—DERA GHAZI KHAN DISTRICT.

Til, jowar and cotton sowings in progress, but delayed on canal lands for want of water which was received late. Extra rabi crops fair. Prospects of yield fair. Condition of cattle poor. Fodder very scarce. Bhusa only procurable in places. Canals running now moderately, but started very late. Contraction in the area of valuable crops like indigo. The new canal system is the subject of valuable complaints. The Sanghar hill torrent ran once on 3rd May.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

W. H. MILLS, Supdt.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SIXTY THOUSAND TWO HUNDRED AND NINTY-FOUR births were registered in the province during the month of April 1908, giving a birth-rate of 36 *per mille* of population. Of the total number of births, 31,424 were boys and 28,870 were girls.

The total number of deaths registered from all causes in the province during the month of April 1908 was 56,228 against 55,932 in the previous month, and 240,313 in the corresponding month of the past year, giving an annual death-rate of 34, 33 and 145 *per mille* of population per annum, respectively.

There were 443 deaths registered under the head of cholera against one in the previous month.

The total mortality from plague amounted to 10,459 against 7,404 in the previous month and 194,758 in the corresponding month of the past year.

From small-pox 3,737 deaths were registered against 2,842 in the previous month and 946 in the corresponding month of the past year; fevers 25,743 against 28,401 and 28,153; dysentery and diarrhœa 1,021 against 763 and 918; respiratory diseases 4,322 against 5,562 and 4,838. During the month there were 31 deaths registered from suicide against 24 in the past month; wounding 63 against 53; accidents 341 against 320; snake-bite and killed by wild beasts 59 against 26; and from all other causes 10,009 against 10,536 in the previous month and 10,274 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 16th June 1908.

Note.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 6th June 1908, there were 895 births registered in the 43 large municipal towns (470 males and 425 females), giving a birth rate of 32 *per mille* of population, and 1,311 deaths were registered (643 males and 668 females), giving a death rate of 47 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 43 against 47 in the corresponding week of the previous year; Lahore 53 against 40; Amritsar 42 against 58; and Multán 34 against 25. There were 2 deaths reported from plague, 1 each in Jagraon and Kasúr. Of the 118 deaths from small-pox, 17 were registered in Lahore, 11 each in Jullundur and Amritsar, 8 in Kaithal, 7 in Multán, 6 in Sonepat, 5 each in Hissar, Delhi, Jagádhri and Siálkot, 4 each in Rohtak, Jhajjar, and Gujrát, 3 each in Hánsi, Shahabad, Hoshiárpur and Ferozepore, 2 each in Ambála, Batála and Gujránwála, and 1 each in Rewári, Karnál, Kartárpur, Ludhiána, Jhelum, Ráwalpindi Jhang-Maghiána and Lyallpur. There were 40 deaths recorded from cholera in Kasúr, 38 in Pánipat, 12 in Lahore, 11 in Ráwalpindi, 4 each in Amritsar and Dera Ghází Khan, 2 each in Ferozepore and Siálkot and 1 in Jhelum.

Deaths reported from plague during the week ending 13th June 1908 in the districts, including all municipal towns.—Rohtak 6, Gurgaon [illegible], Karnál 8, Ambála 5, Hoshiárpur 16, Jullundur 3, Ludhiána 45, Ferozepore 37, Montgomery 10, Lahore 94, Amritsar 27, Siálkot 6, Shahpur 3, Jhelum 9, Jhang 6 and Lyallpur 13; Patiála State 42 and Nábha State 4. Total for the province 333. Total for the previous week 678. Total for the corresponding week of the previous year 17,212.

Lahore:
The 15th June 1908.

LAHORE, FRIDAY, JUNE 26, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 22ND JUNE 1908.

[Eighteen cut of 29 districts are dealt with]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
1	Hissar ...	0·26 at Sadr .. 0·30 at Hánsi. 0·78 at Bhiwáni. 0·04 at Budhláda. 0·28 at Tohána. 0·88 at Sirsa.	1. Sufficient ... 3. Good.	Wheat, 8¼ seers... Gram, 10¼ seers. Bajra, 9¼ seers. Bejhar, 11¼ seers.	...	Rainfall in Bhiwáni and Sirsa benefited bájra (bulrush millet) crop. Prospects of canal irrigated crops good.
2	Rohtak ..	0·01 at Sadr ... 0·89 at Jhajjar. 0·08 at Sámpla.	1. Scarce. Cattle being fed on old fodder and leaves of trees. 2. Insufficient supply of canal water. 3. Good.	Wheat, 9 seers .. Gram, 10 seers. Jowar, 10½ seers. Maize, 11 seers.	...	Condition of cotton crop fair and of sugarcane indifferent on irrigated land. Sugarcane damaged by white ants owing to insufficient supply of canal water.
3	Gurgaon ...	0·17 at Sadr ... More in other parts of the district.	1. Sufficient for present needs in Rewári, but very scarce in other tahsils where cattle being fed on leaves of green trees.	Wheat, 8¼ to 9½ seers. Barley, 12½ to 13 seers. Bajra, 9 to 10 seers.	Standing crops in fair condition. Probable outturn expected to be average. Test-works in progress at Ghamrauj, with an attendance of 1,380 persons.	Rainfall sufficient to commence autumn sowings. Ploughings in progress.
4	Delhi ...	0·15 at Sadr ...	2. Canal open in the week.	Wheat, 9½ seers... Barley, 13 seers. Gram, 10 seers. Bajra, 11 seers. Jowar, 10 seers. Maize, 11½ seers.	Tobacco being reaped Outturn of extra spring crops good.	Sowings of cotton and great millet on irrigated lands and ploughings for other autumn crops continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of.	
					Spring.	Autumn.
5	Ambála ...	Slight rainfall at Kasauli.	1. Insufficient ... 2. Scarce. 3. Good.	Wheat, 10¼ seers. Gram, 10 seers. Barley, 11 seers. Maize, 10 seers. Jowar, 10 seers.	Condition of standing crops average.	...
6	Jullundur ...	0·44 at Sadr ... 0·52 at Nakodar. 0·11 at Phillaur. 0·10 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Maize, 11 seers. Gram, 10 seers. Jowar, 10 seers. Gur, 7 seers.	Standing well crops good	...
7	Ludhiána ...	0·51 at Sadr ... 0·05 at Jagraon.	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Barley, 13½ seers. Gram, 10 seers. Maize, 10½ seers.	Condition of standing crops good. Expected yield good.	...
8	Ferozepore ...	Rainfall not general.	1. Scarce ... 3. Poor for want of fodder.	Wheat, 9 seers .. Gram, 10 seers.	Standing crops average	Great-millet, rice, &c., sown on irrigated lands.
9	Lahore ...	0·96 at Sadr ... 0·08 at Sharakpur.	1. Insufficient in parts of Sharakpur. 3. Fair.	Wheat, 10½ seers Gram, 10½ seers.	Standing crops fair ...	Great-millet, rice, &c., being sown.
10	Amritsar ..	0·54 at Sadr ... More in Tarn Táran and less in Ajnála.	1. Sufficient ... 3. Fair.	Wheat, 10 seers .. Gram, 10¼ seers. Barley, 13½ seers. Jowar, 10 seers. Maize, 10¼ seers. Bajra, 9½ seers.	Tobacco being harvested. Condition of standing crops average.	Fodder and paddy being sown.
11	Siálkot ..	0·22 at Sadr ... 0·35 at Zafarwál. 0·35 at Raya. 0·34 at Pasrúr. 0·54 at Daska.	1. Sufficient, in parts: maize, &c., used as fodder. 3. Weak owing to overwork.	Wheat, 10 seers... Barley, 12 seers. Gram, 10 seers. Rice, 6 seers.	...	Rainfall insufficient. Ploughings in progress. Condition of cotton and sugarcane crops good on irrigated lands, but withering on unirrigated lands. Sugarcane damaged by ants in parts.
12	Gujránwála ...	Light showers in some parts of the district.	1. Scarce ...	Wheat, 9½ to 11 seers. Bajra, 10 seers. Maize, 11 seers. Gram, 10 to 11 seers.	Agricultural prospects continue poor.	Fodder crops sown on irrigated lands.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	0·75 at Sadr ... Light in other parts of the district.	1. Sufficient except in Thal circle of Khusháb tahsil, and uncommanded area of Bar circle of Bhera tahsil. 3. Good to fair.	Wheat, 11 to 12 seers. Barley, 12 to 14 seers Gram, 10½ to 10¾ seers. Jowar, 8 to 9 seers. Bajra, 9 to 10 seers. Maize, 9 to 10 seers.	Condition of standing crops good except on unirrigated area of tahsil Bhera where crops are fair.	Great-millet being sown.
14	Ráwalpindi ...	0·12 at Sadr ... 0·31 at Gujar Khan 0·69 at Kahúta ...	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Barley, 13¼ seers. Bajra, 11½ seers. Gram, 10¼ seers. Maize, 12¾ seers.	...	Condition of standing crops average. More rain wanted.
15	Miánwáli ...	1·30 at Sadr ...	...	Wheat, 10 seers ... Gram, 11¼ seers. Bajra, 11 seers. Barley, 15 seers.	Recent rain beneficial to extra spring crops. Condition of crops fair. Melon crop in Isakhel being damaged by insect	River rising.
16	Lyallpur ...	...	1. Dry plenty. Green scarce.	Wheat, 11¼ seers Gram, 10¼ seers. Jowar, 10 seers. Maize, 12½ seers.	...	Ploughings in progress. Standing autumn crops in good condition.
17	Jhang ...	0·25 at Chiniot ...	1. Insufficient ... 3. Fair.	Wheat, 11 seers... Maize, 11 seers. Jowar, 10 seers. Bajra, 10 seers. Gram, 10 seers.	Condition of extra spring crops average.	Recent rain beneficial to standing crops. Sowings in progress.
18	Multán ...	0·75 at Mailsi ...	1. Sufficient, except in Multán and Kabírwála. 2. Canal-water supply insufficient. 3. Fair.	Wheat, 11½ seers Gram, 10½ seers. Maize, 11¼ seers.	Condition of standing crops below average.	Prospects below average owing to poor supply of canal water.

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in all districts except Lyallpur.

Prices.—Price of wheat is falling in Hissar Gurgaon, Ambála, Ludhiána, Lahore, Shahpur, Miánwáli and Jhang; rising in Rohtak, Jullundur, and Amritsar. Prices are generally at or above scarcity rates except in Delhi, Lahore, Gujránwála, Shahpur, Lyallpur and Multán where prices are between warning and scarcity rates.

Agricultural operations.—Harvesting of extra spring crops in progress. Ploughings for and sowings of autumn crops continue.

Crops and outturn.—Condition and prospects of standing crops generally good to average. Agricultural prospects in Gujránwála and Multán below average. Condition of sugarcane crop in Rohtak and sugarcane and cotton in Siálkot on unirrigated lands indifferent.

Damage done to crops.—Sugarcane crop in Siálkot and melon crop in Miánwáli damaged by white ants and insects.

Agricultural stock.—Condition of cattle generally good to fair except in Ferozepore and Siálkot where their condition is poor owing to scarcity of fodder and overwork.

Pasturage.—Fodder scarce in Rohtak, Ambála, Ferozepore, Gujránwála, Jhang and parts of Gurgaon, Lahore, Siálkot, Shahpur and Multán.

Water-supply.—Canal water-supply insufficient in Rohtak, Ambála and Multán.

Test-works.—1,380 persons attended the famine test-works in the Gurgaon tahsil against 1,441.

LAHORE, FRIDAY, JULY 3, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 29TH JUNE 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·18 at Sirsa ... 0·41 at Hánsi. 0·62 at Tohána.	1. Sufficient ... 3. Good.	Wheat, 9¾ seers... Bajra, 9¼ seers. Gram, 10¾ seers. Bejhar, 11¼ seers.	Condition of extra spring crops good.	Sowings of cotton on wet and continue. Bulrush millet (bajra) sown on unirrigated land suffering for want of rain.
2	Rohtak ..	0·07 at Sadr ... 0·28 at Sámpla. 0·13 at Jhajjar.	1. Scarce. Old fodder used fo cattle. 3. Good.	Wheat, 9¼ seers... Gram, 10 seers. Jowar, 10 seers. Maize, 11 seers.	...	Sowings of bajra commenced. Condition of cotton fair on irrigated land. Sugarcane crop indifferent.
3	Gurgaon ...	0·67 at Sadr ... Less at other stations.	1. Sufficient for present needs in Bhiwni, but very scarce in other tahsils, where cattle are being fed on leaves of green trees. 3. Fair.	Wheat, 8¼ to 9¼ seers. Barley, 12½ to 13½ seers. Gram, 9½ to 10½ seers. Bajra, 8 to 9½ seers. Maize, 8 to 9 seers.	Standing crops fair on irrigated area. Condition of unirrigated crops very bad. Probable outturn of irrigated crops expected average and of unirrigated *nil*. Test-works in progress at Ghamrauj, with an attendance of 1,294.	Ploughings in progress. Rain much needed.
4	Delhi ..	0·48 at Ballabgarh 0·32 at Mehrauli.	1. Scarce ... 2. Canal was open in the week.	Wheat, 9½ seers... Barley, 13 seers. Gram, 10 seers. Jowar, 10 seers. Bajra, 11 seers. Maize, 11½ seers.	Outturn of extra spring crops good.	Sowings of cotton on irrigated lands continue.

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	0·20 at Naráingarh 0·15 at Kasauli.	1. Insufficient ... 2. Scarce. 3. Good.	Wheat, 10¼ seers Gram, 10 seers. Barley, 11 seers. Maize, 10 seers. Jowar, 9 seers.	Condition of standing extra spring crops average.	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 11¼ seers Maize, 11 seers. Gram, 10 seers. Jowar, 10 seers. Gur, 7 seers.	Extra spring crops being reaped. Standing well crops good.	...
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Barley, 13½ seers. Gram, 10 seers. Maize, 10½ seers.	Condition of extra spring crops good.	...
8	Ferozepore ...	...	1. Scarce ... 3. Poor through want of fodder.	Wheat, 9½ seers Gram, 10 seers.	Standing crops average	Autumn crops being sown on irrigated lands.
9	Lahore ...	0·16 at Kasúr ...	1. Insufficient in unirrigated tracts of tahsil Sharakpur.	Wheat, 10 seers ... Gram, 10 seers.	Standing crops fair ...	Autumn crops being sown.
10	Amritsar ...	...	1. Sufficient ... 3. Fair.	Wheat, $10\frac{11}{16}$ seers Gram, 10 seers. Barley, 13½ seers. Jowar, 10 seers. Maize, 10 seers. Bajra, 9½ seers.	Condition of standing crops fair	Autumn crops being sown.
11	Siálkot ...	...	1. Sufficient in parts. 2. Insufficient in parts. 3. Weak owing to over-work and scarcity of fodder.	Wheat, 10¼ seers Barley, 12 seers. Gram, 9½ seers. Rice, 6 seers.	...	Rain badly wanted. Ploughings in progress. Condition of sugarcane and cotton crops average on irrigated but withering on unirrigated tracts for want of rain.
12	Gujránwála ...	...	1. Scarce ... 3. Poor.	Wheat, 9½ to 10 seers. Gram, 10 to 10½ seers. Maize, 11 seers. Bajra, 10 seers.	...	Sowings on irrigated lands continue. Some great-millet (Jowar) also sown on unirrigated land. Condition of irrigated crops about the average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	0·42 at Bhera ... 0·17 Khusháb ...	1. Scarce in Thal circle of Khusháb tahsil, and unirrigated area of Bar circle in tahsil Bhera. 3. Good to fair.	Wheat, 11 to 12 seers. Barley, 14 to 15 seers Jowar, 8 to 10 seers. Bajra, 9 to 10 seers. Maize, 9 to 11 seers.	Standing crops in good to fair condition.	Sowings continue.
14	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 10¼ seers Barley, 13½ seers. Bajra, 11½ seers. Gram, 10 seers. Maize, 12¾ seers.	...	Condition of standing crops below average. Rain badly wanted.
15	Miánwáli ...	0·50 at Isa Khel ...	1. Procurable but scarce in Thal.	Wheat, 10 seers ... Gram, 11⅓ seers. Bajra, 11 seers. Barley, 15 seers.	Condition of extra spring crops average.	Rainfall beneficial for autumn sowings.
16	Lyallpur ...	...	1. Dry fodder plentiful, green scarce. 3. Good.	Wheat, 11¼ seers Gram, 10¼ seers. Jowar, 10 seers. Maize, 12 seers.	...	Ploughings in progress. Cotton and fodder crops in good condition. Borer attacking sugarcane.
17	Jhang ...	...	1. Insufficient ... 3. Fair.	Wheat, 11 seers... Maize, 11 seers. Jowar, 10 seers. Bajra, 10 seers. Gram, 10 seers.	Outturn of extra spring crops average.	Sowings in progress
18	Multán ...	0·07 at Mailsi ...	1. Sufficient, except in Multán and Kabirwála tahsils. 2. Deficient. 3. Fair.	Wheat, 10½ seers Gram, 10¼ seers. Maize, 11¾ seers.	Condition of standing crops below average.	Prospects of crops below average owing to poor supply of canal water.

GENERAL REMARKS.

Rainfall.—Light rainfall in parts of Hissar, Rohtak, Gurgaon, Delhi, Ambála, Lahore, Shahpur, Miánwáli and Multán districts.

Prices.—Price of wheat falling in Hissar, Rohtak, Gurgaon, Jullundur, Ferozepore, Amritsar, Siálkot, and Ráwalpindi; rising in Lahore, Gujránwála and Multán. Prices are generally at or above scarcity rates in all districts except Delhi, Siálkot, Shahpur, Ráwalpindi, Lyallpur and Multán where prices are between scarcity and warning rates.

Agricultural operations.—Harvesting of extra spring crops and ploughings for and sowings of autumn crops continue.

Crops and outturn.—Condition of standing crops generally good to average except in Multán where crops are below average owing to deficient supply of canal water. Unirrigated crops suffering for want of rain in Hissar, Gurgaon and Siálkot. Sugarcane crop indifferent in Rohtak

Damage done to crops.—Sugarcane being attacked by borer in Lyallpur.

Agricultural stock.—Condition of cattle generally good to fair except in Ferozepore, Siálkot and Gujránwála where cattle poor owing to scarcity of fodder and overwork.

Pasturage.—Fodder scarce in Rohtak, Delhi, Ambála, Ferozepore, Gujránwála, Jhang and parts of Gurgaon, Lahore, Siálkot, Shahpur, Miánwáli and Multán.

Water-supply.—Canal water-supply deficient in Ambála, Siálkot and Multán.

Test-works.—1,294 persons attended test-works in Gurgaon tahsil against 1,380 last week.

Note.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 20th June 1908, there were 946 births registered in the 43 large municipal towns (515 males and 431 females), giving a birth rate of 34 *per mille* of population, and 1,142 deaths were registered (577 males and 565 females), giving a death rate of 41 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 49 against 41 in the corresponding week of the previous year; Lahore 44 against 33; Amritsar 39 against 43; and Multán 34 against 22. Of the 94 deaths from small-pox, 18 were registered in Lahore, 13 in Delhi, 8 each in Amritsar and Multán, 6 in Sonepat, 5 each in Ambála and Siálkot, 4 each in Hánsi and Kaithal, 3 in Shahabad; 2 each in Hissar, Hoshiárpur, Jullundur, Ferozepore, Kasúr and Gujrát, and 1 each in Bhiwáni, Jhajjar, Karnál, Pánipat, Jagádhri, Kartárpur, Batála, Bhera, Chiniot and Dera Ghází Khan. There were 10 deaths recorded from cholera in Kasúr, 9 in Lahore, 8 in Pánipat, 3 in Siálkot, 2 in Ráwalpindi and 1 each in Ferozepore, Amritsar and Dera Ghází Khan.

Deaths reported from plague during the week ending 27th June 1908 in the districts, including all municipal towns:—Rohtak 4, Karnál 53, Ludhiána 2, Ferozepore 2, Montgomery 1, Lahore 33, Amritsar 7, Lyallpur 1 and Patiála State 2. Total for the province 179. Total for the previous week 209. Total for the corresponding week of the previous year 7,532.

Lahore:
The 1st July 1908.

W. H. MILLS, Supdt.,
for *Sanitary Commissioner, Punjab.*

LAHORE, FRIDAY, JULY 10, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 6TH JULY 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of,	
					Spring.	Autumn.
1	Hissar ...	0·16 at Sadr ... 0·20 at Budhláda. 2·80 at Tohána.	1. Sufficient except in Bhiwáni tahsil. 3. Good.	Wheat, 9 seers ... Gram, 10¼ seers. Bajra, 9¼ seers. Bejhar, 11 seers.	...	Rain wanted except in Tohána. Irrigated standing crops in fair condition.
2	Rohtak ...	1·31 at Sadr ... 0·97 at Gohána. 1·52 at Sámpla. 0·13 at Jhajjar. 0·10 at Salhawas.	1. Scarce. Old fodder and leaves of trees used as fodder. 3. Good.	Wheat, 9¼ seers ... Gram, 10 seers. Jowar, 10½ seers. Maize, 11 seers.	...	Sowings of cotton, great millet, &c., commenced in parts where rain has fallen. Condition of standing crops fair on irrigated land.
3	Gurgaon ...	0·13 at Sadr ... More elsewhere.	1. Scarce ... 3. Fair.	Wheat, 8¼ to 9½ seers. Barley, 12½ to 13 seers. Gram, 9¼ to 10½ seers. Bajra, 8 to 9 seers. Maize, 8 to 9 seers.	Test-works in progress at Ghamrauj with an attendance of 1,229 persons.	Sowings have commenced where sufficient rain has fallen. Standing crops on irrigated area fair and on unirrigated bad n
4	Delhi ...	0·40 at Sadr ... 0·73 at Bailabgarh 0·45 at Mehrau i. 1·48 at Sonepat.	1. Scarce and dear ... 2. Canal open in the week. 3. Fair.	Wheat, 9½ seers... Gram, 10 seers. Barley, 12½ seers. Jowar, 9½ seers. Bajra, 9½ seers. Maize, 10 seers.	...	Sowings of autumn crops commenced in par s which received rain.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
5	Ambála ...	1·32 at Sadr ... 1·99 at Jagádhri. 0·97 at Naráingarh 1·02 at Kharar. 1·00 at Kasauli.	1. Insufficient ... 2. Scarce. 3. Good.	Wheat, $10\frac{1}{4}$ seers Gram, $10\frac{1}{4}$ seers. Barley, 12 seers. Maize, 9 seers. Jowar, 9 seers.	Condition of extra spring crops average.	Sowings of cotton, maize, &c., commenced.
6	Jullundur ...	0·35 at Nakodar. 0·04 at Phillaur. 0·10 at Nawashahr.	1. Sufficient ... 3. Suffering from over-work.	Wheat, $10\frac{1}{4}$ seers Maize, 11 seers. Gram, 10 seers. Jowar, 9 seers. Gur, 7 seers.	Standing well crops good	Rain badly wanted.
7	Ludhiána ...	0·26 at Sadr ... 0·80 at Jagraon.	1. Sufficient ... 3. Good.	Unchanged ...	...	Condition of standing crops generally good.
8	Ferozepore ...	0·43 through out the district.	1. Scarce ... 3. Poor for want of fodder.	Wheat, 10 seers ... Gram, $10\frac{1}{2}$ seers	Standing crops average	Sowings continue.
9	Lahore ...	0·90 at Sadr ... 0·88 at Chunián. 0·82 at Kasúr. 0·95 at Sharakpur.	1. Insufficient ... 3. Weak in unirrigated tracts.	Wheat, 10 seers ... Gram, 10 seers.	...	Rice, &c., being sown. Standing crops fair.
10	Amritsar ...	1·24 at Sadr ... Less in Tarn Táran and Ajnála.	1. Sufficient ... 3. Fair.	Wheat, $10\frac{1}{16}$ seers Gram, 10 seers. Barley, 14 seers. Jowar, $10\frac{1}{4}$ seers. Maize, $10\frac{1}{2}$ seers. Bajra, 9 seers.	Condition of standing crops average.	Paddy, &c., being sown. Cotton, sugarcane and chillies being weeded.
11	Siálkot ...	0·66 at Sadr ... 0·14 at Zafarwál. 0·50 at Pasrúr. 0·36 at Raya. 0·08 at Daska.	1. Insufficient, particularly in the Pasrúr tahsil. 2. Insufficient. 3. Weak on account of over-work and want of fodder.	Wheat, 10 seers ... Barley, 12 seers. Gram, $9\frac{1}{2}$ seers. Rice, 6 seers.	...	Ploughings and sowings continue. Condition of sugarcane and cotton crops average on irrigated but withering in unirrigated tracts for want of rain.
12	Gujránwála ...	...	1. Scarce ... 3. Cattle impoverished.	Wheat, 10 to 11 seers. Gram, $10\frac{1}{2}$ to 12 seers. Maize, 10 seers. Bajra, 10 seers.	...	Sowings continue on irrigated areas. Great millet, &c., sown on unirrigated withering. Standing irrigated crops average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	Slight rainfall in Bhera.	1. Scarce in tahsil Khusháb and Bhera Bar circle. 3. Good.	Wheat, 11 to 12 seers. Gram, 10 to 11 seers. Barley, 13 to 16 seers. Bajra, 8 to 10 seers. Jowar, 8 to 9 seers. Maize, 9 to 9½ seers.	Standing crops good to fair.	Sowings of maize, rice, &c., continue.
14	Ráwalpindi ...	0·03 at Sadr ... 0·79 at Kahúta. 0·56 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 9¾ seers. Barley, 13¼ seers. Bajra, 11¼ seers. Gram, 10 seers. Maize, 12½ seers.	Condition of extra spring crops below average.	Condition of standing crops below average. Rain badly wanted.
15	Miánwáli ...	0·01 at Sadr ...	1. Scarce in Thal ...	Wheat, 10¼ seers. Gram, 11¼ seers. Barley, 16 seers. Bajra, 11 seers.	Condition of extra spring crops average.	Rain badly wanted. River in flood.
16	Lyallpur ...	0·02 at Samundri. 0·31 at Toba Tek Singh.	1. Plentiful ...	Wheat, 11 seers ... Jowar, 10 seers. Gram, 10¼ seers. Maize, 12 seers.	...	Great millet, &c. being sown. Sugarcane generally damaged by borer. Condition of cotton average.
17	Jhang ...	0·81 at Sadr ...	1. Insufficient ... 3. Fair.	Wheat, 11 seers ... Maize, 11 seers. Jowar, 10 seers. Bajra, 10 seers. Gram, 10 seers.	...	Recent rainfall beneficial to standing crops. Sowings of autumn crops in progress.
18	Multán ...	...	1. Sufficient, except in Multán and Kabírwála. 3. Fair.	Wheat, 11 seers ... Gram, 11¾ seers. Maize, 11¼ seers.	Condition of standing crops below average.	Sowings in progress.

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in all districts except Gujránwála and Multán.

Prices.—Price of wheat is rising in Hissar, Gurgaon, Jullundur, Siálkot, Ráwalpindi and Lyallpur, falling in Ferozepore, Gujránwála, Miánwáli and Multán. Prices are generally at or above scarcity rates in all districts except Gurgaon, Delhi, Ambála, Miánwáli, Lyallpur and Multán, where prices are still between scarcity and warning rates.

Agricultural operations.—Ploughings for and sowings of autumn crops continue.

Crops and outturn.—Condition of standing crops good to average except of unirrigated autumn crops in Siálkot and Gujránwála, which are withering.

Damage done to crops.—Sugarcane generally damaged by borer in Lyallpur.

Agricultural stock.—Condition of cattle generally good to fair except in Jullundur, Ferozepore, Lahore, Gujránwála and Siálkot, where cattle are weak owing to overwork and want of fodder.

Pasturage.—Fodder scarce in Rohtak, Gurgaon, Delhi, Ambála, Ferozepore, Lahore, Siálkot, Gujránwála, Jhang and parts of Hissar, Shahpur, Miánwáli and Multán.

Water-supply.—Canal water-supply insufficient in Siálkot. Water scarce in Ambála.

Test-works.—1,229 persons attended famine test-works in Gurgaon against 1,294.

Note.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 27th June 1908, there were 1,007 births registered in the 43 large municipal towns (530 males and 477 females), giving a birth rate of 36 *per mille* of population, and 913 deaths were registered (458 males and 455 females), giving a death rate of 33 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 36 against 42 in the corresponding week of the previous year; Lahore 35 against 34; Amritsar 44 against 38; and Multán 33 against 27. Of the 87 deaths from small-pox, 3 each were registered in Delhi and Lahore, 7 each in Karnál, Jullundur and Amritsar, 6 in Ambála, 5 each in Hoshiárpur and Multán, 3 each in Hánsi, Bhiwáni, Kaithal, Shahabad and Chiniot, 2 each in Hissar, Rohtak, Jhajjar, Rewári, Siálkot, Gujrát and Ráwalpindi, and 1 each in Karnál and Kasúr and Kartárpur, Ludhiána and Lyallpur. There were 7 deaths recorded from cholera in Amritsar, 6 in Lahore, 2 each in Karnál and 1 each in Pánipat, Ferozepore and Lyallpur.

Deaths reported from plague during the week ending 4th July 1908 in the districts, including all municipal towns.—Karnál 1, Ambála 1, Hoshiárpur 2, Montgomery 1, Lahore 16, Amritsar 2, and Patiála State 1. Total for the province 26. Total for the previous week 109. Total for the corresponding week of the previous year 4,054.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, JULY 17, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 13TH JULY 1908.

(Eighteen out of 29 districts are dealt with.)

No.	Reporting station.	Rain	1 Supply of fodder. 2. Water-supply. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	1·95 at Sadr ... 1·45 at Hánsi. 0·94 at Bhiwáni. 0·92 at Fatahabad. 2·88 at Sirsa. 1·54 at Budhláda. 1·33 at Tohána.	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Bajra, 9½ seers. Gram, 10½ seers. Bejhar, 11¼ seers.	...	Rainfall insufficient for sowings except in parts. More rain wanted. Bulrush millet (bajra) sown on the previous rainfall reviving. Prospects of canal crops good.
2	Rohtak ...	1·65 at Sadr ... 1·30 at Gohána. 2·19 at Sámpla. 2·60 at Jhajjar. 1·41 at Salhawas. 2·49 at Beri.	1. Scarce ... 3. Good.	Wheat, 9½ seers... Jowar, 10½ seers. Gram, 10 seers. Maize, 11 seers.	...	Sowings on unirrigated land commenced. Condition of standing crops fair.
3	Gurgaon ...	2·96 at Sadr ... 3·03 at Farrukhnagar. Less in other stations.	1. Scarce ... 3. Fair.	Wheat, 8¼ to 9¼ seers. Barley, 12½ to 13 seers. Gram, 9½ to 10½ seers. Bajra, 8 to 9 seers. Maize, 7 to 9 seers.	Test-works in progress at Ghamrauj with an attendance of 1,062 persons.	Sowings in progress where sufficient rain has fallen. Standing crops in good condition. Probable outturn average.
4	Delhi ...	8·66 at Sadr ... 7·12 at Sonepat. 4·18 at Ballabgarh 4·52 at Mahrauli.	1. Scarce ... 2. Canal open in the week. 3. Fair.	Wheat, 9½ seers... Barley, 12½ seers. Gram, 10 seers. Jowar, 10 seers. Bajra, 9½ seers. Maize, 10 seers.	...	Sowings in progress on irrigated lands and also in parts where sufficient rain has fallen. Condition of standing crops (cotton and sugarcane) good.

No.	Reporting station	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	0·72 at Sadr ... 0·74 at Jagádhri. 0·17 at Naráingarh 0·04 at Kharar. 1·35 at Rupar. 3·65 at Kasauli.	1. Insufficient ... 2. Ditto. 3. Good.	Wheat, 9½ seers Gram, 10¼ seers. Barley, 12 seers. Maize, 9 seers. Jowar, 9 seers.	Condition of extra spring crops average.	Sowings continue.
6	Jullundur	0·44 at Sadr ... 0·42 at Phillaur. 1·10 at Nakodar. 1·59 at Nawashahr.	1. Sufficient ... 3. Suffering from over-work.	Wheat, 10⅛ seers Maize, 11 seers. Gram, 10 seers. Jowar, 9 seers. Gur, 7 seers.	...	Standing well crops good. Sowings of fodder crops and moth (phaseolus aconitifolius) commenced. More rain badly wanted.
7	Ludhiána ...	0·91 at Sadr ... 0·70 at Jagraon. 2·16 at Samrála.	1. Sufficient ... 3. Good.	Unchanged ...	...	Sowings in progre s. Condition of standing crops generally good.
8	Ferozerore ...	0·70 at Sadr ... Rainfall general.	1. Scarce ... 3. Cattle improving owing to grass being available.	Wheat, 9½ seers... Gram, 10 seers.	...	Rainfall insufficient. Sowings continue. Standing crops average.
9	Lahore ...	2·14 at Sadr ... 2·27 at Chunián. 1·24 at Kasúr. 2·47 at Sharakpur.	1. Pasture improving	Wheat, 10½ seers Gram, 10½ seers.	...	Sowings continue. Standing crops fair.
10	Amritsar	1·79 at Sadr ... More in Ajnála and less in Tarn Táran.	1. Sufficient ... 3. Average.	Wheat, $10\frac{15}{16}$ seers Gram, 10¼ seers. Barley, 14 seers. Jowar, 12 seers. Maize, 10 seers. Bajra, 9½ seers.	Tobacco being harvested	Sowings continue. Condition of standing crops good. Good out-turn depends on more rain.
11	Siálkot	2·25 at Sadr ... 3·99 at Zafarwál. 2·61 at Pasrúr. 2·70 at Raya. 4·30 at Daska.	1. Dry insufficient. Great millet and maize used as fodder in irrigated tracts. 3. Weak owing to scarcity of fodder.	Wheat, 10 seers ... Barley, 12 seers. Gram, 9½ seers. Rice, 6 seers	...	Sowings continue. Condition of sug rcane and cotton crops average on irrigated and poor on unirrigated tracts. Recent rain will have good effect. Agricultural prospects more favourable.
12	Gujránwála ...	3·00 average throughout.	1. Scarce. Improvement expected. 3. Cattle over-worked.	Wheat, 10 to 11 seers Gram, 10½ to 11 seers. Maize, 11 seers. Bajra, 10 seers.	...	Fairly good rainfall. Sowings continue. Withering crops revived on unirrigated area by recent rain.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	0·49 at Sadr ... Five times more in other tahsils.	1. Sufficient, except in Bar circle of Bhera. 3. Good.	Wheat, 11 to 12 seers. Barley, 13 to 16 seers. Gram, 10½ to 11 seers. Jowar, 8 to 9 seers. Bajra, 8 to 10 seers. Maize, 8 to 10 seers.	...	Sowings continue. Condition of standing crops good.
14	Ráwalpindi ...	9·08 at Sadr ... 3·90 at Gujar Khan. 5·44 at Kahúta. 4·80 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Barley, 13½ seers. Bajra, 11½ seers. Gram, 10½ seers. Maize, 13 seers.	Extra spring crops average.	Condition of standing crops average.
15	Miánwáli	0·13 at Sadr ... 0·20 at Isa Khel. 0·33 at Bhakkar.	1. Procurable ...	Wheat, 10½ seers. Gram, 11 seers. Bajra, 12 seers. Barley, 16 seers.	Condition of standing extra spring crops average.	Indus in flood.
16	Lyallpur ...	3·16 at Sadr ... 2·49 at Toba Tek Singh. 1·46 at Samundri.	1. Dry plentiful; green scarce. 3. Good.	Wheat, 11 seers ... Gram, 10½ seers. Jowar, 10 seers. Maize, 12 seers.	...	Sowings in progress. Sugarcane and cotton in average condition.
17	Jhang ...	Good rainfall throughout.	1. Prospects much improved. 3. Fair.	Wheat, 11 to 12 seers. Maize, 9 seers. Jowar, Bajra, Gram, } 10 seers.	...	Rainfall beneficial to standing crops.
18	Multán ...	2·08 at Sadr ... 0·71 at Mailsi. 0·10 at Lodhrán. 0·84 at Shujabad. 1·96 at Kabírwála.	1. Sufficient, except at Kabírwála and Multán. 3. Fair.	Wheat, 11 seers ... Gram, 10½ seers. Maize, 11½ seers.	...	Sowings in progress. Condition of standing crops average.

GENERAL REMARKS.

Rainfall.—Heavy to moderate rain has fallen all over the Province.

Prices.—Price of wheat is rising in Gurgaon, Ambála, and Ferozepore; falling in Hissar, Rohtak, Lahore, Amritsar, Ráwalpindi, Miánwáli and Jhang. Prices are still at or above scarcity rates in all districts, except in Gurgaon, Delhi, Lahore, Miánwáli, Lyallpur, Jhang and Multán, where prices are between warning and scarcity rates.

Agricultural operations.—Sowings of autumn crops continue. More rain required for further sowings of autumn crops in many districts.

Crops and outturn.—Condition of standing crops good to average except crops on unirrigated tracts in Siálkot. Recent rain beneficial to standing crops.

Agricultural stock.—Cattle generally in good to fair condition except in Jullundur, Gujránwála and Siálkot, where cattle are weak owing to overwork and want of fodder.

Pasturage.—Fodder scarce in Rohtak, Gurgaon, Delhi, Ambála, Ferozepore, Siálkot, Gujránwála, and parts of Shahpur and Multán.

Water-supply.—Insufficiency of water-supply reported from Ambála.

Test-works.—1,062 persons attended famine test-works in Gurgaon against 1,229 last week.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

[illegible] gauge station.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of June 1908.

1.—HISSAR DISTRICT.

Rainfall of the month benefited the bajra crop sown in certain tracts in the month of May. Irrigated crops being sown. Rain wanted for kharif sowings. Fodder sufficient except in Bhiwnái tahsil. Cattle in good condition. Canal water-supply deficient. General health of the people good.

2.—ROHTAK DISTRICT.

Sowings of cotton and indigo in progress to some extent in irrigated tracts only. Standing nahri cotton fair. Sugarcane being destroyed by white ants for want of water. Cattle generally very fair, but are suffering for want of sufficient fodder. Canal water-supply insufficient and badly wanted.

3.—GURGAON DISTRICT.

Very little rain fell throughout the district except at Játusáná. The rain at Játusána helped the zamindars to a certain extent, and in a limited area the kharif crop was sown, as also in a few villages of the Palwal tahsil. Standing crops on irrigated area in good condition except in Palwal tahsil, where the cotton and sugarcane crops were in bad condition owing to insufficient supply of canal water. Probable outturn of irrigated crops expected to be good, and of unirrigated bad. Cattle in fair condition. Fodder very scarce. Canal was running, but complaints about the insufficiency of the supply of water received from all tahsils.

4.—DELHI DISTRICT.

Ploughings for next khraif and sowings of vegetables, cotton and sugarcane on irrigated lands continued. Condition of extra rabi crops, cotton and sugarcane good. Outturn of extra rabi crops good. Condition of cattle fair. Public health good. Canal open during the month. Fodder scarce.

5.—KARNAL DISTRICT.

The weather was dry throughout the month. Only one light shower was received at the end of the month. Rice seedlings were prepared, and some cotton was sown. The condition of irrigated crops is good throughout the district. China and tobacco were harvested. Yield average. Want of fodder is keenly felt. White bhusa is selling at 30 seers a rupee. Cattle are fed on branches of the dhak and palm trees. The perennial canals were working as usual in the Pánipat and Karnál tahsils. In Kaithal the Sirsa branch was flowing for some days. Heat was excessive.

6.—AMBALA DISTRICT.

No sowings in barani tracts for want of rain during the month. The condition of standing extra rabi crops average. A slight shower of rain recently has done some good to the standing sugarcane crop. Fodder insufficient. Water scarce. Condition of cattle fairly good. A sufficient area was irrigated by the Western Jumna canal in tahsil Jagadhri, and no complaint of insufficiency of canal water was received.

7.—SIMLA DISTRICT.

The rainfall in both tahsils was insufficient and untimely. In the Simla tahsil maize, rice and koda, and in the Kot Khái tahsil china, koda and dhan, were sown to some extent. Condition of crops in the Simla tahsil is bad and in Kot Khái average. Cattle in good condition. Fodder and grazing sufficient in Kot Khái, but scarce in the Simla tahsil. Health is good. Water-supply in hill streams in the Simla tahsil insufficient; sufficient in Kot Khái. Scarcity of good supply being felt in the Bharauli tract of the Simla tahsil, and enquiries are in progress.

8.—KANGRA DISTRICT.

Rice and maize were sown on irrigated and on barani areas where rain fell. Owing to want of rainfall the condition of the standing cotton and sugarcane crops is bad. Owing to scanty fodder cattle are generally in bad condition; they are also suffering very much for want of water in barani tracts. Public health generally good. Water in the kuhls (water streams) was not sufficient for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

Sowings of rice continued. Slight rainfall during the month. More rain is urgently needed. Maize was sown to some extent on irrigated area. Sugarcane, cotton and vegetables in good condition. Yield of rabi crops in hill tracts below average, and in other parts of the district average. Taking the district as a whole it is expected to be ¾ths of the average crop. Cattle in good condition. Fodder sufficient. Health of people good. Crops were irrigated by wells, canals and hill torrents.

10.—JULLUNDUR DISTRICT.

Standing chahi crops good. Expected yield average. Cattle in good condition Public health good. Rain needed.

11.—LUDHIANA DISTRICT.

Condition of standing crops good. Yield of extra rabi crops good. Condition of cattle satisfactory. Fodder sufficient. Public health satisfactory. Irrigation from canals fairly satisfactory.

12.—FEROZEPORE DISTRICT.

Jowar, chari, moth, rice and gowara were sown during the month on irrigated lands Standing kharif crop is average, but badly in need of rain. Yield depends on future rains. Cattle in poor condition through want of fodder. Public health generally good. Sirhind and the district inundation canals had been flowing, and a small area was irrigated. Owing to high prices the prospects of agriculturists are not good except in the Bet. Stocks of food-grains nearly sufficient, but fodder is growing scarce and difficult to procure. Green fodder not available.

13.—MONTGOMERY DISTRICT.

Rice, chari and cotton have been sown during the month. Condition of crops average; condition of cattle good. Fodder scarce, a fact which has rendered the cattle weak. Khanwah canal is flowing. River Ravi fordable; while in Sutlej there has been little water. Rains may effect change in rates.

14.—LAHORE DISTRICT.

Jowar, chari, bajra, moth and rice were sown during the month. Standing crops fair. Expected yield about average. Condition of cattle average, but are weak for want of fodder in barani tracts. The perennial canals worked well.

15.—AMRITSAR DISTRICT.

Chara and paddy being sown. Condition of crops average. Some damage done by insect (kiri) to sugarcane crop in tahsil Tarn Táran. Expected yield fair. Condition of cattle fair. Public health generally good. Canal supply average.

16.—GURDASPUR DISTRICT.

There were slight showers during the month. Rice sowings continued. Jowar was also sown for fodder in some places. Condition of sugarcane and cotton on chahi and sailab lands good, while the barani cane and cotton are suffering for want of rain, which is badly wanted. Outturn of melons good. Condition of cattle good, but the scarcity of fodder has weakened the cattle throughout the district. State of public health good. Government canal and private kuhls (water streams) are flowing and irrigating lands, but there is not sufficient water in the kuhls.

17.—SIALKOT DISTRICT.

No sowings of kharif commenced owing to want of rain except chari in some irrigated parts of the district. Ploughing commenced in tahsils Pasrúr, Raya and Daska. Condition of sugarcane and cotton average on irrigated, but withering in barani, tracts. Weeding of the crops in progress. Condition of cattle week owing to overwork and scarcity of fodder. Water-supply insufficient for animals in tahsil Pasrúr; water sufficient in Baiwat canals.

18.—GUJRANWALA DISTRICT.

Slight rainfall all over the district, but more rain is badly wanted Jowar and moth sown for fodder on irrigated lands and also on unirrigated lands where sufficient moisture was available. Sowings of rice commenced on canal-irrigated lands Conditions of extra rabi crops about the average. Kharif crops are suffering for want of sufficient rain. Yield of extra rabi crops about the average. Cattle in poor condition, and there is a general complaint about scarcity of fodder. State of public health good. The canals are working well. Agricultural prospects are disappointing.

19.—GUJRAT DISTRICT.

Sowings of fodder crops on irrigated lands in certain tracts and ploughings for kharif harvest in progress. Condition of cotton, sugarcane and extra rabi crops fair. Estimated yield of extra rabi crops average. Cattle in good condition. Supply of fodder is however diminishing. Public health good.

20.—SHAHPUR DISTRICT.

Rainfall nominal with hardly any good result to the sowings. However jowar, maize, moth, bajra and rice in Khusháb, bajra in Sargodha and chari in Bhera were so[w]n. Condition of crops on irrigated area good, and of unirrigated in Shahpur tahsil fair. Wheat harvested in Khusháb tahsil in small quantity. Outturn good. Condition of cattle in Bhera, Sargodha and Shahpur good, and in Khusháb fair. Scarcity of fodder is badly felt in Thal (Khusháb) and in the uncommanded area of Bar circle in Bhera. Bhusa is sufficient. No grazing available in any part of the district. Public health good. The Lower Jhelum canal and inundation canals were running throughout the month. Water sufficient. The stock of gram in Bhera and of other food-grains in Khusháb insufficient.

21.—JHELUM DISTRICT.

Slight showers were received in Jhelum and Chakwál tahsils. In Pind Dádan Khan tahsil it rained 1·45, hence kharif sowings were made in Pahar, Jalap and River Bank circles of that tahsil. Condition of crops generally bad for want of rain except in Pahar, Jalap and River Bank circles. Melons average on sailab and irrigated lands, but bad in other lands. Cattle generally in good condition. Fodder very scarce in Chakwál tahsil. Pind Dádan Khan canal is running and working well.

22.—RAWALPINDI DISTRICT.

Very little rain was received during the month. More rain is badly wanted. Harvesting of rabi crops finished. The estimated outturn of wheat is average on irrigated and below average on unirrigated lands. Condition of cattle fair. Stock of grain and fodder sufficient.

23.—ATTOCK DISTRICT.

Condition of crops bad. Yield expected to be bad. Fodder scarce. Drought and dearness of food stuff is as before.

24.—MIANWALI DISTRICT.

Except in Miánwáli tahsil, rainfall was below the average during the month. Land is being prepared for kharif sowings. Condition of extra rabi crops average. Melon crop in the Isa Khel tahsil suffered for want of rain. Outturn of the rabi harvest about normal. Fodder is procurable, but scarce in Thal. The Indus was on fair flood.

25.—LYALLPUR DISTRICT.

A few drops of rain fell. Fodder, jowar and chari sowings in progress. Cotton in fair condition. Sugarcane wants more water and is being destroyed by stem-borrer. The outturn of wheat was average to good. Cattle in good condition. Green fodder scarce. Complaints of short water-supply in places. Canal running fairly well.

26.—JHANG DISTRICT.

The slight rainfall during the month was beneficial to standing crops. One-sixth of the expected autumn crop sowings completed. Condition of crops average. Expected yield average. Fodder insufficient, and no grazing available. Condition of cattle fair. Canals working. Sufficient supply of water in canals and rivers, but complaint of insufficiency of water in tahsil Shorkot. Slight river flood in some villages in tahsil Shorkot, which was helpful in sowing outturn crops.

27.—MULTAN DISTRICT.

Cotton, rice and jowar being sown. Condition of standing kharif and extra rabi crops below average both on irrigated and unirrigated areas. Condition of cattle fair except on the Sidhnai tract. Public health good. Sidhnai canal dry. Chenab and Sutlej inundation canals flowing by turns.

28.—MUZAFFARGARH DISTRICT.

Rice, moth, jowar, bajra, cotton and indigo were sown. Condition of crops on the whole fair. In Muzaffargarh tahsil the condition of crops is poor owing to scarcity of canal water. Yield of kharif crops will much depend on the quantity of canal water obtainable. Sufficient bhusa available for fodder. Canals running.

29.—DERA GHAZI KHAN DISTRICT.

Two-thirds of the kharif sowings completed. Condition of crops fair. Fodder sufficient in Sindh, but scarce in Pachadh. Condition of cattle fair. Canals are running well. The river has risen high. The Kaha hill torrent ran well for a time.

P. A. GABRIEL, SUPDT.,

Note.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in ... Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 4th July 1908, there were 967 births registered in the 43 large municipal towns (530 males and 437 ...males), giving a birth rate of 35 *per mille* of population, and 989 deaths were registered (503 males and 486 females), giving a death rate of ... *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 32 against 42 in the corresponding ...k of the previous year; Lahore 46 against 33; Amritsar 41 against 40; and Multán 42 against 24. Of the 99 deaths from small-pox, 12 ... registered in Multán, 11 in Amritsar, 10 in Ambála, 8 each in Lahore and Siálkot, 6 each in Shahabad and Dera Gházi Khan, 5 each in ...shiárpur and Jullundur, 3 each in Delhi, Sonepat and Jagádhri, 2 each in Hissar, Jhajjar, Rewári, Ráwalpindi and Chiniot, and 1 each ...Palwal, Tánda-Urmar, Kartárpur, Ferozepore, Batála, Wazírabad, Jhelum, Pind Dádan Khan and Jhang-Maghiána. There were 13 deaths ...ded from cholera in Amritsar, 12 in Lahore, 4 in Kasúr, 2 in Siálkot, and 1 each in Karnál, Pánipat and Ferozepore.

Deaths reported from plague during the week ending 11th July 1908 in the districts, including all municipal towns.—Jullundur 3, ...hiána 1, Lahore 3, and Lyallpur 4. Total for the province 11. Total for the previous week 26. Total for the corresponding week of ... previous year ...,631.

Lahore:
The 14th July 1908.

LAHORE, FRIDAY, JULY 24, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 20TH JULY 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	3·66 at Sadr ... 1·86 at Hánsi. 2·04 at Bhiwáni. 4·27 at Fatahabad. 3·92 at Sirsa. 1·73 at Budhláda. 0·99 at Tohána.	1. Sufficient ... 1. Good.	Wheat, 9¾ seers ... Bajra, 9¾ seers. Gram, $10\frac{3}{16}$ seers. Bejhar, 11½ seers.	...	Rainfall sufficient for sowings, which continue. Standing cotton benefited by recent rain.
2	Rohtak ...	4·78 at Sadr ... 3·16 at Sámpla. 2·49 at Gohána. 4·87 at Jhajjar. 2·36 at Salhawas. 1·43 at Beri.	1. Plentiful ... 3. Good.	Wheat, 9½ seers... Jowar, 10¾ seers. Gram, 10 seers. Maize, 11 seers.	...	Sowings on unirrigated land being vigorously pushed. Condition of standing crops so far good.
3	Gurgaon ...	5·80 at Sadr ... More in other stations.	1. Still scarce. But green grass will be available by next week. 3. Fair.	Wheat, 8¾ to 9½ seers. Barley, 12¾ to 13¾ seers. Gram, 9½ to 10½ seers. Maize, 9 seers.	Test-works in progress at Ghamrauj with an attendance of 941 persons.	Cotton great, millet, &c., being sown. Heavy continuous rainfall has in certain parts of the district necessitated sowings twice and thrice. Standing crops in good condition. Probable outturn expected good.
4	Delhi ...	4·95 at Sadr ... 2·93 at Ballabgarh 1·35 at Sonepat. 1·90 at Mahrauli.	1. Scarce and dear ... 2. Canal open in the week. 3. Fair.	Wheat, 9½ seers... Barley, 12½ seers. Gram, 10 seers. Jowar, 11 seers. Bajra, 10 seers. Maize, 10 seers.	...	Sowings in progress. Standing cotton and sugarcane in good condition and much benefited by recent rain.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
5	Ambála ...	0·68 at Sadr ... 2·30 at Jagádhri. 4·02 at Naráingarh 1·31 at Kharar. 3·70 at Rúpar. 6·51 at Kasauli.	1. Insufficient in Ambála and Naráingarh tahsils. 2. Sufficient. 3. Fairly good.	Wheat, 9¾ seers Gram, 10 seers. Barley, 12 seers. Maize, 9 seers. Jowar, 9 seers.	...	More rain wanted in some places. Sowings in progress. Condition of standing crops good.
6	Jullundur ...	1·46 at Sadr ... 3·46 at Phillaur. 1·15 at Nakodar. 7·33 at Nawashahr.	1. Sufficient ... 3. Suffering from overwork.	Wheat, 10 seers ... Maize, 11 seers. Gram, 10 seers. Jowar, 9½ seers. Gur, 7 seers.	...	Sowings in progress. Standing crops good. More rain wanted in tahsils Jullundur and Nakodar.
7	Ludhiána ...	2·09 at Sadr ... 0·77 at Samrála. 1·06 at Jagráon.	1. Sufficient ... 3. Good.	Wheat, 10½ seers Gram, 10¼ seers. Barley, 12½ seers. Maize, 10½ seers.	...	Sowings in progress. Condition of standing crops good.
8	Ferozepore ...	1·07 at Sadr, and throughout the district.	1. Scarce. Green grass available. 3. Improving.	Wheat, 10 seers ... Gram, 11 seers.	...	Autumn crops have been sown. Standing crops average, but improving.
9	Lahore ...	0·70 at Sadr ... 1·56 at Kasúr. 0·33 at Sharakpur.	1. Improving ... 3. Fair.	Wheat, 10½ seers Gram, 10½ seers.	...	Sowings continue. Standing crops fair.
10	Amritsar ...	12·09 at Sadr ... Less in Ajnála and little in Tarn Táran.	1. Sufficient ... 3. Average.	Wheat, $10\frac{11}{16}$ seers Gram, 10½ seers. Barley, 14 seers. Jowar, 11½ seers. Maize, 10½ seers. Bajra, 9 seers.	...	Autumn crops being sown. Rice being transplanted. Condition of standing crops good. Outturn expected good.
11	Siálkot ...	4·16 at Sadr ... 3·63 at Zafarwál. 5·02 at Pasrúr. 8·41 at Raya. 4·11 at Daska.	1. Insufficient. Green grass procurable in some places. 3. Good.	Wheat, 11 seers ... Barley, 12 seers. Gram, 9½ seers. Rice, 6 seers.	...	Sowings in progress. Rainfall abundant everywhere. Condition of cotton and sugarcane improving owing to recent rains. Germination of crops good. Agricultural prospects favourable.
12	Gujránwála ...	0·25 throughout.	1. Procurable ... 3. Fair.	Wheat, 10 to 12 seers. Gram, 10 to 11 seers. Bajra, 10 seers. Maize, 11 seers.	...	Sowings in progress in unirrigated areas. Rice and canal-irrigated crops good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee	Prospects of Spring	Prospects of Autumn.
13	Shahpur ...	0·51 at Sadr ... 0·74 at Bhera ... 2·50 Khushāb. 0·59 at Sargodha.	1. Sufficient ... 3. Good.	Wheat, 11 to 12 seers. Barley, 13 to 16 seers. Gram, 10½ to 11 seers. Jowar, 8½ to 9 seers. Maize, 9 to 9½ seers. Bajra, 8 to 10 seers.	...	Sowings continue. Standing crops in good condition.
14	Ráwalpindi ...	5·54 at Sadr ... 6·16 at Gujar Khan 7·29 at Kahúta. 7·21 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 10¼ seers. Barley, 13½ seers. Bajra, 11½ seers. Gram, 10 seers. Maize, 12¼ seers.	...	Condition of standing crops average. Sowings continue.
15	Miánwáli ...	0·10 at Sadr ... 0·55 at Isa Khel. 0·41 at Bhakkar.	1. Procurable ... 3. Average.	Wheat, 10½ seers. Gram, 11 seers. Bajra, 11 seers. Barley, 15½ seers.	Condition of extra spring crops average.	Recent rain beneficial for autumn sowings. Indus in flood.
16	Lyallpur ...	1·72 at Sadr ... 1·36 at Toba Tek Singh. 0·27 at Samundri.	1. Sufficient ... 3. Good.	Wheat, 10¾ seers. Gram, 10¼ seers. Jowar, 8 seers.	...	Sowings continue. Sugarcane and cotton in good condition.
17	Jhang ...	Good rainfall throughout.	1. Sufficient ...	Wheat, 11 to 12 seers. Maize, 9 seers. Jowar, Bajra, Gram, } 10 seers.	...	Recent rain has benefited the standing crops. Sowings in progress.
18	Multán ...	1·18 at Sadr ... 1·24 at Mailsi. 0·80 at Lodhrán. 0·07 at Shujabad.	1. Sufficient, except in Kabírwála and Multán. 3. Fair.	Wheat, 11 seers ... Gram, 10¾ seers. Maize, 9¾ seers.	...	Sowings continue. Condition of standing crops average.

GENERAL REMARKS.

Rainfall.—Good rainfall all over the Province except at a few stations in the south-western districts where moderate rain received.

Prices.—Price of wheat is falling in Hissar, Gurgaon, Ambála, Ludhiána, Ferozepore; Siálkot, Gujránwála, Ráwalpindi; rising in Jullundur, Amritsar and Lyallpur. Wheat is selling between warning and scarcity rates in Gurgaon, Delhi, Lahore, Gujránwála, Ráwalpindi, Miánwáli, Lyallpur, Jhang and Multán; at scarcity rates in Ferozepore, Siálkot and Shahpur, and above scarcity rates in all other districts. Prices of other food-grains are above scarcity rates everywhere.

Agricultural operations.—Sowings of autumn crops continue on irrigated and unirrigated areas. More rain still wanted in parts of Ambála and Jullundur.

Crops and outturn.—Standing crops in good condition and have generally improved owing to recent rains.

Agricultural stock.—Cattle generally in good to fair condition.

Pasturage.—Fodder scarce in Gurgaon, Delhi, Ferozepore, Siálkot, and parts of Ambála and Multán.

Water-supply.—No complaint.

Test-works.—942 persons attended famine test-works in Gurgaon against 1,062 last week.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING MAY 1908.

Station.	Pressure.		Wind.		Temperature in shade.						Humidity at 8 h.	Vapour tension at 8 h.	Amount of cloud, 10 = overcast.

‖ Mean of 29 days.
¶ Mean of 23 days.
** Mean of 22 days.
†† Mean of 27 days.

During the first nine days of the month weather was dry and temperature normal, but on the 9th the usual heat depression in north-west India began to move towards the Punjab hills, and on the 10th it was the cause of rain in the south-eastern half of the Punjab and in parts of Kashmir; a few scattered falls also occurred on the 11th and 12th and the weather was not nearly as hot as usual from the 10th to the 14th. The heat depression again moved towards the Punjab hills on the 17th, but this time it caused precipitation only in the extreme north of India on the 17th, 18th and 19th. Weather was disturbed on several other occasions in Kashmír, but it did not affect the Punjab.

Pressure and winds.—Pressure was normal or in slight excess both in the plains and on the hills, and the vertical pressure gradients were thus normal. Winds were approximately normal in strength and direction.

Temperature.—Normal temperature conditions prevailed up to the 10th except that on the 5th and 6th temperature was in slight defect, but on the 10th the rain cooled the air very much, and from this date until the 14th weather was much cooler than usual. During the rest of the month temperature was in excess on the 17th and again on the 26th and 27th, but on the other days it was normal. The highest temperature was 117·8° at Multán on 27th.

The following table shows the departures from the normal of the mean temperature of the Punjab and the North-West Frontier Province on each day of the month and the highest temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.

Humidity and cloud.—The air contained less moisture than usual and skies were generally free from cloud.

Rainfall.—Thunderstorms were less numerous than usual, especially in the western districts and the hills, and most of the rain was received during the disturbance of the 9th to 12th. Rainfall was normal at Sirsa and Ambála, in excess at Montgomery and in defect elsewhere ; Lahore and Ráwalpindi reported the least amount of rain and at the latter station the greatest deficiency occurred. Rainfall was also in large defect in Simla.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for May 1908 :—

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Supplementary Notes on the condition and prospects of crops, etc., in the Gurgaon district in the Punjab during the month of May 1908, received too late for insertion in the Supplement to "Punjab Gazette" dated 19th June 1908.

GURGAON DISTRICT.

Ploughings for next harvest continue. Sowings of cotton and chari nearing completion. Sowings of sugarcane completed during the month. Standing crops in fair condition. Rain needed. Probable outturn of extra rabi crop expected average. Cattle in fair condition. Fodder scarce in the whole district except in Rewári tahsil where it is sufficient for present needs. General health of the people good. Canal water was in use, but Tahsildar, Palwal, complains that the supply was insufficient. No floods came down during the month.

P. A. GABRIEL, SUPDT.,
Office of Director of Agriculture, Punjab.

W. H. MILLS, Supdt.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SIXTY THOUSAND NINE HUNDRED AND TEN births were registered in the province during the month of May 1908, giving a birth-rate of 36 *per mille* of population. Of the total number of births, 31,885 were boys and 29,025 were girls.

The total number of deaths registered from all causes in the province during the month of May 1908 was 61,367 against 56,228 in the previous month, and 246,073 in the corresponding month of the past year, giving an annual death-rate of 36, 34 and 144 *per mille* of population per annum, respectively.

There were 1,966 deaths registered under the head of cholera against 443 in the previous month and 11 in the corresponding month of the past year.

The total mortality from plague amounted to 4,711 against 10,459 in the previous month and 195,708 in the corresponding month of the past year.

From small-pox 5,057 deaths were registered against 3,737 in the previous month and 1,176 in the corresponding month of the past year; fevers 31,270 against 25,743 and 29,781; dysentery and diarrhœa 1,627 against 1,021 and 1,433; respiratory diseases 4,433 against 4,322 and 5,590. During the month there were 23 deaths registered from suicide against 31 in the past month; wounding 45 against 63; accidents 458 against 341; snake-bite and killed by wild beasts 64 against 59; and from all other causes 11,713 against 10,009 in the previous month and 11,795 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 17th July 1908.

NOTE.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 11th July 1908, there were 995 births registered in the 43 large municipal towns (516 males and 479 females), giving a birth rate of 36 *per mille* of population, and 876 deaths were registered (444 males and 432 females), giving a death rate of 31 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 29 against 52 in the corresponding week of the previous year; Lahore 35 against 28; Amritsar 39 against 38; and Multán 34 against 24. Of the 68 deaths from small-pox, 12 were registered in Lahore, 7 in Sonepat, 6 in Ambála, 5 each in Siálkot and Multán, 4 each in Rewári and Amritsar, 3 each in Hánsi, Delhi, Kaithal, Jullundur, Gujrát and Dera Ghází Khan, 2 in Ludhiána and 1 each in Kartárpur, Gujránwala, Wazírabad, Jhelum and Ráwalpindi. There were 21 deaths recorded from cholera in Lahore, 6 in Amritsar, 4 in Karnál, 2 in Jagráon, and 1 each in Ferozepore and Kasúr.

Deaths reported from plague during the week ending 18th July 1908 in the districts, including all municipal towns.—Lahore 3 and Amritsar 1. Total for the province 4. Total for the previous week 14. Total for the corresponding week of the previous year 1,423.

Bajra, 8¼ to 10 seers. Maize, 7 to 10 seers.	Test works in progress at Ghamrauj with an attendance of 741 persons. This work has been closed since July 23th.	Autumn crops being sown. Heavy continuous rainfall has in certain parts of the district necessitated sowings twice and thrice. Standing crops good. Probable outturn good.
4	Delhi ..	0·86 at Sadr ... 3·36 at Sonepat. 0·40 at Ballabgarh 0·83 at Mahrauli,	1. Sufficient ... 2. Canal closed during the week.	Wheat, 9½ seers... Barley, 12½ seers. Gram, 9¾ seers. Jowar, 11½ seers. Bajra, 10 seers. Maize, 10 seers.	...	Sowings of autumn crops in progress. Standing crops in good condition. Flood in Jumna.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	PROSPECTS OF — Spring.	Autumn.
5	Ambála ...	0·22 at Sadr ... 3·37 at Jagádhri. 2·05 at Naráingarh 2·02 at Kharar. 0·51 at Rúpar. 6·37 at Kasauli.	1. Insufficient in Ambála and Naráingarh tahsils. 2. Water insufficient in Ambála tahsil. 3. Fairly good.	Wheat, 9 seers ... Gram, 10 seers. Barley, 12 seers. Maize, 9 seers. Jowar, 9 seers.	...	More rain wante Sowings in pr gress. Conditio of standing cro good.
6	Jullundur ...	0·57 at Sadr ... 0·42 at Phillaur. 0·30 at Nakodar. 0·20 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 10¼ seers Maize, 11½ seers. Gram, 10 seers. Jowar, 12½ seers. Gur, 7 seers.	...	Sowings in pr gress. Standin crops goo More rain requi ed.
7	Ludhiána ...	0·73 at Sadr ... 2·70 at Samrála. 0·46 at Jagráon.	1. Sufficient ... 3. Satisfactory.	Unchanged ...	...	Sowings of autum crops in progres Standing crops good condition.
8	Ferozepore ...	3·42 at Sadr and throughout the district.	1. Dry fodder scarce, but green grass is available. 3. Good.	Wheat, 10 seers ... Gram, 11 seers.	...	Autumn crops bein sown. Standing crops in good con dition.
9	Lahore ...	1·63 at Sadr ... 0·74 at Chunián. 2·77 at Kasúr.	1. Pasture sufficient .. 3. Fair.	Wheat, Gram, } 11 seers	...	Autumn crops be ing sown. Stand ing crops good.
10	Amritsar ...	2·26 at Sadr ... More in Ajnála and less in Tarn Táran.	1. Plentiful ... 3. Improving.	Wheat, 10⅞ seers Gram, 10⅞ seers. Barley, 14½ seers. Jowar, 13½ seers. Maize, 10½ seers. Bajra, 8½ seers.	...	Autumn crops be ing sown. Rice being transplant ed. Standing crops in good con dition. Outturn expected good.
11	Siálkot ...	2·18 at Sadr ... 1·70 at Zafarwál. 1·59 at Pasrúr. 1·77 at Raya. 3·02 at Daska.	1. Dry fodder insufficient. Chari used as fodder and green grass procurable. 3. Generally good.	Wheat, 11 seers ... Barley, 12 seers. Gram, 9½ seers. Rice, 6 seers.	...	Sowings of autum crops in progres Rainfall abundant everywhere. Con dition of cotton and sugarcane improving owing to good rainfall. Germination of crops also good. Agricultur al prospects fa vourable.
12	Gujránwála ...	About 3 inches throughout the district.	1. Sufficient ... 3. Average.	Wheat, 10 to 12 seers. Gram, 10 to 11 seers. Bajra, 10 seers. Maize, 11 seers.	...	Sowings in pro gress. Condition of crops good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
13	Shahpur ...	0·20 at Sadr ... 2·88 at Bhera. 0·45 at Khushâb. 0·30 at Sargodha.	1. Sufficient ... 3. Good.	Unchanged ...	...	Sowings in progress. Standing crops in good condition.
14	Râwalpindi ...	1·14 at Sadr ... 2·04 at Gujar Khan and Kahúta. 2·49 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 10½ seers Barley, 13½ seers. Bajra, 10½ seers. Gram, 10 seers. Maize, 12½ seers.	...	Condition of standing crops average. Sowings in progress.
15	Miánwáli ...	0·24 at Sadr ... 0·51 at Bhakkar. 1·10 at Leiah.	1. Fodder procurable with difficulty in Indus Valley owing to river inundation. 3. Average.	Wheat, 10½ seers Gram, } 11 seers. Bajra, } Barley, 15½ seers.	Condition of extra spring crops average.	Rain beneficial for autumn sowings which have commenced in Thal. Indus in flood.
16	Lyallpur ...	2·26 at Sadr ... 0·32 at Toba Tek Singh. 1·49 at Samundri.	1. Sufficient ...	Wheat, 11 seers ... Gram, 10¼ seers. Jowar, 11 seers. Maize, 12 seers.	...	Autumn crops being sown. Standing crops in good condition.
17	Jhang ...	Good rainfall in Jhang and Chiniot tahsils.	1. Sufficient ...	Wheat, 10 to 11 seers. Bajra, 9 seers. Maize, } Jowar, } 10 seers. Gram, }	...	Rain beneficial to standing crops. Sowings of autumn crops in progress
18	Multán ...	0·06 at Mailsi. 0·18 at Lodhrán.	1. Sufficient, ... 3. Good.	Wheat, 11 seers ... Gram, 10¼ seers. Maize, 9¼ seers.	...	Sowings of autumn crops in progress. Condition of standing crops average on both irrigated and unirrigated areas.

GENERAL REMARKS.

Rainfall.—Good rain received in all districts except Jullundur and Multán where rainfall was light.

Prices.—Price of wheat is falling in Hissar, Gurgaon, Jullundur Lahore, Amritsar, Ráwalpindi and Lyallpur; rising in Ambála and Jhang. Wheat is selling between warning and scarcity rates in Gurgaon, Delhi, Lahore, Gujránwála, Ráwalpindi, Miánwáli, Lyallpur, and Multán; at scarcity rates in Ferozepore, Siálkot, Shahpur and Jhang, and above scarcity rates in all other districts. Prices of other food-grains are generally above scarcity rates everywhere.

Agricultural operations.—Sowings of autumn crops in progress. More rain wanted in Ambála and Jullundur.

Crops and outturn.—Standing crops generally in good condition.

Agricultural stock.—Cattle generally in good to fair condition.

Pasturage.—Dry fodder scarce in Gurgaon, Ferozepore, Siálkot, and parts of Ambála. In Miánwáli fodder procurable with difficulty owing to river inundation.

Water-supply.—Canal closed in Delhi during the week. Water insufficient in parts of Ambála.

Test works.—741 persons attended the famine test works in Gurgaon against 942 last week. This work has been closed since July 25th.

Note.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated at the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 18th July 1908, there were 1,014 births registered in the 43 large municipal towns (544 males and 470 females), giving a birth rate of 36 *per mille* of population, and 688 deaths were registered (350 males and 338 females), giving a death rate of 25 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 26 against 58 in the corresponding week of the previous year; Lahore 30 against 31 ; Amritsar 29 against 42 ; and Multán 32 against 31. There was 1 death reported from plague in Lahore. Of the 41 deaths from small-pox, 6 were registered in Siálkot, 4 each in Ambála, Lahore, Amritsar and Multán, 3 each in Delhi and Jagráon, 2 each in Rewári, Shahabad, Ráwalpindi and Dera Gházi Khan, and 1 each in Hissar, Hánsi, Jhajjar, Kaithal, Jagádhri, Hoshiárpur, Jullundur, Kartárpur and Gujrát. There were 7 deaths recorded from cholera in Lahore, 4 in Amritsar, 2 each in Ferozepore, Jhelum and Dera Gházi Khan, and 1 each in Karnál and Siálkot.

Deaths reported from plague during the week ending 25th July 1908 in the districts, including all municipal towns—Lahore 4, Amritsar 1 and Ráwalpindi 3. Total for the province 8. Total for the previous week 4. Total for the corresponding week of the previous year 1,870.

Lahore :
The 28th July 1908.

No. 32 of 1908.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, AUGUST 7, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 3RD AUGUST 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	2·08 at Sadr ... 2·15 at Hánsi. 0·30 at Bhiwáni. 1·68 at Fatahabad. 2·89 at Sirsa. 1·65 at Budhláda. 3·37 at Tohána.	1. Green grass available. 3. Good.	Wheat, 9½ seers... Gram, 10¾ seers. Bajra, 10¾ seers. Bejhar, 12 seers.	...	Sowings on unirrigated lands in progress. Crops on canal lands flourishing.
2	Rohtak ...	0·96 at Sadr ... 0·97 at Sámpla. 2·34 at Gohána. 3·05 at Jhajjar. 0·67 at Salhawas. 1·33 at Beri.	1. Sufficient ... 3. Good.	Wheat, 9¾ seers... Gram, 10 seers. Jowar, 10¾ seers. Maize, 11 seers.	...	Sowings in progress. Standing crops flourishing.
3	Gurgaon ...	4·87 at Sadr ... More at some other stations.	1. Green grass sufficient at present. 3. Fair.	Wheat, 8½ to 9½ seers. Barley, 12½ to 13½ seers. Gram, 9¾ to 10¾ seers. Bajra, 9 to 10 seers. Maize, 8 to 9½ seers.	...	Sowings continue. Heavy continuous rainfall has in certain parts necessitated sowings twice and thrice. Standing crops in good condition. Probable outturn expected good.
4	Delhi ...	13·07 at Sadr ... 9·66 at Ballabgarh 7·30 at Mahrauli. 6·15 at Sonepat.	1. Sufficient ...	Wheat, 9½ seers... Barley, 12½ seers. Gram, 9¾ seers. Jowar, 12 seers. Bajra, 11 seers. Maize, 10 seers.	...	Sowings continue. Standing crops in good condition. Outturn expected good. Flood in the Jumna has irrigated the sailab area.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	1·73 at Sadr ... 13·45 at Jagádhri. 3·91 at Naráingarh 1·13 at Kharar. 0·94 at Rúpar. 4·22 at Kasauli.	1. Insufficient in tahsil Ambála. 2. Sufficient. 3. Fairly good.	Wheat, 9¾ seers Gram, 9¾ seers. Barley, 12 seers. Maize, 9 seers. Jowar, 11 seers.	...	Sowings in progress. Condition of standing crops good.
6	Jullundur ...	6·65 at Sadr ... 6·63 at Phillaur. 2·49 at Nakodar. 3·92 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 10¼ seers Maize, 11½ seers. Gram, 10 seers. Jowar, 12½ seers. Gur, 7 seers.	...	Sowings in progress. Standing crops good.
7	Ludhiána ...	7·24 at Sadr ... 7·75 at Jagráon.	1. Sufficient ... 3. Satisfactory.	Wheat, 10¼ seers Barley, 10½ seers. Gram, 10¼ seers. Maize, 11¼ seers.	...	Sowings continue. Condition of standing crops good.
8	Ferozepore ...	4·45 at Sadr and elsewhere.	1. Green grass available. Dry fodder scarce. 3. Good.	Wheat, 10 seers ... Gram, 11 seers. Barley, 13 seers. Maize, 12½ seers. Jowar, 10 seers. Bajra, 10 seers.	...	Sowings continue. Standing crops good.
9	Lahore ...	1·23 at Sadr ... 0·90 at Chunián. 3·29 at Kasúr. 1·26 at Sharakpur.	1. Sufficient ...	Wheat, Gram, } 11 seers	...	Sowings continue. Condition of standing crops good.
10	Amritsar ...	3·42 at Sadr ... More in Tarn Táran and less in Ajnála.	1. Grass abundant ... 3. Improving.	Wheat, 10$\frac{1}{16}$ seers Gram, 10¼ seers. Barley, 14½ seers. Jowar, 15 seers. Maize, 10½ seers. Bajra, 8½ seers.	...	Sowings continue. Outturn expected good.
11	Siálkot ...	5·33 at Sadr ... 2·62 at Zafarwál. 2·83 at Pasrúr. 1·82 at Daska.	1. Insufficient. Green grass and other fodder crop procurable. 3. Good.	Wheat, 11 seers ... Rice, 6 seers. Barley, 12 seers. Gram, 9½ seers.	...	Sowings in progress. Standing crops flourishing. Agricultural prospects most favourable, but a break in the rains will be soon wanted.
12	Gujránwála ...	Good rainfall throughout.	1. Ample ... 3. Good.	Wheat, 10 to 12 seers. Gram, 10 to 11 seers. Bajra, 10 seers. Maize, 11 seers.	...	Sowings continue. Condition of standing crops good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
13	Shahpur ...	0·70 at Sadr ... 0·43 at Bhera. 0·11 at Khushâb. 0·06 at Sargodha.	1. Sufficient ...	Unchanged ...	...	Sowings going on. Standing crops good.
14	Râwalpindi ...	1·57 at Sadr ... 1·05 at Gujar Khan 11·01 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 10¾ seers. Barley, 13¾ seers. Bajra, 11 seers. Gram, 9½ seers. Maize, 12¾ seers.	...	Condition of standing crops average. Sowings continue.
15	Miánwáli ...	0·30 at Isa Khel ... 2·42 at Bhakkar. 2·24 at Leiah.	1. Scarce in Indus Valley.	Wheat, 10¾ seers Gram, 11 seers. Bajra, 12 seers. Barley, 16 seers.	Condition of extra spring crops average.	Sowings in progress in Thal, but at a standstill in Indus Valley owing to river inundation. River in high flood.
16	Lyallpur ...	1·48 at Sadr ... 3·44 at Samundri.	1. Sufficient ...	Wheat, 11 seers ... Gram, 10 seers. Jowar, 12 seers. Maize, 11 seers.	...	Sowings continue. Standing crops in good condition.
17	Jhang ...	Good rainfall throughout the district.	1. Sufficient ... 3. Good.	Wheat, 11 seers ... Maize, 10 seers. Jowar, 9 seers. Bajra, 8 seers. Gram, 10 seers.	...	Recent rain beneficial to standing crops. Sowings continue.
18	Multán ...	0·03 at Sadr ... 1·43 at Mailsi. 0·08 at Lodhrán. 0·24 at Shujabad. 0·88 at Kabirwála	1. Sufficient, ... 3. Good.	Wheat, 11 seers ... Gram, 10¾ seers. Maize, 10¾ seers.	...	Sowings in progress. Condition of standing crops average.

GENERAL REMARKS.

Rainfall.—Good rainfall throughout the Province.

Prices.—Price of wheat is falling in Rohtak and Ambála; rising in Gurgaon, Ludhiána, Amritsar and Ráwalpindi. Wheat is selling between warning and scarcity rates in Gurgaon, Delhi, Lahore, Gujránwála, Ráwalpindi, Miánwáli, Lyallpur and Multán; at scarcity rates in Ferozepore, Siálkot, Shahpur and Jhang, and above scarcity rates in other districts. Prices of other food-grains are generally at or above scarcity rates.

Agricultural operations.—Sowings of autumn crops in progress throughout the Province.

Crops and outturn.—Standing crops in good condition except Ráwalpindi and Multán where crops average.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Fodder insufficient in parts of Ambála and in the Indus Valley in Miánwáli district owing to heavy floods.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

W. H. MILLS, SUPDT.,

for Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

FIFTY-NINE THOUSAND SIX HUNDRED AND EIGHTY-SEVEN births were registered in the province during the month of June 1908, giving a birth-rate of 36 *per mille* of population. Of the total number of births, 31,282 were boys and 28,405 were girls.

The total number of deaths registered from all causes in the province during the month of June 1908 was 52,405 against 61,367 in the previous month, and 99,144 in the corresponding month of the past year, giving an annual death-rate of 32, 36 and 60 *per mille* of population per annum, respectively.

There were 2,127 deaths registered under the head of cholera against 1,966 in the previous month and 62 in the corresponding month of the past year.

The total mortality from plague amounted to 663 against 4,711 in the previous month and 50,550 in the corresponding month of the past year.

From small-pox 5,228 deaths were registered against 5,057 in the previous month and 1,341 in the corresponding month of the past year; fevers 28,912 against 31,270 and 29,775; dysentery and diarrhœa 1,182 against 1,627 and 1,480; respiratory diseases 3,808 against 4,433 and 4,662. During the month there were 26 deaths registered from suicide against 23 in the past month; wounding 58 against 45; accidents 490 against 458; snake-bite and killed by wild beasts 108 against 64; and from all other causes 9,803 against 11,713 in the previous month and 10,654 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 29th July 1908.

Note.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in
e Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 25th July 1908, there were 1,066 births registered in the 43 large municipal towns (576 males and 490
ales), giving a birth rate of 38 *per mille* of population, and 670 deaths were registered (306 males and 364 females), giving a death rate of
per mille of population. The death rates registered in the four largest towns were as follows :—Delhi 26 against 36 in the corresponding
k of the previous year; Lahore 24 against 30; Amritsar 39 against 31; and Multán 17 against 29. Of the 37 deaths from small-pox,
h were registered in Lahore and Siálkot, 3 each in Rewári, Delhi, Sonepat, Ráwalpindi and Multán, 2 each in Amritsar and Jhang-Maghiána
1 each in Shahabad, Jagádhri, Hoshiárpur, Jullundur, Ludhiána, Ferozepore, Gujrát and Lyallpur. There were 21 deaths recorded from
lera, *viz.*, 7 each in Lahore and Amritsar, 6 in Jagraon and 1 in Rewári.

Deaths reported from plague during the week ending 1st *August* 1908 *in the districts, including all municipal towns*.—Nil.
tal for the previous week 8. Total for the corresponding week of the previous year 372.

Lahore:
e 3rd *August* 1908.

W. H. MILLS, Supdt.,
for *Sanitary Commissioner, Punjab*.

LAHORE, FRIDAY, AUGUST 14, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 10TH AUGUST 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2 Water-supply. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·39 at Sadr ... 1·92 at Hánsi. 6·73 at Bhiwáni. 2·43 at Fatahabad. 0·63 at Sirsa. 0·34 at Budhláda. 1·43 at Tohána.	1. Green grass sufficient. 3. Good.	Wheat, 9¼ seers ... Gram, 11 seers. Bajra, 11¼ seers. Bejhar, 13 seers.	...	Sowings continue. Irrigated crops flourishing.
2	Rohtak ...	1·14 at Sadr ... 2·90 at Sámpla. 4·35 at Gohána. 2·65 at Jhajjar. 0·70 at Salhawas. 5·93 at Beri.	1. Plentiful ... 3. Good.	Wheat, 10 seers ... Gram, 10 seers. Jowar, 11½ seers. Maize, 11 seers.	...	Sowings of autumn crops finished. Condition of standing crops on irrigated and unirrigated areas good.
3	Gurgaon ...	1·96 at Sadr ... Much more at other stations.	1. Green grass sufficient for present needs. 3. Fair.	Wheat, 8¼ to 10 seers. Barley, 12 to 15 seers. Gram, 9¼ to 11 seers. Bajra, 9 to 11 seers. Maize, 8 to 12 seers.	...	Sowings continue. Standing crops in good condition. Probable outturn expected good.
4	Delhi ...	3·47 at Sadr ... 7·68 at Ballabgarh 4·50 at Mahrauli. 2·65 at Sonepat.	1. Sufficient ... 2. Canal closed. 3. Fair.	Wheat, 9½ seers... Barley, 12½ seers. Gram, 10 seers. Jowar, 12½ seers. Bajra, 10 seers. Maize, 10 seers.	...	Sowings continue. Standing crops in good condition except in Khadar circle where crops destroyed by floods.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	4·54 at Sadr ... 12·88 at Jagádhri. 13·05 at Naráingarh 5·72 at Kharar. 6·30 at Rúpar. 8·59 at Kasauli.	1. Sufficient ... 2. Do. 3. Fairly good.	Wheat, 9¾ seers Gram, 9¾ seers. Barley, 11¼ seers. Maize, 8¾ seers Jowar, 10¾ seers.	...	Sowings in progress. Condition of standing crops good.
6	Jullundur ...	0·24 at Sadr ... 0·76 at Phillaur. 0·33 at Nakodar. 0·12 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 10¼ seers Maize, 11 seers. Gram, 11 seers. Jowar, 13 seers. Gur, 7 seers.	...	Sowings of maize in progress Weeding of cotton and maize commenced. Standing crops in good condition.
7	Ludhiána ...	0·35 at Sadr ... 0·64 at Jagráon. 1·53 at Samrála.	1. Sufficient ... 3. Good.	Wheat, 10½ seers Barley, 13½ seers. Gram, 10¼ seers. Maize, 11½ seers.	...	Standing crops good.
8	Ferozepore ...	1·15 at Sadr ...	1. Green available, dry scarce. 3. Good.	Wheat, 9½ seers Gram, 11 seers. Barley, 13 seers.	...	Sowings in progress. Standing crops good.
9	Lahore ...	5·76 at Chunián ... 2·90 at Kasúr. 7·20 at Sharakpur.	1. Sufficient ... 3. Fair.	Wheat, 11 seers ... Gram, 11 seers.	...	Sowings in progress. Standing crops good.
10	Amritsar ...	3·90 at Sadr ... Less in Ajnála and Tarn Táran.	3. Good ...	Wheat, 10 $\frac{1}{16}$ seers Gram, 10¼ seers. Barley, 15 seers. Jowar, 15 seers. Maize, 12 seers. Bajra, 8½ seers.	...	Maize being sown. Cotton and sugarcane being weeded. Condition of standing crops good. Yield expected good.
11	Siálkot ...	2·23 at Sadr ... 2·17 at Zafarwál. 2·66 at Pasrúr. 6·71 at Rava. 7·96 at Daska.	1. Dry fodder insufficient. Green fodder and grass procurable in abundance. 3. Good.	Wheat, 11 seers ... Barley, 12 seers. Gram, 9½ seers. Rice, 6 seers.	...	Sowings in progress. Weeding of maize commenced. Condition of standing crops flourishing. Maize and cotton in low-lying lands of tahsil Daska slightly damaged by heavy rains. Insects damage maize and hemp crops in tahsil Pasrúr. Agricultural prospects most favourable.
12	Gujránwála ...	4·00 throughout the district.	1. Green fodder abundant. 3. Good.	Wheat, 10 to 11½ seers. Gram, 10 to 11 seers. Maize, 11 seers. Bajra, 10 seers.	...	Rice and maize sowings continue. Condition of standing crops good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	1·17 at Sadr ... 2·09 at Bhera. 1·19 at Khushāb. 4·72 at Sargodha.	1. Sufficient ... 3. Good.	Unchanged ...	...	Sowings continue. Standing crops in good condition. Slight damage to sugarcane by insect and to cotton by excessive rain in tahsil Sargodha.
14	Rāwalpindi ...	7·89 at Sadr ... 5·67 at Gujar Khan 6·83 at Kahúta. 5·82 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 10¼ seers. Barley, 13¾ seers. Bajra, 11 seers. Gram, 8¾ seers. Maize, 12¼ seers.	...	Sowings continue. Condition of standing crops average.
15	Miānwāli ...	0·92 at Sadr ... 1·13 at Bhakkar. 0·30 at Leiah.	1. Fodder submerged and scarce in Indus Valley.	Wheat, 10½ seers Gram, 11¼ seers Bajra, 12½ seers. Barley, 16 seers.	Harvesting of extra spring crops nearly finished.	Sowings in progress in Thal, but at standstill in Indus Valley owing to river inundation.
16	Lyallpur ...	3·27 at Sadr ... 15·34 at Toba Tek Singh. 7·59 at Samundri.	1. Plentiful ... 3. Good.	Wheat, 11 seers ... Gram, 10 seers. Jowar, 12 seers. Maize, 11 seers.	...	Standing crops in good condition.
17	Jhang ...	Copious rainfall (unprecedented.)	1. Sufficient except where under water. 3. Good.	Wheat, 11 seers ... Maize, 9 seers. Bajra, 8 seers. Jowar, 10 seers. Gram, 10 seers.	...	Unprecedented rain throughout district damaged standing crops, especially cotton.
18	Multān ...	0·89 at Sadr ... 0·47 at Shujabad. 6·44 at Mailsi. 3·79 at Kabirwāla	1. Sufficient, ... 3. Fair.	Wheat, 11 seers ... Gram, 10½ seers. Maize, 10½ seers.	...	Sowings in progress. Condition of standing crops average. Slight damage to crops by river floods and heavy rain.

GENERAL REMARKS.

Rainfall.—Good rainfall throughout the Province.

Prices.—Prices have shown a slight downward tendency. Wheat dearer than scarcity rates at Hissar, Ambāla, Jullundur, Ludhiāna, Ferozepore and Amritsar Prices of other food-grains generally at or above scarcity rates.

Agricultural operations.—Sowings of autumn crops continue.

Crops and outturn.—Condition of standing crops generally good to average.

Damage done to crops.—Insects damaging maize and hemp in parts of Siālkot, and sugarcane in Shahpur. Some damage to crops by excessive rain and floods in Jhang, Multān and parts of Shahpur.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Fodder scarce in the Indus Valley in Miānwāli owing to heavy floods. Green grass plentiful throughout the province.

Water-supply.—No complaint.

Note.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 1st August 1908, there were 1,231 births registered in the 43 large municipal towns (643 males and 588 females), giving a birth rate of 44 *per mille* of population, and 813 deaths were registered (393 males and 420 females), giving a death rate of 29 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 35 against 36 in the corresponding week of the previous year; Lahore 29 against 24; Amritsar 36 against 32; and Multán 39 against 34. Of the 33 deaths from small-pox, 5 each were registered in Siálkot and Multán, 3 each in Jullundur and Dera Gházi Khan, 2 each in Ambála, Kartárpur, Lahore and Amritsar and 1 each in Rohtak, Sonepat, Kaithal, Shahabad, Hoshiárpur, Batála, Bhera, Ráwalpindi and Jhang-Maghiána. There were 17 deaths recorded from cholera, *viz.*, 7 each in Amritsar, 3 each in Rewári, Jagraon and Lahore and 1 in Kasúr.

Deaths reported from plague during the week ending 8th August 1908 in the districts, including all municipal towns.—*Nil.* Total for the previous week—*Nil.* Total for the corresponding week of the previous year 277.

W. H. MILLS, Supdt.,
for *Sanitary Commissioner, Punjab.*

Lahore:
The 11th August 1908.

LAHORE:
The 17th July 1908.

L. S. DEANE,
for *Examiner of Accounts, North-Western Railway.*

Punjab Government Press, Lahore—14-8-08—928.

No. 34 of 1908.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, AUGUST 21, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 17TH AUGUST 1908.

(Eighteen out of 29 districts are dealt with.)

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	6·31 at Sadr ... 4·34 at Hánsi. 3·89 at Bhiwáni. 3·23 at Fatahabad. 1·48 at Sirsa. 1·69 at Budhláda. 4·52 at Tohána.	1. Green grass plentiful. 3. Good.	Wheat, 9¼ seers... Bajra, 12¼ seers. Gram, 11 seers. Bejhar, 14 seers.	...	Rainfall very beneficial to standing crops. Sowings continue.
2	Rohtak ...	3·96 at Sadr ... 3·39 at Sámpla. 7·11 at Gohána. 4·64 at Jhajjar. 3·05 at Salhawas. 0·66 at Beri.	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Gram, 10¼ seers. Jowar, 12½ seers. Maize, 11 seers.	—	Sowings continue. Condition of standing crops good. Outturn expected good. Crops slightly damaged by heavy rains in parts.
	Gurgaon ...	5·24 at Sadr ... Less in other stations.	1. Sufficient for present needs. 3. Fair.	Wheat, 8¼ to 9½ seers. Barley, 12¼ to 13 seers. Gram, 9 to 10¼ seers. Bajra, 9 to 12¼ seers. Maize, 10 seers.	...	Sowings continue. Standing crops in fair condition. Average outturn expected. Heavy and incessant rains have damaged crops to some extent. Break in the rains very necessary.
4	Delhi ...	1·82 at Sadr ... 3·72 at Ballabgarh 1·62 at Mahrauli. 2·51 at Sonepat.	1. Grass abundant ... 2. Canals closed. The Jamna flooded. Hill streams running.	Wheat, 9 seers ... Barley, 12 seers. Gram, 10 seers. Jowar, 12 seers. Bajra, 10 seers. Maize, 9½ seers. Bejhar, 11½ seers.	...	Sowings finished. Standing crops in good condition, but stunted by excess of rain. Prospects of outturn good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	1·11 at Sadr ... 2·33 at Jagádhri. 1·22 at Naráingarh. 2·65 at Kharar. 1·42 at Rúpar. 5·12 at Kasauli.	1. Sufficient ... 2. Do. 3. Fairly good.	Wheat, 9¾ seers Gram, 9¾ seers. Barley, 12 seers. Maize, 9 seers. Jowar, 11 seers.	...	Sowings generally finished. Condition of standing crops good.
6	Jullundur ...	1·47 at Sadr ... 2·16 at Phillaur. 1·39 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 10¼ seers Maize, 11 to 12 seers. Gram, 10 seers. Jowar, 13 seers. Gur, 7 seers.	Ploughings commenced.	Sowings finished. Standing crops good.
7	Ludhiána ...	1·03 at Sadr ... 2·05 at Samrála. 1·55 at Jagráon.	1. Sufficient ... 3. Satisfactory.	Wheat, 10½ seers Barley, 14 seers. Maize, 11¾ seers. Gram, 10¼ seers.	...	Condition of standing crops good.
8	Ferozepore ...	3·96 at Sadr ... Rainfall general.	1. Dry scarce, Green available. 3. Good.	Wheat, 10 seers Gram, 11 seers.	...	Standing crops good.
9	Lahore ...	0·07 at Sadr ... 2·91 at Chunián. 4·27 at Kasúr.	1. Sufficient ... 3. Fair.	Wheat, 11 seers ... Gram, 11 seers.	...	Sowings continue. Standing crops good.
10	Amritsar ...	2·87 at Sadr ... More in Tarn Táran and Ajnála.	1. Sufficient ... 3. Good.	Wheat, 10⅞ seers Gram, 10⅜ seers. Barley, 15½ seers. Jowar, 15 seers. Maize, 12 seers. Bajra, 8½ seers.	...	Sowings continue. Condition of standing crops good except in low lands of tahsil Amritsar and Tarn Táran. Yield expected good.
11	Siálkot ...	2·17 at Sadr ... 3·65 at Zafarwál. 2·05 at Pasrúr. 5·06 at Raya. 0·11 at Daska.	1. Dry insufficient. Green fodder and grass abundant. 3. Good.	Wheat, 11 seers ... Barley, 12 seers. Gram, 9½ seers. Rice, 6 seers.	...	Sowings continue. Condition of standing crops good. Agricultural prospects most favourable.
12	Gujránwála ...	Little rainfall ...	1. Green fodder abundant.	Wheat, 10 to 11½ seers. Gram, 10 to 11 seers. Maize, 11 seers. Bajra, 10 seers.	...	Sowings continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ..	0·03 at Sadr ... 2·36 at Bhera. 0·38 at Khushâb. 0·94 at Sargodha.	1. Sufficient ... 3. Good.	Unchanged ...	Ploughings commenced.	Sowings continue. Condition of standing crops good, but slightly damaged by excessive rain in tahsil Sargodha.
14	Râwalpindi ...	5·19 at Sadr .. 2·22 at Gujar Khan 9·83 at Kahûta. 2·46 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Barley, 13¾ seers. Bajra, 11 seers. Gram, 9¼ seers. Maize, 12 seers.	...	Sowings finished. Condition of standing crops average.
15	Miânwâli ...	0·47 at Sadr ... 1·0 at Isa Khel. 1·16 at Bhakkar. 1·64 at Leiah.	1. Fodder submerged and scarce in Indus Valley.	Wheat, 11 seers Bajra, 12¾ seers. Barley, 16½ seers. Gram, 11¼ seers.	...	Recent rain beneficial to standing crops. Sowings in progress in Thal, but retained in Indus Valley owing to river inundation.
16	Lyallpur ...	0·44 at Sadr .. 0·16 at Toba Tek Singh. 0·58 at Samundri.	1. Sufficient ... 3. Good.	Wheat, 10¾ seers Gram, 9½ seers. Jowar, 12 seers. Maize, 9½ seers.	...	Certain crops sown twice in tahsil Samundri. Crops slightly damaged on account of excessive rain in tahsils Samundri and Toba Tek Singh. Standing crops in good condition.
17	Jhang ...	Slight rainfall at Jhang and Chiniot.	1. Sufficient ... 3. Good.	Wheat, Maize, Jowar, Gram, } 10 seers. Bajra, 8 seers.	...	Sowings continue. Condition of standing crops good.
18	Multân ...	1·43 at Sadr ... 0·25 at Mailsi. 1·38 at Lodhrân... 1·39 at Shujabad.	1. Sufficient ... 3. Fair.	Wheat, 11 seers ... Gram, 10½ seers. Maize, 10¼ seers.	...	Sowings continue. Condition of standing crops average. Slight damage to crops by floods and heavy rain.

GENERAL REMARKS.

Rainfall.—Good rainfall in all districts except Gujrânwâla, Lyallpur and Jhang, where light rain was received.

Prices.—Prices generally unsettled. Wheat is rising in Gurgaon, Delhi, Râwalpindi, Lyallpur and Jhang; falling in Ferozepore, Amritsar and Miânwâli. Wheat dearer than scarcity rates in Hissar, Ambâla, Jullundur, Ludhiâna, Amritsar and Jhang. Prices of other food-grains generally at or above scarcity rates.

Agricultural operations.—Sowings of autumn crops continue. Ploughings for the next spring crops commenced in Jullundur and Shahpur.

Crops and outturn.—Condition and prospects of standing autumn crops generally good to average.

Damage done to crops.—Crops on low-lying lands slightly damaged by excessive rains in parts of Rohtak, Gurgaon, Amritsar, Shahpur, Lyallpur and Multân.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Green grass plentiful throughout the province.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

[illegible]

P. A. GABRIEL, Supt[illegible]

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of July 1908.

1.—HISSAR DISTRICT.

Rainfall sufficient. Kharif crops being sown on unirrigated land. Irrigated crops flourishing, Green grass available. Cattle in good condition. Water-supply in canal good. Health of people good.

2.—ROHTAK DISTRICT.

Sowings of jowar and bajra in barani tracts in progress. Standing crops in good condition. Cattle generally in good condition. Public health good. Canal supply sufficient.

3.—GURGAON DISTRICT.

There was very heavy and incessant rainfall during the month, which in certain parts of the district necessitated sowings twice and thrice. Sowings have practically been completed. Standing crops in good condition. Probable outturn expected to be good. Cattle in fair condition. There is ample green grass now. Canal water not used during the month. Hill torrents came down in the Firozpur tahsil and flooded a certain area to some extent, and in the Rewári tahsil the Sahabi and Kaswati streams came down and some of the villages were flooded and some damage done. The test-work at Ghamrauj in the Gurgaon tahsil was closed during the month.

4.—DELHI DISTRICT.

Ploughings for the next kharif finished and sowings of kharif crops on irrigated and unirrigated lands in progress. Condition of standing cotton and sugarcane and other kharif crops good and much improved by rain. Prospects of outturn good. Cattle in good condition. Public health good. Canal open during the greater part of the month. Floods in the Jumna and other hill torrents have irrigated the sailab area. Fodder sufficient.

5.—KARNAL DISTRICT.

Sufficient rainfall has been received throughout the district. Sowings of maize, jowar, chari, urd, and cotton have been made on unirrigated lands. Up to the end of the month rain was insufficient for rice sowings, but the rains of the last few days have enabled much rice to be sown. Condition of standing crops good. Condition of cattle good. There is sufficient water and fodder. Public health good. Western Jumna Canal, Sirsa Branch, and Sirhind Canals were running during the month.

6.—AMBALA DISTRICT.

Rain received general throughout the district. Kharif crops sown on about $\frac{3}{4}$ths of the normal area. Condition of standing kharif crops good. Water sufficient. Fodder insufficient in Amballa tahsil. Health of people and condition of cattle fairly good. Land in tahsil Jagádhri fertilised by floods of the Jumna and Sone.

7.—SIMLA DISTRICT.

Rainfall during the month sufficient in both tahsils. In the Simla tahsil maize sown to the extent of $\frac{1}{8}$th of the expected sowings. Condition of crops in Simla tahsil good, in Kot Khái average. Condition of cattle good. Fodder and grazing sufficient. Health of people good. Water-supply in hill streams sufficient. In the Simla tahsil $\frac{2}{3}$rd and in Kot Khái the entire normal area was watered. Scarcity of food-grains still being felt in the Bharauli tracts, but not to such an extent as to justify remissions or suspension of the revenue.

8.—KANGRA DISTRICT.

Rice, maize, til, mash, &c., sown on some area. Kharif sowings have now been finished. Condition of irrigated crops good, but the late-sown crops of the barani area have been damaged by excessive rains. Yield expected to be above average generally. Water sufficient in kuhls (water-streams) for irrigation purposes. Much damage has been done by flood in tahsil Nurpur.

9.—HOSHIARPUR DISTRICT.

Kharif sowings in progress and so far satisfactory. Standing crops have generally improved owing to recent rains and are in good condition. Yield expected to be good. Condition of cattle generally good. Fodder and water-supply sufficient. Health of people generally good. No necessity felt for artificial irrigation owing to sufficient rainfall during the month.

10.—JULLUNDUR DISTRICT.

Sowings of kharif crop in progress. Standing crops good. Yield expected to be good. Cattle in good condition. Public health good. Rainfall sufficient for the present.

11.—LUDHIANA DISTRICT.

Sowings of kharif crops completed on barani lands and those on chahi lands still in progress. Condition of standing crops good. Condition of cattle satisfactory. Fodder sufficient. Irrigation from canals fairly satisfactory.

12.—FEROZEPORE DISTRICT.

Jowar, bajra, chari, moth, mung, mash, sesamum, gowara, hemp and maize were sown during the month. Standing kharif crop in good condition. Yield expected good. Cattle in good condition. Green fodder available; dry scarce. Sirhind and the district inundation canals had been flowing and a small area was irrigated owing to sufficient rains. There were floods in the river. The agriculturists are generally well off. Stocks of food-grains sufficient.

13.—MONTGOMERY DISTRICT.

There have been sufficient rains all over the district. Agricultural prospects favourable. Kharif sowings carried out during the month. Condition of crops generally good. The chari crop has become diseased in certain villages of the Dipalpur tahsil and is therefore not fit to be used as fodder. Good yield expected. Condition of cattle good. Green fodder ample. State of public health generally good. There is ample water in the river but the inundation is not such as would cause sailab to any very large area. Canals have been working.

14.—LAHORE DISTRICT.

Maize, jowar, bajra, moth, mash, rice and til sown during the month. Standing crops good. Expected yield good. Condition of cattle good. The perennial and the inundation canals worked well. Prices high.

15.—AMRITSAR DISTRICT.

Jowar, maize, urd, mung, moth, bajra, sesamum, hemp, chari, kangni and swank being sown. Rice transplanting finished. Condition of crops good. Expected yield good. Condition of cattle improving. State of public health good. Floods in Ravi and Beas sufficient and seasonable. Canal supply average.

16.—GURDASPUR DISTRICT.

Sufficient rainfall throughout the district during the month. Kharif sowings well in progress. Condition of crops good. No crop harvested during the month except china in Bangar circle of tahsil Batála, the outturn of which was average. Expected yield good. Condition of cattle good. Green fodder now abundant. State of public health good. Rivers and canals in full flow. The rivers Ravi and Beas were in flood on the 29th and 30th July 1908, respectively. Prices somewhat relaxed.

17.—SIALKOT DISTRICT.

Sowing of jowar, moth, sesamum, kangni, swank, bajra, maize, mandal, mash and hemp in progress. Plantation of rice also in progress. Condition of sugarcane and cotton good owing to recent rains. Germination of other kharif crops in flourishing state. Condition of cattle generally good. Green fodder procurable in sufficient quantity. Public health generally good. Water sufficient in Bajwat canals. The Deg and Aik and the rivers flooded several times. Rain abundant everywhere, and agricultural prospects most favourable, but a break in rains will soon be required.

18.—GUJRANWALA DISTRICT.

Good rain throughout the district. It is seasonal and will prove beneficial. Sowings of jowar, moth, bajra, rice, mung, til and maize in progress. Condition of crops good. Expected yield good. Condition of cattle good. Public health good. Fodder and canal water-supply sufficient. Agricultural prospects good.

19.—GUJRAT DISTRICT.

Good rain fell during the month. Sowings of kharif crops in progress except in lowlying and sailab lands in certain tracts, where sowings not possible owing to excessive moisture and water-logging. Condition of cotton and sugarcane and germination of other kharif crops good. Cattle in good condition. Prospects of fodder hopeful. Public health good. Floods from hill torrents have occurred, but nothing noteable has been reported.

20.—SHAHPUR DISTRICT.

Good rainfall during the month. Standing crops greatly benefited. Chari, jowar bajra, moth, rice, and maize sown to the fullest extent. Crops in good condition. Sugarcane crop in parts of Sargodha tahsil damaged by insects. Cattle in good condition. Green fodder sufficient. Public health good. The Lower Jhelum Canal and the Government and private inundation canals continued to flow and gave a sufficient supply of water.

21.—JHELUM DISTRICT.

Good rain everywhere except Thal. Kharif sowings still in progress. Condition of crops good. Condition of cattle good. Fodder sufficient. Pind Dadan Khan canal flowing. Floods have damaged crops on riverain lands to some extent.

22.—RAWALPINDI DISTRICT.

Rain ample and well distributed. Kharif sowings in progress. A very large area has been sown. Condition o. standing crops average. Condition of cattle fair. Stock of grain and fodder sufficient.

23.—ATTOCK DISTRICT.

There has been good rain all through the district, Campbellpur Proper being the the only exception. Condition of crops good. Kharif sowings completed in unirrigated lands. Condition of cattle good. Fodder sufficient.

24.—MIANWALI DISTRICT.

Kharif showings commenced in Thal. Condition of extra rabi crops average. Outturn of extra rabi crops normal. Fodder procurable with difficulty in the Indus Valley owing to the river flood. Cattle in average condition. Public health good. The Indus was in flood.

25.—LYALLPUR DISTRICT.

Rain was general. Sowing of maize, chari, jowar, moth and mash in progress. Cotton in good condition. Sugarcane crop that was attacked by borer, much benefited by the recent rain. Cattle in good condition Fodder plentiful. Bhusa being exported. Export of wheat to Hardoi and Calcutta continues.

26.—JHANG DISTRICT.

Good rain throughout the district, beneficial to standing crops and fresh sowings. Jowar, mash and sesamum being sown. Two-thirds of the expected kharif sowings completed. Condition of crops good. Yield expected to be good. Green fodder and grazing pasture available. State of public health good. Canals working. Sufficient supply in canals and rivers, but complaint of insufficiency of canal water in tahsil Shorkot Slight river flood in tahsils Jhang and Shorkot helpful in sowing kharif crops.

27.—MULTAN DISTRICT.

Rainfall good and general. It did much good to the standing crops and facilitated late sowings. Sowings of maize, Jowar, bajra, til and china in progress. Condition of standing crops average both on irrigated and unirrigated areas. Yield of early-sown jowar average. Condition of cattle inproving. Good prospects for fodder. Good supply of water in the inundation and Sidhnai canals.

28.—MUZAFFARGARH DISTRICT.

Rainfall sufficient during the month. Rice jowar, bajra, til and kangni were sown. Recent rains have considerably improved the condition of crops. Yield expected to be good, but it all depends on the present supply of Canal water being maintained. Condition of cattle good. Green fodder sufficient. Public health good. Canals are supplying sufficient water. The river Indus especially high; inundations therefrom have done some damage to crops in parts of the Sinanwan tahsil. There has also been some loss of cattle. No inundation from the Chenab. General agricultural conditions good. Stocks of food grains sufficient.

29.—DERA GHAZI KHAN DISTRICT.

Sowings of kharif crops still in progress. Condition of crops fair. Cattle in fair condition. Canals running very well. Hill torrents also better than usual. Indus inundation higher than for many years, doing harm or good according to locality. Much erosion on western bank threatening the town of Dera Ghási Khan and elsewhere, especially at Shahjamal.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

† Not produced.

Rise in the prices of Jowar and Bajra is due to the grains being required for the purpose of seed. Other variations are due to fluctuations in imports and exports. The price of common rice as shown in the statement is for the quality in common demand.

PRICES CURRENT OF FOOD-GRAINS, &c., IN THE DISTRICTS OF THE PUNJAB FOR THE WEEK ENDING 7TH AUGUST 1908.

NOTE.—The birth and death rates of the above towns, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 8th August 1908, there were 1,287 births registered in the 43 large municipal towns (658 males and 629 females), giving a birth rate of 46 *per mille* of population, and 909 deaths were registered (433 males and 476 females), giving a death rate of 33 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 38 against 33 in the corresponding week of the previous year; Lahore 30 against 25; Amritsar 38 against 31; and Multán 32 against 22. Of the 21 deaths from small-pox, 6 were registered in Multán, 5 in Siálkot, 2 each in Rewári, Shahabad, Jullundur and Gujrat and 1 each in Jagadhri and Lahore. There were 61 deaths recorded from cholera, *viz.*, 29 in Rewári, 12 in Amritsar, 8 in Lahore, 4 in Karnál, 3 in Dera Ghází Khan, 2 each in Ludhiána and Jagraon and 1 in Kasúr.

Deaths reported from plague during the week ending 15th August 1908 in the districts, including all municipal towns.—Lahore 1, and Amritsar 1. Total for the province 2. Total for the previous week—*Nil.* Total for the corresponding week of the previous year 138.

LAHORE:
The 18th August 1908.

W. H. MILLS, SUPDT.,
for *Sanitary Commissioner, Punjab.*

GENERAL REMARKS.

Rainfall.—Good to moderate rain received in all districts except Gujránwála and Miánwáli.

Prices.—Prices are generally falling. Wheat dearer than scarcity rates in Hissar, Jullundur, Ludhiána, Amritsar and Jhang. Other food-grains generally at or above scarcity rates.

Agricultural operations.—Sowings of autumn crops continue in some districts. Ploughings for spring crops in progress in J[illegible]dur and Siálkot. Sowings of Toria (Brassica campestris) commenced in Lyallpur.

Crops and outturn.—Condition and prospects of standing autumn crops good to average.

Damage done to crops.—Crops on low-lying lands damaged to some extent in Rohtak, Gurgaon and Amritsar. Crops in riverain villages of Delhi and Ferozepore destroyed by floods.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Green grass plentiful throughout the province.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

* Mean of 11 days.
† Mean of 29 days.
‡ Mean of 27 days.
§ Mean of 20 days.

During the first week the air was hotter than usual, especially during the daytime, and also drier; but on the 8th conditions became favourable for an incursion of monsoon winds, the first of the season, into upper India, and thunderstorms occurred along the hills and in parts of Kashmir, and duststorms with rain at a number of stations in the Punjab between the 8th and 10th. These cooled the air considerably, and temperature was in defect until the 12th, but by the 15th day temperature was again in large excess and continued so until the 18th. On this date a shallow depression which moved from the Arabian Sea into the west Himalayas introduced the Arabian Sea monsoon into the Punjab, and during the next three days rain fell over a large part of the Punjab. From the 21st, however, until the end of the month weather was dry, and the monsoon was not established on the 30th.

Pressure and winds.—Pressure was slightly below normal at the plains stations and slightly above it at the hill stations. Winds were of their normal strength, and at Delhi, Lahore and Ráwalpindi they were west or north-west instead of south-east.

Temperature.—There were three periods of abnormally hot weather during the month, alternated with a corresponding number of periods when the heat was less than usual; these latter were generally associated with periods of disturbed weather. The highest temperature was 117·3° recorded at Multán on the 5th, but the greatest average excess of temperature occurred on the 29th, when it was 7·5° above normal.

The following table shows the departures from the normal of the mean temperature of the Punjab and the North-West Frontier Province on each day of the month and the highest maximum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.

" 17th ...	+ 4·8	115·3	Do.				

Humidity and cloud.—The air was very much drier than usual, and there was very little cloud.

Rainfall.—The two temporary advances of the monsoon into the Punjab gave an excess of rain at Sirsa, but in the rest of the Punjab rainfall was in defect, the greatest actual deficiencies occurring at Ambála and Simla, though practically no rain fell at Multán and Montgomery.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for June 1908 :—

Station.	Actual rainfall in June 1908	Normal average rainfall in June.	Difference from the average in June 1908.	Station.	Actual rainfall in June 1908.	Normal average rainfall in June.	Difference from the average in June 1908.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 15th August 1908 there were 1,316 births registered in the 43 large municipal towns (684 males and 632 females), giving a birth rate of 47 *per mille* of population, and 1,105 deaths were registered (559 males and 546 females), giving a death rate of 40 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 46 against 38 in the corresponding week of the previous year; Lahore 37 against 28; Amritsar 47 against 32; and Multán 27 against 28. Of the 25 deaths from small-pox, 6 were registered in Amritsar, 3 each in Lahore and Siálkot, 2 each in Karnál, Jullundur and Ráwalpindi, and 1 each in Rewári, Shahabad, Ambála, Kártarpur, Gujrát Multán and Dera Gházi Khan. There were 95 deaths recorded from cholera in Rewári, 24 in Lahore, 18 in Amritsar, 5 in Karnál, 4 each in Palwal and Dera Gházi Khan, 3 in Ludhiána, 2 in Jagraon, and 1 each in Ferozepore and Siálkot.

Deaths reported from plague during the week ending 22nd *August* 1908 *in the districts, including all municipal towns.*—Ludhiána 1, Lahore 1, and Gurdáspur 1. Total for the province 3. Total for the previous week 2. Total for the corresponding week of the previous year 113.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 31ST AUGUST 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	1·67 at Sadr ... 1·47 at Hánsi. 4·46 at Bhiwáni. 0·99 at Sirsa. 1·51 at Budhláda. 1·65 at Tohána.	1. Abundant ... 3. Good.	Wheat, 10 seers ... Bajra, 13 seers. Gram, 12 seers. Bejhar, 16 seers.	...	Sunshine and warmth urgently required. Prospects of irrigated crops good.
2	Rohtak ...	3·45 at Sadr ... 2·63 at Sámpla. 4·81 at Gohána. 3·49 at Jhajjar. 4·13 at Salhawas. 4·32 at Beri.	1. Abundant ... 3. Good.	Wheat, 9¾ seers Gram, 10½ seers. Jowar, 13 seers. Bajra, 11½ seers.	...	Standing crops generally in good condition. Crops slightly damaged by heavy and continuous rains. A break in the rains with warm sunshining weather and a westerly breeze much needed now for maturing of crops.
3	Gurgaon ...	9·79 at Sadr ... Less at other stations.	1. Sufficient ... 3. Fair.	Wheat, 8¼ to 10 seers. Barley, 12¼ to 15½ seers. Gram, 9 to 10¾ seers. Bajra, 10 to 12 seers. Maize, 8 to 12 seers.	Sowings of carrots commenced.	Weedings in progress. Standing crops in fair condition. Probable outturn below average. Crops damaged by heavy rains. Break in rains absolutely necessary.
4	Delhi ...	7·02 at Sadr ... 7·97 at Ballabgarh 4·88 at Mahrauli. 2·81 at Sonepat.	1. Abundant ... 2. Canal closed, during the week. 3. Good.	Wheat, 10 seers ... Barley, 13½ seers. Gram, 9½ seers. Jowar, 14 seers. Bajra, 12 seers. Maize, 13 seers. Bejhar, 13½ seers.	Ploughings for spring crops commenced on high lands.	Standing crops generally in good condition. Prospects of outturn good. Jumna flooded. Nullahs running.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
5	Ambála ...	3·40 at Sadr ... 3·84 at Jagádhri. 7·11 at Narángarh. 3·26 at Kharar. 6·11 at Rúpar. 4·89 at Kasauli.	1. Sufficient ... 2. Do. 3. Fairly good.	Wheat, 10 seers ... Gram, 10½ seers. Barley, 12 seers. Maize, 11 seers. Jowar, 13 seers.	...	Condition of crops generally good, but a break in rains is very necessary.
6	Jullundur ...	4·77 at Sadr ... 4·50 at Phillaur. 3·77 at Nakodar. 7·39 at Nawashahr.	1. Sufficient ... 3. Good.	Wheat, 10½ seers Maize, 11½ seers. Gram, 10½ seers. Jowar, 15 seers. Gur, 7 seers.	Ploughings for spring crops in progress.	Weeding of maize and cotton in progress. Standing crops in good condition. A break in rains is needed.
7	Ludhiána ...	6·08 at Sadr ... 4·56 at Jagraon. 6·79 at Samrála.	1. Sufficient ... 3. Good.	Wheat, 11 seers... Barley, 15½ seers. Maize, 14½ seers. Gram, 11¼ seers.	...	Condition of standing crops generally good.
8	Ferozepore ...	5·45 at Sadr ... Rainfall general.	1. Dry scarce. Green general. 3. Generally good.	Wheat, 10 seers Gram, 11½ seers.	...	Standing crops good. Crops on the banks of river damaged owing to excess of water.
9	Lahore ...	3·09 at Sadr ... 0·30 at Chunián. 1·68 at Kasúr.	1. Sufficient ... 3. Fair.	Wheat, 11 seers ... Gram, 11 seers.	Sowing of toria (Brassica campestris) commenced.	Sowings continue. Condition of standing crops fair to good. Crops on low-lying lands slightly damaged by over-moisture.
10	Amritsar ...	8·70 at Sadr ... Less in Tarn Táran and Ajnála.	3. Generally good ...	Wheat, 10¾ seers Gram, 11 seers. Barley, 15 seers. Jowar, 16 seers. Maize, 12 seers. Bajra, 8½ seers.	...	Condition of standing crops in tahsils Amritsar and Ajnála bad and in tahsil Tarn Táran good, except in low lands. Expected outturn very poor. Excessive rain damaged all the standing crops in tahsil Ajnála, some in tahsil Tarn Táran, and cotton and maize crops in Amritsar.
11	Siálkot ...	9·86 at Sadr ... 1·52 at Pasrúr. 1·94 at Daska.	1. Dry insufficient. Green abundant. 3. Generally good.	Wheat, 11 seers ... Barley, 12 seers. Gram, 9½ seers. Rice, 6½ seers.	Ploughings for spring crops in progress.	Condition of standing crops good. Agricultural prospects most favourable. A break in rains will soon be required.
12	Gujránwála ...	Above 4 inches throughout the district.	3. Good ...	Wheat, 10 to 11½ seers. Gram, 10 to 11 seers. Maize, 11 seers. Bajra, 10 seers.	...	Crops in good condition. Rats damaging crops in Háfizabad tahsil.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	2·45 at Sadr ... 1·73 at Bhera. 4·45 at Khushâb. 0·82 at Sargodha.	1. Sufficient ... 3. Good.	Unchanged ...	Sowing of gram commenced.	Sowings in progress. Standing crops in good condition. Rats damaging bajra (bulrush millet) and maize in Bhera tahsil. Chari (fodder crops) infected with worms in Sargodha tahsil.
14	Râwalpindi ...	2·77 at Sadr ... 1·68 at Gujar Khan. 3·04 at Kahûta. 2·45 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Barley, 13¾ seers. Bajra, 11 seers. Gram, 9¼ seers. Maize, 12 seers.	...	Condition of standing crops average.
15	Miânwâli ...	1·41 at Sadr ... 0·60 at Isa Khel. 3·05 at Bhakkar.	1. Plentiful ...	Wheat, 10¾ seers Barley, 16 seers. Bajra, 13 seers. Gram, 11¼ seers	Ploughings commenced.	Sowings continue. Condition of standing crops in Thal fair.

GENERAL REMARKS.

Rainfall.—Heavy rainfall in all districts except the western districts of the province, where light to moderate rainfall received.

Prices.—Prices are generally falling. Wheat dearer than scarcity rates in Rohtak, Jullundur, Amritsar and Jhang. Other food-grains generally at or above scarcity rates.

Agricultural operations.—Sowings of autumn crops and ploughings for spring crops continue in some districts. Toria (Brassica campestris) being sown in Lahore and Lyallpur.

Crops and outturn.—Condition of standing crops generally good to average. A break in the rains absolutely necessary.

Damage done to crops.—Crops damaged by heavy rain in Rohtak, Gurgaon, Ferozepore, Lahore and Amritsar. Rats damaging crops in Gujrânwâla and Shahpur.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Green grass plentiful throughout the province.

Water-supply.—No complaint.

P. A. GABRIEL, Supdt.,

for *Director of Agriculture, Punjab.*

W. H. MILLS, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SIXTY-SEVEN THOUSAND SEVENTY-EIGHT births were registered in the province during the month of July 1908, giving a birth-rate of 39 *per mille* of population. Of the total number of births, 35,188 were boys and 31,890 were girls.

The total number of deaths registered from all causes in the province during the month of July 1908 was 43,449 against 52,405 in the previous month, and 52,103 in the corresponding month of the past year, giving an annual death-rate of 25, 32 and 31 *per mille* of population per annum, respectively.

There were 2,155 deaths registered under the head of cholera against 2,128 in the previous month and 34 in the corresponding month of the past year.

The total mortality from plague amounted to 19 against 662 in the previous month and 7,535 in the corresponding month of the past year.

From small-pox 3,868 deaths were registered against 5,227 in the previous month and 1,175 in the corresponding month of the past year; fevers 22,796 against 28,919 and 27,490; dysentery and diarrhœa 933 against 1,182 and 1,104; respiratory diseases 3,557 against 3,807 and 4,337. During the month there were 22 deaths registered from suicide against 26 in the past month; wounding 56 against 58; accidents 862 against 489; snake-bite and killed by wild beasts 250 against 108; and from all other causes 8,931 against 9,799 in the previous month and 9,673 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 1st September 1908.

Note.—The birth and death rates of the above towns except Lyallpur are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 22nd August 1908, there were 1,228 births registered in the 43 large municipal towns (665 males and 563 females), giving a birth rate of 44 *per mille* of population, and 1,306 deaths were registered (648 males and 658 females), giving a death rate of 47 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 52 against 35 in the corresponding week of the previous year; Lahore 37 against 27; Amritsar 53 against 32; and Multán 44 against 31. Of the 19 deaths from small-pox, 8 were registered in Jullundur, 3 in Multán, 2 in Siálkot and 1 each in Rewári, Karnál, Shahabad, Hoshiárpur, Gujrát, Bhera, Khushâb and Dera Ghâzi Khan. There were 91 deaths recorded from cholera in Rewári, 36 in Karnál, 14 in Lahore, 13 in Amritsar, 11 in Batála, 9 in Ludhiána, 8 in Jagraon, 5 each in Palwal and Dera Ghâzi Khan, 4 in Multán, 2 in Shahabad and 1 each in Jullundur and Jhelum.

Deaths reported from plague during the week ending 29th August 1908 *in the districts, including all municipal towns*—Hoshiárpur 1 and Ludhiána 5. Total for the province 6. Total for the previous week 3. Total for the corresponding week of the previous year 123.

Lahore:
The 1st September 1908.

W. H. MILLS, Supdt.,
for Sanitary Commissioner, Punjab.

NOTE.—The birth and death rates of the above towns except Lyallpur are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 29th August 1908, there were 1,209 births registered in the 41 large municipal towns (636 males and 573 females), giving a birth rate of 44 *per mille* of population, and 1,213 deaths were registered (625 males and 588 females), giving a death rate of 44 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 47 against 44 in the corresponding week of the previous year; Lahore 39 against 29; Amritsar 61 against 37; and Multán 48 against 31. Of the 17 deaths from small-pox, 5 were registered in Multán, 2 each in Rewári, Lahore and Siálkot, and 1 each in Hissar, Jullundur, Kartárpur, Ludhiána, Jagraon and Raekot. There were 54 deaths recorded from cholera in Karnál, 25 in Amritsar, 19 in Lahore, 18 in Batála, 12 in Rewári, 10 in Shahabad, 5 in Ludhiána, 4 in Sirsa, 2 each in Jagraon, Ferozepore and Jhelum, and 1 each in Palwal, Jullundur and Multán.

Deaths reported from plague during the week ending 5th September 1908 *in the districts, including all municipal towns*.—Hoshiárpur 2 and Ludhiána 12. Total for the province 14. Total for the previous week 6. Total for the corresponding week of the previous year 138.

LAHORE:
the 8th September 1908.

W. H. MILLS, SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, SEPTEMBER 18, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 14TH SEPTEMBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
1	Hissar ...	0·39 at Sadr ... 0·69 at Budhláda. 0·58 at Tohána.	1. Plentiful ... 3. Good.	Wheat, 10 seers ... Bajra, 11¼ seers. Gram, 11¼ seers. Bejhar, 15 seers.	...	Standing crops in good condition.
2	Rohtak ...	0·23 at Salhawas...	1. Green fodder plentiful. 3. Good.	Wheat, 10 seers ... Gram, 10½ seers. Jowar, 14 seers. Maize, 12 seers.	Sowings of gram commenced.	Standing crops good and have been much benefited by west winds.
3	Gurgaon ...	...	1. Green grass sufficient for present needs. 3. Fair.	Wheat, 8¼ to 9¼ seers. Barley, 12½ to 14 seers. Gram, 9 to 10¾ seers. Bajra, 10 to 12 seers. Maize, 10 to 12 seers.	Sowings of carrots in progress in unirrigated areas	Westerly wind much benefited the standing crops. Standing crops in fair condition. Outturn expected to be below average.
4	Delhi ...	0·20 at Sadr ... 0·04 at Sonepat.	1. Grass abundant ... 2. Canals closed. 3. Good.	Wheat, 10 seers ... Barley, 13½ seers. Gram, 10½ seers. Bejhar, 13½ seers. Jowar, 14 seers. Bajra, 12 seers. Maize, 13 seers.	Ploughings continue.	Condition of standing crops fair. Prospects of outturn average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
5	Ambála ...	1·16 at Naráingarh. 0·35 at Kharar. 0·44 at Rúpar. 0·76 at Kasauli.	1. Sufficient ... 3. Good.	Wheat, 10¼ seers. Gram, 11 seers. Barley, 13 seers. Maize, 12 seers. Jowar, 13 seers. China, 23 seers.	...	Rain wanted for rice in tahsil Ambála. Condition of standing crops generally good.
6	Jullundur ...	0·27 at Sadr ... 0·18 at Nakodar. 0·10 at Phillaur.	1. Sufficient ... 3. Good.	Wheat, 10½ seers. Maize, 13 seers. Gram, 11 seers. Jowar, 16½ seers. Gur, 7 seers.	Ploughings in progress.	Standing crops good.
7	Ludhiána ...	0·20 at Sadr ...	1. Sufficient ... 3. Good.	Wheat, 10½ seers. Barley, 14½ seers. Maize, 13½ seers. Gram, 10 seers.	...	Condition of standing crops good.
8	Ferozepore ...	...	1. Green fodder general. 3. Good.	Wheat, 10 seers. Gram, 11 seers.	...	Standing crops generally good. Crops near river damaged owing to excess of water.
9	Lahore ...	0·26 at Sadr ... 1·10 at Chuniân. 0·72 at Kasúr. 1·00 at Sharakpur.	1. Sufficient ... 3. Fair.	Wheat, 11 seers ... Gram, 11 seers.	Toria (Brassica Campestris) being sown.	Standing crops fair, but require sun and cessation of rain. Crops on low-lying lands are under water.
10	Amritsar ...	0·37 at Sadr ... More in Ajnála.	1. Sufficient ... 3. Good.	Wheat, 10¼ seers. Gram, 10¼ seers. Barley, 15 seers. Jowar, 16 seers. Maize, 12½ seers. Bajra, 10 seers.	...	Condition of standing crops good, eexcept in low-lying lands in tahsil Tarn Táran and bad in tahsils Amritsar and Ajnála. Yield expected poor.
11	Siálkot ...	0·26 at Sadr ... 5·94 at Zafarwál. 3·18 at Pasrúr. 3·56 at Raya.	1. Dry insufficient. Green abundant. 3. Good.	Wheat, 11 seers ... Barley, 12 seers. Gram, 9½ seers. Rice, 6½ seers.	Sowings of Toria (Brassica Campestris) and gram commenced. Ploughings for other spring crops in progress.	Kangni (Setaria Italica) being reaped. Condition of standing crops good. Crops in the low-lying lands slightly damaged by heavy rains.
12	Gujránwála ...	Slight rainfall ...	1. Sufficient ...	Wheat, 10 to 11½ seers. Gram, 10 to 11 seers. Maize, 11 seers. Bajra, 11 seers.	...	Standing crops doing well. Some damage done to maize by rats.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	0·21 at Khusháb ... 0·57 at Sargodha.	1. Sufficient ... 3. Good.	Unchanged ...	Turnips, gram and Toria (Brassica Campestris) &c., sowings commenced.	Standing crops in good condition. Cotton not yet flowering.
14	Ráwalpindi ...	9·57 at Sadr ... 1·44 at Gujar Khan. 1·30 at Kahúta. 2·76 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Barley, 14 seers. Bajra, 11 seers. Gram, 10½ seers. Maize 11 seers.	...	Standing crops average to below average.
15	Miánwáli ...	0·16 at Sadr ... 0·40 at Isa Khel. 0·29 at Bhakkar.	1. Sufficient in Thal, but scarce in riverain lands.	Wheat, 10½ seers. Barley, 16½ seers. Gram, 1[illegible] seers. Bajra, 12½ seers.	Ploughings in progress.	Recent rain harmful in Kacha but beneficial in Thal for fodder. Standing crops in good condition. Yield expected to be good. River falling.
16	Lyallpur ...	0·42 at Sadr ...	1. Plentiful ... 3. Good.	Wheat, 10½ seers. Gram, 10 seers. Jowar, 14 seers. Maize, 9¼ seers.	Gram and Toria (Brassica Campestris) being sown.	Sugarcane in good condition; cotton, great millet and maize average.
17	Jhang ...	Slight rainfall ...	1. Abundant ... 3. Good.	Wheat, Jowar, Gram, Bajra, } 10 seers. Maize, 12 seers.	...	Condition of standing crops good.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 10¾ seers. Gram, 10¾ seers. Maize, 9¾ seers.	Ploughings in progress.	Standing crops damaged to some extent by floods and rains. Prospects average.

GENERAL REMARKS.

Rainfall.—Light to moderate rain in all districts except Gurgaon, Ferozepore and Multán where no rain received.

Prices.—Prices of food-grains still high. Wheat as compared with last week is slightly rising in Rohtak, Gurgaon, Ludhiána, Miánwáli and Multán; falling in Delhi and Amritsar; and is unchanged elsewhere.

Agricultural operations.—Ploughings for and sowings of certain spring crops in progress in some districts.

Crop and outturn.—Condition and prospects of standing crops generally good.

Damage done to crops.—Crops on low-lying lands damaged by heavy rains; by floods in Ferozepore, Siálkot and Multán; and by rats in Gujránwála.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Green grass plentiful throughout the province.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

(a) Indeterminate.
† Mean of 29 days.
‡ Mean of 30 days.
§ Mean of 17 days.

The Arabian Sea branch of the monsoon current was deflected to an unusual extent to north west India in July and the month's rainfall was in consequence considerably above normal in the Punjab. The monsoon winds did not however penetrate freely into the North-West Frontier Province, and both there and in Kashmír rainfall was in defect. During the first few days of the month easterly winds gave some rain along the Himalayas, but it was not till the 8th that the monsoon was fully established in the east Punjab: the rains thus set in about 9 days later than usual.

Pressure and winds.—Pressure was in slight excess in the Punjab and nearly normal in the North-West Frontier Province and Kashmír. Winds were more easterly than usual except in the last two areas and in the Punjab hills, and with a few exceptions were of their normal strength.

Temperature.—Weather was on the average of the whole month warmer than usual at Srínagar and Ambála, but at all the remaining stations temperature was either normal or in defect, the deficiency occurring chiefly in the day time. There was one period of very hot weather lasting from the 4th to the evening of the 6th, and during the latter part of this period many stations recorded maxima exceeding 110,° the highest being 118·2 reported by Pesháwar on the 7th. The nights were also much hotter than usual, but rainfall caused a very rapid drop of temperature in the night of the 6th, and from that time on to the end of the month the mean temperature of the whole region was either normal or in defect.

The following table shows the departures from the normal of the mean temperature of the Punjab, and the North-West Frontier Province on each day of the month and the highest temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.

Humidity and cloud.—The moisture in the air was somewhat above the average and skies were more heavily clouded than usual.

Rainfall.—Every station in the North-West Frontier Province and Kashmír showed a defect in rainfall, but in the Punjab Ambála and Ludhiána were the only places that received less rain than usual. It is remarkable that the area represented by these two stations should have received so little rain, while all around rainfall was far above the average. The largest actual excess occurred at Ráwalpindi, and both there and at Montgomery the total amount registered during the month was more than twice the normal quantity.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for July 1908 :—

Station.	Actual rainfall in July 1908.	Normal average rainfall in July.	Difference from the average in July 1908.

rain gauge station.
rain.

P. A. GABRIEL, Secy.,
Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of August 1908.

1.—HISSAR DISTRICT.

Kharif sowings both on irrigated and unirrigated lands completed. Condition of crops good. Sunshine and warmth required to invigorate standing crops. Fodder sufficient. Green grass plentiful.

2.—ROHTAK DISTRICT.

Sowings of jowar to a small extent made in barani tracts. Standing crops in good condition. Some damage done to cotton, bajra and jowar by successive rains immediately after sowings. Cattle generally in good condition. Public health good. Canal supply sufficient.

3.—GURGAON DISTRICT.

There was very heavy and incessant rainfall during the month. Bajra, etc., were sown. Sowings completed. Standing crops have suffered through excessive rains. Crops on canal lands with the exception of sugarcane have been submerged in some places. General condition of the crops appears to be a twelve-anna one. Outturn is estimated to be below normal. Cattle are generally weak on account of the excessive work they have lately had. Green fodder sufficient for present needs. In some places the area for grazing is under water. Canal and rajbahas were closed during the month.

4.—DELHI DISTRICT.

Ploughings for rabi crops commenced on high lands. Sowings of kharif crops finished. Crops in villages on the bank of the Jumna destroyed by floods and on lowlying lands by excess of rain. Cotton and sugarcane have also suffered from the recent rains. Prospects of outturn average. Cattle in good condition. Public health good. Canal was closed during the month. The Jumna was flooded. Hill streams running. Grass abundant.

5.—KARNAL DISTRICT.

The riverain tracts have received a deluge of rainfall. In Kaithal, Thánesar and Guhla there has been less rain, but the two last have been flooded by drainage from the hills. Some rice has been sown, but except in Kaithal agricultural operations have been at a stand-still for want of dry weather. At present sun is wanted for all crops. Rice is in fair condition all over the district, but cotton is nowhere good. It has not been possible to weed sugarcane. In the Khadar all crops and especially maize have suffered from floods. Yield depends on the weather remaining fair for the next fortnight. Cattle are in excellent condition generally, but their grazing is disturbed by mosquitoes. Grass is abundant. Owing to floods in the upper reaches the canal, especially the Sirsa branch, has breached in many places. Very heavy floods have been received in all hill drainages. The Sarusti canal provided water for rice sowings, and bunds on the Sarusti river were useful at the beginning of the month. The Chautang and Rakshi brought down disastrous floods, from which the town of Ladwa received considerable damage. Prices are rather easier.

6.—AMBALA DISTRICT.

Kharif sowings completed. Condition of standing crops good. Water and fodder sufficient. Condition of cattle fairly good. Some lands fertilised by floods in the rivers and streams.

7.—SIMLA DISTRICT.

Rainfall during the month good in both tahsils. Condition of crops in the Simla tahsil good; in Kot Khái average. Condition of cattle good in both tahsils. Fodder and grazing sufficient. Health good in the Kot Khái tahsil. Water supply in hill streams sufficient in both tahsils. In the Simla tahsil $\frac{1}{7}$th of the normal area was watered; in Kot Khái the entire area.

8.—KANGRA DISTRICT.

There was heavy and incessant rainfall during the month. Sowings completed. Condition of standing crops on the whole good, except that excessive rains have damaged the maize crop. Yield expected to be above average except that of areas which were sown late and have been damaged by excessive rains. Water abundant in kuhls (water-streams). Prices still high, as owing to heavy rains import of grain has been stopped.

9.—HOSHIARPUR DISTRICT.

Standing crops in good condition. Yield expected to be average. Condition of cattle generally good. Fodder and water-supply sufficient. Health of people generally good. No necessity was felt for artificial irrigation owing to the heavy rainfall during the month.

10.—JULLUNDUR DISTRICT.

Sowings of kharif crop completed. Standing crops in good condition. If there is a break in the rains now, the yield will be good. Cattle in good condition. Health of people good. Further rain at present will do rather harm than good.

11.—LUDHIANA DISTRICT.

Condition of standing crops good. Fodder sufficient. Canal closed during the month. The Sutlej rose but caused no noticeable damage.

12.—FEROZEPORE DISTRICT.

Chari, mash and maize were sown during the month on the lands near river. Standing kharif crops generally in good condition except in Bet where the crops were damaged in parts on account of excessive rain and river floods. Yield expected to be fair. Cattle generally in good condition. Green fodder available; dry scarce. Public health generally good. Sirhind and the district inundation canals had been flowing, and a small area was irrigated as there was sufficient rain. The river and the canal were in floods, destroying rice crop in Bet. Agriculturists are generally well off. Stocks of food-grains sufficient.

13.—MONTGOMERY DISTRICT.

Kharif sowings were carried on during the month. Condition of rice crop good. Other crops have suffered from excessive rains and are therefore in a bad condition. Average outturn expected. Condition of cattle good. Green fodder abundant. Canals have been working. Water in rivers not sufficient to cause sailab. In depressions, however, water accumulated and caused sailab.

14.—LAHORE DISTRICT.

A little jowar, maize, rice, bajra, moth and toria sown on high lands; low lands are under water. Standing crops fair, but the abnormal rains have done some damage to chillies, cotton and jowar. Expected yield about average, except of cotton, jowar and chillies. Condition of cattle fair. The perennial and inundation canals worked well. Floods in the Ravi and the Sutlej have caused some damage to crops on lowlying lands. Prices high.

15.—AMRITSAR DISTRICT.

Maize, chari and sesamum being sown. Condition of standing crops in tahsils Amritsar and Tarn Táran good except those in low lands; in tahsil Ajnála bad. Expected yield in tahsils Amritsar and Tarn Táran below average; in tahsil Ajnála poor. Grass abundant. Floods in the Ravi and Beas seasonable, but more than sufficient. Canal supply average, but was not needed owing to excessive rains. Villages Maji Mihán and Kamirpur in tahsil Ajnála were carried away by flood from the Ravi. Owing to excessive rains many houses have fallen and crops in low lands damaged.

16.—GURDASPUR DISTRICT.

Rainfall beneficial to the crops. Sowings completed. Condition of crops good except that heavy rains caused local damage to maize, mash and cotton crops in low-lying tracts and especially in riverain lands. Yield expected to be average on the whole. Rivers and canals in full flow. There were heavy floods from both the rivers Ravi and the Beas.

17.—SIALKOT DISTRICT.

Sowing of maize, jowar, sesamum, moth, bajra, kangni, mash, hemp, swanki and mondal continued towards the beginning of the month. Plantation of rice also in progress. Weeding of maize, cotton and sugarcame commenced at the end of the month. Ploughing for the next rabi continued. Owing to heavy and incessant rains and abundance of moisture maize was sown to a smaller extent in some parts of the Zafarwál tahsil. Condition of standing kharif crops good. Some crops slightly damaged by the floods of the Deg and the Ravi in parts of the Raya tahsil. Condition of cattle generally good. Water abundant in Bajwat canals. Deg, Aik and the rivers overflooded several times. Rain abundant everywhere, and agricutural prospects favourable.

18.—GUJRANWALA DISTRICT.

Rainfall more than sufficient. Sowings of maize and rice continued. Condition of crops good, but some damage has been done in lowlying lands. Cattle are doing well, and fodder is ample. Public health good. Canals have been running as usual, but owing to abundant rainfall there has not been much need for canal irrigation. Slight damage has been done by inundation of the Palkhu stream. Agricultural prospects good.

19.—GUJRAT DISTRICT.

Sowings were made wherever possible, but much of the labour will have been wasted in consequence of the heavy rains. Condition of crops in Bulandi, Maira, Pabbi and Bar circles of the district good to fair, while the crops on lowlying lands and lands affected by rivers and streams are generally bad. There is sufficient green grass. Successive floods from the rivers and hill streams coupled with the excessive rain, have done considerable damage to crops, cultivated lands and houses.

20.—SHAHPUR DISTRICT.

Heavy and continued rainfall is proving injurious to cotton plants. Jowar, bajra, moth, maize, mung, mash, water-melons and gram sown in Khusháb and Bhera tahsils, and toria and turnips in Sargodha. No sowings or ploughings were done in Shahpur tahsil owing to excessive rainfall. Standing crops generally in good condition. Rats did some damage in the Bhera Bar. Breaches in private canals damaged the crops in two villages of Shahpur tahsil. Excessive rainfall is expected to affect injuriously the yield of cotton and jowar. Cattle in good condition. Fodder sufficient. Public health good. Canals continued to flow.

21.—JHELUM DISTRICT.

Heavy rain throughout the district. Kharif sowings completed. Condition of crops generally good except on lowlying lands. Cattle generally in good condition. Fodder plentiful. Floods in the Jhelum have damaged crops in bela lands to some extent, and heavy rain in hills has damaged bunds. Thal and Phappra tracts well irrigated from hill torrents. A great deal of damage to village sites has been done by the exceptional rain.

22.—RAWALPINDI DISTRICT.

Statement returned for corrections.

23.—ATTOCK DISTRICT.

Rainfall has been much above the average except in Pindigheb where it has been a little above it. Sowings of cotton, taramira and bajra continued in Fatahjang tahsil. Condition of standing crops satisfactory. Lowlying places might to some extent fail, but otherwise the situation is very happy, and a good harvest is expected. Soan stream has done considerable damage to lands in Fatahjang tahsil. Cattle are doing well, and fodder is sufficient. In many places rains resulted in collapse of zamindari houses; and Haro and Soan streams with other small channels carried away a number of lives.

24.—MIANWALI DISTRICT.

Kharif sowings nearly finished. Ploughings for rabi in progress. Crops on Chahi Thal as also those on barani lands in good condition. Kharif sowings in Nasheb little owing to lands having remained under flood water. Expected yield good owing to continuous rainfall. Fodder procurable in Thal and Nasheb. River has fallen. Hill torrents and Musa Khel Vahi and the river creeks have watered lands sufficiently. Rabi sowings will be extensive owing to continuous rainfall.

25.—LYALLPUR DISTRICT.

The rain did much damage to all standing crops except sugarcane, in parts of Toba Tek Singh, destroying the maize crop entirely, and damaging moth, mung, mash and late sown chari. Sugarcane and rice in good condition. Late sown chari, mung, moth and mash generally damaged. Cotton has become very bushy and high, and has shown no disposition to flower as yet. Rice and sugarcane outturn expected to be above average. Cotton doubtful. Other crops under average to poor. Plenty of grass and other green fodder. Some loss of cattle from flood in Toba Tek Singh tahsil; otherwise cattle in excellent condition. Canal irrigation not needed. A number of villages in Toba Tek Singh tahsil levelled to the ground, and loss of agricultural implements, seed and food-grains by floods. Export prices have risen, which keeps all prices of cereals high.

26.—JHANG DISTRICT.

Heavy rain thoughout the district caused slight damage to standing crops, especially cotton. Rains favourable for rabi sowings. Jowar and mash crops are being sown. Seven-eighths of the expected kharif crops sowings completed. Crops in good condition. Condition of cattle good. Green fodder abundant. Grazing available. Sufficient supply in canals and rivers. Floods from the Jhelum river slightly damaged the standing crops in tahsils Jhang and Shorkot. Three perennial canals are working in tahsil Shorkot.

27.—MULTAN DISTRICT.

Jowar, bajra, til, china and maize being sown. Ploughings for rabi crops in progress. Condition of standing crops average both on irrigated and unirrigated areas except Hithar of Shujabad damaged by the floods of the Chenab river. Condition of cattle good. Inundation canals working by turns. Sidhnai canal flowing.

28.—MUZAFFARGARH DISTRICT.

Rainfall sufficient. No further sowings of kharif crops during the month. The rains have benefited the sugarcane, cotton, rice and kangni crops, but some damage is apprehended to bajra and jowar. Condition of crops good. The yield of indigo is expected to be about 20 seers per acre, and that of rice about 8 to 10 maunds per acre. The yield of other crops cannot be estimated as yet. Fodder sufficient for the cattle. Canals running high. Owing to the high floods from the Indus and Chenab the crops on lowlying lands have been damaged. If the flood waters dry up in time, an increase in rabi cultivation may be expected. General condition good. Food stock sufficient, but prices still continue high.

29.—DERA GHAZI KHAN DISTRICT.

Heavy falls in Dera Gházi Khan and good elsewhere except in Rájanpur. Sowings finished. Crops in excellent condition, but floods have damaged crops in some villages of Jámpur and Rájanpur tahsils. Cattle in good condition. Grazing abundant. Health of people good. All canals working well except one or two that have burst inundation more than required. River still high. All hill torrents have worked excellently.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

SUPPLEMENTARY STATEMENT SHOWING THE RETAIL PRICES CURRENT OF FOOD-GRAINS, GUR AND COTTON, AND THE WHOLESALE AND RETAIL PRICES OF SALT IN CERTAIN DISTRICTS OF THE PUNJAB DURING THE FORTNIGHT ENDING 31ST AUGUST 1908, RECEIVED TOO LATE FOR INSERTION IN THE SUPPLEMENT TO THE "PUNJAB GAZETTE," DATED 11TH SEPTEMBER 1908.

Note.—The birth and death rates of the above towns except Lyallpur are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 5th September 1908, there were 1,356 births registered in the 43 large municipal towns (716 males and 640
females), giving a birth rate of 49 *per mille* of population, and 1,604 deaths were registered (805 males and 799 females), giving a death rate of
57 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 65 against 52 in the corresponding
week of the previous year; Lahore 57 against 31; Amritsar 67 against 37; and Multán 46 against 29. Of the 15 deaths from small-pox, 4
were registered in Siálkot, 2 each in Shahabad and Jullundur, and 1 each in Karnál, Kaithal, Lahore, Amritsar, Gujránwála, Jhang-Maghiána
and Chiniot. There were 40 deaths recorded from cholera in Karnál, 38 in Lahore, 17 in Shahabad, 15 in Batála, 14 in Amritsar, 11 in
Jullundur, 8 in Siálkot, 5 in Multán, 3 in Ludhiána, 2 in Kartárpur and 1 each in Palwal, Ráwalpindi and Dera Ghizi Khan.

Deaths reported from plague during the week ending 12th September 1908 *in the districts, including all municipal towns.*—
Ludhiána 31. Total for the province 31. Total for the previous week 14. Total for the corresponding week of the previous year 309.

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, SEPTEMBER 25, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 21ST SEPTEMBER 1908.

[Eighteen out of 29 districts are dealt with.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Plentiful ... 3. Good.	Wheat, 10 seers ... Gram, 11 seers. Bajra, 11½ seers. Bejhar, 14 seers.	Land being prepared for spring sowings.	Crops flourishing.
2	Rohtak ...	...	1. Abundant ... 3. Good.	Wheat, 10 seers ... Gram, 10½ seers. Jowar, 14 seers. Maize, 12 seers.	Sowings of gram in progress.	Standing crops, except cotton, in good condition. Cotton on irrigated lands much benefited by westerly winds in some villages of Gohána tahsil; cotton on unirrigated lands was somewhat damaged by heavy rains in August, and has been reploughed for gram sowings. General condition of cotton fair. Expected outturn below average.
3	G[illegible]on ...	...	1. Sufficient for present needs. 3. Fair.	Wheat, 8¾ to 9¾ seers. Barley, 13 to 14½ seers. Gram, 9 to 9½ seers. Bajra, 9 to 11 seers. Maize, 12 to 14 seers.	Ploughings for next spring crops in progress. Gram being sown.	Westerly winds benefited the standing crops. Crops in good condition. Probable outturn below average.
4	Delhi ...	...	1. Plentiful ... 2. Canal closed during the week. 3. Good.	Wheat, 9¾ seers Barley, 14 seers. Gram, 10 seers. Bejhar, 13½ seers. Jowar, 14 seers. Bajra, 11 seers. Maize, 13 seers.	Ploughings in progress. Sowing of gram commenced.	Condition of standing crops fair. Prospects of outturn average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Sufficient ... 2. Do. ... 3. Good.	Wheat, 10¼ seers. Gram, 11 seers. Barley, 13 seers. Maize, 12 seers. Jowar, 16 seers. China, 22 seers.	...	Rain wanted. Condition of kharif crops, except rice, good.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Maize, 12 seers. Gram, 11 seers. Jowar, 16 seers. Gur, 7 seers.	Ploughings in progress.	Weeding of maize, cotton and chillies in progress. Standing crops good.
7	Ludhiána ...	...	1. Insufficient ... 3. Satisfactory.	Wheat, 10½ seers. Gram, 10 seers. Maize, Barley, } 13 seers.	...	Condition of standing crops good.
8	Ferozepore ...	...	1. Green fodder general, but dry scarce. 3. Good.	Wheat, 10 seers. Gram, 11 seers.	...	Standing crops generally good. Crops near river damaged owing to excess of water.
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, Gram, } 11 seers.	Ploughings in progress. Gram, sarshaf (rapeseed) and turnips being sown.	Standing crops fair, except maize, cotton and fodder crop in low-lying lands.
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 10½ seers. Gram, 10¼ seers. Barley, 15 seers. Jowar, 16 seers. Maize, 12½ seers. Bajra, 10 seers.	Ploughings commenced. Toria (Brassica campestris) being sown.	Paddy being reaped and chillies plucked. Condition of standing crops good in Tarn Táran tahsil except in low-lying areas, and poor to bad in tahsils Amritsar and Ajnála. Yield expected poor.
11	Siálkot ...	...	1. Green fodder abundant; dry insufficient. 3. Generally good.	Wheat, 11 seers ... Barley, 12 seers. Gram, 10 seers. Rice, 7 seers.	Sowings of toria (Brassica campestris) and gram in progress. Ploughings in progress.	Reaping of kangni (Setaria Italica) continued. Standing crops good.
12	Gujránwála ...	...	1. Sufficient ... 3. Good.	Wheat, 10 to 11½ seers. Maize, 11 seers. Gram, 10 to 11½ seers. Bajra, 11 seers.	Ploughings in progress. Gram, sarshaf (rapeseed) and turnips being sown.	Standing crops good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee	Prospects of Spring	Prospects of Autumn
13	Shahpur	0·18 at Sadr ... 0·54 at Bhera ... 0·20 at Khusháb ..	1. Sufficient ... 3. Good.	Unchanged ...	Turnips, gram and toria (Brassica campestris), being sown.	Maize being sown and rice harvested. Condition of standing crops poor in Sargodha tahsil and good elsewhere.
14	Ráwalpindi ...	0·37 at Sadr .. 0·40 at Gujar Khan. 0·54 at Kahúta. 0·27 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 9¼ seers. Barley, 14 seers. Bajra, 11½ seers. Gram, 9¾ seers. Maize, 11 seers.	...	Condition of standing crops average in Ráwalpindi and Gujar Khan and below average in Kahúta and Murree.
15	Miánwáli ...	0·03 at Isa Khel.	1. Sufficient in Thal	Wheat, 10 seers. Barley, 15 seers. Gram, 10¼ seers. Bajra, 13 seers.	Ploughings in progress.	Autumn crops on the whole average; expected outturn average. River falling.
16	Lyallpur ...	...	1. Plenty ... 3. Good.	Wheat, 10 seers Gram, 9½ seers. Jowar, 15 seers. Maize, 9½ seers.	Toria (Brassica campestris) being sown.	Sugarcane in good condition; and cotton jowar and maize in average condition.
17	Jhang ...	...	1. Abundant ... 3. Good.	Wheat, Jowar, Gram, Bajra, } 10 seers. Maize, 12 seers.	Sowings of spring crops commenced.	Standing crops in good condition.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 10¼ seers Gram, 10½ seers. Maize, 10¼ seers.	Ploughings in progress.	Standing crops on irrigated and unirrigated areas average.

GENERAL REMARKS.

Rainfall.— Slight rain has fallen in Shahpur, Ráwalpindi and Miánwáli.

Prices.— Prices of food-grains generally unsettled and still high.

Agricultural operations.—Ploughings for and sowings of certain spring crops in progress. Autumn crops being reaped in some districts.

Crops and outturn.— Standing crops generally good to average. Crops benefited by westerly winds in Rohtak and Gurgaon.

Damage done to crops—Riverain crops damaged owing to excess of water in Ferozepore.

Agricultural stock.— Cattle in good condition.

Pasturage.— Green grass plentiful.

Water-supply.— No complaint.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 28TH SEPTEMBER 1908.

[Eighteen cut of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1 Supply of fodder. 2. Water-supply. 3 Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Plentiful ... 3. Good.	Wheat, 10 seers ... Gram, 11 seers. Bajra, 13 seers. Bejhar, 15 seers.	Sowings of spring crops commenced	Crops flourishing.
2	Rohtak	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers Gram, 10½ seers. Jowar, 14 seers. Bajra, 13 seers.	Sowings of gram continues. Rain wanted for sowings of spring crops.	Standing crops on irrigated lands good; unirrigated fair. The area under cotton damaged by heavy rains has been reploughed for gram sowings in tahsils Gohána and Sámpla.
3	Gurgaon ...	...	1. Sufficient ...	Wheat, 8½ to 9¼ seers. Barley, 13 to 14 seers. Gram, 9 to 10½ seers. Bajra, 10 to 12 seers. Maize, 12 to 15 seers.	Sowings of gram and ploughings for other spring crops in progress.	Standing crops in fair condition. Outturn expected below average.
4	Delhi ...	...	1. Plentiful ... 2. Canal closed during the week. 3. Good.	Wheat, 9½ seers Barley, 14 seers. Gram, 10½ seers. Bejhar, 14½ seers. Jowar, 14½ seers. Bajra, 11 seers. Maize, 15½ seers.	Ditto ...	Condition of standing crops fair. Prospects of outturn average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Sufficient ... 2. Do. ... 3. Good.	Wheat, 9¾ seers... Gram, 10 seers. Barley, 13 seers. Maize, 12 seers. Jowar, 16 seers. China, 22 seers.	Gram, mustard and toria (Brassica campestris) being sown in some places.	Rain wanted. Maize being harvested. Condition of standing crops, except rice, average.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Maize, 12 seers. Gram, 10½ seers. Jowar, 16 seers. Gur, 7 seers.	Ploughings in progress.	Standing crops good.
7	Ludhiána ...	...	1. Sufficient ... 3. Satisfactory.	Wheat, 10½ seers Gram, 10 seers. Maize, Barley, } 13 seers	...	Standing crops in good condition.
8	Ferozepore ...	...	1. Green fodder available; dry scarce. 3. Good.	Wheat, 10 seers Gram, 11 seers.	Ploughings in progress.	Ditto.
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers. Gram, 11 seers.	Sowings of gram, sarshaf (rapeseed) and turnips and ploughings for other spring crops in progress.	Standing crops fair.
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 10¼ seers Gram, 10¼ seers. Barley, 15 seers. Jowar, 15 seers. Maize, 12 seers. Bajra, 9½ seers.	Toria (Brassica campestris gram and sarshaf (rapeseed) being sown.	Cotton and chillies being picked and paddy being reaped. Condition of standing crops good in tahsil Tarn Táran except on low-lying areas, and fair in tahsils Amritsar and Ajnála. Expected yield below average.
11	Siálkot ...	...	1. Green grass abundant; dry insufficient. 3. Generally good.	Wheat, 11 seers ... Barley, 12 seers. Gram, 9½ seers. Rice, 6½ seers.	Sowings of toria (Brassica campestris) and gram in progress and those of sarshaf (rapeseed) turnips and masr (Ervum lens) commenced. Ploughing going on.	Kangni (Setaria Italica) and maize being reaped. Standing crops in good condition.
12	Gujránwála ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ to 10½ seers. Gram, 10 11/16 seers. Maize, 11 seers. Bajra, 11 seers.	Gram, toria, &c., being sown.	Standing crops good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn
13	Shahpur ...	Slight rainfall at Bhera.	1. Sufficient ... 3. Good.	Unchanged ...	Sowings of gram, turnips, toria (brassica campestris) barley, &c., in progress.	Rice being harvested. Outturn average. Standing crops good in Shahpur tahsil; fair elsewhere.
14	Ráwalpindi ...	0·10 at Sadr ... 0·09 at Gujar Khan. 1·03 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 9¾ seers. Barley, 14 seers. Bajra, 11 seers. Gram, 10 seers. Maize, 11 seers.	...	Condition of standing crops average in Ráwalpindi and Gujar Khan and below average in Kahúta and Murree tahsils.
15	Miánwáli ...	...	1. Procurable ... 3. Good.	Wheat, 10 seers. Barley, 14½ seers. Bajra, 13½ seers. Gram, 10½ seers.	Sowings of gram and taramira (eruca sativa) and ploughings for other spring crops in progress.	Condition of irrigated crops good; unirrigated average.
16	Lyallpur ...	...	1. Sufficient ...	Wheat, 10 seers. Gram, 9½ seers. Jowar, 15 seers. Maize, 9½ seers.	Toria and gram being sown.	Sugarcane in good and cotton in average condition. Jowar (great millet) damaged by tela (aphis) in tahsil Samundri and cotton by an insect pest in that tahsil.
17	Jhang ...	...	1. Abundant ... 3. Good.	Wheat, Gram, Bajra, } 10 seers. Jowar, 11 seers. Maize, 12 seers.	Sowings in progress.	Condition of standing crops average.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 10¼ seers. Gram, 10½ seers. Maize, 10¼ seers.	Ploughings in progress.	Crops average both on irrigated and unirrigated areas.

GENERAL REMARKS.

Rainfall.—Slight rainfall in parts of Shahpur and Ráwalpindi.
Prices.—Prices of food-grains generally unsettled and still high.
Agricultural operations.—Ploughings for spring crops in progress. Autumn crops being reaped in some districts.
Crops and outturn.—Standing crops generally good to fair. Expected outturn good to fair.
Damage done to crops.—Jowar (great millet) damaged by tela (aphis) and cotton by insects in parts of Lyallpur.
Agricultural stock.—Cattle generally in good condition.
Pasturage.—Green grass plentiful.
Water-supply.—No complaint.

Note.—The birth and death rates of the above towns except Lyallpur are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 19th September 1908, there were 1,601 births registered in the 43 large municipal towns (833 males and 768 females), giving a birth rate of 57 *per mille* of population, and 2,118 deaths were registered (1,036 males and 1,082 females), giving a death rate of 76 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 85 against 46 in the corresponding week of the previous year; Lahore 67 against 32; Amritsar 81 against 41; and Multán 39 against 38. Of the 5 deaths from small-pox, 1 each was registered in Hissar, Shahabad, Kartárpur, Siálkot and Ráwalpindi. There were 28 deaths recorded from cholera in Lahore, 25 each in Shahabad and Siálkot, 19 in Jullundar, 17 in Hoshiárpur, 16 in Jagádhri, 15 in Jhelum, 11 in Batála, 9 in Sirsa, 5 in Amritsar, 4 in Ferozepore, 3 each in Kartárpur and Ráwalpindi, 2 each in Karnál and Dera Ghází Khan, and 1 in Ludhiána.

Deaths reported from plague during the week ending 26th September 1908 in the districts including all municipal towns:—Hoshiárpur 1, Ludhiána 24, Ferozepore 10, Jhang 15, and Patiála State 26. Total for the province 76. Total for the previous week 53. Total for the corresponding week of the previous year 188.

Lahore:
The 29th September 1908.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, OCTOBER 9, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 5TH OCTOBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Gram, 11 seers. Bajra, 12½ seers. Bejhar, 13 seers.	Sowings commenced on certain tracts.	Prospects of standing crops good.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers Gram, 10½ seers. Bajra, 12½ seers. Maize, 14 seers. Jowar, 14 seers. Bejhar, 13 seers.	Gram and rape-seed being sown.	Irrigated crops good; unirrigated fair. Cotton good on irrigated lands and poor on unirrigated lands.
3	Gurgaon ...	...	1. Green grass sufficient for present needs. 3. Fair.	Wheat, 8½ to 9¾ seers. Barley, 13 to 14 seers. Gram, 9 to 10 seers. Bajra, 11 to 12½ seers. Maize, 12 to 15 seers.	Sowings of gram and ploughings for other spring crops in progress.	Standing crops in fair condition. Outturn is expected to be below average.
4	Delhi ...	...	1. Grass plentiful ... 2. Canal closed. 3. Good.	Unchanged ...	Ploughings for spring crop and sowing of gram continue.	Condition of standing crops fair. Bajra (bulrush millet) being reaped. Outturn average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Sufficient ... 3. Fair.	Wheat, 9¾ seers ... Gram, 10¼ seers. Barley, 13 seers. Maize, 16 seers. Jowar, 16 seers. China, 21 seers.	Gram, &c., are being sown.	Autumn crops are being harvested Rice and cotton suffering for want of rain which is badly wanted.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Maize, 12 seers. Gram, 10½ seers. Jowar, 16 seers. Gur, 7 seers.	Ploughings in progress.	Standing crops good.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Ploughings in progress. Sowings of gram commenced.	Condition of standing crops good.
8	Ferozepore ...	...	1. Dry scarce. Green procurable. 3. Good.	Wheat, 10 seers Gram, 11 seers.	Ploughings in progress.	Standing crops generally in good condition.
9	Lahore ...		Report	not received.		
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 10¼ seers Gram, 10¼ seers. Barley, 14½ seers. Jowar, 15 seers. Maize, 13 seers. Bajra, 9½ seers.	Toria (Brassica campestris) being sown. Ploughings for other spring crops commenced.	Paddy being reaped and cotton and chillies being picked. Standing crops poor in Amritsar and Tarn Táran tahsils and fair in Ajnála tahsil. Expected yield poor.
11	Siálkot ...	...	1. Dry insufficient. Green abundant 3. Good.	Wheat, 11 seers ... Barley, 12 seers. Gram, 10 seers. Rice, 6 seers.	Sowings of toria and gram in progress. Ploughings for other spring crops continue.	Reaping of kangni (Italian millet) and maize continue. Outturn average. Condition of standing crops good.
12	Gujránwála ...		Report	not received.		

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Ploughings and sowings in progress.	Rice and great millet being harvested. Outturn average. Condition of standing crops fair. Tala (green fly) damaged great millet in tahsil Shahpur, and cotton poor in tahsil Bhera.
14	Ráwalpindi ...	0·62 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 9¾ seers. Barley, 14 seers. Bajra, 11 seers. Gram, 10 seers. Maize, 11 seers.	Sowings in progress.	Autumn crops being reaped.
15	Miánwáli ...	0·09 at Sadr ...	...	Wheat, 10 seers. Barley, 16 seers. Gram, 10¾ seers. Bajra, 14 seers.	Gram oilseeds and turnips being sown.	Condition of autumn crop good on irrigated and average on unirrigated area. Bajra (bulrush millet) being harvested. Outturn average.
16	Lyallpur ...	0·08 at Samundri	1. Sufficient ...	Wheat, 10 seers. Gram, 9¾ seers. Jowar, 16 seers. Maize, 10 seers.	Gram and toria (Brassica campestris) being sown.	Reaping of maize commenced in parts of Lyallpur. Sugarcane in good condition. Jowar (great millet) and cotton damaged by some pest in tahsil Samundri.
17	Jhang ...	...	1. Abundant ... 3. Good.	Wheat, Gram, } 10 seers. Bajra, 11 seers. Jowar, 12 seers. Maize, 13 seers.	Sowings in progress.	Standing crops below average.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 10¼ seers. Gram, 10½ seers. Maize, 10½ seers.	Turnips, peas and gram being sown.	Standing crops average both on irrigated and unirrigated areas.

GENERAL REMARKS.

Rainfall.— Slight rainfall in parts of Ráwalpindi, Miánwáli and Lyallpur.

Prices.— Prices generally unsettled and are still high.

Agricultural operations.— Sowings of spring crops in progress. Autumn crops being reaped in some districts.

Crops and outturn.— Standing crops generally good to fair.

Damage done to crops.— Green fly (tela) damaged great millet in parts of Shahpur and Lyallpur. Cotton damaged by insects in parts of Lyallpur.

Agricultural stock.— Cattle generally in good condition.

Pasturage.— Green grass plentiful.

Water-supply.— No complaint.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

Note.—The birth and death rates of the above towns except Lyallpur are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 26th September 1908, there were 1,622 births registered in the 43 large municipal towns (854 males and 768 females), giving a birth rate of 58 *per mille* of population, and 2,521 deaths were registered (1,204 males and 1,317 females), giving a death rate of 90 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 124 against 43 in the corresponding week of the previous year; Lahore 60 against 30; Amritsar 140 against 42; and Multán 36 against 38. Of the 8 deaths from small-pox, 2 each were registered in Kasúr and Siálkot, and 1 each in Sonepat, Shahabad, Wazirabad and Ráwalpindi. There were 21 deaths recorded from cholera in Siálkot, 17 in Batála, 15 each in Jagádhri and Jullundur 11 each in Sirsa and Amritsar, 7 in Jhelum, 5 in Lahore, 4 in Dera Gházi Khan, 3 each in Shahabad, Ráwalpindi and Multán, 2 in Hoshiárpur, and 1 each in Karnál, Ambála, Kartárpur and Ferozepore.

Deaths reported from plague during the week ending 3rd October 1908 in the districts including all municipal towns:—Ludhiána 32, Ferozepore 4, Jhang 36, and Patiála State 80. Total for the province 152. Total for the previous week 76. Total for the corresponding week of the previous year 288.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 12TH OCTOBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Plentiful ... 3. Good.	Wheat, 9¾ seers... Gram, 11¼ seers. Bajra, 13½ seers. Bejhar, 14 seers.	Sowings continue	Irrigated and unirrigated crops being reaped. Outturn good.
2	Rohtak ..	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers... Bajra, 1[illegible] seers. Gram, 10½ seers. Jowar, 15 seers.	Sowings of gram and rape-seed (sarshaf) in progress.	Condition of standing crops fair. Bulrush millet (bajra) being cut. Expected outturn of cotton and great millet on unirrigated land average.
3	[illegible]gaon ...	...	1. Green fodder sufficient for present needs. 3. Fair.	Wheat, 8½ to 9 seers. Barley, 13 to 13½ seers. Gram, 9¾ to 10½ seers. Bajra, 12½ to 14 seers. Maize, 12 to 14 seers.	Ploughings and sowings in progress.	Bulrush millet being cut. Standing crops in fair condition. Outturn expected to be below average.
4	Delhi ...	...	1. Grass plentiful ... 2. Canal open. 3. Good.	Wheat, 9½ seers... Barley, 11½ seers. Gram, 10½ seers. Jowar, 14½ seers. Bajra, 12½ seers. Maize, 15½ seers. Bejhar, 14½ seers.	Sowings continue	Condition of standing crops fair. Bulrush millet &c., being reaped. Outturn average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Sufficient ... 3. Good.	Wheat, 9¾ seers... Gram, 10¾ seers. Barley, 13 seers. Maize, 16 seers. Jowar, 16 seers. China, 20 seers.	Gram and rape-seed have been sown.	Rain badly wanted. Crops being harvested. Rice and cotton suffering for want of rain.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9¾ seers Maize, 12 seers. Gram, 10¾ seers. Jowar, 16 seers. Gur, 7 seers.	Ploughings in progress. Sowings of gram commenced.	Standing crops good.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Barley, 13½ seers. Maize, 12½ seers Gram, 9¾ seers.	Sowings of gram in progress.	Condition of standing crops good.
8	Ferozepore ...	...	1. Dry scarce. Green procurable. 3. Good.	Wheat, 9 seers ... Gram, 10 seers.	Ploughings and sowings in progress.	Standing crops average.
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, 11 seers ... Gram, 11 seers.	Gram, rape-seed and turnips being sown.	Standing crops fair.
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 10¾ seers Gram, 10¾ seers. Barley, 13½ seers. Jowar, 15 seers. Maize, 13 seers. Bajra, 9½ seers.	Sowings continue	Maize and paddy being reaped. Cotton and chillies being picked. Condition of crops except on low lying lands good in tahsil Tarn Táran and that of tahsils Ajnála and Amritsar below average. Yield expected to be average in Tarn Táran and below average in Ajnála and Amristar.
11	Siálkot ...	...	1. Dry insufficient. Green fodder and grass plentiful. 3. Good.	Wheat, 10 seers ... Barley, 12 seers. Gram, 10 seers. Rice, 6 seers.	Sowings in progress. Ploughings continue.	Reaping of paddy commenced. Outturn of maize and kangni (Italian millet) average. Condition of standing crops good.
12	Gujránwála ...	...	1. Sufficient ... 3. Good.	Wheat, 9½ to 10 seers. Gram, 10 to 11 seers. Maize, 12 seers. Bajra, 11 seers.	Gram and turnips being sown.	Standing crops good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Sowings continue. Ploughings in progress.	Standing crops good to average except in places where damaged by floods. Great-millet damaged by insects in tahsil Shahpur. Cotton picking commenced in tahsil Shahpur and harvesting of rice and great millet in tahsil Bhera. Outturn average.
14	Rawalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 9¾ seers. Gram, 10¼ seers. Barley, 14½ seers. Bajra, 12 seers. Maize, 12 seers.	Sowings in progress.	Crops being reaped.
15	Miánwáli ...	...	1. Procurable ...	Wheat, 10 seers. Barley, 16 seers. Gram, 10¾ seers. Bajra, 13½ seers.	Ditto	Condition of crops on irrigated area good, on unirrigated average. Expected outturn good to fair.
16	Lyallpur ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Gram, 9¾ seers. Jowar, 15 seers. Maize, 10 seers.	Ploughing and sowings in progress.	Toria (Brassica campestris) and sugarcane in good condition. (Great millet) and cotton damaged by some pest in tahsil Samundri. Standing crops in other places average. Reaping of maize commenced.
17	Jhang ...	...	1. Abundant ... 3. Good.	Wheat, } 10 seers. Gram, } Bajra, 12 seers. Maize, 12 seers. Jowar, 13 seers.	Sowings in progress.	Condition of standing crops below average.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 10¼ seers. Gram, 10½ seers. Maize, 10½ seers.	Turnips, and gram being sown.	Standing crops average.

GENERAL REMARKS.

Rainfall.—Nil.

Prices.—Prices of food grains generally unsettled and are still high.

Agricultural operations.—Harvesting of certain autumn crops in progress in some districts. Ploughings for and sowings of spring crops continue. Cotton pickings have also commenced in some districts.

...ps and outturn.—Condition of standing crops and their expected outturn generally good to average. Cotton and paddy suffering for want of rain in Ambála.

Damage done to crops.—Insects damaged great millet in parts of Shahpur and great millet and cotton in parts of Lyallpur.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Green grass plentiful.

Water-supply.—No complaint.

rain.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of September 1908.

1.—HISSAR DISTRICT.

Prospects of irrigated and unirrigated crops good. Early sown bajra crop matured, Expected outturn good. Rabi sowings undertaken in certain tracts. Fodder sufficient. Cattle in good condition. Water-supply in Ghaggar and Rangoi streams sufficient.

2.—ROHTAK DISTRICT.

Sowings of gram and sarshaf in barani tracts in progress. Standing chahi and nahri crops in good condition, but cotton has not yet sufficiently produced ample pods. In some cases barani cotton has been replaced by gram. Early jowar and bajra crops are in good condition, but the late jowar has been replaced by gram. Yield of early jowar and bajra expected to be fair. Cattle generally in good condition. Canal supply insufficient.

3.—GURGAON DISTRICT.

Ploughings for rabi crops in progress. Gram sown and the early bajra cut. Standing crops in fair condition. Probable outturn expected to be below average. Cattle in fair condition. Green fodder sufficient for present needs. Canal water not used.

4.—DELHI DISTRICT.

Ploughings for rabi crops continued. Sowing of gram commenced. Condition of standing kharif crops fair. Bajra being reaped. Prospects of outturn average. Cattle in good condition. Canal closed during the month. Grass plentiful.

5.—KARNAL DISTRICT.

All crops except fine rice in good condition. Maize and coarse rice being harvested. Fine rice withering for want of rain. Yield of maize and coarse rice average. Cattle generally in good condition. The Western Jumna Canal was closed in the first fortnight of the month for repairs to breaches. It is now running. Fodder and water for the cattle sufficient. Prices stationary.

6.—AMBALA DISTRICT.

There has been very little rain in the month. Gram, rapeseed and toria sown to a small extent. Maize and chari are being harvested. Rice and cotton suffering from the effects of drought. Condition of cattle generally good. There is plenty of fodder. Malarial fever is prevailing throughout the district, and in some places to the detriment of agricultural operations. Rain badly wanted. The yield of rice and cotton will be very little if rain not received.

7.—SIMLA DISTRICT.

Rainfall sufficient in both tahsils. Condition of standing crops in the Simla tahsil average; in Kot Khái good. In Kot Khái tahsil the outturn of china is 620 seers per acre Condition of cattle good: fodder and grazing sufficient. Health of people good in Kot Khái tahsil. Water in hill streams sufficient in both tahsils. In the Simla tahsil ⅓rd and in Kot Khái the entire normal area was watered.

8.—KANGRA DISTRICT.

A small area was sown with gram, rape and oilseed in Kángra proper and with wheat in the Kulu sub-division. Condition of crops on the irrigated area good, but owing to early cessation of rains, the unirrigated crops have suffered to some extent. Yield expected to be average. Water sufficient in kuhls (water-streams) for irrigation purposes. Prices still high.

9.—HOSHIARPUR DISTRICT.

Gram and mustard sown in parts of the district. Rain has done some damage to the maize crops in bet and low-lying tracts. General condition of the crops in the district appears to be average. Rice and sugarcane outturn expected to be above average; other crops about average on the whole. Cattle doing well. Green fodder sufficient. Rice crop was watered from Shah Nahr Canal, hill torrents and wells. The price of wheat has increased.

10.—JULLUNDUR DISTRICT.

Standing crops in good condition. Yield expected to be good, especially of the sugarcane crop. Cattle in good condition.

11.—LUDHIANA DISTRICT.

Sowings of gram commenced. Condition of standing crops good. Condition of cattle satisfactory. Fodder sufficient. Irrigation from canals satisfactory. Prices slightly fell during the month.

12.—FEROZEPORE DISTRICT.

Standing kharif crop generally in good condition. Yield expected to be fair. Cattle generally in good condition. Sirhind and inundation canals had been flowing and a normal area was irrigated. There were floods owing to breaches in the district inundation canals in tahsil Fázilka in the beginning of the month, which caused damage to crop in Chak Hithar and Utar. Agriculturists generally well off. Stocks of food-grains sufficient. Green fodder available abundantly, but dry scarce. Prices stationary.

13.—MONTGOMERY DISTRICT.

Toria, turnips and gram sown during the month. Condition of crops average. Rice crop will, it is hoped, be good: the rest average. Fodder abundant. Irrigation to a small extent from canals, as they have dried up.

14.—LAHORE DISTRICT.

Gram, rapeseed, turnips and toria sown. Standing crops fair, but floods in the Hudiara nala did considerable damage to the crops on its banks. Expected yield about average, except of cotton. Condition of cattle fair. The perennial and inundation canals worked well. Prices high.

15.—AMRITSAR DISTRICT.

Toria, gram and sarshaf being sown. Condition of standing crops below average in Amritsar and Tarn Táran tahsils, except those in low lands: bad in Ajnála tahsil. Expected yield in Tarn Táran, Amritsar and Ajnála tahsils below average. Condition of cattle good. Grass sufficient. There were floods in the Ravi towards the beginning of the month.

16.—GURDASPUR DISTRICT.

Toria, rapeseed and gram sowings commenced. Lands being ploughed for other rabi sowings. Condition of crops good except that of maize, cotton and til in riverain tracts and low-lying lands, where they suffered from heavy rains and floods. Picking of cotton and harvesting of rice and maize commenced; outturn average. Condition of cattle good. Fodder sufficient. Rivers and canals in full flow. Prices somewhat relaxed.

17.—SIALKOT DISTRICT.

Sowing of toria, gram, rape and turnip in progress throughout the district, and of massar in the Siálkot tahsil only. Ploughings for rabi crops continued. Condition of standing kharif crops good. Reaping of kangni and maize commenced throughout the district: outturn average. Condition of cattle generally good. Water abundant in Bajwat canals. Deg, Aik and the rivers flooded once or twice.

18.—GUJRANWALA DISTRICT.

Sowings of sarshaf, gram and vegetables were made. Condition of sugarcane and rice good, and that of other crops average. Some damage done by rats to maize in the Khángah Dográn tahsil. Yield will probably be about the average, but no reliable estimate can be framed at present.

Condition of cattle generally good. Fodder sufficient. No complaint of insufficiency of canal water-supply. Prices have slightly risen.

19.—GUJRAT DISTRICT.

Sowings of oilseeds, gram and turnips and ploughings for other rabi crops in progress. Condition of crops in Bulandi, Maira, Pabbi and Bar Circles generally good. Sunshine has greatly improved the crops on low-lying and flooded lands. Yield expected to be about average on the whole. Cattle in good condition. Fodder sufficient. Prices stationary.

20.—SHAHPUR DISTRICT.

Rainfall excessive and to some extent harmful to the standing crops. Taramira, gram, barley, masur, peas, turnips, toria, vegetables, maize and fodder crops were sown. Condition of crops generally fair. Expected yield will be comparatively small owing to excessive rainfall. Some cotton and maize in the hill circle of the Khushab tahsil harvested; outturn below average. Rice harvested in Bhera and Shahpur tahsils; outturn average. Cattle in good condition. Fodder sufficient. Inundation canals have ceased to flow. Lower Jhelum Canal running. Floods in hill torrents were sufficient and irrigation therefrom was good. Jowar and chari in the Shahpur tahsil to some extent damaged by "tela." Damage was also done by floods in some riverain villages in the Bhera and Shahpur tahsils. Prices rising.

21.—JHELUM DISTRICT.

Clear sunshine after the heavy rains facilitated ploughing for rabi crops throughout the district, but malaria has retarded the progress to a large extent. Standing crops in good condition except on low-lying lands. Fodder plentiful. There were no great floods in the Jhelum river. Prices stationary.

22.—RAWALPINDI DISTRICT.

Rain ample. Rabi sowings being made. Condition of crops below average. The estimated outturn will probably be below average. Crops being cut. Condition of cattle fair. Stock of grain and fodder sufficient.

23.—ATTOCK DISTRICT.

Rabi sowings commenced on a fairly large scale. Condition of standing crops good. Yield expected to be good. Condition of cattle good.

24.—MIANWALI DISTRICT.

The land was prepared for rabi sowings. Sowings of gram, peas, turnip and ussun commenced in the latter part of the month. Condition of irrigated kharif crops fair: unirrigated average. Expected yield fair in irrigated tracts: average in unirrigated areas. Cattle in average condition. Fodder sufficient. River floods subsided. There was considerable irrigation from hill torrents especially in Miánwáli.

25.—LYALLPUR DISTRICT.

Toria and gram sowings in progress. Extensive ploughings for wheat in progress. Condition of maize poor to average, of sugarcane excellent, of cotton good in Lyallpur and part of Samundi, poor elsewhere. Some complaints of boll-worm in cotton. Everywhere it only flowered towards the end of the month. Outturn of sugarcane will be excellent: that of other crops average to below average in Toba Tek Singh. Jowar attacked by "tela." Green fodder plentiful. Bhusa dear and scarce after rains. Zamindars are repairing houses damaged by floods and rains. The boll-worm will be watched.

26.—JHANG DISTRICT.

Heavy rain throughout the district. It caused a considerable damage to the standing kharif crops, but has been beneficial for the rabi sowings. Turnips, toria and gram being sown. Kharif sowings nearly completed. Condition of crops below average. Condition of cattle good. Green fodder abundant. Grazing available. Sufficient water-supply in canals and rivers. Floods from the Chenab and Jhelum rivers have damaged the crops grown on the low land. The Jhelum Canal was closed from 3rd to 15th September for annual clearance.

27.—MULTAN DISTRICT.

Sathri, ussun, gram, turnips and peas being sown. Ploughings for wheat cultivation in progress. Recent rains have much improved the rabi prospects. Condition of standing crops, jowar, chari, maize, til and bajra (cotton excepted) average both on irrigated and unirrigated areas. Crops of the Hithar plots damaged to some extent by floods. Condition of cattle good. Fodder abundant. Inundation canals working by turns. Sidhnai Canal flowing.

28.—MUZAFFARGARH DISTRICT.

Statement returned for corrections.

29.—DERA GHAZI KHAN DISTRICT.

Moderate rainfall received. It has proved beneficial to kharif harvest and rab. sowings. Sowings of gram, turnips and ussun in progress. Crops in good condition. Condition of cattle fair. Canal working well in all tahsils except Sanghar. No floods from hill torrents except in Dera Gházi Khan tahsil. Rate still high.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 3rd October 1908, there were 1,701 births registered in the 43 large municipal towns (902 males and 799 females), giving a birth rate of 61 *per mille* of population, and 3,068 deaths were registered (1,476 males and 1,592 females), giving a death rate of 110 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 140 against 35 in the corresponding week of the previous year; Lahore 81 against 31; Amritsar 212 against 43; and Multán 40 against 41. There was 1 death reported from plague in Jhang-Maghiana. Of the 7 deaths from small-pox, 2 were registered in Shahabad and 1 each in Jhajjar, Tánda-Urmar, Jullundur, Jagráon, and Lyallpur. There were 17 deaths recorded from cholera in Jullundur, 14 in Siálkot, 9 in Jagádhri, 7 in Batála, 5 in Dera Gházi Khan, 4 in Hoshiárpur, 2 each in Shahabad, Ambála, Lahore, and Jhelum, and 1 each in Sirsa and Ferozepore.

Deaths reported from plague during the week ending 10th October 1908 in the districts including all municipal towns:—Hoshiárpur 2, Ludhiána 23, Ferozepore 7, Shahpur 4 and Patiála State 30. Total for the province 67. Total for the previous week 157. Total for the corresponding week of the previous year 349.

W. H. MILLS, Supdt.,
for Sanitary Commissioner, Punjab.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, OCTOBER 23, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 19th OCTOBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of: Spring.	Prospects of: Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9¾ seers... Gram, 11¼ seers. Bajra, 16 seers. Bejhar, 16 seers.	Sowings continue	Crops being reaped. Outturn good.
2	Rohtak ..	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 10½ seers. Bajra, 15 seers. Jowar, 15 seers.	Sowings of gram, barley and rape-seed (sarshaf) in progress.	Condition of standing crops fair.
3	Gurgaon ...	...	1. Sufficient for present needs. 3. Fair.	Wheat, 8½ to 9¼ seers. Barley, 12½ to 13¼ seers. Gram, 8½ to 11 seers. Bajra, 11 to 14 seers. Maize, 12 to 14 seers.	Sowings of wheat and barley commenced. Ploughings for and sowings of other crops in progress.	Crops being cut. Standing crops in fair condition. Outturn expected to be below average.
4	Delhi ...	...	1. Grass plentiful ... 2. Canal open.	Wheat, 9 seers ... Barley, 14½ seers. Gram, 10½ seers. Jowar, 14½ seers. Bajra, 13 seers. Maize, 15½ seers. Bejhar, 14½ seers.	Ploughings nearly finished. Sowings continue.	Standing crops in fair condition. Crops being reaped. Cotton on canal-irrigated area being picked.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Sufficient ... 2. Ditto.	Wheat, 9¾ seers... Gram, 10¼ seers. Barley, 13 seers. Maize, 16 seers. Jowar, 16 seers. China, 21 seers.	Gram and rape-seed being sown.	Rain badly wanted. Crops being harvested.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers Maize, 12 seers. Gram, 10¾ seers. Jowar, 16 seers. Gur, 7 seers.	Sowings in progress.	Standing crops good. Reaping of great millet and maize and picking of cotton commenced.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Sowings of gram finished and of wheat commenced.	Condition of standing crops good.
8	Ferozepore ...	...	1. Dry scarce. Green procurable. 3. Good.	Wheat, 11 seers ... Gram, 11 seers.	Sowings in progress.	Standing crops average.
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, 11 seers ... Gram, 11 seers.	Gram, rape-seed and turnips being sown.	Standing crops fair.
10	Amritsar ...	...	3. Good. ...	Wheat, 9¼ seers Gram, 10¼ seers. Barley, 13½ seers. Jowar, 15 seers. Maize, 13 seers. Bajra, 9½ seers.	Sowings continue	Maize and paddy being reaped. Cotton and chillies being picked. Condition of crops except on low lying lands good to average in tahsils Amritsar and Tarn Táran and below average in tahsil Ajnála.
11	Siálkot ...	...	1. Dry insufficient. Great millet (chari) and maize used as fodder. 3. Good.	Wheat, 12 seers ... Barley, 12 seers. Gram, 10 seers. Rice, 7 seers.	Sowing of wheat in progress.	Condition of standing crops good. Harvesting of rice, &c., continued. Picking cotton commenced. Outturn poor. Outturn of maize average and of rice good.
12	Gujránwála ...	...	1. Sufficient ...	Wheat, 9½ to 10 seers. Gram, 10 to 11 seers. Maize, 12 seers. Bajra, 11 seers.	Wheat and gram being sown.	Standing crops good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Sowings continue. Ploughings in progress.	Condition of crops generally fair. Cotton picked and rice harvested in tahsil Bhera; outturn average.
14	Rāwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 9¾ seers. Gram, 10¼ seers. Barley, 14½ seers. Bajra, 12 seers. Maize, 12 seers.	Sowings in progress.	Crops being reaped.
15	Miānwāli ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers. Gram, 11 seers. Barley, 16 seers. Bajra, 14 seers.	Ditto	Condition of crops on irrigated area good; on unirrigated average. Expected yield good to average.
16	Lyallpur ...	...	1. Sufficient ...	Wheat, 9¾ seers ... Gram, 9¾ seers. Jowar, 15 seers.	Ploughings and sowings in progress.	Toria (Brassica campestris) and sugarcane in good condition. Great millet damaged by tela (aphis) in tahsil Samundri, and cotton by some pest in tahsils Samundri and Toba Tek Singh. Reaping of maize in progress.
17	Jhang ...	...	1. Abundant ... 3. Good.	Wheat, 10 seers ... Gram, 10 seers. Bajra, 12 seers. Maize, 12 seers. Jowar, 12 seers.	Sowings in progress.	Condition of standing crops below average.
18	Multān ...	...	1. Sufficient ... 3. Good.	Wheat, 10¼ seers. Gram, 10½ seers. Maize, 14¾ seers.	Gram, barley and turnips being sown.	Rice and bulrush millet being cut. Standing crops average.

GENERAL REMARKS.

Rainfall.—Nil.

Prices.—Prices of food-grains still high.

Agricultural operations.—Harvesting of autumn crops in progress. Ploughings for and sowings of spring crops continue.

Crops and outturn.—Condition of standing crops and their expected yield generally good to average. Outturn of cotton poor in Siālkot.

Damage done to crops.—Great millet and cotton damaged by insects in parts of Lyallpur.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Green grass plentiful.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

P. A. GABRIEL, SUPDT.,
Office of Director of Agriculture, Punjab.

Supplementary notes on the condition and prospects of crops, etc., in the Muzaffargarh district in the Punjab during the month of September 1908, received too late for insertion in the Supplement to "Punjab Gazette," dated 16th October 1908.

MUZAFFARGARH DISTRICT.

The whole district had plenty of rain, which has done some damage to jowar and til crops. Peas, taramira, toria and gram sown. Condition of crops on the whole good. Yield of rice about 9 maunds per acre. Fodder sufficient. Indus Canals dry. Canals from the Chenab river doing some irrigation. Prices have shown no tendency to fall.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

W. H. MILLS, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SEVENTY-ONE THOUSAND TWO HUNDRED AND THIRTY-ONE births were registered in the province during the month of August 1908, giving a birth-rate of 42 *per mille* of population. Of the total number of births, 37,090 were boys and 34,141 were girls.

The total number of deaths registered from all causes in the province during the month of August 1908 was 46,929 against 43,449 in the previous month, and 38,816 in the corresponding month of the past year, giving an annual death-rate of 27, 25 and 23 *per mille* of population per annum, respectively.

There were 2,520 deaths registered under the head of cholera against 2,155 in the previous month and 31 in the corresponding month of the past year.

The total mortality from plague amounted to 15 against 19 in the previous month and 879 in the corresponding month of the past year.

From small-pox 1,580 deaths were registered against 3,868 in the previous month and 685 in the corresponding month of the past year; fevers 25,650 against 22,796 and 22,105; dysentery and diarrhœa 1,379 against 933 and 1,013; respiratory diseases 4,139 against 3,557 and 3,765. During the month there were 20 deaths registered from suicide against 22 in the past month; wounding 50 against 56; accidents 764 against 862; snake-bite and killed by wild beasts 234 against 250; and from all other causes 10,578 against 8,931 in the previous month and 9,282 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 19th October 1908.

LAHORE, FRIDAY, OCTOBER 30, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 26th OCTOBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
1	Hissar ...	...	1 Sufficient ... 3. Good.	Wheat, 9¾ seers... Bajra, 15¾ seers. Gram, 11¾ seers. Bejhar, 16 seers.	Autumn crops being reaped : outturn good.	Sowings continue.
2	Rohtak ..	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 10 seers. Jowar, 16 seers. Maize, 13 seers. Bajra, 15½ seers.	Great millet and bulrush millet in good condition and being harvested. Sugarcane and cotton crops fair.	Sowings continue.
3	Gurgaon ...	...	1. Sufficient for present needs 3. Fair.	Wheat, 8½ to 9 seers. Barley, 12 to 14 seers. Gram, 9 to 10 seers. Bajra, 13 to 14 seers. Maize, 12 to 14 seers.	Autumn crops being reaped. Standing crops in fair condition. Probable outturn below average.	Ploughings for and sowings of spring crops in progress.
4	Delhi ...	...	1. Grass plentiful ... 2. Canal open.	Wheat, 8¾ seers .. Barley, 14 seers. Gram, 10 seers. Jowar, 14 seers Bajra, 12½ seers. Maize, 15 seers. Bejhar, 14 seers.	Autumn crops being reaped. Cotton picking on canal-irrigated area continues.	Ploughings completed. Sowings in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
5	Ambála ...	...	1. Sufficient ... 2. Ditto. 3. Good.	Wheat, 9¼ seers... Gram, 10¼ seers. Barley, 13¾ seers. Maize, 15 seers.	Crops being harvested ...	Rain badly wanted. Gram being sown.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers Maize, 12 seers. Gram, 10 seers. Jowar, 16 seers. Gur, 7 seers.	Reaping of great millet and maize and picking of cotton in progress. Standing crops good.	Ploughings for, and sowings of, spring crops in progress.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Condition of standing crops good.	Sowings of wheat and mixed corn in progress.
8	Ferozepore	...	1. Procurable ... 3. Good.	Wheat, 9¾ seers Gram, 11 seers.	Standing crops, except jowar, average.	Sowings in progress.
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Gram, 11 seers.	Standing crops fair ...	Gram, wheat and rapeseed being sown.
10	Amritsar ...	...	3. Good ...	Wheat, 9¾ seers... Gram, 10 seers. Barley, 13½ seers. Jowar, 15 seers. Maize, 13 seers. Bajra, 9½ seers.	Paddy, maize, &c., being reaped and cotton being picked. Condition and expected yield of standing crops in tahsils Amritsar and Tarn Táran average and in tahsil Ajnála below average.	Sowings continue.
11	Siálkot ...	...	1. Dry fodder insufficient. Great millet (chari) and maize and straw used as fodder. 3. Generally good.	Wheat, 10 seers ... Gram, 9 seers. Barley, 12 seers. Rice, 7 seers.	Reaping of maize, rice, &c., and picking of cotton in progress. Outturn of maize average, of rice good and cotton poor. Standing crops good.	Sowings continue. Germination of crops good.
12	Gujránwála ...	...	1. Sufficient ... 3. Generally good.	Wheat, 9½ to 10 seers. Gram, 10 to 11 seers. Bajra, 11 seers. Maize, 12 seers.	Standing crops good, but expected yield of jowar, maize and cotton below average.	Gram, wheat and barley being sown.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee	Prospects of Autumn.	Prospects of Spring.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Rice and sugarcane being harvested and cotton being picked: outturn average. Standing crops in fair condition. Great millet damaged by insect in Shahpur tahsil.	Sowings continue.
14	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 9½ seers ... Barley, 14½ seers. Bajra, 12 seers. Gram, 10 seers. Maize 12½ seers	Crops being reaped ...	Sowings in progress.
15	Miánwáli	Statement not received.				
16	Lyallpur ...	...	1. Sufficient but scarcity of green fodder is being felt in Samundri tahsil.	Wheat, 9¾ seers ... Gram, 9¾ seers. Jowar, 15 seers. Maize, 10½ seers.	Toria (Brassica campestris) and sugarcane in good condition. Great millet damaged by tela (aphis) in parts of Samundri and Toba Tek Singh tahsils. Picking of cotton and reaping of maize in progress.	Ploughings for and sowings of crops in progress.
17	Jhang ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Gram, 10 seers. Jowar, 12 seers. Bajra, [illegible] seers. Maize, 13 seers.	Standing crops below average.	Sowings continue.
18	Multán ...	...	1. Sufficient ...	Wheat, 10¾ seers Gram, 10½ seers. Maize, 13¾ seers.	Standing crops average	Sowing of wheat commenced.

GENERAL REMARKS.

Rainfall *nil*, but Ambála is the only district in which rain is needed. Autumn crops are being harvested. The condition and expected yield of standing crops are generally good to average. Prospects are however below average in Gurgaon, Lahore, Gujránwála and Jhang. The outturn of cotton is poor in Siálkot and Gujránwála. Great millet damaged by insects in parts of Shahpur and Lyallpur and poor in Ferozepore. Ploughings for and sowings of spring crops continue. Sowings are timely and promise to be extensive. Malarial fever is affecting agricultural operations. Prices are high and show an upward tendency. Cattle are in good condition. Green grass is plentiful.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab*.

d Mean of 30 days.
e Mean of 29 days.
k Mean of 23 days.
n Mean of 20 days.

The monsoon was very active over the whole of the Punjab throughout the month, and the weather was in consequence very wet and cloudy. There were partial breaks in the rains from the 6th to the 12th and from the 20th to the 25th, and on the 23rd and 24th skies were only lightly clouded, the breaks being most general in the southern and western districts.

Pressure and winds.—Pressure was in slight excess in the north-western districts and normal elsewhere. Winds had a strong southerly or easterly component, and were slightly stronger than usual.

Temperature.—As the weather was very wet and cloudy, temperature, especially by day, was normal or in defect on every day of the month except one. During the breaks lasting from the 23rd to the 24th skies almost cleared and on the 24th mean temperature was 2½° in excess. Mean temperature was in greatest defect from the 3rd to the 6th, and on the 5th the deficiency amounted to over 8°.

The following table shows the departures from the normal of the mean temperature of the Punjab and the North-West Frontier Province on each day of the month and the highest temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours	Station at which registered.

Humidity and cloud.—The air contained nearly 90 per cent. of the amount of moisture required for saturation, and was everywhere in excess. Cloud also was heavier than usual, and at Simla the skies were completely overcast at 8 hrs. throughout the month.

Rainfall.—Rainfall was everywhere in excess, but at Multán and Simla the excess was very small. The heaviest rainfall occurred at Delhi, Lahore and Murree, but the relative excess was greatest at Montgomery where the total fall was 15·10" instead of 2·99", the normal amount.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for August 1908:—

Station.	Actual rainfall in August 1908.	Normal average rainfall in August.	Difference from the average in August 1908.	Station.	Actual rainfall in August 1908.	Normal average rainfall in August.	Difference from the average in August 1908.

NOTE.—The birth and death rates of the above towns except Lyallpur are calculated on the basis of the population enumerated the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 17th October 1908, there were 1,438 births registered in the 43 large municipal towns (730 males and 7[illegible] females), giving a birth rate of 52 *per mille* of population, and 3,761 deaths were registered (1,792 males and 1,969 females), giving a death rate 135 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 120 against 40 in the correspondi[ng] week of the previous year; Lahore 98 against 27; Amritsar 335 against 43; and Multán 79 against 35. There was 1 death reporte[d] from plague in Gujránwála town. Of the 7 deaths from small-pox, 3 were registered in Bhera and 1 each in Hánsi, Rewári, Siálkot a[nd] Chiniot. There were 7 deaths recorded from cholera in Jullundur, 5 in Dera Ghási Khan, 4 each in Wazirabad and Jhelum, 3 in Siálkot, 2 [in] Ferozepore and 1 each in Delhi, Kaithal, Hoshiárpur and Multán. Of the 2,988 deaths from fevers 942 were registered in Amritsar, 396 in Delh[i], 285 in Lahore, 150 in Bhera, 87 in Palwal, 82 in Gujrát, 74 each in Sonepat and Multán, 55 each in Bhiwáni and Ludhiána, 5[illegible] in Siálkot, 4[illegible] [in] Wazirabad, 43 in Gujránwála, 40 in Sirsa 39 each in Hánsi and Karnál, 34 in Pind Dádan Khan, 32 in Ambála, 31 each in Pánipat and Batál[a], 28 each in Kasúr and Ráwalpindi, 26 in Jullundur, 25 each in Tánda-Urmar and Chiniot, 24 each in Jhajjar and Jhang-Maghiána, 21 each [in] Hoshiárpur and Jalálpur, 19 in Jhelum, 18 each in Rewári and Dera Ghási Khan, 17 in Hissar, 15 in Rohtak, 14 each in Shahabad, Jagádhr[i], Kartárpur and Jagraon, 12 in Ferozepore, 9 in Kaithal, 7 in Khusháb, 5 in Ráekot and 3 in Lyallpur.

Deaths reported from plague during the week ending 24th October 1908 in the districts including all municipal towns:— H[oshi]árpur 1, Ludhiána 17, Ferozepore 58, Gujránwála 4, Shahpur 2, Jhang 7, Lyallpur 1 and Patiála State 20. Total for the province 110. Total for the previous week 118. Total for the corresponding week of the previous year 193.

Erratum.—Weekly return of Births and Deaths registered in the 43 municipal towns in the Panjab during the week ending Saturday the 19th September 1908, published at page 799 in the Supplement to *Punjab Government Gazette* for 2nd October 1908, Gujrát town, sub-colum[n] 14, instead of "72" read "12."

LAHORE, FRIDAY, NOVEMBER 6, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 2nd NOVEMBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Gram, 11 seers. Bajra, 15 seers. Bejhar, 16 seers.	Crops being reaped; out-turn good.	Sowings continue.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Gram, 10½ seers. Jowar, 17½ seers. Maize, 14 seers. Bajra, 16 seers.	Condition of standing crops good.	Sowings continue. Gram in the Jhajjar tahsil slightly damaged by insects. Malarial fever decreasing.
3	Gurgaon ...	Report not	received.			
4	Delhi ...	...	1. Plentiful ... 2. Canal open.	Wheat, 8¼ seers... Barley, 14 seers. Maize, 15 seers. Jowar, 14 seers. Bajra, 13 seers. Gram, 9¼ seers. Bejhar, 14 seers.	Crops being reaped. Cotton picking continues.	Sowings in progress. Fever prevalent.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
5	Ambála ...	...	1. Sufficient ... 2. Ditto. 3. Good.	Wheat, 9 seers ... Gram, 10¼ seers. Barley, 12½ seers. Maize, 14 seers. Jowar, 16 seers. China, 21 seers.	Harvesting continues ...	Rain badly wanted. Sowings in progress. Malarial fever prevailing.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers... Maize, 12 seers. Gram, 10¼ seers. Jowar, 16 seers. Gur, 7 seers.	Picking of cotton and harvesting of other crops in progress. Standing crops good.	Ploughings and sowings continue. Fever prevalent.
7	Ludhiána ...	Report	not received.			
8	Ferozepore ...	...	1. Procurable ... 3. Good.	Wheat, 9¾ seers Gram, 11 seers.	Standing crops, except jowar, average.	Sowings continue. Malerial fever prevailing.
9	Lahore ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Gram, 11 seers.	Harvesting in progress. Standing crops fair.	Sowings continue. Malarial fever badly prevalent.
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Gram, 9½ seers. Barley, 13 seers. Bajra, 12 seers. Maize, 13 seers. Jowar, 14 seers.	Picking of cotton and harvesting of other crops in progress. Condition of standing crops in tahsils Amritsar and Tarn Táran average and in Ajnála below average. Sugar cane crop good.	Sowings going on. Malariai fever prevalent.
11	Siálkot ...	...	1. Dry fodder insufficient. Maize and great millet used as fodder. 3. Good.	Wheat, 10 seers ... Gram, 9 seers. Barley, 12 seers. Rice, 8 seers.	Harvesting continues. Outturn of maize and cotton average and that of rice good.	Rain wanted in unirrigated tracts. Sowings in progress. Malarial fever prevalent.
12	Gujránwála ...	Report	not received.			

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Condition of standing crops fair, except of great millet, which is poor. Harvesting in progress. Outturn fair.	Sowings continue. Malarial fever prevalent.
14	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, $9\frac{1}{4}$ seers ... Barley, $14\frac{1}{4}$ seers. Bajra, $12\frac{3}{4}$ seers. Gram, $10\frac{1}{4}$ seers. Maize, $12\frac{3}{4}$ seers.	Reaping and harvesting in progress. Outturn average.	Sowings going on. Rain wanted. Fever prevalent.
15	Miánwáli ...	...	1. Sufficient ...	Wheat, 10 seers ... Barley, 16 seers. Gram, 11 seers. Bajra, 14 seers.	Condition of crops on irrigated area average; on unirrigated area below average. Expected yield average to below average.	Sowings in progress. Malarial fever prevalent.
16	Lyallpur ...	...	1. Dry fodder sufficient; green scarce. 3. Good.	Wheat, $9\frac{1}{4}$ seers ... Gram, $9\frac{3}{4}$ seers. Jowar, 15 seers. Maize, 11 seers.	Condition of sugarcane and toria (Brassica campestris) crops good; of other crops average. Reaping of maize and picking of cotton in progress. Outturn of cotton below average.	Sowings in progress. Malarial fever continues, affecting sowings in places.
17	Jhang ...	Report	not received.			
18	Multán ...	...	1. Sufficient ...	Wheat, $10\frac{1}{4}$ seers Gram, $10\frac{1}{2}$ seers. Maize, $13\frac{3}{4}$ seers.	Standing crops average	Sowings continue Malarial fever prevalent.

GENERAL REMARKS.

Rainfall *nil*, but is needed in Ambála, parts of Siálkot and in Ráwalpindi. Autumn crops are being harvested. The condition and expected yield of standing autumn crops are generally good to average. The outturn of cotton is below average in Lyallpur and that of great millet poor in Shahpur. Ploughings for and sowings of spring crops continue. Sowings are timely and promise to be extensive. Gram slightly damaged by insects in parts of Rohtak. Malarial fever is affecting agricultural operations. Prices are high and are generally unchanged except in Rohtak, where there is a slight downward tendency. Cattle are in good condition. Green grass is generally plentiful.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

NOTE.—The birth and death rates of the above towns except Lyallpur are calculated on the basis of the population enumerated [illegible] the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 24th October 1908, there were 1,262 births registered in the 43 large municipal towns (648 males and [illegible] females), giving a birth rate of 45 *per mille* of population, and 3,479 deaths were registered (1,690 males and 1,789 females), giving a death rat[illegible] 125 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 109 against 29 in the correspond[illegible] week of the previous year; Lahore 122 against 29; Amritsar 287 against 41; and Multán 70 against 42. There were 4 deaths report[illegible] from plague in Gujránwála and 1 each in Ferozepore and Jhang-Maghiana. Of the 2 deaths from small-pox, 1 each was registered [illegible] Jagraon and Kasúr. There were 4 deaths recorded from cholera in Jullundur, 3 in Kaithal, 2 in Siálkot, and 1 each in Kartarpur, Jhelum and Ráwalpindi. Of the 2,816 deaths from fevers 795 were registered in Amritsar, 367 in Lahore, 333 in Delhi, 166 in Bhera, 85 in Palwal, 78 [illegible] Multán, 68 in Sonepat, 59 in Bhiwáni, 57 in Gujrát, 56 in Ludhiána, 52 in Kasúr, 48 in Pánipat, 46 in Siálkot, 45 in Hánsi, 40 each in Gujránwála and Dera Gházi Khan, 39 in Jhang-Maghiána, 35 in Chiniot, 31 in Wazirabad, 30 in Karnál, 29 in Jullundur, 28 in Sirsa, 27 in Batála, 24 [illegible] Ráwalpindi, 22 in Jalálpur, 20 in Kaithal, 19 in Ferozepore, 17 each in Hissar and Jhajjar, 15 each in Ambála, Tánda-Urmar, Jhelum and Dera Gházi Khan, 30 in Rohtak, 12 each in Shahabad and Khusháb, 9 each in Hoshiárpur and Jagraon, 8 in Rewári, 7 in Ráekot, 6 in Kartárpur, 4 [illegible] Lyallpur and 3 in Jagádhri.

Deaths reported from plague during the week ending 31st October 1908 in the districts including all municipal towns— Hissar 4, Rohtak 2, Karnál 2, Hoshiárpur 2, Ludhiána 72, Ferozepore 68, Gujránwála 6, Shahpur 2, Jhang 8, Lyallpur 10 an[illegible] Patiála State [illegible] Total for the province 296. Total for the previous week 110. Total for the corresponding week of the previous year 353.

LAHORE:

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, NOVEMBER 13, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 9th NOVEMBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Gram, 11 seers. Bajra, 14¼ seers. Bejhar, 16 seers.	Crops being reaped. Outturn good. Outturn of cotton below average.	Crops being sown.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 10 seers. Jowar, 14½ seers. Bajra, 14½ seers.	Condition of irrigated crops and of unirrigated fair. Harvesting in progress. Average outturn expected.	Sowings of wheat and barley continue. Gram slightly damaged by insects in tahsils Rohtak, Sámpla and Jhajjar. Malarial fever continues.
3	Gurgaon ...	...	1. Sufficient ... 3. Fair.	Wheat, 8½ to 9¼ seers. Barley, 13 to 14 seers. Gram, 9 to 10 seers. Bajra, 12 to 14 seers. Maize, 14 to 15 seers.	Crops being harvested. Standing crops in fair condition. Probable outturn below average.	Ploughings for and sowings of spring crops in progress. Sowings are somewhat late. Gram slightly damaged by insects. Fever prevalent throughout the district.
4	Delhi ...	...	1. Sufficient ...	Wheat, 8¼ seers... Barley, 13½ seers. Gram, 9½ seers. Jowar, 14 seers. Bajra, 13½ seers. Maize, 15 seers. Bejhar, 14 seers.	Crops being harvested. Cotton picking in progress. Outturn of bajra (bulrush millet) and Jowar (great millet) good and of cotton below average.	Sowings continue and were satisfactory. Fever is abating.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
5	Ambála ...	...	1. Sufficient ... 2. Ditto. 3. Fairly good.	Wheat, 9 seers ... Gram, 10 seers. Barley, 12 seers. Maize, 14 seers. Jowar, 15 seers.	Crops being harvested Cotton and sugarcane suffering for want of rain. Outturn of autum crops with the exception of rice fair.	Rain [illegible]dly wanted. Sowi[illegible]s of wheat commenced, which are somewhat late.
6	Jul'undur ...	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers... Maize, 12 seers. Gram, 10¼ seers. Jowar, 17 seers. Gur, 7 seers.	Picking of cotton and harvesting of other crops in progress. Standing crops good. Outturn of maize average.	Ploughings and sowings continue. Sowings are satisfactory. Fever prevalent.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat 9½ seers... Barley 13¾ seers. Maize 13¼ seers. Gram 9½ seers.	Standing crops good ...	Sowings completed. Malarial fever prevalent in the district.
8	Ferozepore ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8¼ seers Gram, 10¼ seers.	Standing crops, except jowar (great millet) cotton and maize good.	Sowings continue and are satisfactory. Malarial fever prevalent throughout the district.
9	Lahore ...	Report not received.				
10	Amritsar ...	...	1. Sufficient ... 3. Generally good ...	Wheat, 9¼ seers... Gram, 9½ seers. Barley, 13 seers. Jowar, 14 seers. Maize, 12 seers. Bajra, 12 seers.	Picking of cotton and chillies, pressing of sugarcane and harvesting of other crops in progress. Standing crops in tahsils Amritsar and Tarn Táran except on lowlands good. Outturn of cotton in tahsil Amritsar fair and in tahsil Tarn Táran average. Standing crops in tahsil Ajnála, except sugarcane, below average. Condition of sugarcane average and expected yield good.	Sowings in progress. Malarial fever more in tahsils Amritsar and Tarn Táran and less in tahsil Ajnála.
11	Siálkot ...	...	1. Dry fodder insufficient. Great millet, maize and straw used as fodder. 3. Generally good.	Wheat, 10 seers ... Barley, 12 seers. Gram, 9 seers. Rice, 8 seers.	Harvesting continues. Outturn of maize, cotton, &c., average, and that of rice and bajra (bulrush millet) good.	Rain wanted in unirrigated tracts. Sowings in progress and are satisfactory. Germination of crops good. Malarial fe[illegible] throughout th[illegible] district.
12	Gujránwála ...	...	1. Ample ...	Wheat, 9 to 10 seers. Maize, 12 seers. Bajra, 11 seers. Gram, 10 to 11 seers.	Condition of sugarcane and rice good, of cotton below average, and of other crops not good. Yield of rice average, of cotton below average, and of other crops poor.	Sowings continue. Sowings on irrigated lands are somewhat late. Prospects good. Malarial fever still prevalent and hindering the agricultural operations.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat rising and other staples unchanged.	Standing crops fair. Harvesting in progress. Outturn of bajra (bulrush millet) good and other crops fair.	Sowings in progress and are timely, though proceeding slowly owing to fever.
14	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 9¾ seers... Barley, 14½ seers. Bajra, 12¾ seers. Gram, 10 seers. Maize, 12 seers.	Harvesting in progress. Outturn expected average.	Rain wanted. Sowings almost completed and are satisfactory. Fever prevalent.
15	Miánwáli ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Barley, 16½ seers. Gram, 11 seers. Bajra, 14 seers.	Condition of crops on irrigated areas average and on unirrigated below average.	Sowings in progress.
16	Lyallpur ...	...	1. Dry fodder sufficient; green scarce. 3. Good.	Wheat, 9¾ seers... Gram, 9¾ seers. Jowar, 15 seers. Maize, 13 seers.	Standing crop in average condition. Picking of cotton in progress. Outturn of maize and cotton below average, and sugarcane and toria (Brassica Campestris) are in good condition.	Sowings in progress. They are timely and satisfactory. Malarial fever prevalent all over the district.
17	Jhang ...	...	1. Diminishing ... 3. Fair.	Wheat, 9 seers ... Gram, 9 seers. Jowar, 11 seers. Bajra, 11 seers. Maize, 12 seers.	Condition of standing crops not good.	Sowings in progress though restricted through fever.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers... Gram, 10½ seers. Maize, 13¾ seers.	Standing crops average...	Sowings of wheat are satisfactory. Malarial in the district.

GENERAL REMARKS.

Rainfall *nil*. Rain is needed in Ambála, parts of Siálkot and in Ráwalpindi. Autumn crops are being harvested. The condition and expected yield of autumn crops are generally good to average. The outturn of cotton is below average in Hissar, Delhi, Gujránwála and Lyallpur. Outturn of maize is also below average in the last-named district. The outturn of all the autumn crops except rice is poor in Gujránwála. Ploughings for, and sowings of, spring crops continue. Sowings are somewhat late in Gurgaon, Ambála and Gujránwála. Gram has been slightly damaged by insects in Rohtak and Gurgaon. Malaria fever is retarding agricultural operations. Prices are high and show an upward tendency in several districts. Cattle are in good condition. Fodder is sufficient.

W. H. MILLS, Supdt.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

EIGHTY-ONE THOUSAND TWO HUNDRED AND FORTY-SEVEN births were registered in the province during the month of September 1908, giving a birth-rate of 49 *per mille* of population. Of the total number of births, 42,859 were boys and 38,388 were girls.

The total number of deaths registered from all causes in the province during the month of September 1908 was 99,672 against 46,929 in the previous month and 49,953 in the corresponding month of the past year, giving an annual death-rate of 60, 27 and 30 *per mille* of population per annum, respectively.

There were 2,333 deaths registered under the head of cholera against 2,520 in the previous month and 154 in the corresponding month of the past year.

The total mortality from plague amounted to 247 against 15 in the previous month and 731 in the corresponding month of the past year.

From small-pox 904 deaths were registered against 1,580 in the previous month and 378 in the corresponding month of the past year; fevers 69,421 against 25,650 and 30,383; dysentery and diarrhœa 2,806 against 1,379 and 1,448; respiratory diseases 6,353 against 4,139 and 4,349. During the month there were 36 deaths registered from suicide against 20 in the past month; wounding 55 against 51; accidents 579 against 764; snake-bite and killed by wild beasts 185 against 234; and from all other causes 16,748 against 10,578 in the previous month and 11,716 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 9th November 1908.

NOTE.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 31st October 1908, there were 1,339 births registered in the 43 large municipal towns (686 males and 653 females), giving a birth rate of 48 *per mille* of population, and 3,577 deaths were registered (1,697 males and 1,880 females), giving a death rate of 128 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 59 against 70 in the corresponding week of the previous year; Lahore 111 against 35; Amritsar 308 against 52; and Multán 87 against 42. There were 6 deaths reported from plague in Gujránwála. Of the 3 deaths from small-pox, 1 each was registered in Jagraon, Siálkot and Jhang-Maghiána. There were 2 deaths recorded from cholera in Siálkot and 1 in Ferozepore. Of the 2,852 deaths from fevers 854 were registered in Amritsar, 329 in Lahore, 303 in Delhi, 170 in Bhera, 86 each in Palwal and Multán, 58 in Sonepat, 54 in Kasúr, 53 in Ludhiána, 51 each in Wazirabad, Gujrát and Jhang-Maghiána, 48 in Pind Dádan Khan, 43 each in Bhiwáni and Pánipat, 41 in Chiniot, 37 in Gujránwála, 35 in Siálkot, 35 in Hánsi, 33 in Ráwalpindi, 32 in Jullundur, 29 each in Sirsa and Karnál, 27 each in Rohtak and Tánda-Urmar, 25 in Batála, 23 in Ferozepore, 22 in Hoshiárpur, 21 in Jhelum, 19 in Jalálpur, 16 each in Jagraon and Dera Gházi Khan, 15 in Jhajjar, 14 in Hissar, 13 in Kaithal, 12 in Jagádhri, 11 in Shahabad, 10 in Khusháb, 7 each in Ambála and Ráekot, 6 in Kartárpur, 5 in Lyallpur and 4 in Rewári.

Deaths reported from plague during the week ending 7th November 1908 in the districts including all municipal towns:—Karnál [illegible], Hoshiárpur 3, Ludhiána 32, Ferozepore 74, Gujránwála 2, Jhang 4, and Lyallpur 4; Patiála State 15[illegible], Jind State 5 and Nábha State 4. Total for the province 279. Total for the previous week 296. Total for the corresponding week of the previous year 272.

W. H. MILLS, Supdt.,

for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, NOVEMBER 20, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 16th NOVEMBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 11 seers. Bajra, 14½ seers. Bejhar, 16 seers.	Crops being harvested. Outturn good. Outturn of cotton below average.	Sowings in progress.
2	Rohtak ..	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 9½ seers. Jowar, 16 seers. Bejhar, 12 seers. Bajra, 14 seers.	Standing crops on irrigated land good and on unirrigated fair. Outturn of jowar (great millet), bajra (bulrush millet) average, and of cotton below average.	Sowings of wheat continue and are satisfactory. Gram slightly damaged by insects in tahsils Rohtak and Sámpla. Malarial fever continues.
3	Gurgaon ...	Very little rainfall at Rewári.	1. Sufficient ... 3. Fair.	Wheat, 7¾ to 9 seers. Barley, 13 to 14½ seers. Gram, 9½ to 10 seers. Bajra, 13 to 13¾ seers. Jowar, 11 to 17 seers. Maize, 12 to 14 seers.	Standing crops flourishing.	Sowings, which are somewhat late on account of fever, mainly, completed on unirrigated area, while half the irrigated area has been sown. Fever still prevalent.
4	Delhi ...	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Barley, 13½ seers. Gram, 9½ seers. Bejhar, 14 seers. Jowar, 15 seers. Bajra, 12 seers. Maize, 14½ seers.	Harvesting in progress. Outturn of cotton below average; other irrigated crops average and unirrigated crops below average.	Sowings continue, which are timely and satisfactory. Fever abating.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Autumn.	Prospects of — Spring.
5	Ambála ...	...	1. Sufficient ... 2. Ditto. 3. Fairly good.	Wheat, 9 seers ... Gram, 10 seers. Barley, 12 seers. Jowar, 15 seers. Bajra, 12 seers. Maize, 14 seers.	Crops being harvested	Rain badly wanted. Sowings in progress. Condition of standing spring crops average. Malarial fever decreasing.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Maize, 13 seers. Gram, 10 seers. Jowar, 17 seers. Gur, 7 seers.	Reaping of chari (great millet) and picking of cotton and chillies continue. Standing crops good.	Sowings in progress and are satisfactory. Fever prevalent.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Barley, 13¾ seers. Maize, 13 seers. Gram, 9¼ seers.	Standing crops good ...	Sowings are timely and satisfactory. Malarial fever decreasing.
8	Ferozepore ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8¼ seers Gram, 10¼ seers.	Crops being harvested. Standing crops fair, except jowar, cotton and maize, which are poor.	Sowings in progress and are satisfactory. Fever prevalent
9	Lahore ...	...	1. Sufficient ... 3. Generally fair.	Wheat, 8 seers ... Gram, 9 seers.	Standing crops fair; expected yield average, except that of maize and cotton.	Sowings in progress and are timely except in certain low-lying lands flooded with water. Fever still prevalent.
10	Amritsar ...	...	1. Sufficient ... 3. Generally good.	Wheat, 9¼ seers... Gram, 9½ seers. Barley, 13 seers. Jowar, 14 seers. Maize, 12 seers. Bajra, 11 seers.	Picking of cotton and chillies, pressing of sugarcane and reaping of other crops continue. Condition of crops in tahsil Amritsar good except on low lands. In Tarn Táran tahsil crops are good except cotton, which is average. In tahsil Ajnála sugarcane is average and other crops below average. Expected yield good.	Sowings in progress and are timely. Fever more prevalent in tahsils Tarn Táran and Amritsar and less in tahsil Ajnála.
11	Siálkot ...	...	1. Insufficient: chari (great millet), maize and straw used as fodder. 3. Generally good.	Wheat, 9 seers ... Barley, 11 seers. Gram, 9 seers. Rice, 8 seers.	Picking of cotton and reaping of other crops in progress. Outturn of rice good and other crops average. Standing crops good.	Rain wanted in unirrigated area. Sowings continue. Germination of crops good. Fever prevalent.
12	Gujránwála ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8 to 9 seers. Maize, 12 seers. Bajra, 13 seers. Jowar, 13 seers.	Sugarcane and rice good, cotton below average, and other crops not good.	Sowings of wheat and barley continue on irrigated land. Prospects good. Fever prevalent.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat rising and other staples unchanged.	Standing crops in fair condition. Outturn of bajra (bulrush millet) good, and of other crops generally fair.	Sowings of wheat and barley in progress and are timely though restricted in extent by fever in Bhera and by appearance of Toka (grass-hopper) in Khusháb tahsils. Toka damaging wheat and gram in Khusháb tahsil. Fever prevalent.
14	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 8¾ seers... Barley, 14¼ seers. Bajra, 12¾ seers. Gram, 10 seers. Maize, 12¾ seers.	Harvesting in progress. Outturn average.	Sowings completed and are satisfactory. Rain wanted. Fever prevalent.
15	Miánwáli ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Barley, 16 seers. Gram, 11 seers. Bajra, 14 seers.	Outturn of autumn crops average on irrigated and below average on unirrigated areas.	Sowings of wheat and barley in progress. Fever prevalent.
16	Lyallpur ...	...	1. Dry fodder sufficient; green scarce. 3. Good.	Wheat, 9¼ seers... Gram, 9¾ seers. Jowar, 15 seers. Maize, 12½ seers.	Standing crops average. Picking of cotton in progress. Sugarcane is in good condition. Outturn of maize and cotton below average.	Sowings in progress and are timely and satisfactory. Condition of toria (Brassica campestris) good. Fever prevalent.
17	Jhang ...	...	1. Insufficient ... 3. Fair.	Wheat, 9 seers ... Gram, 10 seers. Jowar, 11 seers. Bajra, 11 seers. Maize, 12 seers.	Standing crops not good. Outturn poor.	Crops being satisfactorily sown. Fever prevalent.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 9⅜ seers... Gram, 10½ seers. Maize, 14¼ seers.	Standing crops average...	Wheat sowings are satisfactory.

GENERAL REMARKS.

No rain of importance. Rain is needed in Ambála, Ráwalpindi and parts of Siálkot. Autumn crops are being harvested. The condition and expected yield of autumn crops are generally good to average, but are below average in Jhang and on unirrigated lands in Miánwáli. The outturn of cotton is generally below average. Jowar is poor in Ferozepore, and maize in Ferozepore, Lahore and Lyallpur. Sowings of spring crops continue satisfactorily, but are somewhat late in Gurgaon and parts of Lahore. Gram has been slightly damaged by insects in parts of Rohtak. Toka (grass-hopper) is damaging wheat and gram in parts of Shahpur. Malarial fever is still retarding agricultural operations. Prices are high and show a slight upward tendency. Cattle are in good condition. Fodder is sufficient except in Siálkot and Jhang.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

rain gauge station.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of October 1908.

1.—HISSAR DISTRICT.

Kharif crops being reaped : outturn good. Fodder sufficient. Cattle in good condition. Water-supply in canal sufficient.

2.—ROHTAK DISTRICT.

Sowings of gram, sarshaf and wheat in progress. The standing sugarcane crop is not in good condition. It was sown to a small extent and that too is unripened as yet. Cotton has borne very little fruit. The yield of bajra and til is about average, of jowar little, of jowar as fodder good, of mung below average, of cotton on canal lands and of sugarcane expected to be poor and that of cotton on unirrigated lands bad. In several cases the latter has been replaced by gram. Cattle generally in good condition. Malarial fever throughout the district. Canal supply insufficient.

3.—GURGAON DISTRICT.

Rabi crops were sown. One-half of the unirrigated and $\frac{1}{2}$th of the irrigated area was sown during the month. The expected outturn of thet kharif crops on both irrigated and unirrigated area is estimated to be an 8-anna one. Rabi crops were in good condition. Cattle in fair condition. Fodder sufficient. Fever was prevalent throughont the district which hindered the agricultural work to some extent. Lands were irrigated by canals and the district board bunds.

4.—DELHI DISTRICT.

Sowings of wheat, gram, barley, tobacco, etc., in progress. The kharif crop being harvested. Cotton picking is in progress. Outturn average. Cattle in good condition. The malarial fever was prevalent in the district. The canal was open during the month. Grass plentiful. Prices of food-grains were higher than those in the preceding month, due to the sowing of the rabi crops.

5.—KARNAL DISTRICT.

The land is being prepared for wheat and barley sowings. Sowings of gram and toria finished. Condition of crops is generally good except that the barani jowar in parts of the Kaithal tahsil has suffered owing to drought. Jowar, bajra and rice being harvested. Cotton picking has begun. The expected yield of cotton is below average, of rice average and of jowar and bajra above average. Sugarcane pressing has begun in some tracts and the yield is expected to be good. Condition of cattle good. Fodder and water sufficient. Malarial fever is still rife, and on account of want of hands labour is very dear. The canals (Western Jumna Canal and Sirhind) were working.

6.—AMBALA DISTRICT.

All rabi crops except wheat have been sown. The total area sown is about $\frac{3}{5}$ths of the normal. The kharif crops were harvested. Ziri and dhan suffered badly for want of rain which affected cotton also to some extent. The yield was generally good in seoti and sailab lands. In dakar tract it was about the average. The yield of cotton was less than what was expected. Condition of cattle good. There was plenty of fodder. Malarial fever prevailed throughout the district which interfered with the agricultural operations to some extent. The Western Jumna Canal irrigated a good deal of area sown with rabi. The condition of the kharif crops was on the whole good. Failure of September rains has delayed the rabi sowings.

7.—SIMLA DISTRICT.

In the Simla tahsil wheat was sown to the extent of $\frac{1}{60}$th of the expected sowings. In the Kot Khái tahsil, wheat, barley and poppy were sown to the extent of $\frac{2}{3}$rds of the expected sowings. Condition of cattle good. Fodder and grazing sufficient in both tahsils. State of public health good. Water-supply from hill streams sufficient. In the Simla tahsil $\frac{1}{30}$th of the normal area was watered.

8.—KANGRA DISTRICT.

Some area was sown with wheat, barley and gram. Condition of kharif crops on irrigated area generally good and on unirrigated area moderate with the exception of some tracts where the late sown crops have suffered for want of rainfall in October. Yield of rice is above the average, and that of other crops on unirrigated area below average. Malarial fever is prevalent throughout the district. Water in the kuhls (water-stream) is sufficient for irrigation purposes. Prices have fallen to some extent.

9.—HOSHIARPUR DISTRICT.

Rabi sowings continued. Condition of sugarcane and rice crops fairly good. Outturn of cotton about average. Cattle are doing well and green fodder is sufficient. Seasonal fever still continues. Rice crop was irrigated from Shah Nahr Canal. Prices of food-grains continue high.

10.—JULLUNDUR DISTRICT.

Sowing of wheat, gram and senji in progress. Standing crops in good condition. Yield expected to be good. Cattle in good condition. Malarial fever prevalent.

11.—LUDHIANA DISTRICT.

Sowings of rabi crops completed. Condition of standing crops good. Harvesting has begun on a small scale, but the yield cannot at present be estimated with any degree of certainty. Condition of cattle satisfactory. Fodder sufficient. Malarial fever is still prevalent throughout the district. Irrigation from canals satisfactory. Prices rose slightly during the month.

12.—FEROZEPORE DISTRICT.

Barley, gram, sarshaf, taramira and wheat were sown. Standing kharif crops, except jowar and maize, were generally in good condition. Cotton crop was below average. Yield expected to be fair. Malarial fever prevails throughout the district. Sirhind and district inundation canals had been flowing, and a normal area was irrigated from them. The agriculturists are generally well off. Stocks of food-grains sufficient. Fodder sufficient.

13.—MONTGOMERY DISTRICT.

Rabi sowings in progress. Condition of cotton and jowar crops bad, and that of others average. Average yield expected. Outturn of cotton small. Condition of cattle good. Fodder sufficient. Malarial fever is still prevalent. This has prevented zamindars from ploughing their lands, the moisture of which has now dried up. Canals have dried up and there has therefore been no irrigation from them this month.

14.—LAHORE DISTRICT.

Wheat, gram, barley, turnips, rapeseed and toria were sown. Condition of standing crops fair except that of maize. Expected yield about average except of cotton and maize. Condition of cattle fair. Malaria prevailing throughout the district. The perennial and inundation canals ran short. Prices high and rising.

15.—AMRITSAR DISTRICT.

Wheat, gram, sarshaf, toria, barley, berrora, senji, massar, linseed, carrots, radish, and turnips being sown. Condition of standing crops except those on low lands average. Sugarcane in good condition. In tahsil Amritsar outturn of maize very poor, of cotton below average and of other crops average. Outturn average in tahsil Tarn Táran. In tahsil Ajnála, yield of sugarcane average, while that of other crops below average. Condition of cattle generally good. Malarial fever more in tahsil Amritsar and Tarn Táran and less in Ajnála tahsil. Canal supply sufficient.

16.—GURDASPUR DISTRICT.

Rabi sowings well in progress owing to sufficient moisture in the lands. The standing crops, sugarcane and cotton, are in good condition. An insect caused some damage to mash in tahsil Pathánkot. Outturn of maize, rice and cotton average. Mash, moth and til are being cut, but not yet threshed. Fodder is sufficient. Malarial fever prevalent throughout the district. Government canal flowing, but not irrigating. Rivers low. The prices have somewhat risen owing to want of grain for seed purposes.

17.—SIALKOT DISTRICT.

Sowing of wheat, goji, barley, massar, linseed, toria, turnip, rape, senji and gram in progress. Condition of standing kharif crops and germination of rabi crops good. Reaping of maize, rice, mash, til, bajra, chari, and mandal and picking of cotton continued. Outturn of rice good, and that of maize and cotton average. Condition of cattle generally good. Malarial fever throughout the district. Water sufficient in Bajwat canals.

18.—GUJRANWALA DISTRICT.

Barley, gram and turnip sowings in progress and were timely. The condition of crops on irrigated land is good and on barani land fair. Rice, jowar, bajra and maize crops being cut, and cotton pickings are in progress. Outturn of rice average, of jowar, bajra and maize bad, and of cotton so far poor. General condition of cattle good. Fodder sufficient. Malarial fever still continues, preventing extensive sowings.

19.—GUJRAT DISTRICT.

Ploughings for and sowings of rabi crops in progress. Malarial fever has to some extent interfered in the work of preparing lands. Condition of standing crops fair. Estimated yield average to below average. Fodder sufficient. Prices stationary.

20.—SHAHPUR DISTRICT.

Sowing of wheat, barley, gram, sarson, taramira, turnips and vegetables continued during the month, but to a restricted extent owing to the prevalence of malarial fever Standing crops in fair condition except jowar, which is generally inferior. Bajra, jowar moth and cotton were harvested in Bhera, Shahpur, and Khusháb tahsils. Outturn of bajra was good in Khusháb tahsil and that of other articles was generally fair. Cattle in good condition. Fodder sufficient. The inundation canals have ceased to flow. The Lower Jhelum Canal is running. Prices stationary. Stoch of food-grains is reported to be somewhat deficient in the Khusháb tahsil.

21.—JHELUM DISTRICT.

No rain during the month, but there was sufficient moisture. Rabi sowings nearly completed. Kharif crops being harvested. Condition of standing cotton crop average. Expected yield average on the whole. Condition of cattle good. Fodder sufficient. There is a general complaint of malarial fever throughout the district.

22.—RAWALPINDI DISTRICT.

Three-fourths of the expected sowings have been done. The outturn will be average. Condition of cattle fair. Stock of grain insufficient. Fodder sufficient. Fever prevalent in the district.

23.—ATTOCK DISTRICT.

Sowings done on a large scale. Condition of crops good. Expected yield good Condition of cattle good. Fodder sufficient. Malarial fever prevalent to some extent.

24.—MIANWALI DISTRICT.

Taramira, turnips, gram, wheat and barley being sown. Lands having remained under water, the zamindars were behind time in sowing. Condition of kharif crops on irrigated area average: on unirrigated below average. The expected kharif outturn on irrigated area average and on unirrigated below average. Jowar and bajra crops have borne much less grain in the thal of Miánwali and Isa Khel. Moth crop has borne less pods. Mung and mash have been much less productive in Bhakkar and Leiah. Condition of live-stock fair. Fodder sufficient. Malarial fever prevalent. The Kurram canal has been irrigating the neighbouring lands.

25.—LYALLPUR DISTRICT.

Wheat sowings have begun. They are in time, but are progressing slowly where there is a tail supply of water. Massar, gram and barley also being sown. Sugarcane in good condition. Toria promises well. Cotton has improved and is flowering. Maize is being harvested: outturn below average. Outturn of jowar poor, and cotton below average, but better than it promised. General complaints of malaria among men, especially in the Hithar Complaints of short water-supply in canal in Burala division and on tail of Mungi and Tarkhani. Prices are still very high, and food stocks are low, where the floods did damage.

26.—JHANG DISTRICT.

Sowings of turnips, gram and toria completed. Wheat, barley and massar being sown. Condition of crops below average. Kharif crops being harvested. Outturn generally average. Condition of cattle fair. Supply of green fodder (chari) gradually diminishing. There is a general complaint of malarial fever throughout the district injuriously affecting the rabi sowings. Sufficient supply of water in canals though little in rivers.

27.—MULTAN DISTRICT.

Wheat, turnips, gram, peas and assun being sown. Condition of crops average both on irrigated and unirrigated areas. Yield of rice, bajra and china average and that of jowar and cotton below average. Condition of cattle good. Malarial fever prevailing throughout the district. Sutlej Inundation Canals and Sidhnai Canal flowing by turn.

28.—MUZAFFARGARH DISTRICT.

Turnips, gram, assun and peas sown. Sowing of wheat and barley also begun. Condition of sugarcane crop good. Cotton is said to be damaged by an insect in Alipur tahsil. In Muzaffargarh tahsil it has suffered somewhat from soma (sub-soil water). The yield of sugarcane was about 11 maunds per acre, bajra 4 maunds and rice about 9 maunds. Bhusa is available as fodder. Malarial fever prevailing. Canals were running only in Sinánwan tahsil. Prices continue to be high.

29.—DERA GHAZI KHAN DISTRICT.

Sowings of wheat in progress, and of gram, turnips, assun and peas nearly finished. Crops in fair condition where existent. Much has been destroyed by floods. The expected yield of rice, cotton and bajra good. Jowar abundant, but outturn disappointing owing to some disease. Cattle thriving. Fodder and especially grazing abundant. There are places in Jámpur and Rájanpur where owing to floods and absence of kharif fodder, rabi cultivation will not be easy Animals that can graze at large are all right. The malarial fever is abnormal. The land here is in places very hard and zamindars will miss good sowings through inability to break it up when moist. Harvesting also impending Canals have ceased. Prices are still high.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 7th November 1908, there were 1,345 births registered in the 43 large municipal towns (715 males and 630 females), giving a birth rate of 48 *per mille* of population, and 3,472 deaths were registered (1,673 males and 1,799 females), giving a death rate of 124 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 100 against 49 in the corresponding week of the previous year; Lahore 113 against 35; Amritsar 300 against 44; and Multán 81 against 38. There were 2 deaths reported from plague in Gujránwála and 1 in Ferozepore. Of the 2 deaths from small-pox, 1 each was registered in Siálkot and Dera Gházi Khan. There were 2 deaths recorded from cholera in Siálkot and 1 in Hoshiárpur. Of the 2,780 deaths from fevers, 860 were registered in Amritsar, 322 in Lahore, 300 in Delhi, 160 in Bhera, 90 in Palwal, 78 in Multán, 62 in Gujrát, 57 in Ludhiána, 56 in Kasúr, 54 in Gujránwála, 52 in Wazírabad, 50 in Sonepat, 46 in Pánipat, 45 in Siálkot, 43 in Jhang-Maghiána, 36 in Hánsi, 35 in Ferozepore, 34 in Batála, 33 each in Bhiwáni and Chiniot, 32 in Pind Dádan Khan, 25 in Jullundur, 23 each in Sirsa, Karnál and Jhelum, 19 in Hoshiárpur, 18 in Ráwalpindi, 17 in Ambála, 16 in Jalálpur, 15 each in Khusháb and Dera Gházi Khan, 13 each in Jhajjar, Jagraon and Lyallpur, 10 each in Rohtak, Kaithal and Tánda-Urmar, 9 in Hissar, 8 in Shahabad, 7 in Rewári, 6 in Jagádhri, 5 in Ráekot and 4 in Kartárpur.

Deaths reported from plague during the week ending 14th November 1908 *in the districts including all municipal towns*:—Hoshiárpur 15, Ludhiána 53, Ferozepore 119, Montgomery 2, Gujránwála 5, Shahpur 5, Jhang 2, and Lyallpur 2; Patiála State 193, Jínd State 7 and Nábha State 9. Total for the province 412. Total for the previous week 279. Total for the corresponding week of the previous year 314.

					Autumn.	Spring.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 11 seers. Bajra, 14 seers. Bejhar, 15 seers.	Threshing of crops continue. Outturn good. Outturn of cotton crop average.	Sowings in progress.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 10 seers. Bajra, 13½ seers. Maize, 13 seers. Jowar, 15½ seers.	Harvesting of crops continues. Cotton being picked. Outturn below average.	Sowings of wheat in progress, but are somewhat late. Standing crops are in good condition. Gram seedlings slightly damaged by insects. Malarial fever continues.
3	Gurgaon ...	...	1. Ample ... 3. Fair.	Wheat, 7½ to 9 seers. Barley, 13 to 15 seers. Gram, 9½ to 11½ seers. Bajra, 12½ to 13¼ seers Maize, 12 to 14 seers.	...	Sowings in progress and are timely. Standing crops in flourishing condition except in Nuh and Firozpur tahsils where newly sown barley and gram damaged by large field crickets. Yield expected good. Fever still prevalent.
4	Delhi ...	...	1. Sufficient ... 2. Canal open. 3. Good.	Wheat, 8¼ seers... Gram, 9½ seers. Barley, 12½ seers. Jowar, 14½ seers. Bajra, 13 seers. Maize, 14½ seers. Bejhar, 14 seers.	Cotton picking in progress. Outturn below average.	Sowings continue and are timely and satisfactory. Fever abating.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
5	Ambála ...	...	1. Sufficient ... 2. Ditto. 3. Fairly good.	Wheat, 9 seers ... Gram, 9½ seers. Barley, 12 seers. Maize, 14 seers. Jowar, 15 seers. Bajra, 12 seers.	Yield of autumn crops average.	Rain badly wanted. Sowings in progress, and are somewhat late. Fever decreasing.
6	Jullundur ..	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Maize, 13 seers. Gram, 10 seers. Jowar, 15 seers. Gur, 6 seers.	Picking of cotton and chillies continues. Standing crops good.	Sowings of wheat, gram, barley and vegetables in progress and are timely. Fever decreasing.
7	Ludhiána ...	...	1. Sufficient ... 3. Satisfactory.	Wheat, 9 seers ... Barley, 12½ seers. Maize, 12½ seers. Gram, 9¼ seers.	Standing crops good ...	Malarial fever decreasing.
8	Ferozepore ...	...	1. Sufficient ... 3. Good.	Wheat, 8¼ seers Gram, 10 seers.	Harvesting continues. Standing crop of cotton poor.	Sowings in progress and are satisfactory. Growth good.
9	Lahore ...	...	1. Sufficient ... 3. Generally fair.	Wheat, 8 seers ... Gram, 9 seers.	Standing crops fair. Expected yield about average, except that of maize and cotton.	Sowings of wheat, barley and linseed in progress and are timely except in low-lying lands flooded with water. Fever still prevalent.
10	Amritsar ...	...	1. Sufficient ... 3. Generally good.	Wheat, 9 seers ... Gram, 9½ seers. Barley, 13 seers. Jowar, 13 seers. Maize, 12 seers. Bajra, 11 seers.	Picking of cotton and chillies and pressing of sugarcane in progress. Condition of crops in tahsils Amritsar and Tarn Táran generally good; in tahsil Ajnála below average except that of sugarcane which is average. Yield expected good.	Sowings in progress and are timely. Fever still very prevalent.
11	Siálkot ...	...	1. Insufficient: great millet, maize and straw used as fodder. 3. Generally good.	Wheat, 8 seers ... Barley, 12 seers. Gram, 8½ seers. Rice, 8 seers.	Threshing of rice and mash (Phaseolus radiatus) commenced and picking of cotton continued. Outturn of rice good, of mash average and of cotton about average. Pressing of sugarcane commenced in parts. Standing crops good. Cotton damaged by insect in tahsil Zafarwál.	Rain wanted in unirrigated area. Sowings in progress and are timely. Germination of crops good. Fever abating.
12	Gujránwála ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8 to 9 seers. Gram, 10 to 11 seers. Maize, 11½ to 12 seers. Bajra, 12 seers.	Rice and bajra (bulrush millet) average, cotton below average and other crops poor.	Sowings continue on irrigated land. Standing spring crops doing well. Fever still prevalent.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat rising and other staples unchanged.	Standing crops good in Bhera and Shahpur tahsils; fair in Sargodha and Khusháb tahsils. Cotton being picked in Bhera and Shahpur tahsils. Outturn average.	Sowings in progress and are timely and likely to be extensive. Toka damaging wheat and gram in Khusháb tahsil. Fever very prevalent.
14	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 8½ seers... Barley, 14¼ seers. Bajra, 12 seers. Gram, 10 seers. Maize, 12½ seers.	Harvesting in progress. Outturn average.	Condition of germinated crops good. Rain wanted. Fever abating.
15	Miánwáli ...	...	1. Sufficient ... 3. Fair.	Wheat, 9½ seers... Barley, 15 seers. Gram, 11 seers. Bajra, 14 seers.	Crops on irrigated lands average and on unirrigated lands below average. Expected outturn of jowar (great millet), moth (phaseolus acontifolius) and mung (phaseolus mungo) below average.	Sowings of wheat and barley in progress and are late owing to Kachi lands being flooded. Fever prevalent.
16	Lyallpur ...	...	1. Green fodder scarce and dry average. 3. Good.	Wheat, 9¼ seers... Gram, 9¼ seers. Jowar, 15 seers. Maize, 12½ seers.	Cotton picking continues. Sugarcane in good condition. Outturn of cotton and maize below average.	Barley and gram being sown. Sowings are timely and satisfactory. Toria (Brassica campestris) in good condition.
17	Jhang ...	...	1. Insufficient ... 3. Good.	Wheat, 8½ seers... Gram, 10 seers. Bajra, 11 seers. Jowar, 11 seers. Maize, 12 seers.	Standing crops below average.	Sowings in progress. Fever prevalent.
13	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers... Gram, 10¼ seers. Maize, 12¼ seers.	Standing crops average. Harvesting in progress.	Sowings in progress and are satisfactory. Fever prevalent.

GENERAL REMARKS.

Rainfall *nil*. Rain is needed in Ambála, Ráwalpindi and parts of Siálkot. Autumn crops are being harvested. The condition and expected yield of autumn crops are generally good to average, but are below average in Gujránwála, Jhang and on unirrigated land in Miánwáli. The outturn of cotton is generally below average. Maize is below average in Lahore and Lyallpur and jowar (great millet), moth (phaseolus acontifolius) and mung (phaseolus mungo) in Miánwáli. Sowings of spring crops continue satisfactorily, but are somewhat late in Rohtak, Ambála, parts of Lahore and Miánwáli. Gram and barley damaged by insects in [illegible]gaon and cotton in Gujránwála. Toka (grass-hopper) is damaging wheat and gram in parts of Shahpur. Malarial fever is still prevalent throughout the Punjab, but is abating in several districts. Prices are high and show a slight upward tendency. Cattle are in good condition. Fodder is sufficient except in Siálkot and Jhang.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

n Mean of 17 days.
a Indeterminate.
e Mean of 29 days.
f Mean of 28 days.
l Mean of 22 days.

A depression which was shown in Rájputána on the 1st travelled into the Punjab and occasioned heavy rain there and in the North-West Frontier Province during the first six days of the month. Rainfall was especially heavy in the western districts, and at several stations, such as Khusháb, Multán, Dera Ismail Khan, Pesháwar and Cherát, it was more than six times the normal quantity for the month. There was very little rain anywhere after the first week, but in consequence of the extraordinarily heavy rain at the beginning of the month the weather during September in the West Punjab and the North-West Frontier Province was unusually damp and cool, while in the East Punjab, where rainfall was below the average, fairly normal humidity and temperature conditions prevailed.

Pressure and winds.—Pressure was in general slight excess. Winds differed considerably from their usual direction in the West Punjab and the North-West Frontier Province, and were considerably below their normal strength at Cherát.

Temperature.—Was fairly normal in the East Punjab, but was in moderate to large defect elsewhere, the deficiency being shown chiefly in the day time, At Montgomery, Dera Ismail Khan and Cherát the maximum averaged from 7° to 8½° below normal.

The following table shows the departures from the normal of the mean temperature of the Punjab, and the North-West Frontier Province on each day of the month and the highest temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 29th ...	0	100·9	Montgomery.
" 30th ...	− 0·2	100·3	Sirsa.

From the above table it will be seen that the mean temperature of the Punjab and North-West Frontier Province was more or less in defect on every day except on the 29th and 30th. Temperature was largely below normal for the first six days of the month which corresponded with the time of most general rainfall, but the defect decreased considerably after the 13th, and for the rest of the month it was comparatively small, disappearing altogether on the 29th.

Humidity and cloud.—The air was somewhat drier than usual in the area of deficient rainfall in the East Punjab, but in other parts humidity was in marked excess, at Lahore and Cherát the excess amounting to 13 and 18 per cent. respectively. The amount of cloud was approximately normal.

Rainfall.—Most of the month's rainfall occurred during the first six days, but was extraordinarily heavy in the western districts, so that in the West Punjab and the North-West Frontier Province it was very largely above the average of the month. Khushâb for instance recorded nearly seven inches as compared with the normal fall of only half an inch. Rainfall was also in large excess in part of Kashmír, but was in large defect in the East Punjab, where very little rain fell.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for September 1908 :—

Station.	Actual rainfall in September 1908.	Normal average rainfall in September.	Difference from the average in September 1908.

NOTE.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 14th November 1908, there were 1,166 births registered in the 42 large municipal towns (582 males and 584 females), giving a birth rate of 42 *per mille* of population, and 3,147 deaths were registered (1,529 males and 1,618 females), giving a death rate of 114 *per mille* of population. The death rates registered in the four largest towns were as follows :—Delhi 109 against 48 in the corresponding week of the previous year; Lahore 94 against 37; Amritsar 281 against 53; and Multán 81 against 42. There were 5 deaths reported from plague in Gujránwála. Of the 2,381 deaths from fevers, 732 were registered in Amritsar, 294 in Delhi, 274 in Lahore, 120 in Bhera, 79 in Multán, 63 in Palwal, 48 in Ludhiána, 44 in Gujrát, 43 in Kasúr, 40 in Wazírabad, 38 each in Bhiwáni and Gujránwála, 36 each in Sonepat and Pind Dádan Khan, 35 in Jhang-Maghiána, 32 each in Ferozepore and Siálkot 26 in Batála, 25 in Ráwalpindi, 23 each in Karnál, Pánipat and Jhelum, 22 each in Hánsi and Chiniot, 20 in Jalálpur, 19 each in Ambála and Hoshiárpur, 16 each in Hissar and Sirsa, 15 each in Kaithal, Tánda-Urmar, Jullundur and Dera Gházi Khan, 14 in Khusháb, 13 in Jagraon 12 in Rohtak, 10 in Jhajjar, 9 in Lyallpur, 6 each in Rewári and Jagádhri, and 4 each in Kartárpur and Ráekot.

Deaths reported from plague during the week ending 21st November 1908 *in the districts including all municipal towns*:—Hoshiárpur 30, Ludhiána 20, Ferozepore 83, Gujránwála 17, Shahpur 4, Jhang 7, and Lyallpur 4; Patiála State 98 and Jínd State 5. Total for the province 273. Total for the previous week 414. Total for the corresponding week of the previous year 304.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 30th NOVEMBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Gram, 10⅓ seers. Bajra, 14 seers. Bejhar, 16 seers.	Harvesting continue. Outturn good. Outturn of cotton average.	Sowings in progress and are satisfactory. Crops in fair condition.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Gram, 9½ seers. Jowar, 16 seers. Bajra, 14 seers. Bejhar, 12 seers.	Picking of cotton continues.	Sowings of wheat and barley in progress, but are somewhat late. Standing crops in good condition, but rain is badly wanted. Fever continues.
3	Gurgaon ...	0·30 at Sadr ...	1. Sufficient for present needs. 3. Fair.	Wheat, 7⅓ to 9 seers. Barley, 13 to 16 seers. Gram, 9¼ to 11⅓ seers. Bajra, 12⅓ to 13⅓ seers. Maize, 12 to 14 seers.	...	Sowings in progress. Standing crops are in fair condition, but barley and gram damaged to some extent by large field crickets in all tahsils excepting Rewári tahsil. Yield expected good. Fever decreasing.
4	Delhi ...	0·04 at Sonepat. Drizzled at other places.	1. Sufficient ... 3. Good.	Wheat, 8¼ seers... Barley, 13½ seers. Gram, 9¼ seers. Jowar, 14½ seers. Bajra, 12½ seers. Maize, 14 seers. Bejhar, 14 seers.	Cotton pickings continue. Outturn below average.	Sowings in progress, and are timely and satisfactory. Fever abating.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
5	Ambála ...	0·15 at Sadr ... 0·18 at Jagádhri. 0·29 at Naráingarh. 0·33 at Kharar. 0·22 at Rúpar. 0·48 at Kasauli.	1. Sufficient ... 2. Ditto. 3. Fairly good.	Wheat, 9 seers ... Gram, 10 seers. Barley, 12½ seers. Maize, 14¼ seers. Jowar, 19 seers. Bajra, 12 seers.	...	Sowings in progress, but are somewhat late. Standing crops average.
6	Jullundur ...	0·15 at Sadr ... 0·13 at Phillaur. 0·09 at Nowshera.	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Maize, 12¾ seers. Gram, 10 seers. Jowar, 14½ seers. Gur, 6½ seers.	Picking of cotton and threshing of maize, char (great millet) and moth (Phaseolus acontifolius) in progress. Standing crops good.	Sowings of wheat and barley in progress and are satisfactory. Fever decreasing.
7	Ludhiána ...	0·05 at Sadr ... 0·08 at Samrála.	1. Sufficient ... 3. Good.	Wheat, 8½ seers ... Barley, 12 seers. Maize, 12 seers. Gram, 9 seers.	...	Crops growing satisfactorily. Fever decreasing.
8	Ferozepore ...	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Gram, 10 seers.	Standing crop of cotton except in tahsils Moga and Zíra poor.	Sowings in progress and are satisfactory. Growth good.
9	Lahore ...	...	1. Sufficient ... 3. Generally fair.	Wheat, 8 seers ... Gram, 9 seers.	Standing crops fair. Expected yield about average, except that of cotton and maize.	Sowings of wheat and barley in progress and are timely except in certain low-lying lands still flooded with water. Fever still prevalent.
10	Amritsar ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8¼ seers ... Gram, 9½ seers. Barley, 13 seers. Jowar, 13 seers. Maize, 12 seers. Bajra, 11 seers.	Pickings of cotton and chillies and pressing of sugarcane continue. Condition of crops in tahsils Amritsar and Tarn Táran good, except on low lands; in tahsil Ajnála below average, except that of sugarcane, which is average. Yield expected good.	Sowings of wheat, barley, &c., in progress, which are somewhat late. Fever still prevalent.
11	Siálkot ...	0·18 at Sadr ... 0·24 at Zafarwál. 0·32 at Raya. 0·35 at Pasrúr.	1. Insufficient. Chari (great millet), maize and straw used as fodder. 3. Generally good.	Wheat, 8¼ seers Barley, 12 seers. Gram, 8¾ seers. Rice, 8 seers.	Threshing of rice, picking of cotton and pressing of sugarcane continue. Outturn of rice and sugarcane good, and that of cotton about average. Standing crops good.	Sowings in progress, and are satisfactory. Germination of crops good. Fever abating.
12	Gujránwála ...	Slight rainfall in Wazirabad tahsil.	1. Sufficient ... 3. Generally good.	Wheat, 8 to 9 seers. Gram, 10 to 11 seers. Bajra, 13 seers. Maize, 11½ to 12 seers.	Rice good; cotton and sugarcane about average; and other crops below average. Agricultural prospects average.	Sowings of wheat and barley continue on irrigated lands. Toria (Brassica campestris) doing well.

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ to 9½ seers. Barley, 13 to 15 seers. Gram, 8¾ to 10½ seers. Jowar, 12 to 14 seers. Maize, 12 to 13 seers. Bajra, 12 to 13 seers.	Standing crops good in Bhera and Shahpur tahsils; fair in other tahsils. Cotton pickings continue in Bhera and Shahpur tahsils. Outturn fair in Shahpur and poor in unirrigated portions of Bhera tahsil.	Sowings in progress, and are timely and extensive in area. Toka damaging spring crops in parts of Khushab tahsil. Fever still prevalent.
14	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 8½ seers... Barley, 13¾ seers. Bajra, 12 seers. Gram, 9½ seers. Maize, 12½ seers.	Harvesting in progress. Outturn average.	Condition of spring crops good. Rain wanted. Fever abating.
15	Miánwáli ...	...	1. Sufficient ... 3. Fair.	Wheat, 9 seers ... Barley, 13 seers. Gram, 11 seers. Bajra, 13 seers.	Autumn crops on irrigated area average and on unirrigated poor. Outturn of cotton on irrigated area fair, and that of jowar (great millet), til (sesamum) and moth (Phaseolus acontifolius) poor.	Sowings of wheat and barley in progress, but are late owing to lands being flooded. Toka (grass-hopper) damaging young wheat, barley and gram in Bhakkar tahsil. Fever abating.
16	Lyallpur ...	...	1. Scarce ... 3. Good.	Wheat, 8½ to 8¾ seers. Gram, 9½ seers. Maize, 12 seers.	Pressing of sugarcane commenced in tahsil Lyallpur. Cotton picking in progress. Outturn of sugarcane average, and that of cotton and maize below average.	Sowings nearly finished, and are timely and satisfactory. Harvesting of toria (Brassica campestris) commenced. Fever still prevalent.
17	Jhang ...	...	1. Insufficient ... 3. Fair.	Wheat, 9 seers ... Gram, 9 seers. Bajra, 11 seers. Jowar, 11 seers. Maize, 12 seers.	Standing crops barley average. Outturn poor.	Sowings of spring crops are satisfactory. Fever prevalent.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers... Gram, 10¼ seers. Maize, 12¾ seers.	Standing crops average. Harvesting of til (linseed), sugarcane, jowar (great millet) and bajra (bulrush millet) continue. Outturn average. Cotton slightly damaged by insects in Mailsi and Shujabad tahsils.	Sowings in progress, and are satisfactory. Fever abating.

GENERAL REMARKS.

Sta

Ambála, and Siálkot which needed rain have received slight but useful falls. No other rain of importance. Rain is needed
in Rohtak and Ráwalpindi. Autumn crops are being harvested. Condition and expected yield of autumn crops are generally
good to average, but are below average in Gujránwála, Jhang and on unirrigated land in Miánwáli. The outturn of cotton is
generally below average. Maize is below average in Lahore and Lyallpur, and jowar (great millet), til (sesamum) and moth (Phase-
olus acontifolius) in Miánwáli. Harvesting of toria (Brassica campestris) commenced in Lyallpur. Sowings of spring crops con-
tinue, but are somewhat late in Rohtak, Ambála, Amritsar, and parts of Lahore and Miánwáli. Spring sowings are extensive, and
the crop is doing well. Barley and gram damaged by insects in Gurgaon. Toka (grass-hopper) is damaging spring crops in
Shahpur and Miánwáli. Malarial fever is still prevalent throughout the province but is abating in several districts. Prices are
high and show a slight upward tendency. Cattle are in good condition. Fodder is sufficient except in Siálkot, Lyallpur and
Jhang.

W. C. RENOUF,

Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 21st November 1908, there were 1,247 births registered in the 43 large municipal towns (621 males and 626 females), giving a birth rate of 45 *per mille* of population, and 2,826 deaths were registered (1,403 males and 1,423 females), giving a death rate of 101 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 94 against 56 in the corresponding week of the previous year; Lahore 86 against 42; Amritsar 250 against 48; and Multán 75 against 39. There were 5 deaths reported from plague in Gujránwála and 3 in Ferozepore. Of the 2 deaths from small-pox, 1 was registered in Amritsar and 1 in Siálkot. Of the 2,119 deaths from fevers, 660 were registered in Amritsar, 261 in Delhi, 255 in Lahore, 91 in Bhera, 68 in Multán, 50 in Ludhiána, 48 in Palwal, 47 in Kasúr, 45 in Jhang-Maghiána 44 in Wazírabad, 37 each in Sonepat and Gujrát, 34 in Gujránwála, 33 in Pind Dádan Khan, 28 in Pánipat, 27 in Bhiwáni, 26 in Ráwalpindi, 25 in Chiniot, 24 in Siálkot, 21 each in Hánsi, Karnál and Khushâb, 18 each in Ferozepore and Batála, 17 each in Hissar and Sirsa, 16 each in Kaithal and Jullundur, 12 each in Hoshiárpur, Jhelum and Lyallpur 11 in Ambála, 10 in Rohtak, 8 in Jhajjar, 7 each in Rewári, Jagádhri and Ráekot, 6 in Jagraon, 5 each in Tánda Urmar, Jalálpur and Dera Gházi Khan, 4 in Shahabad, and 3 in Kartárpur.

Deaths reported from plague during the week ending 28th November 1908 *in the districts including all municipal towns*:—Hoshiárpur 53, Ludhiána 40, Ferozepore 122, Lahore 25, Gujránwála 22, Jhang 3, and Lyallpur 14; Patiála State 92 and Náuha State 24. Total for the province 395. Total for the previous week 300. Total for the corresponding week of the previous year 401.

No. 50 of 1908.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, DECEMBER 11, 1908.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 7th DECEMBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
1	Hissar ..	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Bajra, 16 seers. Gram, 10½ seers. Bejhar, 16 seers.	Harvestings continue. Outturn good. Outturn of cotton average.	Sowings are in progress and satisfactory. Growing crops in fair condition.
2	Rohtak ..	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 10 seers. Jowar, 18 seers. Bejhar, 12 seers.	Harvesting of autumn crop except sugarcane completed. Outturn expected average.	Sowings of wheat in progress, but are late. Standing crops in good condition, but rain is badly wanted. Gram seedlings slightly damaged by weevil (an insect). Fever continues.
3	Gurgaon ...	...	1. Scarcity of fodder being felt in some tahsils. 3. Fair.	Wheat, 7½ to 8½ seers. Barley, 13 to 16 seers. Gram, 9¾ to 11½ seers. Bajra, 12½ to 13¾ seers. Maize, 12 to 14½ seers.	...	Sowings on irrigated land and low-lying tracts continue, but are somewhat late. Standing crops in fair condition. Crops damaged by large field crickets. Springing up of the crickets is disappearing. Yield expected good if winter rain received in time. Fever decreasing.
4	Delhi ..	...	1. Sufficient ... 2. Canal open. 3. Good.	Wheat, 8¼ seers... Barley, 13½ seers. Gram, 9¼ seers. Jowar, 14½ seers. Bajra, 13 seers. Maize, 14 seers. Bejhar, 14 seers.	Cotton pickings in progress. Outturn below average.	Sowings in progress and are timely and satisfactory. Fever abating.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
5	Ambála ...	...	1. Sufficient ... 2. Ditto. 3. Fairly good.	Wheat, 9 seers ... Gram, 10 seers. Barley, 13 seers. Maize, 14¼ seers. Jowar, 18 seers. Bajra, 12 seers.	...	Sowings are in progress and somewhat late. Condition of crops average.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Maize, 13 seers. Gram, 10 seers. Jowar, 14½ seers. Gur, 6½ seers.	Picking of cotton and threshing of maize continue. Standing crops good.	Sowings of wheat are in progress and satisfactory. Fever abating.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers... Barley, 12½ seers. Gram, 10 seers. Maize, 13 seers.	...	Sowings in progress and are timely and satisfactory. Crops germinating satisfactorily. Fever decreasing.
8	Ferozepore	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Gram, 10¾ seers	...	Sowings are in progress and satisfactory. Growth good.
9	Lahore ...	...	1. Sufficient ... 3. Generally fair.	Wheat, 8 seers ... Gram, 9 seers.	Standing crops fair. Expected yield about average, except that of cotton and maize.	Sowings of wheat and barley are in progress and timely. Fever prevalent.
10	Amritsar ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8¾ seers... Gram, 9½ seers. Barley, 13 seers. Jowar, 12¾ seers. Maize, 12 seers. Bajra, 11 seers.	Pickings of cotton and chillies and pressing of sugarcane continue. Condition of standing crops in tahsils Amritsar and Tarn Táran generally good. Cotton and chillies in tahsil Ajnála below average and sugarcane average. Yield expected good.	Sowings of wheat, barley, &c., in progress, but are somewhat late. Fever abating.
11	Siálkot ...	...	1. Insufficient. Chari (great millet), maize and straw used as fodder and turnip chopped with white bhusa used in irrigated part of the Siálkot tahsil. 3. Generally good.	Wheat, 8¼ seers Barley, 11½ seers. Gram, 8¾ seers. Rice, 8 seers.	Threshing of rice, picking of cotton and pressing of sugarcane continue. Outturn of rice and sugarcane good and of cotton about the average. Standing crops good.	Rain wanted in unirrigated tracts. Sowings of wheat, barley, &c., in progress and are satisfactory. Germination of crops good. Fever abating.
12	Gujránwála ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8½ to 9 seers. Maize, 11 to 11½ seers. Jowar, 12 to 13 seers. Bajra, 11½ seers. Gram, 10 to 10½ seers.	Cotton pickings in progress and pressing of sugarcane commenced in Gujránwála and Háfizabad tahsils.	Sowings of wheat and barley in progress. Prospects of spring crops good. Fever prevalent.

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee	Prospects of	
					Autumn.	Spring.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers. Barley, 13 to 15 seers. Gram, 9¾ to 10¾ seers. Bajra, 11 to 13 seers. Maize, 13 seers.	Outturn of cotton and moth (Phaseolus aconitifolius) fair and that of bajra (bulrush) millet good.	Sowings in progress, and are timely and extensive. Standing spring crops in good condition. Fever abating
14	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 8¾ seers ... Barley, 13½ seers. Bajra, 11½ seers. Gram, 9½ seers. Maize, 12¾ seers.	Harvestings in progress. Outturn average.	Condition of spring crops good. Rain wanted. Fever abating.
15	Miánwáli ...	...	1. Plentiful ... 3. Good.	Wheat, 9 seers ... Barley, 15 seers. Gram, 11 seers. Bajra, 13 seers.	...	Sowings of wheat and barley in progress. Condition and expected yield of spring crops good. Grass-hoppers injuring the young wheat crops in Bhakkar and Leiah tahsils. Fever abating.
16	Lyallpur ...	...	1. Scarce ... 3. Good.	Wheat, 8½ to 8¾ seers. Gram, 9½ seers. Maize, 12 seers.	Pickings of cotton and pressing of sugarcane continue. Outturn of sugarcane is average, and that of cotton and maize below average.	Sowings in progress and are timely and satisfactory. Toria (Brassica campestris) being harvested. Fever prevalent.
17	Jhang ...	...	1. Insufficient ... 3. Average.	Wheat, 9 seers ... Gram, } Bajra, } 10 seers. Jowar, 11 seers. Maize, 12 seers.	Standing crops barely average. Outturn poor.	Sowings are satisfactory. Fever decreasing.
18	Multán ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8¾ seers ... Gram, 10½ seers. Maize, 12¼ seers.	Standing crops average. Jowar (great millet), bajra (bulrush millet), til (sesamum) and maize being harvested. Cotton pickings continue.	Sowings continue satisfactorily. Fever abating.

GENERAL REMARKS.

Rainfall *nil*. Rain is needed in Rohtak, Siálkot and Ráwalpindi. Autumn crops are being harvested. Condition and expected yield of autumn crops are generally good to average, but are below average in Jhang. The outturn of cotton is generally below average. Maize is below average in Lahore and Lyallpur. Harvesting of toria (Brassica campestris) continues in Lyallpur. Sowings of spring crops are in progress, but are somewhat late in Rohtak, Gurgaon, Ambála and Amritsar. Spring sowings are extensive, and the crop is doing well. Spring crops have been damaged by insects in Gurgaon. Toka (grass-hopper) is injuring wheat crop in Miánwáli. Malarial fever is still prevalent throughout the province, but is abating in several districts. Prices are high, but have slightly fallen. Cattle are in good condition. Fodder is sufficient except in Gurgaon, Siálkot, Lyallpur and Jhang.

W. C. RENOUF,

Director of Agriculture, Punjab.

W. H. MILLS, SUPDT.,

for Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

EIGHTY-SIX THOUSAND FOUR HUNDRED AND NINTY-SEVEN births were registered in the province during the month of October 1908, giving a birth-rate of 51 *per mille* of population. Of the total number of births, 45,582 were boys and 40,915 were girls.

The total number of deaths registered from all causes in the province during the month of October 1908 was 207,510 against 99,672 in the previous month and 60,828 in the corresponding month of the past year, giving an annual death-rate of 122, 60 and 36 *per mille* of population per annum, respectively.

There were 654 deaths registered under the head of cholera against 2,333 in the previous month and 58 in the corresponding month of the past year.

The total mortality from plague amounted to 621 against 247 in the previous month and 1,151 in the corresponding month of the past year.

From small-pox 562 deaths were registered against 904 in the previous month and 328 in the corresponding month of the past year; fevers 169,155 against 69,421 and 38,606. The mortality from fevers during the month of October (169,155) is the highest that has ever been recorded in the Punjab during any one month. The high mortality was general throughout the province, but was most severe in Gurgaon, Gujrát, Delhi, Amritsar, Jhelum, Shahpur, Hissar and Montgomery; dysentery and diarrhœa 4,097 against 2,806 and 1,759; respiratory diseases 7,377 against 6,353 and 5,210. During the month there were 42 deaths registered from suicide against 36 in the past month; wounding 45 against 55; accidents 260 against 579; snake-bite and killed by wild beasts 81 against 185; and from all other causes 24,616 against 16,748 in the previous month and 13,239 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th December 1908.

W. H. MILLS, SUPDT.,

NOTE.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 28th November 1908 there were 1,095 births registered in the 43 large municipal towns (593 males and 502 females), giving a birth rate of 39 *per mille* of population, and 2,507 deaths were registered (1,263 males and 1,244 females), giving a death rate of 90 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 99 against 59 in the corresponding week of the previous year; Lahore 75 against 42; Amritsar 203 against 58; and Multán 75 against 53. There were 4 deaths reported from plague in Gujránwála and 1 in Ferozepore. Of the 3 deaths from small-pox, 2 were registered in Chiniot and 1 in Shahabad. Of the 1,848 deaths from fevers, 530 were registered in Amritsar, 277 in Delhi, 202 in Lahore, 100 in Bhera, 74 in Multán, 48 in Ludhiána, 46 in Palwal, 39 in Sonepat, 37 in Kasúr, 35 in Gujrát, 32 in Bhiwáni, 31 in Pind Dádan Khan, 28 in Karnál, 27 in Wazirabad, 21 in Jhang-Maghiána, 20 in Siálkot, 19 each in Hánsi, Ráwalpindi and Chiniot, 18 each in Pánipat and Khusháb, 16 each in Hissar, Sirsa, Kaithal and Gujránwála, 15 in Batála, 14 each in Jullundur and Ferozepore, 13 in Dera Gházi Khan, 12 in Raekot, 11 each in Rohtak and Jagraon, 9 in Jalálpur, 8 in Tánda-Urmar, 7 in Jhajjar, 5 each in Rewári, Ambála and Hoshiárpur, 4 each in Shahabad and Jhelum, 3 in Kartárpur, 2 each in Jagádhri and Lyallpur.

Deaths reported from plague during the week ending 5th December 1908 in the districts including all municipal towns:—Rohtak 2, 3 [illegible]shiárpur 43, Ludhiána 34, Ferozepore 149, Montgomery 1, Lahore 2, Gujránwála 16, Sháhpur 3, Jhang 1, and Lyallpur 6; Patiála State 43, [illegible] Jínd State 11. Total for the province 316. Total for the previous week 395. Total for the corresponding week of the previous year 337.

W. H. MILLS, SUPDT.,

PART I.
STATISTICAL.

WEATHER HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 14th DECEMBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Gram, 10 seers. Bajra, 15 seers. Bejhar, 16 seers.	Autumn crops harvested. Outturn good, except that of cotton, which is below average.	Wheat being sown on wet land. A normal area has been sown. Growing crops in fair condition.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 10 seers. Jowar, 17 seers. Bejhar, 12 seers.	Harvesting of autumn crop except sugarcane completed.	Late sowings of wheat continue. Standing crops on irrigated land good and on unirrigated land average. Rain is badly wanted. Gram and sarshaf (rapeseed) seedlings on unirrigated land damaged by weevils in tahsil Sámpla. Fever continues.
3	Gurgaon ...	...	1 Scarcity of fodder being felt. 3. Fair.	Wheat, 8 to 8¼ seers. Barley, 12¼ to 16 seers. Gram, 9¼ to 11½ seers. Bajra, 12 to 13¼ seers. Maize, 14 to 14½ seers.	...	Sowings on irrigated and low-lying tracts nearly completed. Standing crops in good condition. Yield expected to be good if winter rains received in time. Fever abating.
4	Delhi ...	...	1. Sufficient ... 2. Canal open. 3. Good.	Wheat, 8½ seers... Barley, 13½ seers. Gram, 10 seers. Jowar, 15 seers. Bajra, 13 seers. Maize, 14½ seers. Bejhar, 14 seers.	Cotton pickings continue. Outturn below average. Sugarcane being pressed. Yield average.	Sowings which are timely and satisfactory nearly completed. Fever abating.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
5	Ambála ...	...	1. Sufficient ... 2. Ditto. 3. Good.	Wheat, 8¾ seers... Gram, 10 seers. Barley, 13 seers. Maize, 14¾ seers. Jowar, 18½ seers. Bajra, 12½ seers.	...	Sowings finished. Standing crops fair.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Maize, 13 seers. Gram, 10 seers. Jowar, 14½ seers. Gur, 6½ seers.	Picking of cotton and threshing of maize in progress and pressing of sugarcane commenced. Standing crops good.	Sowings of wheat continue satisfactorily. Fever decreasing.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Unchanged ...	...	Sowings on irrigated land in progress and are timely and satisfactory. Fever decreasing.
8	Ferozepore ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers Gram, 10¾ seers.	...	Sowings nearly finished. Growth good.
9	Lahore ...	...	1. Sufficient ... 3. Generally fair.	Wheat, 8 seers ... Gram, 9 seers.	Standing crops fair. Expected yield about average.	Sowings of wheat and barley continue and are timely. Fever prevalent.
10	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers... Gram, 9⅞ seers. Barley, 13 seers. Bajra, 14 seers.	Pickings of cotton and chillies and pressing of sugarcane continue. Standing crops in tahsils Amritsar and Tarn Táran generally good. Condition of cotton and chillies in tahsil Ajnála below average, of sugarcane average. Yield expected good.	Sowings in progress, and are late. Fever decreasing.
11	Siálkot ...	...	1. Insufficient. Chari (great millet), maize and straw used as fodder. Turnips chopped with straw used in irrigated parts of the Siálkot tahsil. 3. Generally good.	Wheat, 8¼ seers Barley, 11½ seers. Gram, 9 seers. Rice, 8 seers.	Threshing of rice, picking of cotton and pressing of sugarcane in progress. Outturn of rice and sugarcane good and of cotton about average. Standing crops good.	Rain wanted in unirrigated tracts. Sowings of wheat, barley, &c., continue satisfactorily. Reaping of toria (*Brassica compestris*) commenced in the Siálkot tahsil. Germination of crops good. Fever abating.
12	Gujránwála ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8½ to 9 seers. Gram, 10 to 10⅛ seers. Bajra, 12½ to 13 seers. Maize, 12 to 12½ seers.	Sugarcane in good and cotton in average condition.	Sowings of wheat and barley nearly finished. Prospects of spring crops good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Autumn.	Prospects of Spring.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ to 9½ seers. Barley, 13 to 15 seers. Gram, 10 to 10½ seers. Bajra, 11½ to 12 seers. Maize, 12 to 13 seers.	Outturn of bajra good and that of other staples fair.	Sowings continue, but are late. Toria (*Brassica compestris*) being harvested. Standing crops in good condition. Toka (*grass hopper*) damaged, wheat and gram crops in Khushâb tahsil.
14	Ráwalpindi ...	0·03 at Gujar Khan	1. Sufficient ... 3. Generally fair.	Wheat, 8¾ seers... Barley, 13½ seers. Bajra, 12½ seers. Gram, 9½ seers. Maize. 12½ seers.	Harvestings completed. Outturn average.	Spring crops in good condition. Rain wanted.
15	Miánwáli ...	...	1. Insufficient in some parts.	Wheat, 9 seers ... Barley, 15 seers. Gram, 10½ seers. Bajra, 13¾ seers.	Crops being harvested ...	Sowings in progress. Standing spring crops in fair condition. Grass-hopper damaging the wheat crops in Bhakkar tahsil. Fever abating.
16	Lyallpur ...	...	1. Insufficient ... 3. Good.	Wheat, 8½ to 8¾ seers. Gram, 9½ seers. Maize, 12½ seers.	Pressing of sugarcane and pickings of cotton continue. Outturn of sugarcane is generally average, and that of cotton below average.	Sowings in progress and are timely and satisfactory. Toria (*Brassica compestris*) being harvested. Fever still prevalent.
17	Jhang ...	...	1. Insufficient ... 3. Average.	Wheat, } Gram, } 9 seers ... Bajra, } Jowar, } 10 seers. Maize, 11 seers.	Standing crops barely average. Outturn poor.	Sowings are satisfactory. Fever decreasing.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 8¾ seers... Gram, 10½ seers. Maize. 12¾ seers.	Standing crops average. Sesamum and sugarcane being harvested and cotton being picked.	Sowings continue satisfactorily. Fever abating.

GENERAL REMARKS.

No rain of importance. Rain is needed in Rohtak, Siálkot and Ráwalpindi. Autumn crops are being harvested. Condition and expected yield of autumn crops are generally good to average, but are below average in Jhang. The outturn of cotton is below average. Harvesting of toria (*Brassica compestris*) continues in Siálkot, Shahpur and Lyallpur. Sowings of spring crops continue satisfactorily, but are late in Rohtak, Amritsar and Shahpur. Prospects of spring crops are generally good. Insects are damaging gram and rapeseed in Rohtak. Grass-hoppers are damaging wheat and gram in Shahpur and wheat in Miánwáli. Malarial fever is abating. Prices are high, but show a slight downward tendency in some districts. Cattle are in good condition. Fodder sufficient except in Gurgaon, Siálkot, Miánwáli, Lyallpur and Jhang.

W. C. RENOUF,

Director of Agriculture, Punjab.

rain gauge station.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of November 1908.

1.—HISSAR DISTRICT.

Kharif crops being harvested. Outturn good, except of cotton which is fair. Rabi sowings continue. Growing crops on unirrigated land in fair condition. Prospects of irrigated crops good. Fodder sufficient. Cattle in good condition. Water supply in canal sufficient.

2.—ROHTAK DISTRICT.

Statement not received.

3.—GURGAON DISTRICT.

There was a little rain during the month under report which partly benefited the crops. Rabi sowings on irrigated area and lowlying tracts in progress. Standing crops in fair condition. Probable outturn expected to be good if winter rains received in time, otherwise below average. Cattle in fair condition. Scarcity of fodder commenced in some tahsils. Health of people good. Fever prevailed throughout the district, but is on the decrease now. Complaints for insufficient supply of canal water were received. Certain lands were irrigated by district board bunds in the Gurgaon tahsil. The large field cricket did some damage to the young shoots of barely and gram.

4.—DELHI DISTRICT.

Wheat, sarshaf and taramira were sown on irrigated and unirrigated area. Seven-eighths of the expected area has already been sown. The condition of crops sown is good. Expected yield good. The following was the outturn of the kharif crops harvested during the month :—

	Irrigated.	*Unirrigated.*
Jowar ...	Average ...	Average.
Bajra ...	Average ...	Average.
Cotton ...	Below average ...	Bad.

Cattle in good condition. Fever was prevalent during the month, but is now abating. Canal supply sufficient. Cotton, sugarcane and wheat irrigated from canal. Fodder sufficient. Prices of food grains were higher than those of the preceding month due to the sowing of rabi crops.

5.—KARNAL DISTRICT.

Sowings of wheat and barley on irrigated lands are nearly complete. Rain is badly wanted in all parts of the district, and if it falls, more wheat, barley and jomassri will be sown on unirrigated lands. Condition of the standing irrigated and unirrigated (sailab) crops in the Thánesar tahsil (Guhla sub-tahsil) is generally good, but the unirrigated crops are badly in want of rain. The rabi prospects on unirrigated land are below average except in the Thánesar tahsil and the Khadar tracts. Yield of the harvested crops average with the exception of cotton which is poor. Sugarcane being pressed. The crop is a fair one. The jowar crop has also been successful. Condition of cattle generally good. There is sufficient fodder and water for them. Malarial fever has decreased and the health of the people has improved. The Western Jumna and Sirhind Canals were running during the month.

6.—AMBALA DISTRICT.

Wheat, &c., have been sown. Kharif crops with the exception of cotton and sugarcane harvested. Yield generally good in Seoti and Sailab lands and in Dakar tract about average with the exception of rice, which was almost a complete failure. Condition of cattle good : fodder sufficient. Slight malarial fever prevailed, which interfered somewhat with agricultural operations. A fairly large area was irrigated by the Western Jumna Canal. The general condition of the standing rabi crops is fair, and if it rains within a week, it will greatly benefit the present standing crops and also allow of further sowings.

7.—SIMLA DISTRICT.

In the Simla tahsil wheat and barley were sown to the extent of $\frac{43}{88}$ of the expected sowings, and in the Kot Khai tahsil wheat, barley and poppy to the extent of one-third. Condition of crops in both tahsils good. The outturn of ginger in the Simla tahsil on irrigated and unirrigated areas was 1,800 and 1,200 seers per acre, respectively. The condition of cattle in both tahsils good. Fodder and grazing sufficient. Health of people good. Water-supply from hill streams in both tahsils sufficient. In the Simla tahsil the entire area, and in the Kot Khai tahsil one-fourth of the normal area, was watered.

8.—KANGRA DISTRICT.

Some area was sown with wheat and barley. The public health is generally good. Water was sufficient for irrigation in kuhls (water streams). Prices still high.

9.—HOSHIARPUR DISTRICT.

Sowing of wheat, barley, senji, etc., in progress. More rain is reported to be needed. Germination of rabi crops good. Condition of rabi and sugarcane crops fairly good. Cotton crop below average. The yield of maize, mash, etc., about average, of cotton below average and of munji fairly good. Yield of rabi crops generally expected to be good if it rains in time. Cattle in good condition. Fodder sufficient. Malarial fever is still prevalent, but is gradually abating. Water in the Shahnahr canal sufficient. Lands were irrigated by canals and wells. Prices high and rising.

10.—JULLUNDUR DISTRICT.

Rabi ploughings and sowings on irrigated areas continued. Sowings satisfactory. Condition of crops good. Expected yield average. Cattle in good condition. Malarial fever decreasing.

11.—LUDHIANA DISTRICT.

Sowings of rabi crops on irrigated lands in progress. Condition of standing crops good. Important kharif crops not being harvested as yet, their yield cannot be estimated, but that of the rest is good. Condition of cattle satisfactory. Fodder sufficient. Malarial fever decreasing. Irrigation from canals satisfactory. Prices risen slightly.

12.—FEROZEPORE DISTRICT.

Barley, gram, sarshaf, taramira and wheat were sown. Crops have been cut almost everywhere except in few places where they are below average. Yield expected to be fair. Cattle in good condition. Malarial fever continues. Sirhind Canal had been flowing, and a normal area was irrigated from it. The agriculturists are generally well off. Stocks of food-grains sufficient. Fodder sufficient.

13.—MONTGOMERY DISTRICT.

Rabi crops have been sown. Condition of crops average. Average yield expected. Grass and turnips available for fodder. Malarial fever prevalent. Canals all dry. No inundation in rivers and no irrigation consequently.

14.—LAHORE DISTRICT.

Wheat and barley were sown. Condition of standing crops fair except that of maize and cotton. Expected yield about average except that of cotton and maize. Condition of cattle generally fair. Malarial fever prevalent throughout the district. The perennial and inundation canals ran by turns. Prices high and rising.

15.—AMRITSAR DISTRICT.

Wheat, barley, barara, sarshaf, popply head and masur being sown. Four-fifths of the expected irrigated area and the whole of the unirrigated area has been sown in tahsils Amritsar and Tarn Táran. In tahsil Ajnála two-thirds of the irrigated and nearly whole of the unirrigated area has been sown. Condition of standing crops average. Expected yield in tahsil Ajnála below average, except of sugarcane which is average; in tahsil Tarn Táran good, except of cotton which is average; in tahsil Amritsar average. Condition of cattle generally good. General complaint of malarial fever in tahsils Amritsar and Tarn Taran, less in tahsil Ajnála. Canal supply sufficient.

16.—GURDASPUR DISTRICT.

Rabi sowings continued. Condition of crops good. Outturn of sugarcane, cotton, rice, maize, moth and mash average. Condition of cattle good. Fodder sufficient. Malarial fever still lingers in some places. Rivers low.

17.- SIALKOT DISTRICT.

Sowing of wheat, goji, barley and linseed in progress. Condition of sugarcane crop good and that of cotton average. Germination of rabi crops good. Picking of cotton and threshing of rice continued. Pressing of sugarcane commenced in some parts of the district. Outturn of cotton in chahi lands average and in sailab and barani poor. Outturn of rice good. Condition of cattle generally good. Fodder sufficient. Public health generally good. Malarial fever prevalent throughout the district, but is now abating.

18.—GUJRANWALA DISTRICT.

Sowings of wheat, barley and gram were carried on, a comparatively larger area being put under these crops. Condition of sugarcane crop good, of cotton about average, and of maize and jowar poor. The prospects of rabi crops are so far good. The average yield of the important kharif crops has been as follows:—

Irrigated land.—Rice 24 maunds, cotton 4 maunds and maize 3½ maunds per acre.

Unirrigated land.—Bajra 4 maunds and cotton 1½ maunds per acre.

Condition of cattle generally good. Sufficient fodder available. Malarial fever has been much prevalent and hindered agricultural operations to some extent. Canals gave sufficient supply of water. Prices slightly risen.

19.—GUJRAT DISTRICT.

Rabi sowings in progress and about 95 per cent. of the expected sowings have been made. Cotton and sugarcane crops generally in fair condition. Germination of rabi crops excellent. The estimated outturn of principal kharif crops was as under:—

Cotton	Average to ¾ of an average.
Sugarcane	A 16-anna crop.
Bajra	Above average.
Maize	½ average.

Cattle generally in good condition. Fodder sufficient. Malarial fever abating.

20.—SHAHPUR DISTRICT.

Wheat, barely, masur, peas and linseed were sown. Sowings were extensive and in time. Standing crops are reported to be fair in Khusháb and Sargodha and good in Bhera and Shahpur tahsils. Toka has damaged the growing crops in some parts of the Khusháb tahsil. Cotton, jowar, bajra and moth were harvested in the Khusháb tahsil where outturn of bajra was generally good both on irrigated and unirrigated areas, while that of the remaining staples fair. Cotton was picked in other parts of the district also and outturn was fair. Cattle in good condition. Fodder sufficient. Malarial fever abating. The Lower Jhelum Canal was running and water was sufficient. Stock of food-grains is deficient in the Khusháb tahsil.

21.—JHELUM DISTRICT.

Sufficient moisture to permit rabi sowings throughout the district. Rabi crops generally coming on well. Expected yield average. All kharif crops have been harvested except cotton. Condition of cattle good. Fodder plentiful. Fever abating. Prices generally rising.

22.—RAWALPINDI DISTRICT.

Sowings finished. Condition of crops average. Rain wanted. Condition of cattle fair.

23.—ATTOCK DISTRICT.

Rabi sowings finished and are greater than last year by ¼. Condition of crops good. Yield good. Cattle in good condition. Health of people good.

24.—MIANWALI DISTRICT.

Wheat and barley being sown. Delay is due to lands having remained under river flood. Condition of crops on irrigated area average; on unirrigated below average. Jowar, bajra, moth, mung and til were harvested. Outturn below average. Grass-hoppers damaged wheat, barley and gram in some villages of Bhakkar nasheb. Condition of cattle fair. Fodder sufficient. Malarial fever continued. The river was low, but the Kurram irrigated the adjoining lands in Isa Khel tahsil. Prices high.

25.—LYALLPUR DISTRICT.

Wheat sowings in progress and are being completed much earlier than last year. Cotton still being picked. Sugarcane and toria in excellent condition. Maize and bajra being threshed. Outturn of maize below average. Toria is very early and cuttings have begun. Cotton outturn poor. Cattle in good condition. Some complaints of shortness of fodder but they are merely temporary. Health of people poor. A great deal of fever still prevalent though less than before. There are complaints of poor supply at the tail of Tandlianwala rajbaha. Prices are still high.

26.—JHANG DISTRICT.

Wheat, barley, peas and masur were sown. Condition of crops appears to be good. Kharif crops harvested with the exception of cotton crop which is still being picked. Outturn generally below average. Condition of cattle fair. Fodder scarce. There is a general complaint of malarial fever throughout the district. Water sufficient in canals, though little in rivers.

27.—MULTAN DISTRICT.

Wheat, turnips and barley being sown. Condition of crops average both on irrigated and unirrigated area. Yield of kharif crops average. Slight damage to cotton by insects reported from tahsil Shujabad. Condition of cattle good. Fodder sufficient. Malaria throughout the district. Inundation canals dry. Sidhnai canal working.

28.—MUZAFFARGARH DISTRICT.

Wheat, barley, oilseeds, gram, peas and turnips sown. Condition of crops fair. Yield of cotton was about 4·5 maunds per acre. Condition of cattle good. Bhusa available as fodder. Malarial fever still prevailing. Canals dry. Prices of food-grains continue to be high.

29.—DERA GHAZI KHAN DISTRICT.

Sowings of wheat in progress, of other crops completed. Sowings considerable. Outturn of cotton about 5 maunds per acre in chahi-nahri, 4 maunds in nahri and only 2 in sailab. Jowar 6 maunds in Pachadh and bajra 5 maunds. Jowar slightly damaged by insects in the chahi-nahri area. Condition of cattle fair. Grazing very good in some places. Malarial fever still abnormal and is a check to work. Canals have ceased. Prices still remain very high.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 5th December 1908, there were 1,079 births registered in the 43 large municipal towns (563 males and 516 females), giving a birth rate of 39 *per mille* of population, and 2,332 deaths were registered (1,147 males and 1,185 females), giving a death rate of 84 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 92 against 56 in the corresponding week of the previous year; Lahore 71 against 42; Amritsar 181 against 59; and Multán 52 against 46. There were 3 deaths reported from plague in Gujránwála and 2 in Ferozepore. Of the 2 deaths from small-pox, 1 was registered in Amritsar and 1 in Siálkot. Of the 1,654 deaths from fevers, 437 were registered in Amritsar, 264 in Delhi, 176 in Lahore, 78 in Bhera, 49 in Multán, 43 in Palwal, 41 in Wazirabad, 36 in Kasúr, 35 in Ludhiána, 34 in Sonepat, 32 in Gujránwála, 28 in Pind Dádan Khan, 27 in Jhang-Maghiána, 26 in Bhiwáni, 25 each in Pánipat and Gujrát, 23 in Siálkot, 22 in Ferozepore, 21 in Batála, 20 in Jullundur, 18 in Karnál, 17 each in Ambála and Chiniot, 16 in Dera Gházi Khan, 12 in Jagraon, 11 in Ráwalpindi, 10 each in Hissar, Jhajjar, Tánda-Urmar and Khusháb, 9 each in Sirsa, Rohtak, Rewári and Jagádhri, 8 in Jhelum, 7 in Hánsi, 6 in Ráekot, 5 each in Kaithal, Hoshiárpur, Jalálpur and Lyallpur, 3 in Kartárpur, and 1 in Shahabád.

Deaths reported from plague during the week ending 12th December 1908 *in the districts including all municipal towns*:—Rohtak 5, Hoshiárpur 60, Ludhiána 23, Ferozepore 86, Montgomery 30, Lahore 5, Siálkot 10, Gujránwála 2, Shahpur 7, Jhang 2, and Lyallpur 10; Patiála State 42, Jínd State 17, and Nabha State 44. Total for the province 343. Total for the previous week 316. Total for the corresponding week of the previous year 308.

LAHORE:
The 15th December 1908.

W. H. MILLS, SUPDT.,
for *Sanitary Commissioner, Punjab.*

Punjab Government Press, Lahore—18-12-08—926.

No. 52 of 1908.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, DECEMBER 25, 1908.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., MONDAY, THE 21st DECEMBER 1908.

[Eighteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 8 seers ... Gram, 10 seers. Bajra, 15½ seers. Bejhar, 16 seers.	Autumn crops being collected.	Sowings completed. A normal area has been sown. Standing crops in fair condition. Rain wanted for crops on unirrigated area.
2	Rohtak ...	...	1. Sufficient ... 2. Canal water badly wanted. 3. Good.	Wheat, 9 seers ... Gram, 10 seers. Jowar, 18 seers. Bajra, 15 seers. Bejhar, 12 seers.	Sugarcane being pressed. Outturn expected average.	Sowings completed. Condition of irrigated crops good, and of unirrigated crops fair. Rain badly wanted. Fever continues.
3	Gurgaon ...	...	1 Scarcity of fodder being felt in some places. 3. Fair.	Wheat, 7¾ to 8¾ seers. Barley, 13 to 16 seers. Gram, 10 to 11½ seers. Bajra, 12½ to 13¾ seers. Maize, 14 to 15 seers.	...	Rain badly wanted. Standing crops in good condition. Yield expected to be good. Fever abating.
4	Delhi ...	...	1. Sufficient ... 2. Canal open. 3. Generally good.	Wheat, 8½ seers... Barley, 13½ seers. Gram, 10 seers. Jowar, 15 seers. Bajra, 13½ seers. Maize, 15 seers. Bejhar, 14 seers.	Picking of cotton and pressing of sugarcane continue. Outturn of cotton below average, and that of sugarcane average.	Sowings finished. Fever abating.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
5	Ambála ...	...	1. Sufficient ... 2. Ditto. 3. Good.	Wheat, 8¾ seers... Gram, 10 seers. Barley, 13 seers. Maize, 15 seers. Jowar, 19 seers. Bajra, 12¾ seers.	Pressing of sugarcane commenced.	Rain wanted. Condition of standing crops fair.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ seers... Maize, 13 seers. Gram, 10 seers. Jowar, 14 seers. Gur, 7 seers.	Picking of cotton and pressing of sugarcane continue.	Standing crops good.
7	Ludhiána ...	...	1. Sufficient ... 3. Good.	Wheat, 8¾ seers... Barley, 13 seers. Maize, 13¾ seers. Gram, 10 seers.	...	Sowings of wheat completed on irrigated land, and were timely satisfactory. Crops germinating satisfactorily. Fever disappeared.
8	Ferozepore ...	...	1. Sufficient ... 3. Generally good.	Wheat, 8½ seers... Gram, 10½ seers.	...	Sowings finished. Growth good.
9	Lahore ...	...	1. Sufficient ... 3. Generally fair.	Wheat, 8 seers ... Gram, 9 seers.	Standing crops fair. Expected yield average except that of cotton and maize, which is poor.	Sowings of wheat and barley in progress, and are timely. Fever prevalent.
10	Amritsar ...	...	1. Sufficient ... 3. Generally good.	Wheat, 9 seers ... Gram, 10 seers. Barley, 13½ seers. Jowar, 13½ seers. Maize, 13 seers. Bajra, 14 seers.	Picking of cotton and pressing of sugarcane in progress. Condition and expected yield of sugarcane good.	Rain wanted. Sowings of wheat and barley in progress, but are late. Toria (*Brassica compestris*) in fair condition. Fever abating.
11	Siálkot ...	0·04 at Sadr ...	1. Insufficient. Chari (great millet) and straw used as fodder. Turnips chopped with white bhusa used in irrigated parts of the Siálkot tahsil. 3. Generally good.	Wheat, 8¾ seers Barley, 11½ seers. Gram, 9 seers. Rice, 8 seers.	Picking of cotton, pressing of sugarcane and threshing of rice continue. Outturn of rice and sugarcane good, and of cotton about average. Standing crops good.	Rain wanted. Sowings of wheat, barley, &c., are in progress and satisfactory. Harvesting of toria continues. Outturn good. Growth of spring crops good. Fever abating.
12	Gujránwála ...	...	1. Sufficient ... 3. Good.	Wheat, 8 to 9½ seers. Gram, 9½ to 11 seers. Maize, 12 seers. Bajra, 13 to 13½ seers.	Pressing of sugarcane commenced.	Sowings [illegible] barley in progress. Condition of crops good. Fever abating.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Autumn.	Spring.
13	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat, 8½ to 9½ seers. Barley, 13 to 15 seers. Gram, 10 to 10½ seers. Jowar, 9 to 15 seers. Bajra, 11 to 12 seers.	Cotton pickings nearly completed. Outturn average.	Late sowings of wheat in parts of Sargodha and Khushâb tahsils and timely sowings of poppy in tahsil Khushâb continue. Standing crops in good condition.
14	Ráwalpindi ...	0·94 at Sadr ... 0·01 at Murree.	1. Sufficient ... 3. Fair.	Wheat, 8¼ seers ... Barley, 13¼ seers. Bajra, 12½ seers. Gram, 9¼ seers. Maize, 10½ seers.	...	Rain wanted. Condition of crops good.
15	Miánwáli ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Barley, 15 seers. Gram, 10 seers. Bajra, 14 seers.	Sesamum being harvested, and cotton being picked.	Sowings in progress. Crops are in good condition. Fever prevalent.
16	Lyallpur ...	...	1. Insufficient ... 3. Good.	Wheat, 8½ to 8¾ seers. Gram, 9½ seers. Maize, 12½ seers.	Pressing of sugarcane is in progress. Outturn of sugarcane is good in tahsil Samundri and average in other tahsils, and that of cotton is below average.	Sowings finished. Harvesting of toria (*Brassica campestris*) continues. Outturn good. Fever prevalent.
17	Jhang ...	...	1. Insufficient ... 3. Average.	Wheat, 9 seers ... Gram, } 10 seers. Jowar, } Bajra, 11 seers. Maize, 12 seers.	Standing crops below average.	Sowings are satisfactory. Fever decreasing.
18	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 8¾ seers... Gram, 10½ seers. Maize, 12¾ seers.	Sesamum and sugarcane being harvested and cotton being picked. Standing crops average.	Sowings continue satisfactorily. Fever prevalent.

GENERAL REMARKS.

No rain of importance. Rain is now needed in several districts. Autumn crops are being harvested. Condition and expected yield of autumn crops are generally good to average, but are below average in Jhang. The outturn of cotton is generally below average, and maize is poor in Lahore. Harvesting of toria (*Brassica campestris*) continues in Siálkot and Lyallpur, and the yield is reported good. Sowings of spring crops continue satisfactorily, but are late in Amritsar and Shahpur. Spring crops are in good condition. Malarial fever is abating. Prices are high, but have fallen slightly in some districts. Cattle are in good condition. Fodder is sufficient except in Gurgaon, Siálkot, Lyallpur and Jhang. The canal water-supply is deficient in Rohtak.

W. C. RENOUF,

Director of Agriculture, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING OCTOBER 1908.

s Mean of 15 days.
a Indeterminate.
e Mean of 29 days.
k Mean of 23 days.
g Mean of 27 days.
h Mean of 26 days.

A depression which appeared in north-west India at the end of September moved north-eastward into the Punjab hills and gave light rain and snow in Kashmír on the 1st and 2nd October and rain at Murree, Peshâwar and Ráwalpindi on the 1st. It disappeared by the morning of the 2nd and dry weather prevailed till the 14th, when a feeble depression from the west gave light precipitation in Kashmír and at Murree. A light fall of rain occurred at Sonemarg on the 19th, but during the rest of the month weather was dry. The effect of the unprecedentedly heavy rain in the west Punjab and the North-West Frontier Province in September was shown in October by unusually high humidity values in those areas.

Pressure and winds.—Pressure was normal or in slight defect, the deficiency being shown both in the plains and on the hills. At Sirsa, Ambála, Ludhiána and Lahore winds were more westerly than usual, while at Murree and Multán the prevailing wind direction was almost directly opposite to that usually experienced in October. The strength of the air movement was approximately normal.

Temperature.—Maximum temperature was on the whole below normal in the North-West Frontier Province and the West Punjab, but apart from this the mean maximum and minimum temperatures for the whole month were approximately normal. Owing probably to the snowfall that occurred in the Himalayas at the beginning of the month weather was cooler than usual from the 1st to the 5th as will be seen from the following table, but during the rest of the month the mean temperature of the day for the whole of the Punjab and the North-West Frontier Province differed by only small amounts from the normal. The highest temperature recorded during the month was 101·3 at Sirsa on the 1st.

The following table shows the departures from the normal of the mean temperature of the Punjab and the North-West Frontier Province on each day of the month and the highest temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and cloud.—There was very little cloud, but at most stations in the plains the air was damper than usual.

Rainfall.—Srinagar, Peshâwar and Cherát had more rain than usual, but elsewhere rainfall was in general defect. As, however, the normal amount for October is small, the deficiency was insignificant except at Simla.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for October 1908 :—

Station.	Actual rainfall in October 1908.	Normal average rainfall in October.	Difference from the average in October 1908.	Station.	Actual rainfall in October 1908.	Normal average rainfall in October.	Difference from the average in October 1908.

NOTE.—The birth and death rates of the above towns, except Lyallpur, are calculated on the basis of the population enumerated in the Census of 1901.

Remarks by the Sanitary Commissioner, Punjab.

DURING the week ending 12th December 1908 there were 1,073 births registered in the 43 large municipal towns (550 males and 523 females), giving a birth rate of 38 *per mille* of population, and 1,993 deaths were registered (995 males and 998 females), giving a death rate of 71 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 80 against 63 in the corresponding week of the previous year; Lahore 61 against 53; Amritsar 148 against 57; and Multán 47 against 52. There were 6 deaths reported from plague in Ferozepore and 2 in Gujránwála. Of the 4 deaths from small-pox, 1 each was registered in Amritsar, Gujrát, Bhera and Chiniot. Of the 1,388 deaths from fevers, 371 were registered in Amritsar, 220 in Delhi, 161 in Lahore, 69 in Bhera, 44 each in Ludhiána and Multán, 34 in Palwal, 28 each in Gujránwála and Rawalpindi, 24 in Kasúr, 22 in Jhang, 21 in Pánipat, 20 in Siálkot, 18 each in Sonepat and Ferozepore, 17 each in Karnál and Kaithal, 16 each in Sirsa, Pind Dádan Khan and Chiniot, 15 each in Jullundur and Wazirabad, 14 in Gujrát, 13 in Jhelum, 11 in Batála, 10 each in Hánsi and Lyallpur, 9 each in Rohtak, Ambála, Jalálpur and Dera Gházi Khan, 8 each in Hissar and Bhiwáni, 7 in Tánda-Urmar, 6 each in Jhajjar, Jagádhri, Hoshiárpur and Jagraon, 5 each in Rewári and Khusháb, 2 in Sháhabad, and 1 in Rájanpur.

Deaths reported from plague during the week ending 19th *December* 1908 *in the districts including all municipal towns*:—Rohtak 5, Karnál 1, Hoshiárpur 60, Ludhiána 25, Ferozepore 115, Montgomery 1, Lahore 5, Amritsar 2, Shahpur 15, Jhang 13 and Lyallpur 3; Patiála State 211, and Jind State 24. Total for the province 480. Total for the previous week 543. Total for the corresponding week of the previous year 291.

W. H. MILLS, Supdt.,

for Sanitary Commissioner, Punjab.

LAHORE:
The 21st December 1908.
